**Dutch Harbor Food and Bait Herring Fishery Announcement #3
For Emergency Order # 4-FH-M-SP-03-13**

The current commercial herring fishing period in the Unalaska and Akutan districts will be extended for 24 hours from noon Thursday, July 18 until noon Friday, July 19, 2013.

Fishermen are reminded of the following closed waters: waters of Unalaska Bay, between Unalaska and Amaknak Islands, including Margaret's Bay, west of a line from the "Bishop's House" at 53° 52.64' N. lat., 166° 32.30' W. long. to a point on Amaknak Island at 53° 52.82' N. lat., 166° 32.13' W. long. and north of a line from a point south of Agnes Beach at 53° 52.28' N. lat., 166° 32.68' W. long., to a point at 53° 52.35' N. lat., 166° 32.95' W. long on Amaknak Island.

Each permit holder registered for the fishery is required to report fishing activities and harvest to the department by noon July 19, 2013 regardless of whether or not they fished or harvested herring. Reports should be made to ADF&G in Sand Point by phone at (907) 383-2066.

Commercial fishing periods will be opened and closed by emergency order based upon anticipated fishing effort, harvest rates from previous openings, processing capacity, and herring abundance. The department will notify the fleet of subsequent fishing periods after catch reports are received and the amount of herring harvested during the prior period has been determined.

Prior to participating, fishermen must possess a current Commercial Fisheries Entry Commission permit for the fishery and must register with the department in Dutch Harbor or Sand Point. Processors and tenders must also register with the department prior to taking any herring. Fishermen should have a secure market prior to harvesting any herring.

The 2013 Dutch harbor herring food and bait fishery allocation is 1,765 tons for purse seine gear and 317 tons for gillnet gear. For further information please contact ADF&G in Sand Point at (907) 383-2066.
