

ADF&G HUNTER ACCESS GRANT PROGRAM MATCH GUIDANCE

The ADF&G Division of Wildlife Conservation Hunter Access Program (HAP) funds are provided through the Federal Aid in Wildlife Restoration Act, often referred to as the Pittman-Robertson Act. HAP grant awards will reimburse 75% of the cost of an eligible proposal and requires a 25% non-federal match. The HAP requires all subawards provide the required 25% match to meet this requirement. The general guidance provided below is intended to be consistent with statutory requirements, the Wildlife Restoration Fund grant award, Hunter Access Program policies, and federal regulations. If you have questions or notice any discrepancies with federal requirements, please contact Hunter Access Program staff for additional guidance.

1. All contributions, including cash and subawardee* or third party in-kind, shall be accepted as part of the project's match when such contributions meet all of the following criteria:
 - Are verifiable from the subawardee's records;
 - Are not included as contributions for any other federal award;
 - Are necessary and reasonable for accomplishment of proposal objectives;
 - Are allowable per 2 CFR 200 Subpart E – Cost Principles;
 - Are not currently or previously funded by the federal government under another award (e.g., equipment purchased through another federal award may not be used as in-kind match), except where authorized by federal statute to be used for cost sharing or matching requirements of other federal programs;
 - Conform to other relevant provisions of 2 CFR 200;
 - Are included in the approved budget;
 - Take place within the project performance period;
 - Are treated consistently with other costs incurred for the same purpose in like circumstance (e.g., whether the source of funding is federal or nonfederal, whether the work is done in-house or externally);
 - Are not routine operations or services that would be performed with or without funds from the Hunter Access Program;
 - Are consistent with Hunter Access Program policies and procedures (e.g., administrative costs are not allowable, see the *HAP Invoicing Policies and Procedures* document);
 - If in-kind and provided by a third party, are documented on Hunter Access Program match forms or on third party letterhead including the same information, with attachments as applicable; and
 - If in-kind and provided by a cooperator (Co-PI), are documented on Hunter Access Program match forms or with other documentation containing the same information, as applicable.

**For the purposes of this document, “subawardee” refers to any direct recipient of HAP funds including federal, state, local governments, and non-profit organizations. “Third*

party” refers to any organization other than a subawardee who does not have a financial interest or involvement in HAP funds.

2. The following section describes common types of allowable match and its required documentation.

Personnel: The value of individuals providing skilled and unskilled labor that is necessary and reasonable to accomplish the project may be used as match.

Volunteers: Volunteer labor is not paid for by any organization. Rates claimed for volunteer services shall be consistent with those paid for similar work in the subawardee's organization. In those instances where required skills are not found in the subawardee's organization, rates shall be consistent with those paid for similar work by people with similar expertise in the labor market in which the subawardee competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

In general, three quotes substantiating the rate used should be provided. However, if the volunteer is providing the same services for which they are paid in their normal line of work (whether for the subawardee or another entity), documentation of their rate of pay alone is acceptable. Volunteer services shall be documented on the HAP Volunteer Match Form (or other documentation that includes the same information).

Personnel Donated by the Subrecipient: If the subawardee matches the project with a paid employee, the match is considered “cash” and must be documented in the same manner as a reimbursed expense.

Personnel Donated by a Third Party: When an employer other than the subawardee furnishes labor free of charge to the subawardee (but pays the employee) for services in the employee's normal line of work, the services shall be valued at the employee's regular rate of pay plus an amount of fringe benefits that is reasonable, necessary, allocable, and otherwise allowable, and indirect costs at the third party's federally negotiated indirect cost rate (NICRA), if applicable. Documentation of the employee's rate of pay, fringe benefits, and NICRA documentation (if applicable) must be provided.

Consumable Supplies: Donated consumable supplies include expendable items such as field supplies. The value assessed to donated consumable supplies shall be reasonable and shall not exceed the fair market value of like items at the time of their donation to the project. In general, three current quotes for like goods should be provided along with the HAP Third Party Supplies Match Form or the HAP Subrecipient Consumables Match Form, as applicable (or other documentation that includes the same information).

Non-Consumable Supplies: Non-consumable supplies have an extended useful life and may include such items as cameras, computer equipment, and tools.

Non-Consumable Supplies Permanently Donated by a Third Party: The value assessed to non-consumable supplies that are permanently donated to the project by a third party (i.e., not returned to the third party owner at the end of the project) shall be reasonable and shall not exceed the fair market value of like items in like condition at

the time of their donation to the project. In general, three current quotes for like goods in like condition should be provided along with the HAP Third Party Supplies Match Form (or other documentation that includes the same information).

Non-Consumable Supplies Temporarily Donated by a Third Party or Donated by a Subawardee: Non-consumable supplies owned by the subawardee (i.e., purchased with nonfederal funds prior to the start date of the project) or non-consumable supplies temporarily donated to the project by a third party may be valued at fair third party rental rates, if rental rates are available for like items. In general, three quotes for renting like items should be provided from vendors as near as possible to the location of the project along with the HAP Subrecipient Non-Consumables Match Form or the HAP Third Party Non-Consumables Match Form, as applicable (or other documentation that includes the same information).

Equipment: Loaned equipment may be valued at fair third-party rental rates. Equipment is defined as an item that costs \$5,000 or more and has a useful life of more than one year. In general, three quotes for renting like items should be provided from vendors as near as possible to the location of the project along with the HAP Subrecipient Equipment Match Form or the HAP Third Party Equipment Match Form, as applicable (or other documentation that includes the same information).

Space: The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality. Documentation must be provided. Office space is not eligible as match.

Services: In-kind (non-personnel) services provided by the subawardee or a third party shall be valued at the usual published rate that entity charges for performing like services. If the entity does not normally charge for similar services, valuation shall be based on actual costs (e.g., personnel, supplies) for performing the services. Documentation of the rate claimed or actual costs, as applicable, must be provided along with the HAP Subrecipient Services Match Form or the HAP Third Party Services Match Form, as applicable (or other documentation that includes the same information). When services consist entirely or primarily of labor, they should typically be valued as personnel costs (see above).

Indirect: Subawardees with approved indirect rates in their direct budget that do not claim the full value of the indirect for reimbursement may claim the difference as match if approved by the Hunter Access Program. The HAP Unrecovered Indirect Match Form must be filled out and provided (or other documentation that includes the same information). Subawardees claiming indirect against match expenses must fill out and provide the HAP Match Budget Indirect Match Form (or other documentation that includes the same information).

- Non-consumable supplies with a current fair market value of \leq \$250 per item may not be used as match.
- The cumulative value of in-kind non-consumable supply or equipment usage over the life of the project and all previous or subsequent Hunter Access Program-funded projects shall not exceed the fair market value of like items in like condition. If rental

rates are used to value supplies or equipment usage, a quote for the purchase of like items in like condition must be provided to ensure that the value claimed does not exceed the purchase price.

- Rental rates for loaned supplies and equipment shall be appropriate to the period of use (e.g., an item used regularly for two months shall be valued at a monthly rate rather than a weekly or daily rate, if available).
- The subawardee's equipment and facilities can't be used for match if depreciation or use allowance is included in its indirect cost pool.
- The subawardee must collect support for cash match contributions to the same level of detail as required for reimbursed expenses. Documentation supporting in-kind rates/values and use, if applicable, must be collected and provided to Hunter Access Program staff with appropriate match forms, or other documentation that includes the same information, at the time that match is claimed. Documentation of match must be readily identifiable as match.
- Match requirements must be met by the time that each invoice is paid (i.e., reimbursement of project expenditures will not occur until the required match has been met). For example, if a subawardee requests reimbursement for \$10,000 of expenses, the invoice will not be reimbursed until documentation of at least \$2,500 of match expenditures (i.e., 25%) has been provided. Excess match expenditures (specific to the project) will carry forward and be available to match future expenses on the same project.
- Match must be spent within the project performance period concurrently or prior to spending federal funds (i.e., match can't be spent at the end of a project after the majority of federal funds have been spent).
- Significant deviations (within $\pm 10\%$) from budget expenditures described in the final project statement must be approved in advance by Hunter Access Program staff.
- All Hunter Access Program-funded costs, including indirect, must be matched.
- The total match provided must be 25% of the total Hunter Access Program-funded budget (e.g., a project with a federally funded budget of \$75,000 requires a \$25,000 non-federal match for a total project cost of \$100,000). In the event a project does not spend its entire budget, only 25% of reimbursed expenses must be provided as match.

ADF&G Hunter Access Grant Program
VOLUNTEER MATCH FORM
(Please use one form for each volunteer)

Grant Number: AKW-_____

Project Title: _____

Organization Name: _____

Volunteer Name: _____

Volunteer Phone/Email: _____

Date of Activity (mm/dd/yyyy)	Miles Driven	Description of Activity Performed (Activity that is Integral to the Project)	Hours Worked*
Total:			

*Volunteers are individuals who are donating their time to the project without compensation by any entity. Round hours up to the nearest 15-minute interval.

Please sign below and turn in your form at the end of each pay period to a supervising staff member or the Administrative Office.

DIRECT BUDGET UNRECOVERED OR UNDER-RECOVERED
INDIRECT COSTS MATCH FORM***

Grant Number: AKW-_____

Project title: _____

A. Period of expenditures (e.g., 1/1/2023 – 3/31/2023): _____

B. Approved indirect rate for the period in question: 0.000%_____

C. Indirect rate that was claimed for reimbursement (if any): 0.000%_____

D. Unrecovered/under-recovered indirect rate (B minus C): 0.000%_____

E. Total direct expenses during this period (lines 1000–5000) eligible for indirect: _____

F. Indirect claimed as match (D multiplied by E): _____

Attach documentation of the indirect rate and the invoice, billing, ALDER report, or other documentation of the relevant direct expenses.

Printed name and title of subrecipient representative

Signature and date

*Indirect costs are based on the subrecipient's approved indirect rate multiplied by the direct costs (i.e., lines 1000-5000) submitted for reimbursement. Entities that do not claim the full value of their indirect costs for reimbursement may claim them as match if approved by ADF&G Hunter Access Program. This form is for using indirect costs charged to the direct (reimbursable) budget as match; if claiming indirect against match expenses, please use the Hunter Access Program Match Budget Indirect Match Form.

**ADF&G Hunter Access Grant Program
MATCH BUDGET INDIRECT COSTS* FORM**

Grant Number: AKW-

Project title: _____

A. Period of expenditures (e.g., 1/1/2023 – 3/31/2023): _____

B. Approved indirect rate for the period in question: 0.000%

C. Total match expenses this period eligible for indirect: _____

D. Indirect claimed as match (B multiplied by C): _____

Attach documentation of the indirect rate and the invoice, billing, ALDER report, or other documentation of the relevant match expenses.

Printed name and title of subrecipient representative

Signature and date

*Match indirect costs are based on the subrecipient's approved indirect rate multiplied by eligible match expenditures. If claiming unrecovered or under-recovered indirect from the direct budget as match, please use the ADF&G Hunter Access Program Unrecovered Indirect Match Form.
