\*Indirect costs are based on the subrecipient's approved indirect rate multiplied by the direct costs (i.e., lines 100-500) submitted for reimbursement. Entities that do not claim the full value of their indirect costs for reimbursement may claim them as match if approved by AKSSF. This form is for using indirect costs charged to the direct (reimbursable) budget as match; if claiming indirect against match expenses, please use the AKSSF Match Budget Indirect Match Form.
