# Take the **Five Salmon**

The Alaska Department of Fish and Game Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska. Certification in the program requires all salmon must be:

- Legally caught in Alaskan waters (fresh or salt water) open to the public
- In compliance with current ADF&G sport fishing regulations

Fish caught out of season, in waters where sport fishing for that species is closed, or with illegal sport fishing means and methods cannot be counted toward the challenge – even if the fish is left in the water while the photo is being taken and is immediately released thereafter.

The program promotes family or group angling participation, proper salmon identification and ethical angling practices. Participants can include members of an immediate family, extended family, “family” groups, or any other class of angling partners. The program is open to all anglers (resident and non-resident) who fish in Alaskan waters.

The borrower is responsible for returning the equipment after a maximum of 7 days.

Failure to return equipment after 7 days of use will result in borrower information being turned over to the proper authorities as possessing stolen State of Alaska equipment. If unexpected circumstances arise, the borrower will immediately notify the ADF&G office that lent them the equipment.
