

# Work For ADF&G This Summer!

**Be part of the team responsible for managing the worlds largest sockeye salmon fishery!**

**The Alaska Department of Fish and Game is seeking motivated people to work the 2022 sockeye salmon season in Bristol Bay this summer.**

**Paid room and board, scenic remote locations, scientific field experience, and pay starts at over \$23/hr with ample overtime!**

## Counting Towers

- Main source of information to fisheries managers in Bristol Bay.
- Live in a remote cabin on one of eight different rivers in Bristol Bay.
- Count passing sockeye salmon from atop scaffolding towers.
- Sample sockeye for age, sex, and length.
- Six-week projects, ranging from mid-June through early August.

## Sonar

### Nushagak River Sonar

- One of ADF&G's most unique enumeration projects.
- Eight-week project: 6/1 to 7/31.
- Install, test, and operate sonar equipment.
- Deploy test fish nets to proportion migrating fish species.
- Count migrating fish on sonar files.

## Test Fish/ Sampling

### Test fishery crews

- Supply area managers with inriver catch data.
- Drift gillnets in the rivers between the commercial fishery and the counting towers.

### Commercial harvest samplers

- Work with fish processors to sample commercially harvested sockeye for age, sex, and length.
- Process and deliver samples to ADF&G lab.
