WHEN TO COMPLETE A LOGBOOK

A Charter Vessel Fishing Trip is Defined as the time period between the first deployment of fishing gear into the water from a vessel with one or more paying charter vessel clients onboard and the offloading of one or more paying charter vessel clients or any harvested fish from that vessel.

A trip that consists of no paying clients, that is, all anglers are “comped”, and the guide is NOT receiving any tips or other compensation, would NOT be considered a chartered trip and a logbook data sheet should not be completed and submitted to the Alaska Dept. of Fish and Game. A licensed guide may be present during a private fishing trip but must NOT be compensated by the angler(s) or by any licensed fishing service or any other party.

Before a Trip Begins (see definition above), the Guide must Record:

- The 2013 sport fishing license number, permanent identification number (PID) or disabled veteran (DAV) license number for anyone that will fish during any part of the trip, including paying and non-paying (comped) anglers and crew.
- The first and last name of each angler in the space provided below their license number.
- The word “Youth” in the fishing license space along with the first and last name on the name line for all anglers under the age of 16. Multiple youth anglers on a trip should be recorded as Youth 1, Youth 2 etc.

Complete the logbook through the last charter trip of the season in the following manner:

Returning to a Dock:

- Complete and sign the logbook data page before offloading any fish from the vessel. If no fish were kept, complete the logbook data page before offloading any clients.

No Docking Facilities (e.g., trailered vessels):

- Complete and sign the logbook data page before the vessel or guide departs the launch/landing site AND before offloading any fish from the vessel.
- If no fish were kept, complete the logbook data page before the vessel or guide departs the launch/landing site.

No Vessel Used (aircraft, highway vehicles, walk-in, ATVs, etc.):

- Complete and sign the logbook data page before the guide leaves the fishing site. Fishing site is defined as the location where fishing activity took place.

Multiple Trips per Day:

Use a separate logbook data page for each trip if multiple trips were taken during the same day. Complete the logbook data page at the end of each trip as described above.

Multiple Day Trips:

Complete a logbook page at the end of each day on which sport fishing guide services were provided. Use a separate page for each day of the trip. Record the port or community of offloading at the end of the multiple-day trip, not the port or location where the vessel anchored or moored each night.

For example, for a five-day trip with only three days of guided fishing, three logbook pages should be submitted, all with different dates fished but with the same port of offloading.

RETURN THE LOGBOOK DATA PAGES WEEKLY

Fishing activity that occurs prior to April 7, 2013 is due to ADF&G by April 15, 2013; all activity thereafter must be received by ADF&G **EVERY WEEK** as detailed in the schedule provided on the inside of the front cover of this book. Logbook data pages can be submitted to any regional or area ADF&G office or mailed to the address printed on the back of each logbook page.

INSTRUCTIONS FOR COMPLETING THE 2013 SALTWATER TRIP LOGBOOK PAGES

RESPONSIBILITY OF OWNER & GUIDE

It is the responsibility of the guide to ensure that daily trip activity is accurately recorded as described in these instructions.

It is the responsibility of the business owner (licensed owner of the sport fish business) to ensure that all data for fishing activities from January 1, 2013 through December 31, 2013 is submitted to ADF&G in the manner previously described.

VESSEL REGISTRATION

All vessels used in sport fishing guide activities must be registered with ADF&G. All vessels must have a current AK registration number issued by the Division of Motor Vehicles (DMV) or a current U.S.C.G. documentation number prior to registering with ADF&G. **If the vessel has an AK number, the AK number must be displayed during guided fishing operations.**

VESSEL DECALS/RENEWAL TAGS

One set of ADF&G decals will be issued per registered vessel. Decals must be applied and visible on both sides of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass or "Plexiglas", which in turn is secured to both sides of the vessel. Decals can be transferred from one vessel to another; as long as the receiving vessel has a current AK registration number from DMV or a current U.S.C.G. documentation number and has been registered with ADF&G. Annual stickers or tags will be issued as vessels are registered and must be adhered directly to the decal in the designated area. Lost decals and tags can be replaced free of charge at any ADF&G office.

TRANSFERRING A LOGBOOK

A logbook is issued to a specific business for a specific vessel. All active vessels must be registered and issued a current year logbook from a ADF&G office.

Logbooks may not be transferred between businesses. Only the business issued a logbook may use that logbook. If a vessel belonging to a licensed guide business is borrowed by another business, the borrowing business must be currently licensed and must acquire their own logbook.

If a business substitutes a different vessel for the primary vessel during any part of the season, the original logbook can be used on the substitute vessel for up to **seven (7) consecutive days**. A temporary vessel used for **more than seven (7) consecutive days** must be issued a new logbook. ADF&G must be notified (see contact information on page vii) with the substitute vessel registration information.

All vessels engaged in fishing with clients on board must be registered and display the vessel decals.

WHAT A GUIDE MUST HAVE IN POSSESSION WHILE GUIDING

While providing sport fishing guide services, a sport fishing guide shall have the following readily available for inspection by request of a representative of the Department, a peace officer of the state, or law enforcement representative of the National Marine Fisheries Service:

- Valid sport fishing guide license issued by ADF&G;
- Copy of the current ADF&G sport fishing business license of the guide's employer;
- Valid Alaska sport fishing license, tags, stamps or permits that are required to engage in the sport fishery for which guide services are being provided;
- Identification card issued to the sport fishing guide by a state or federal agency that bears a photo of the sport fishing guide. The identification card **MUST** match the name on the guide license.
- Other agencies such as the U.S. Coast Guard or National Marine Fisheries Service may have additional requirements. **It is your responsibility to determine what those requirements are.**

Angler License numbers along with kept and released information should be recorded only ONCE per trip. All CHP number(s) and CHP Holder(s) used during the fishing season MUST appear on the front cover of the logbook with the primary CHP number used during a trip appearing on the individual trip sheet. If GAF halibut were kept along with Non-GAF halibut, record the number of each within the appropriate category. NOTE: record the number of Non-GAF halibut kept AND released.
2C/3A Operators (operators who fish both 2C and 3A for Halibut)	Federal regulations prohibit retention of halibut from Area 2C and Area 3A during the same charter vessel fishing trip. Contact NOAA for additional federal halibut regulations; see page vii for contact information.

Write down the license number of the recipient of the fish (beneficiary), the beneficiary's first and last name, followed by the word **"Proxy"** on the signature line.

Halibut may not be taken by proxy fishing.

Use two records on the logbook data sheet, one for the angler's license number and name and the other for the beneficiary's license number and name. Mark AK Resident in the adjacent column for both. Beneficiaries and those fishing for them **must** both be residents of Alaska.

For **permanent** licenses (residents only), write down the entire license number, including the preceding alpha character, which can be a **P, D, T** or **Z**, e.g. **Z50148**.
