

Eastern District Priority Stream List

This list identifies priority salmon streams in the Eastern District of Prince William Sound (PWS). The Priority Stream List is composed of a subset of salmon streams found in the Anadromous Waters Catalog (AWC). The list includes some of the largest producers of salmon in PWS as well as those streams that are part of the aerial survey program. Please refer to the AWC for a complete list of PWS salmon streams. The closure of salmon streams not on the priority list may be suspended temporarily by Emergency Order to facilitate harvest of surplus wild and hatchery fish. Closed areas defined by existing markers and regulation remain in effect, as stated in 5 AAC 24.350 and 5 AAC 39.290.

This list will be implemented by Emergency Order with an associated announcement that clearly identifies open and closed waters.

(*common stream name not on USGS maps)

Northern/Unakwik District Priority Stream List

This list identifies priority salmon streams in the Northern and Unakwik District of Prince William Sound (PWS). The Priority Stream List is composed of a subset of salmon streams found in the Anadromous Waters Catalog (AWC). The list includes some of the largest producers of salmon in PWS as well as those streams that are part of the aerial survey program. Please refer to the AWC for a complete list of PWS salmon streams. The closure of salmon streams not on the priority list may be suspended temporarily by Emergency Order to facilitate harvest of surplus wild and hatchery fish. Closed areas defined by existing markers and regulation remain in effect, as stated in 5 AAC 24.350 and 5 AAC 39.290.

This list will be implemented by Emergency Order with an associated announcement that clearly identifies open and closed waters.

Coghill District Priority Stream List

This list identifies priority salmon streams in the Coghill District of Prince William Sound (PWS). The Priority Stream List is composed of a subset of salmon streams found in the Anadromous Waters Catalog (AWC). The list includes some of the largest producers of salmon in PWS as well as those streams that are part of the aerial survey program. Please refer to the AWC for a complete list of PWS salmon streams. The closure of salmon streams not on the priority list may be suspended temporarily by Emergency Order to facilitate harvest of surplus wild and hatchery fish. Closed areas defined by existing markers and regulation remain in effect, as stated in 5 AAC 24.350 and 5 AAC 39.290.

This list will be implemented by Emergency Order with an associated announcement that clearly identifies open and closed waters.

Montague District Priority Stream List

This list identifies priority salmon streams in the Montague District of Prince William Sound (PWS). The Priority Stream List is composed of a subset of salmon streams found in the Anadromous Waters Catalog (AWC). The list includes some of the largest producers of salmon in PWS as well as those streams that are part of the aerial survey program. Please refer to the AWC for a complete list of PWS salmon streams. The closure of salmon streams not on the priority list may be suspended temporarily by Emergency Order to facilitate harvest of surplus wild and hatchery fish. Closed areas defined by existing markers and regulation remain in effect, as stated in 5 AAC 24.350 and 5 AAC 39.290.

This list will be implemented by Emergency Order with an associated announcement that clearly identifies open and closed waters.
