JUSTIFICATION:

The Alaska Board of Game endorsed the Fortymile Caribou Herd Harvest Plan as a means of guiding harvest of the herd from 2012 through 2018. The annual harvest quota is allocated seasonally: 75% to the fall hunt and 25%, plus any surplus from the fall quota, to the winter hunt. This winter’s harvest quota is 472 caribou. The winter quota is divided between the 2 road-accessible portions of the hunt area, the Steese Highway–Chena Hot Springs area in Units 20B and 25C (Zone 1) and the Taylor Highway area in Unit 20E (Zone 3). Sixty percent of the harvest quota is allocated to the road-accessible zone with the most caribou within reach of hunters immediately prior to the season opening. The winter quota for Zone 1 is 283 and the quota for Zone 3 is 189. We anticipate the quota for Zone 1 to be nearly reached by the date and time of this closure. Additional days of hunting within this easily-accessible portion of Zone 1 will likely cause over harvest of the herd.

Southern Zone 3 is being closed because large numbers of Nelchina Herd caribou are present and are at risk of being harvested under registration permit RC867, which is intended for Fortymile caribou. No harvest of Nelchina caribou is allocated to Unit 20E. Southern Zone 3 in Unit 20E will be reopened if the Nelchina Caribou Herd leaves the area.
