Hunting and Trapping

Emergency Order

Under the Authority of AS 16.05.060

Emergency Order No. 04-06-14

Issued at Glennallen, Alaska
August 25, 2014

Effective Date: 12:01 a.m.
Tuesday
August 26, 2014

Expiration Date: 11:59 p.m.
June 30, 2015, unless
superseded by subsequent
emergency order

EXPLANATION:

This emergency order changes the bag limit for the Moose Copper Basin Community Subsistence Harvest Hunt (CM300) in Game Management Unit 13B, from one bull moose, to one bull moose with spike-fork antlers, or 50 inch antlers, or antlers with four or more brow tines on one side.

REGULATION:

Therefore, the provisions of 5AAC 85.045 (11), Hunting Seasons and Bag Limits for Moose, are superseded by this emergency order, and the following provisions are effective:

<table>
<thead>
<tr>
<th>Units and Bag Limits</th>
<th>Resident Open Season</th>
<th>Nonresident Open Season</th>
</tr>

</tbody>
</table>

Unit 13

1 moose per regulatory year, only as follows:

RESIDENT HUNTERS:

1 bull with spike-fork antlers or 50-inch antlers or antlers with 4 or more brow tines on one side per harvest report by community harvest

Aug. 14 – Sept. 20
(Subsistence hunt only)
permit only in Unit 13A; or

1 bull with spike-fork antlers or 50-inch antlers or antlers with 4 or more brow tines on one side per harvest report by community harvest permit only in Unit 13E; or

1 bull with spike-fork antlers or 50-inch antlers or antlers with 4 or more brow tines on one side per harvest report by community harvest permit only in Unit 13B; or

Cora Campbell
Commissioner

By delegation to: Frank Robbins
Area Wildlife Biologist

JUSTIFICATION:

Prior to the hunt, a quota of twenty-six bull moose that do not conform with the general season antler restrictions was established for the Copper Basin Community Subsistence Harvest Hunt (CM300) in Game Management Unit 13B. The quota was based on sustainable harvest principles and current population estimates. The quota of bulls that do not meet the general season restrictions has been met for Unit 13B.

Copper Basin community moose hunters can still hunt moose in Units 13A, 13B, and 13E through the end of the regularly scheduled season (September 20), however all bulls taken must conform to the general hunt antler restrictions (spike-fork antlers or 50-inch antlers or antlers with four or more brow tines on one side).
The Board of Game allocated up to 100 moose that do not conform to general season antler restrictions to the Copper Basin Community Subsistence Harvest Hunt. The cumulative quota for the 2014-15 season was set at 90 moose due to the low bull:cow ratio observed in Unit 13A West. The following table lists the quotas for each hunt area and the general season antler restrictions.

This emergency order changes only the bag limit in Unit 13B. Bulls that do not meet the general season antler restrictions can still be taken in the remaining open subunits of Unit 13, per the table below. All other state hunting regulations still apply, including the closure of the take of all big game in the Paxson Closed Area.
