JUSTIFICATION:

Based on aerial survey information, a guideline harvest objective of 3-4 points (male goat = 1 point & female goat = 2 points) was established for the hunt area bordered by Takhin River on the south, the Tsirku Rivers on west and the north, and the Chilkat River on the east. As of Sunday, December 8, 2019, 4 male goats, have been harvested in this area for a total of 4 points. Due to the vulnerability of goats in this area and because the guideline harvest level has been met, this emergency order (01-23-19) is being issued effective at 11:59 pm, Monday, December 9, 2019.
