The Alaska Department of Fish and Game conducts all programs and activities free from discrimination on the basis of race, color, national origin, age, marital status, pregnancy, parenthood, or disability. For information on alternative formats for this and other department publications, please contact the department ADA Coordinator at (voice) 907-465-4120, (TDD) 1-800-478-3648, or FAX 907-586-6595. Any person who believes she/he has been discriminated against should write to: ADF&G, PO Box 25526, Juneau, AK 99802-5526 or O.E.O., U.S. Department of the Interior, Washington, DC 20240.

INTRODUCTION

Economic and social values play an increasingly important role in the natural resource decision making process. In order for resource managers, legislators, policy makers, and the public to fully consider alternative natural resource uses, information on the economic and social values the public places on wildlife and wildlife related uses must be considered.

Wildlife is an integral part of the Alaskan lifestyle and a central feature of Alaska's national and international image. In spite of the obvious importance of wildlife to Alaska, few data have been collected on the contributions that wildlife resources make to the local, regional, and state economies, or on the social and economic value both state residents and nonresidents place on these resources.

In 1989, the Division of Wildlife Conservation of the Alaska Department of Fish and Game initiated a program to better understand the social importance and economic impact and value of Alaska's wildlife. The first step the agency took was to cooperate with the U. S. Fish and Wildlife Service Federal Aid Program and the U. S. Forest Service Rocky Mountain Forest and Range Experiment Station to host a workshop with some of the nation's leading resource economists to develop a sound technical strategy for the program. Two products resulted from that workshop: 1) a book explaining the use of economic principles in addressing wildlife management issues in Alaska for wildlife managers and graduate students in wildlife ecology entitled Valuing Wildlife Resources in Alaska, edited by George L. Peterson, Cindy Sorg Swanson, Daniel W. McCollum, and Michael H. Thomas was published in 1992; and, 2) a detailed study plan for estimating the economic impact of wildlife dependent activities on the state's and regional economies was developed.

The economic impact study plan identified four wildlife user/activity combinations: 1) resident hunting; 2) resident wildlife viewing; 3) nonresident hunting; and 4) nonresident wildlife viewing. In 1991, the Division of Wildlife Conservation sought the cooperation of federal resource management agencies to begin to implement the study plan by designing a project to collect and analyze economic data from the first three wildlife user/activity groups. These three groups were included in a single project because there existed appropriate sampling frames for each group from which primary data could be gathered using mail surveys. The project was designed to include collection and analysis of public opinion data on wildlife management issues as well as economic data.

This report explains the methods used in collecting and analyzing data for that project. It also summarizes the results of that project with respect to the public opinion and demographic information collected from the resident hunting user/activity group. Results on the economic data collected from the resident hunting user/activity group, and results from all data collected from the resident wildlife viewing and nonresident hunting user/activity groups are presented in separate, companion reports.

CONTRIBUTING AGENCIES

This project was made possible by the contributions of the following agencies:

The Alaska Department of Fish and Game

The U. S. Forest Service Rocky Mountain Forest and Range Experiment Station

The U. S. Fish and Wildlife Service Federal Aid Program

The U. S. Forest Service Region 10

The National Park Service

The Bureau of Land Management

The U. S. Fish and Wildlife Service, Alaska Region

The University of Alaska, Fairbanks

PROJECT DESIGN AND ADMINISTRATION

The purpose of the project was to collect, analyze, and report primary data on the economic and social importance of wildlife from three wildlife user/activity groups: resident hunters, resident wildlife viewers, and nonresident hunters. Mail surveys were chosen as an appropriate and cost effective method of collecting data from individuals in each group. A sampling frame was identified for each of the three user/activity groups and a sample estimated to be sufficient in size to provide economic data at a regional level was drawn from each:

1. Resident Hunters

   A simple random sample of 4,000 resident hunters was drawn from the list of Alaska residents who purchased a resident Alaska hunting license in 1991.

2. Resident Wildlife Viewers

   A sample weighted by legislative district of 4,725 was drawn from the list of Alaskans registered to vote in 1990, which was the most recent election year.

   The samples from the resident hunters and the registered voters were mutually exclusive. If a hunter was selected who had already been selected from the voters list, then another hunter was selected.

3. Nonresident Hunters

   A simple random sample of 1,000 was drawn from the list of nonresidents who purchased an Alaska hunting license in 1991.

A steering committee consisting of a representative from each contributing agency was formed in September, 1991. The purpose of the committee was to identify the economic and public opinion information needs of each agency, to assist in designing the questionnaires to be used in the mail surveys, and to pretest draft questionnaires by holding focus groups. Dr. Richard C. Bishop and Dr. Thomas A. Heberlein from the University of Wisconsin assisted the steering committee and the authors in developing questionnaires which would result in providing the information needs identified by the committee.

The questionnaires were designed to estimate the following:

1. the number of trips that each user group took during 1991 to pursue wildlife related activities;
2. the impact of those trips on the state and regional economies;
3. the economic value that users placed on those trips;
4. the demographic characteristics of each user group; and
5. the attitudes, opinions, and knowledge of each user group about wildlife and wildlife management.

Draft questionnaires were developed and pretested in a total of 19 focus groups consisting of from 6 to 15 participants. A total of 156 draft questionnaires were completed by focus group participants and were analyzed to identify questionnaire problems. The final questionnaires consisted of a combination of public opinion, demographic, and economic questions. A copy of the questionnaire is presented in Part B of each report covering the results from each user group. The questionnaires took respondents from 25 to 30 minutes to complete.

The mail surveys consisted of four separate mailings to each group:

1. an introductory letter was sent to all persons drawn in the samples explaining that the person had been selected to participate and requesting their cooperation;
2. a copy of the questionnaire was sent to all persons who did not have their introductory letters returned by the Post Office as undeliverable;
3. a second copy of the questionnaire was sent to all persons who did not respond to the first questionnaire; and
4. a third copy of the questionnaire was sent to all persons who did not respond to either the first or second questionnaire.

The mailing schedule and results are summarized in Table 1.

TABLE 1. Mailing schedule and questionnaire returns

DATE	ITEM AND NUMBER SENT	NUMBER RETURNED
March 6, 1992	Introductory letters 4,000 Alaska hunters 4,725 Alaska voters 1,000 nonresident hunters	Undeliverable letters 454 Alaska hunters 584 Alaska voters 118 nonresident hunters
March 23, 1992	First questionnaires 3,546 Alaska hunters 4,141 Alaska voters 882 nonresident hunters	First questionnaires 1,477 Alaska hunters 1,554 Alaska voters 397 nonresident hunters
April 20, 1992	Second questionnaires 2,069 Alaska hunters 2,587 Alaska voters 485 nonresident hunters	Second questionnaires 391 Alaska hunters 539 Alaska voters 184 nonresident hunters
May 18, 1992	Third questionnaires 1,678 Alaska hunters 2,048 Alaska voters 301 nonresident hunters	Third questionnaires 209 Alaska hunters 277 Alaska voters 66 nonresident hunters
		Total questionnaires 2,077 Alaska hunters 2,370 Alaska voters 647 nonresident hunters

Nonresident hunters had the highest response rate with 73.4% of those who received a questionnaire responding; resident hunters had the second highest response rate with 58.6% responding; and Alaska voters had the lowest response rate of 57.2%.

SURVEY RESULTS

The returned questionnaires from each survey were compared to the original sampling frames to test for response bias. The known gender, age and legislative district of the returns from the Alaska voters were compared to those from the entire population of 1990 voters. The known gender and age of resident and nonresident hunters were compared to those from the entire populations of 1991 resident and nonresident hunters respectively. The location of residence for hunters was not compared because only mailing addresses were available on the hunting license files. In Alaska, unlike other parts of the U.S., mailing address is not a reliable indicator of where a person actually resides. Using a significance level of .05, statistical differences were found between returned questionnaires and the sample population of Alaska voters with regard to legislative district, of resident hunters with regard to age, and of nonresident hunters with regard to both gender and age. Weights were calculated for each factor for each sample to remove response bias based on those characteristics and to retain the original sample size to ensure the validity of statistical results. The results of the comparisons and the corresponding weights are presented in Tables 2, 3, and 4.

The results from each user/activity group are presented in two separate reports: Characteristics and Attitudes Towards Wildlife, and Trip Characteristics and Economics, for a total of six reports:

Alaska Voters: Their Characteristics and Attitudes Towards Wildlife

Alaska Voters: Their Wildlife Related Trip Characteristics and Economics

Alaska Hunters: Their Characteristics and Attitudes Towards Wildlife

Alaska Hunters: Their Hunting Trip Characteristics and Economics

Alaska Nonresident Hunters: Their Characteristics and Attitudes Towards Wildlife

Alaska Nonresident Hunters: Their Hunting Trip Characteristics and Economics

All six reports are very detailed and intended to be used as reference documents by the cooperating agencies. The responses to each question in each questionnaire are analyzed by demographic features of the respondents. Those features are:

ALASKA VOTERS

- gender
- age
- location of residence
- education
- income
- race
- years living in Alaska
- history of hunting
- history of wildlife viewing

ALASKA HUNTERS

- gender
- age
- location of residence
- education
- income
- race
- years living in Alaska
- history of completing a hunter education class

NONRESIDENT HUNTERS

- gender
- age
- education
- income
- race
- history of completing a hunter education class
- use of a hunting guide
- location of hunting trip
- species hunted
- species bagged

TABLE 2. Comparison of Known Gender and Age of Returned Questionnaires from Alaska Voters and the 1990 Voter Registration File

One of the demographic factors used in analyzing the results of both the public opinion and economic data is the location of respondents' residences and their hunting or wildlife viewing activities. In all six reports location is identified by geographic region. Five regions are defined on the basis of Alaska Department of Fish and Game's Game Management Units. Table 5 gives the regional designation for each Game Management Unit. These regions were designed to correspond with regions used by the Alaska Visitor Statistics Program of the Alaska Department of Commerce and Economic Development, Division of Tourism. The regions generally correspond to the regions used by the Division of Wildlife Conservation of the Alaska Department of Fish and Game, with one exception. The Division of Wildlife Conservation does not recognize Region 4, and considers it part of Region 2.

TABLE 5. Region Definitions

REGION 1 SOUTH EAST	REGION 2 SOUTH CENTRAL	REGION 3 INTERIOR	REGION 4 SOUTH WEST	REGION 5 ARCTIC WESTERN
CONTAIN THE FOLLOWING GAME MANAGEMENT UNITS				
GMU 1 GMU 2 GMU 3 GMU 4 GMU 5	GMU 6 GMU 7 GMU 13 GMU 14 GMU 15 GMU 16	GMU 12 GMU 19 GMU 20 GMU 21 GMU 24 GMU 26B GMU 26C	GMU 8 GMU 9 GMU 10 GMU 17	GMU 18 GMU 22 GMU 23 GMU 26A

Part A of each of the six reports presents summary tables for the breakdown of responses by demographic features for each individual question. Most of the summary tables are of two basic types:

Pearson Chi-squared Tables

A table presenting the Pearson Chi-squared statistic, the degrees of freedom, and the observed significance level of the test for independence between the responses to the question and the various categories or levels of each demographic factor is presented first.

In addition to the demographic features, question responses are tested for independence between "mailings when the response was received". In mail questionnaires, there is often a response bias associated with when the questionnaire was returned by the respondent. Respondents who return their questionnaires after receiving the first questionnaire may have different characteristics, attitudes, and spending habits than those who returned their questionnaires after receiving one or two reminder questionnaires. Such differences indicate that it would not be valid to assume that the surveys' results could be applied to those people who received a questionnaire but failed to respond. This bias may be specific to individual questions in the questionnaires. To examine the possibility of this type of bias, each individual question within each questionnaire was analyzed to identify statistically significant differences between the responses received after each mailing. For

those questions where a statistically significant difference exists between the mailings when the responses were received, care must be taken in expanding the results to the population from which the samples were drawn.

Over 2,000 significance tests were calculated over all three surveys. If an observed significance level of .05 is used to reject the null hypothesis of independence, and conclude that statistically significant differences exist between the demographic categories, then we could expect to be wrong in our conclusions about 5 times in 100. This means that we would be wrong about 100 times over all three surveys.

Breakdown Tables

Summary tables which breakdown or cross the responses to the individual question with each of the demographic factors follow the Pearson Chi-squared Table. The breakdown tables present the percentages of the weighted responses that are in each category of response to the question for each category of the demographic factors. Since the percentages are weighted, they can be used as population estimates for each respective sample frame within the guidelines discussed in the previous section regarding response bias. The reliability of the percentages presented in the summary tables depends on the sample size and the magnitude of the percentage. Survey results close to 50% are the least reliable; results around 1% or 99% are the most reliable. Larger samples provide greater reliability than smaller samples. Table 6 summarizes the reliability intervals at the 95% confidence for each of the three surveys.

TABLE 6. Survey Reliability Intervals: 95% Confidence Level

	VOTER SURVEY SAMPLE SIZE 2370	RESIDENT HUNTER SURVEY SAMPLE SIZE 2077	NONRESIDENT HUNTER SURVEY SAMPLE SIZE 647
WHEN SURVEY RESULT IS:	THEN MAXIMUM MARGIN OF ERROR IS:		
1% OR 99%	0.4%	0.4%	0.8%
10% OR 90%	1.2%	1.3%	2.3%
20% OR 80%	1.6%	1.7%	3.1%
30% OR 70%	1.8%	2.0%	3.5%
40% OR 60%	2.0%	2.1%	3.8%
50% OR 50%	2.0%	2.2%	3.9%

Most of the questions required unique answers. That is, each respondent chose one answer among a number of possibilities. However, several questions allowed respondents to provide more than one response. For example, hunters could list more than one species when asked which species they were hunting. The summary tables for questions with multiple responses are identified as such and do not display totals.

The unit of analysis for all the public opinion and demographic data is the individual respondent and all respondents are included. Missing responses to individual questions are identified. The unit of analysis for trip characteristics and economic activities varies between the individual respondent with all responses included, a subset of respondents who indicated that they have participated in wildlife-related activities, and randomly selected wildlife-related overnight trips taken in 1991. The overnight trips in the nonresident hunters survey were selected by having respondents identify their longest overnight hunting trip in Alaska. This was appropriate because most nonresident hunters only make one overnight hunting trip per year. However, resident hunters and wildlife viewers may make many overnight trips. The overnight trips taken by residents were selected by having respondents first list their wildlife viewing or hunting trips in a table. From the table, the respondents were directed through a series of instructions which resulted in one of their trips being selected. They were then asked a series of questions regarding their economic activities and the characteristics of their selected trip. All returned questionnaires were reviewed to ensure that only those trips that were correctly identified through the random selection process were considered in the analyses. The reader can refer to the questionnaire in Part B of each report to review the exact mechanism used to randomly select overnight trips.

ACKNOWLEDGEMENTS

Many peopled worked long and hard to make this project a reality. The project steering committee members, Mr. William Martin of the Federal Aid Program of the U. S. Fish and Wildlife Service, Mr. Robert Dewey of the U. S. D. A. Forest Service, Alaska Region, Ms. Sue Mills and Mr. Doug Whittaker of the National Park Service, Mr. John Thompson of the Bureau of Land Management, Dr. John Schoen and Ms. Lana Shea of the Alaska Department of Fish and Game, and Dr. John Boyce of the University of Alaska, Fairbanks, all dedicated considerable time and effort to project design. Dr. Erda Wang and Ms. Michelle Haefele, of Colorado State University assisted in analyzing the economic data. The entire staff of the Information Management Program of the Division of Wildlife Conservation, Alaska Department of Fish and Game made the whole project possible by their exceptional abilities and willingness to put forth whatever effort necessary to execute all phases of the project. Staff members include Mr. Bob Walker, Ms. Tammy Wettin, Ms. Ronda Zak, Ms. Rebecca Strauch, Mr. Earl Becker, Mr. Randy Kardong, Ms. Teri Arnold, Ms. Lynn Dang, Ms. Ruth Moulton, Ms. Suzan Bowan, Ms. Thela Divens, and student interns, Mr. Michael Schmahl, Mr. Jeffrey Sabrowski, Ms. Edith Jones, Ms. Kynda Curtis, and Ms. Jennifer Raley. Mr. Larry Aumiller created original drawings for the covers of each questionnaire. Ms. Sheryl Jamieson provided clerical support.

Part A

Table of Contents for Summary Tables of Responses From 2077 Alaska Hunters

Demographic Characteristics

Table A-1 Respondent's city of residence 3

A-2 Alaska Department of Fish and Game region in which respondent lives 5

A-3 Respondents's years of residency in Alaska 11

A-4 Gender of respondent 17

A-5 Age of respondent 20

A-6 Years of school respondent has completed 27

A-7 Race of respondent 34

A-8 Respondent's 1991 annual income, before taxes, of all immediate family members living in the household 40

Hunting History and Attitudes

Table A-9 Age at which respondent first went hunting 49

A-10 Number of years respondent has hunted in Alaska 56

A-11 Has respondent successfully completed a certified hunter education course in Alaska or another state? 62

Do you agree or diagree with the following statements?

A-12 Changes in hunting regulations over the last five years have caused me to change my hunting patterns. 66

A-13 State and federal subsistence laws have increased my opportunities to hunt. 73

A-14 The main reason I hunt is for food. 80

A-15 I do not consider a hunting trip successful unless I bag an animal. 87

A-16 Sometimes just seeing wildlife can add more to a hunting trip than bagging an animal. 94

A-17 I prefer to hunt in areas where off-road motorized vehicles are not allowed. 101

A-18 Hunters who win a drawing permit and take an animal in a popular hunt such as Delta Bison should have to wait some humber of years to apply for that hunt again. 108

A-19 Hunters who win a drawing permit but do not take an animal in a popular hunt such as Delta Bison should have to wait some number of years to apply for that hunt again. 115

A-20 Hunters who win a drawing permit and take an animal in a popular hunt such as Delta Bison should never be allowed to apply for that hunt again. 122

A-21 Hunters who win a drawing permit should be allowed to give the permit to another hunter. 129

A-22 Hunters should be required to purchase a hunting license before applying for a drawing permit. 136

A-23 Hunters should be required to pass a certified hunter education course before applying for a drawing permit. 143

A-24 I would prefer separate, smaller state hunting regulation books for different regions of the state. 150

A-25 I think state hunting regulation books should be organized by Game Management Unit rather than by species. 157

A-26 Big game hunters should be required to wear some hunter orange while hunting in Alaska. 164

A-27 In general, I approve of hunting wildlife for trophies. 171

A-28 In general, I approve of trapping wildlife. 176

Table A-29 Some people think baiting or attracting black bears with food allows hunters to be more selective in choosing which bear to kill. Do you support allowing hunters to use bait to hunt black bears? 185

A-30 Decreases in some game populations may, at times, require wildlife managers to limit hunting opportunities. At least four general approaches have been suggested as ways to ration hunting opportunities when game become scarce. Recognizing that these are general approaches and that some may not be legal under current law, please circle the number of any approach you consider acceptable. 189

A-31 In many states, hunters must pass a certified Hunter Education course before they can hunt. These 10 to 20 hour courses are generally offered free of charge by state wildlife agencies. Which one of the following statements best describes your opinion of requiring hunters to pass a hunter education course to hunt in Alaska? 193

Wildlife Attitude and Uses

Do you agree or disagree with the following statements?

Table A-32 I am interested in knowing more about how to find and watch wildlife. 203

A-33 I like having bears in and around urban areas in Alaska. 210

A-34 In general, I believe it is more difficult to see wild animals in areas where those same animals are hunted than in areas where they are not hunted. 217

A-35 I think more areas in the state should be managed and developed for wildlife viewing. 224

A-36 I think more areas in the state should be managed and developed for wildlife viewing, even if that means closing some areas to hunting. 231

A-37 It is better to limit the number of people who can go to a good wildlife viewing site at any one time than to allow the site to become crowded 238

A-38 I like to go sport fishing. 245

A-39 I would probably stop or slow down to look for wildlife if I saw a sign along the highway indicating good wildlife viewing. 252

A-40 I think more concern should be given to protecting the land and water where wildlife live. 259

A-41 I support killing wolves in some areas of Alaska to increase the numbers of moose and caribou. 266

A-42 I think people living outside Alaska have too much influence on wildlife management in Alaska. 273

A-43 I think environmentalists have too much influence on wildlife management in Alaska 280

A-44 I think hunters have too much influence on wildlife management. 287

A-45 Resolving the differences between state and federal subsistence laws is one of the most important issues in wildlife management in Alaska. 294

A-46 I think the state should try to get federal subsistence laws repealed. 301

A-47 I think the legislature should repeal the state subsistence law. 308

A-48 I support amending the state constitution to make state law agree with federal subsistence law. 313

Funding Wildlife Management

Table A-49 The state gets about a third of its money for wildlife management from federal taxes on certain hunting equipment. How much of that money should be spent on programs for wildlife viewing or other wildlife programs which do not involve hunting? 325

A-50 The state also gets about a third of its money for wildlife management from the sale of hunting and trapping licenses and tags. How much of that money should be spent on programs for wildlife viewing or other wildlife programs which do not involve hunting? 332

Would you favor or oppose?

A-51 Raising the resident hunting license fee from $12 to $20? 339

A-52 Raising the resident hunting license fee to more than $20? 346

A-53 Selling advertising space in the state hunting regulation book? 353

A-54 Urging Congress to establish a 10% Federal tax on bird feed and equipment used in viewing or photographing wildlife such as spotting scopes, cameras, and binoculars with proceeds going back to state governments for wildlife viewing programs? 360

A-55 Requiring that people who use state Wildlife refuges or sanctuaries pay access fees? 367

A-56 Auctioning a special sheep hunting Permit to raise money for sheep management? 374

Knowledge of Wildlife and Wildlife Management

Questions on Wildlife Biology

Do you think the following is true or false?

Table A-57 The number of sea lions in the Gulf of Alaska is increasing. 383

A-58 Both male and female caribou have antlers. 387

A-59 Forest fires in interior Alaska help moose by creating more food for them. 391

A-60 Female bears generally give birth to cubs every year. 395

A-61 Wild wolves have never attacked humans in Alaska. 399

A-62 There are no threatened or endangered species in Alaska. 403

A-63 In Alaska, deer find more food during winter in forests that have never been logged than in those that have been logged. 407

A-64 Scores on Biological Questions 411

Questions on Wildlife Management

Do you think the following is true or false?

A-65 State hunting regulations are set each year by the Alaska Department of Fish and Game. 415

A-66 The U.S. Fish and Wildlife Service manages wildlife on all federal lands. 419

A-67 The state receives money for wildlife management from federal taxes on the sale of guns and ammunition. 423

A-68 The Federal Subsistence Board sets all hunting regulations on federal lands. .. 427

A-69 Both sport and subsistence hunting are generally allowed in National Preserves managed by the National Park Service. 431

STATE-WIDE BREAKDOWN OF 2077 WEIGHTED RESPONSES FROM ALASKA HUNTERS

Table A-30

Decreases in some game populations may, at times, require wildlife managers to limit hunting opportunities. At least four general approaches have been suggested as ways to ration hunting opportunities when game become scarce. Recognizing that these are general approaches and that some may not be legal under current law, please circle the number of any approach you consider acceptable.

STATE-WIDE BREAKDOWN OF 2077 WEIGHTED RESPONSES FROM ALASKA HUNTERS

Part B

Original Questionnaire Completed by 2077 Alaska Hunters

ALASKA'S WILDLIFE and HUNTING

What does it mean to you?

It is very important that this questionnaire be completed by the person to whom it is addressed. Please try to answer what you believe to be true for you; don't ask others for their opinions. The best answers are the ones which most closely reflect your own feelings, beliefs, experiences, and knowledge. If you have any problems filling out the questionnaire please call toll-free 1-800-770-9172 (inside Alaska) or 1-800-777-9172 (outside Alaska) from 8:00 AM to 5:00 PM Alaska time, Monday through Friday, and we will be happy to help you. Thank You !

PART ONE: Your Hunting History and Wildlife Attitudes

1. How old were you when you first went hunting? *(FILL IN THE BLANK)*

   _____ **Years Old**

2. How many years have you hunted in Alaska? *(FILL IN THE BLANK)*

   _____ **Years hunting in Alaska**

3. Below are a number of statements that hunters might make. Please tell us how much you agree or disagree with each statement. There are no right or wrong answers; the best answer is the one that reflects your opinion or what you do. *(CIRCLE ONE NUMBER FOR EACH STATEMENT)*

	Strongly Agree	Moderately Agree	Moderately Disagree	Strongly Disagree	Don't Know/ No Opinion
Changes in hunting regulations over the last five years have caused me to change my hunting patterns.	1	2	3	4	5
State and federal subsistence laws have increased my opportunities to hunt.	1	2	3	4	5
The main reason I hunt is for food.	1	2	3	4	5
I do not consider a hunting trip successful unless I bag an animal.	1	2	3	4	5
Sometimes just seeing wildlife can add more to a hunting trip than bagging an animal.	1	2	3	4	5
I prefer to hunt in areas where off-road motorized vehicles are not allowed.	1	2	3	4	5
Hunters who win a drawing permit but do not take an animal in a popular hunt such as Delta Bison should have to wait some number of years to apply for that hunt again.	1	2	3	4	5

	Strongly Agree	Moderately Agree	Moderately Disagree	Strongly Disagree	Don't Know/ No Opinion
Hunters who win a drawing permit and take an animal in a popular hunt such as Delta Bison should:					
1. have to wait some number of years to apply for that hunt again.	1	2	3	4	5
2. never be allowed to apply for that hunt again.	1	2	3	4	5
Hunters who win a drawing permit should be allowed to give the permit to another hunter.	1	2	3	4	5
Hunters should be required to purchase a hunting license before applying for a drawing permit.	1	2	3	4	5
Hunters should be required to pass a certified hunter education course before applying for a drawing permit.	1	2	3	4	5
Hunters who have passed a certified hunter education course should be given an advantage in competing for drawing permits.	1	2	3	4	5
I would prefer separate, smaller state hunting regulation books for different regions of the state.	1	2	3	4	5
I think state hunting regulation books should be organized by Game Management Unit rather than by species.	1	2	3	4	5
Big game hunters should be required to wear some hunter orange while hunting in Alaska.	1	2	3	4	5

4. Some people think baiting or attracting black bears with food allows hunters to be more selective in choosing which bear to kill. Do you support allowing hunters to use bait to hunt black bears? (CIRCLE ONE NUMBER)

1	**YES**
2	**NO**
3	**I have no opinion on this issue**

5. Decreases in some game populations may, at times, require wildlife managers to limit hunting opportunities. At least four general approaches have been suggested as ways to ration hunting opportunities when game become scarce. Recognizing that these are general approaches and that some may not be legal under current law, please circle the number of any approach you consider acceptable. *(CIRCLE ALL THAT APPLY)*

1	**Ration by place of residence. Local hunters (hunters that live in a certain area) would receive priority over other hunters.**
2	**Ration by restrictions on hunting access. Hunting by aircraft, off-road vehicle, or powerboat would be prohibited in the area.**
3	**Ration by a lottery or first-come-first-served system. All hunters would be eligible to enter.**
4	**Ration by economic need. People with lower incomes would receive priority.**
5	**Some other method. Please specify**_____

_____

6. In many states, hunters must pass a certified hunter education course before they can hunt. These 10 to 20 hour courses are generally offered free of charge by state wildlife agencies. Which one of the following statements best describes your opinion of requiring hunters to pass a hunter education course to hunt in Alaska? *(CIRCLE ONE NUMBER)*

1	**Hunters should not be required to pass a hunter education course to hunt in Alaska.**
2	**Only hunters hunting for the first time in Alaska should be required to pass a hunter education course.**
3	**All hunters should be required to pass a hunter education course to hunt in Alaska.**
4	**I have no opinion on this issue.**

7. Have you ever successfully completed a certified hunter education course in Alaska or another state? *(CIRCLE YOUR ANSWER)*

YES

NO

8. Below are a number of statements that people might make about wildlife and wildlife management in Alaska. Please tell us how much you agree or disagree with each statement. There are no right or wrong answers; the best answer is the one that reflects your opinion or what you do. *(CIRCLE ONE NUMBER FOR EACH STATEMENT)*

	Strongly Agree	Moderately Agree	Moderately Disagree	Strongly Disagree	Don't Know/ No Opinion
In general, I approve of hunting wildlife for trophies.	1	2	3	4	5
In general, I approve of trapping wildlife.	1	2	3	4	5
I am interested in knowing more about how to find and watch wildlife.	1	2	3	4	5
I like having bears in and around urban areas in Alaska.	1	2	3	4	5
In general, I believe it is more difficult to see wild animals in areas where those same animals are hunted than in areas where they are not hunted.	1	2	3	4	5
I think more areas in the state should be managed and developed for wildlife viewing.	1	2	3	4	5
I think more areas in the state should be managed and developed for wildlife viewing, even if that means closing some areas to hunting.	1	2	3	4	5
It is better to limit the number of people who can go to a good wildlife viewing site at any one time than to allow the site to become crowded.	1	2	3	4	5
I like to go sport fishing.	1	2	3	4	5

	Strongly Agree	Moderately Agree	Moderately Disagree	Strongly Disagree	Don't Know/ No Opinion
I would probably stop or slow down to look for wildlife if I saw a sign along the highway indicating good wildlife viewing.	1	2	3	4	5
I think more concern should be given to protecting the land and water where wildlife live.	1	2	3	4	5
I support killing wolves in some areas of Alaska to increase the numbers of moose and caribou.	1	2	3	4	5
I think people living outside Alaska have too much influence on wildlife management in Alaska.	1	2	3	4	5
I think environmentalists have too much influence on wildlife management.	1	2	3	4	5
I think hunters have too much influence on wildlife management.	1	2	3	4	5
Resolving the differences between state and federal subsistence laws is one of the most important issues in wildlife management in Alaska.	1	2	3	4	5
I think the state should try to get federal subsistence laws repealed.	1	2	3	4	5
I think the legislature should repeal the state subsistence law.	1	2	3	4	5
I support amending the state constitution to make state law agree with federal subsistence law.	1	2	3	4	5

9. You may have heard or read many different things about wildlife and wildlife management. We can design better information and education programs if we have an idea of what people currently know and don't know about wildlife and wildlife management. Please answer each question below. If you don't know the answer, circle the **?**. Please don't guess if you are not sure. Few people, even experts, will know the answers to all the questions. *(CIRCLE ONE ANSWER FOR EACH STATEMENT)*

	TRUE	FALSE	DON'T KNOW
The number of sea lions in the Gulf of Alaska is increasing.	T	F	?
Both male and female caribou have antlers.	T	F	?
Forest fires in interior Alaska help moose by creating more food for them.	T	F	?
Female bears generally give birth to cubs every year.	T	F	?
Wild wolves have never attacked humans in Alaska.	T	F	?
There are no threatened or endangered species in Alaska.	T	F	?
In Alaska, deer find more food during winter in forests that have never been logged than in those that have been logged.	T	F	?
State hunting regulations are set each year by the Alaska Department of Fish and Game.	T	F	?
The U. S. Fish and Wildlife Service manages wildlife on all federal lands.	T	F	?
The state receives money for wildlife management from federal taxes on the sale of guns and ammunition.	T	F	?
The Federal Subsistence Board sets all hunting regulations on federal lands.	T	F	?
Both sport and subsistence hunting are generally allowed in National Preserves managed by the National Park Service.	T	F	?

10. The state gets about a third of its money for wildlife management from federal taxes on certain hunting equipment. How much of that money should be spent on programs for wildlife viewing or other wildlife programs which do not involve hunting? *(CIRCLE ONE NUMBER)*

1	**None**
2	**A little (less than 25%)**
3	**Some (26% to 49%)**
4	**Half (50%)**
5	**A lot (51% to 75%)**
6	**Most (more than 75%)**
7	**All**
8	**I have no opinion on this issue**

11. The state also gets about a third of its money for wildlife management from the sale of hunting and trapping licenses and tags. How much of that money should be spent on programs for wildlife viewing or other wildlife programs which do not involve hunting? *(CIRCLE ONE NUMBER)*

1	**None**
2	**A little (less than 25%)**
3	**Some (26% to 49%)**
4	**Half (50%)**
5	**A lot (51% to 75%)**
6	**Most (more than 75%)**
7	**All**
8	**I have no opinion on this issue**

12. The amount of money the Alaska Department of Fish and Game receives for wildlife management has declined while costs have increased. There are a number of ways the state could increase funds for wildlife programs. Please tell us how much you favor or oppose each of the following possible ways. *(CIRCLE ONE NUMBER FOR EACH STATEMENT)*

	Strongly Favor	Moderately Favor	Moderately Oppose	Strongly Oppose	Don't Know/ No Opinion
Would you favor or oppose....					
Raising the resident hunting license fee from $12 to $20?	1	2	3	4	5
Raising the resident hunting license fee to more than $20?	1	2	3	4	5
Selling advertising space in the state hunting regulation book?	1	2	3	4	5
Urging Congress to establish a 10% federal tax on bird feed and equipment used in viewing or photographing wildlife such as spotting scopes, cameras, and binoculars with proceeds going back to state governments for wildlife viewing programs?	1	2	3	4	5
Requiring that people who use state wildlife refuges or sanctuaries pay access fees?	1	2	3	4	5
Auctioning a special sheep hunting permit to raise money for sheep management?	1	2	3	4	5

13. How interested are you in new sites to view wildlife? Suppose an easily accessible wildlife viewing site were available that offered good views of wildlife in natural surroundings from a close, but safe, distance. Please tell us how often you think you would make a day trip to visit sites like the following over the next five years.

Each question indicates a cost per person to make the round trip. That cost is different in every questionnaire. Please give us your answer even if the amount seems ridiculously high or low so that we can consider a full range of values. *(CIRCLE ONE NUMBER FOR EACH STATEMENT)*

	Never	At Least Once	More Than Once
How often do you think you would make a day trip to visit a site over the next five years where you could expect to see....			
A herd of caribou if it cost $ A to make the trip?	0	1	2
Moose if it cost $ B to make the trip?	0	1	2
A pack of wolves either from the ground or from an airplane if it cost $ C to make the trip?	0	1	2
Several Dall sheep if it cost $ D to make the trip?	0	1	2
Typical marine life, and about half the time you would see whales, if it cost $ E to make the trip?	0	1	2
A large concentration of grizzly bears if it cost $ F to make the trip?	0	1	2
A large concentration of sea birds if it cost $ G to make the trip?	0	1	2
A large concentration of eagles if it cost $ H to make the trip?	0	1	2

14. Below are some facilities and signs of development that are sometimes encountered in Alaska. Please indicate which of the following adds to the quality of a hunting site and which ones detract from a site. *(CIRCLE ONE RESPONSE FOR EACH)*

	Adds A Lot	Adds A Little	Detracts A Little	Detracts A Lot	Neutral/ Not a Factor
Public use cabins	1	2	3	4	5
Public boat moorings/launch	1	2	3	4	5
Public air strip	1	2	3	4	5
Hiking trails	1	2	3	4	5
Public campground	1	2	3	4	5
Active mine	1	2	3	4	5
Old clearcut	1	2	3	4	5
Recent clearcut	1	2	3	4	5
Commercial fishing activity	1	2	3	4	5
Other signs of development (please specify) _____	1	2	3	4	5

15. Please tell us, as best you can remember, how many big game, waterfowl, and small game hunting day trips you took in 1991. By day trip we mean a trip on which you left and returned home in the same day. *(FILL IN THE BLANKS BELOW)*

Number of big game hunting day trips in 1991_____

Number of waterfowl hunting day trips in 1991_____

Number of small game hunting day trips in 1991_____

16. Look over the list of items in the table below.

* First, please tell us which ones your household owns by circling NO or YES. Then, tell us how many your household owns.

* For any of the items you own, please tell us whether hunting was one of the main reasons you purchased that item by circling NO or YES.

* If you purchased the item in 1991, please tell us the nearest Alaska town or city where you purchased it. If you bought it outside Alaska or from a catalog, just write "OUTSIDE".

* Then tell us how much it cost you or another member of your household. Give us your best estimate if you don't remember where you bought something or how much you paid.

Item	Do You Own? (Circle One)		How Many?	Was Hunting a Main Reason For Purchase? (Circle One)		If Purchased in 1991	
						Where	Cost (Best Estimate)
Airplane	NO	YES	_____	NO	YES	_____	$_____
Off-road vehicle	NO	YES	_____	NO	YES	_____	$_____
Boats (all types and boat trailers)	NO	YES	_____	NO	YES	_____	$_____
Outboard motor	NO	YES	_____	NO	YES	_____	$_____
Snow machine	NO	YES	_____	NO	YES	_____	$_____
Camper, Motorhome	NO	YES	_____	NO	YES	_____	$_____
Cabin, shack	NO	YES	_____	NO	YES	_____	$_____
Land	NO	YES	_____	NO	YES	_____	$_____
Horses or dogs	NO	YES	_____	NO	YES	_____	$_____

17. Please tell us about any other equipment or special clothing that you purchased in 1991 for which hunting was one of the main reasons you purchased the good.

* What did you buy? We listed some common things people buy, but there may be others that you bought. Please tell us what you bought within each category and list any other things that you may have bought.

* Where did you buy it? Name the nearest Alaska town or city. Write "OUTSIDE" if you bought it outside Alaska or from a catalog.

* How much did it cost?

Category	Item	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
Guns, holsters, gun cases, scopes, etc.			$
			$
			$
Cameras, lenses, or other photographic equipment			$
			$
Camping Equipment			$
			$
			$
Special Clothing			$
			$
			$
Skis or Snowshoes			$
Others (please specify)			
			$

18. Did you take any overnight big game or waterfowl hunting trips in Alaska during 1991? By overnight trip we mean a trip on which you spent one or more nights away from home. *(CIRCLE YOUR ANSWER)*

NO *Please go to the last page, PART THREE*

YES *Please continue on to PART TWO*

PART TWO: Your Overnight Hunting Trips

To estimate the economic importance of big game and waterfowl hunting in Alaska, we need to know more about how much hunters like you spend on overnight big game and waterfowl hunting trips and where you spend it. Please read and answer the questions in this section carefully.

1. Please list up to 10 of the overnight big game and waterfowl hunting trips you took in Alaska during 1991 by filling in the blanks of the table on the next page, TABLE 1. Trip A should be your first overnight big game or waterfowl hunting trip in 1991, Trip B should be your second, and so on. Do not list any trips for which the main reason was small game hunting.

For each 1991 overnight big game or waterfowl hunting trip in Alaska, please tell us:

* The Game Management Unit you hunted (use the enclosed map if you need it). If you don't remember the Game Management Unit, please tell us a landmark like a lake, river, road segment, or town you were near or a lodge you stayed at, etc.--anything to help us figure out where you were.
* The primary species you hunted. If the hunt was a multiple species hunt, list all the species you hunted.
* The month or months of your trip.
* The number of nights you were away from home.

TABLE 1: 1991 OVERNIGHT BIG GAME AND WATERFOWL HUNTING TRIPS IN ALASKA

TRIP	GAME MANAGEMENT UNIT OR LOCATIONS YOU HUNTED	PRIMARY SPECIES HUNTED	THE MONTH(S) YOU WENT	NUMBER OF NIGHTS AWAY FROM HOME
TRIP A				
TRIP B				
TRIP C				
TRIP D				
TRIP E				
TRIP F				
TRIP G				
TRIP H				
TRIP I				
TRIP J				

IMPORTANT INSTRUCTIONS PLEASE READ CAREFULLY

To estimate the economic importance of big game and waterfowl hunting, we would like to know how much each person spends on all their hunting trips. However, this is not practical because some people take many trips. Instead, a trip will be scientifically selected from the trips you just listed in TABLE 1, and we will ask you a number of questions about that one trip. This will allow us to use statistical techniques to estimate the economic impact of big game and waterfowl hunting.

* The trip will be called your SELECTED TRIP
* Follow the procedures in the next questions to identify your SELECTED TRIP.

PLEASE NOTE: If you have trouble figuring out your SELECTED TRIP, please call the toll-free phone number on the front cover and we gladly help you.

2. First, count up the overnight big game and waterfowl hunting trips you just listed in Table 1 and enter that number here.

_____ **overnight hunting trips.**

3. Please look over TABLE 2 on the next page. The table is different in every questionnaire, and it will tell you which of the trips you listed in TABLE 1 will be your SELECTED TRIP.

Look in the first column of TABLE 2 for the number of trips you just wrote in Question 2. Circle both that number and the trip letter beside it in the second column. That will be your SELECTED TRIP.

TABLE 2

If the number you wrote in answer to Question 2 is		Then your SELECTED TRIP is . . . .
1	---------->	Trip A
2	---------->	Trip B
3	---------->	Trip C
4	---------->	Trip D
5	---------->	Trip E
6	---------->	Trip F
7	---------->	Trip G
8	---------->	Trip H
9	---------->	Trip I
10	---------->	Trip J

Return to TABLE 1: 1991 OVERNIGHT BIG GAME AND WATERFOWL HUNTING TRIPS IN ALASKA and find the TRIP in column one corresponding to the letter you just circled in TABLE 2. Circle that TRIP. This is your SELECTED TRIP. It is important to use that specific trip in answering the rest of the questions in PART TWO of the survey, even if your SELECTED TRIP happens to be your worst or cheapest trip.

WRITE THE LETTER OF YOUR SELECTED TRIP HERE_____

Example: If you had listed 3 overnight big game and waterfowl hunting trips in TABLE 1, then you would have written the number 3 in answer to Question 2, circled 3 and Trip C in TABLE 2, and your SELECTED TRIP would have been Trip C .

IMPORTANT INSTRUCTIONS PLEASE READ CAREFULLY

To allow us to estimate the economic importance of big game and waterfowl hunting, please answer the following questions and list the expenses for your SELECTED TRIP as best you can remember.

* Please tell us what you purchased on your SELECTED TRIP.
* Then tell us the nearest Alaska town or community where you purchased the item. If you bought it outside Alaska or from a catalog, just write "OUTSIDE".
* Tell us the total amount you paid for the item (not just the price for each unit). Report all money that came out of your pocket, even if you paid someone else's expenses. Do not include expenses someone else paid for you.
* Include expenses that occurred before your SELECTED TRIP that were made in preparation for your trip (like ammunition or scouting trips) and expenses that occurred after your trip, but were directly related to your SELECTED TRIP (like meat processing and taxidermy).
* Give us your best estimate if you don't remember exactly how much you paid for something or where you bought it.

4. **Round Trip Transportation Expenses** For each of the following that apply, please fill in the Alaska town where purchased (or OUTSIDE, if purchased outside Alaska) and the cost. (Do not include expenses that were included in the cost of a guided hunt package. We will ask you about those expenses in Question 14.)

	Where Purchased Alaska Town(s) or OUTSIDE	**Cost to You** (Best Estimate)
Commercial airline	_____	$_____
Airplane charter/Air taxi	_____	$_____
Rental of Car, Truck, Motorhome, etc.	_____	$_____
Ferry	_____	$_____
Boat charter	_____	$_____
Train or Bus	_____	$_____

5. **Fuel or Oil for Any Vehicle** (car, truck, plane, boat, off-road vehicle, etc.).

Items (gas for truck, oil for boat, etc.)	**Where Purchased Alaska Town(s) or OUTSIDE**	**Cost to You** (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

6. **Other Vehicle Expenses** (include things like tires, tune ups, repairs, etc. that you bought on or in preparation for your SELECTED TRIP).

Items	**Where Purchased Alaska Town(s) or OUTSIDE**	**Cost to You** (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

7. **Restaurant Meals and Bars** (including fast food)

Items	**Where Purchased Alaska Town(s) or OUTSIDE**	**Cost to You** (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

8. **Groceries and Beverages** (beverages and groceries or food you bought and prepared yourself, or you bought already prepared, but not in a restaurant and not included in a guided hunt package)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
		$
		$
		$
		$
		$
		$

9. **Hotels/Motels/Lodging/Camping Fees** (not included in a guided hunt package)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
		$
		$
		$
		$

10. **License, Tags, and Fees** (include hunting license, tags, duck stamps, land use or trespass fees, etc.)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
		$
		$
		$

11. **Hunting Equipment and Supplies** (guns, ammunition, gun cleaning supplies, power scope, gun holster or case, etc. bought on or in preparation for your SELECTED TRIP)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

12. **Photographic Supplies** (like film, film processing, lens cleaning supplies, video tape, etc.)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

13. **Equipment Rental** (like video camera, horses, canoes, kayaks, etc., other than equipment included in a guided hunt package)

Items	Where Rented Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____

14. **Guide-Outfitter Fees and Hunting Packages** (fees paid to guide-outfitters for a guided hunt)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____

15. **Meat Butchering, Processing, or Storage**

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____

16. **Taxidermy Services**

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____

17. **Shipping** (equipment to and from the field, meat from the field, trophies, etc.)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____

18. **Other Items or Unanticipated Expenses** (anything not covered in the categories above, including souvenirs, medical expenses for injuries, etc.)

Items	Where Purchased Alaska Town(s) or OUTSIDE	Cost to You (Best Estimate)
_____	_____	$_____
_____	_____	$_____
_____	_____	$_____

The next set of questions will ask you about what you did on your SELECTED TRIP. Your answers will help us better understand what characteristics of hunting trips are important.

19. Was big game or waterfowl hunting the primary reason for your SELECTED TRIP? By primary we mean you would not have taken the trip had you not been planning to hunt. (CIRCLE YOUR ANSWER)

YES	**Hunting was the primary reason**
NO	**Hunting was not the primary reason**

20. Did you do other things on your SELECTED TRIP besides hunt? *(CIRCLE ALL THAT APPLY)*

1	**Fished**	**5**	**Business activities**
2	**Camped**	**6**	**Other activities**
3	**Viewed or photographed wildlife**	**7**	**Nothing, I just hunted**
4	**Visited friends or relatives**		

21. On how many different days during your SELECTED TRIP did you spend all or part of the day actually hunting?

_____**days actually hunting**

On those days, how many hours per day on average did you actually hunt? Please give us your best estimate.

_____**hours per day actually hunting**

22. How many hunters, including yourself, were in your hunting party?

_____**hunters including myself were in the party**

23. How did you get to your hunting area on your SELECTED TRIP? *(CIRCLE ALL THAT APPLY and fill in the time where appropriate)*

1 **Car or truck; please estimate the total time you drove:_____**

2 **Private boat; please estimate the total time you boated:_____**

3 **Private airplane; please estimate the total time you flew:_____**

4 **Commercial airline**

5 **Chartered airplane/Air taxi**

6 **Train or Bus**

7 **Ferry**

8 **Chartered boat**

9 **Other (please specify)_____**

24. Did you or any of your partners bag an animal or animals on your SELECTED TRIP? *(CIRCLE ALL THAT APPLY AND FILL IN THE BLANKS)*

NO

YES **I bagged_____**

YES **My partner(s) bagged_____**

25. Did you or any of your partners bag an animal or animals on your SELECTED TRIP that you consider to be trophy quality? *(CIRCLE ALL THAT APPLY AND FILL IN THE BLANKS)*

NO

YES **I bagged a trophy_____**

YES **My partner(s) bagged a trophy_____**

The next set of questions will ask you how satisfied you were with your SELECTED TRIP and the money you paid for it.

26. All things considered--the expenses, the wildlife, whether you bagged an animal, the overall quality of the trip--do you feel that your SELECTED TRIP was worth the money you paid? If you had it to do all over again, would you take that exact same hunting trip for the same cost? *(CIRCLE YOUR ANSWER)*

NO *Please go to the next page, PART THREE*

YES *Please go on to Question 27*

27. The expenses for your SELECTED TRIP could have been higher or lower. For example, transportation and other expenses rise and fall over time. Suppose your costs had been higher. How much could the cost of your SELECTED TRIP have increased before you would have decided it was just not worth it and you would not have taken your SELECTED TRIP?

In other words: Up to how much more, in addition to what you actually paid for your SELECTED TRIP, would you have paid to take your SELECTED TRIP?

I would have paid as much as $_____ more than I actually paid to take my SELECTED TRIP

28. If you answered $0 to the previous question, please tell us what that means. *(CIRCLE ONE NUMBER)*

1 **I would not have paid any more to take my SELECTED TRIP. That trip was worth exactly what I paid and no more.**

2 **I answered $0 because I could not put a number on how much more I would have paid for my SELECTED TRIP.**

3 **I answered $0 for other reasons. Please specify_____**

_____

PART THREE: Background

In this part, we would like to learn more about you and your background. Your answers will be confidential. This information will only be used to report comparisons among groups.

1. Where do you live now? *(FILL IN THE BLANKS)*

   Nearest city or village_____**State**_____

2. How long have you lived in Alaska? _____**Years**

3. Are you? *(CIRCLE YOUR ANSWER)*

   Male
   Female

4. How old are you? _____**years old**

5. How many people of your immediate family live with you in your house (do not include yourself), and what are their ages? *(FILL IN THE BLANKS)*

   _____ **people live with me in my house,**

   and their ages are _____

6. How many years of school have you completed? *(CIRCLE ONE NUMBER)*
