**II. STATEMENT OF APPLICANT'S GOALS AND OBJECTIVES**

- A. Describe the nature of the requested alteration, why you have decided to request it, and what you generally expect to accomplish by the expansion of your program, including answers to the following questions. Will the proposed project affect wild salmon stocks or existing fisheries? How will a significant contribution to common property fisheries be made? How will potential effects and interactions between introduced or enhanced stocks and wild stocks be assessed? What marking and recovery studies are being proposed that will allow the project to be evaluated? What are the potential benefits to fisheries or wild stocks from the proposed project? Has this project been discussed with the department's area or regional management biologists? (Attach additional pages as necessary.)

Chenega Corporation has asked PWSAC to secure an additional release location at the eastern shore near a creek in Chenega Cove on Chenega Island for release of the 50,000 coho smolt.

PWSAC would request that the smolt release in any given year be for either the previously permitted location in Crab Bay or the new location at Chenega Cove in order to maintain maximum flexibility for this program.
