**Alaska Department of Fish and Game
State Wildlife Grant**

Grant Number: T-22-HM-1

Segment Number: 1

Project Number: 1.0

Project Title: Coastal Refuge Restoration: Removal of junk and hazardous materials from Kincaid Park

Project Duration: May 1, 2011 – June 30, 2015

Report Period: May 1, 2013 – April 30, 2014

Report Due Date: September 1, 2014

Principle Investigator: Joe Meehan

Project Location: Kincaid Park, Anchorage, AK

I. SUMMARY OF WORK COMPLETED ON JOBS FOR LAST SEGMENT PERIOD ONLY

Objective 1: Protect park and refuge wetlands from continued erosion of coastal bluff.

Job/Activity 1a: Obtain engineering report with recommendation on halting erosion and stabilizing bluff.

Accomplishments: This objective was completed in the previous reporting period.

Job/Activity 1b: Conduct engineering assessment of pond at bluff top and determine whether it (or other factors) contribute to bluff erosion.

Accomplishments: This objective was completed in the previous reporting period.

Job/Activity 1c: Implement engineering recommendations to halt bluff erosion.

Accomplishments: No bluff erosion/stabilization efforts were conducted during this period but will be planned during the following period.

Objective 2: Restore park and refuge wetlands by removing foreign debris.

Job/Activity 2a: Conduct an engineering assessment of remaining debris and determine which debris can be removed without creating additional erosion problems.

Accomplishments: This objective was completed in the previous reporting period.

Job/Activity 2b: Implement engineering recommendations to remove debris.

Accomplishments: No debris was removed from the site during this period but will be planned during the following period.

Objective 3: Protect park and refuge by preventing future dumping.

Job/Activity 3a: Complete construction of barrier at bluff top to prevent future dumping.

Accomplishments: There was no action conducted on this activity during this period but will be planned during the following period.

Job/Activity 3b: Install other structures or take other measures to prevent future dumping (e.g. – installation of bollards, installation/repair of gates, installation of signs, etc).

Accomplishments: There was no action conducted on this activity during this period but will be planned during the following period.

Objective 4: Determine additional hazards posed by dump site.

Job/Activity 4a: Review historic documents to determine whether hazardous materials were dumped at the site (or if other issues of concern exist that would influence management of the site); and if so, provide a recommendation on how to manage the site.

Accomplishments: This objective was completed in the previous reporting period.
