**JUSTIFICATION:**

This emergency order closes the State of Alaska resident hunting season for mountain goats in registration permit hunts RG472 (Crown Mountain), RG473 (Hidden Basin-East Terror Lake), RG476 (Kiliuda Bay), and RG479 (North Road System) areas of Kodiak Island. We estimate a herd size of 40 goats in the Crown Mountain area. As of 23 October 2011, 3 goats have been reported as harvested out of a target harvest level of 4 goats. We estimate a herd size of 70 goats in the Hidden Basin-East Terror Lake area. As of 23 October 2011, 3 goats have been reported as harvested out of a target harvest level of 3 goats. We estimate a herd size of 125 goats in the Kiliuda area. As of 23 October 2011, 9 goats have been reported as harvested out of a target harvest level of 12 goats. The North Road System area has approximately 130 goats, with a harvest target of 20. As of 23 October 2011, the reported harvest was 17 goats. We anticipate that during the remaining days of the drawing hunt season the target harvests in each of these areas will be met or exceeded. Any additional harvest beyond the closure dates in this emergency order would be excessive and may jeopardize the future productivity of these herds.
