Vessel Registration

All vessels used in sport fishing guide activities must be registered with ADF&G. All vessels must have a current AK registration number issued by the Division of Motor Vehicles (DMV) or a current USCG documentation number prior to registering with ADF&G. If the vessel has an AK number, the AK number must be displayed during guided fishing operations.

Vessel Decal/Year Stickers

One set of ADF&G decals will be issued per registered vessel. Decals must be applied and visible on both sides of the vessel. Decals do not have to be applied directly to the hull of the vessel. Decals can be adhered to wood, fiberglass or plexiglas® which in turn is secured to both sides of the vessel. Decals can be transferred from one vessel to another; as long as the receiving vessel has a current AK registration number from DMV or a current USCG documentation number and has been registered with ADF&G. Year stickers will be issued as vessels are registered and must be adhered directly to the decal in the designated area. Lost decals and year stickers can be replaced free of charge at any ADF&G office.

Transferring A Logbook

A logbook is issued to a specific business for a specific vessel. All active vessels must be registered and issued a current year logbook from an ADF&G office. Logbooks may not be transferred between businesses. Only the business the logbook is issued to may use the logbook.

If a vessel belonging to a registered sport fish business is borrowed by another business, the borrowing business must be currently registered and must acquire their own logbook.

If a business substitutes a different vessel for the primary vessel during any part of the season, the original logbook can be used on the substitute vessel for up to seven consecutive days. A temporary vessel used for more than seven consecutive days must be issued a new logbook. ADF&G must be notified (see contact information on page v) with the substitute vessel registration information.

All vessels engaged in fishing with clients on board must be registered and display the vessel decals.

Return The Logbook Pages Weekly

Fishing activity that occurs prior to April 3, 2022 is due to ADF&G by April 11, 2022; all activity thereafter must be received by ADF&G WEEKLY as detailed in the schedule on the inside of the front cover of this book. Logbook pages can be submitted to any ADF&G office or mailed to the address printed on the back of each logbook page.

PINK COPIES OF THE LOGBOOK PAGES ARE TO REMAIN IN THE LOGBOOK

Responsibility Of Business Owners & Guides

Guides are responsible for completing logbook pages in the manner and at the location specified in the logbook instructions.

ADF&G licensed business owners are responsible for reporting logbook information and submitting the completed logbook pages to the department for fishing activities from January 1, 2022 through December 31, 2022 for each sport fishing guide they employ in accordance with the schedule printed inside the front cover of the logbook.

What A Guide Must Have In Possession While Guiding

While providing sport fishing guide services, a sport fishing guide shall have the following readily available for inspection by request of a representative of the Department of Fish & Game, a peace officer of the state, or law enforcement representative of the National Marine Fisheries Service:

- A current sport fishing guide registration issued by ADF&G;
- A copy of the current ADF&G sport fishing business registration of the guide's employer;
- A current Alaska sport fishing license, tags, stamps or permits that are required to engage in the sport fishery for which guide services are being provided;
- An identification card issued to the sport fishing guide by a state or federal agency that bears a photo of the sport fishing guide. The identification card **MUST** match the name on the guide license;
- Per federal regulation, a saltwater charter logbook if halibut are being harvested.

Other agencies, such as the USCG or National Marine Fisheries Service, may have additional requirements. It is your responsibility to determine what those requirements are.

See page v for Federal Regulations.

When and How to Complete A Logbook Page

A Charter Vessel Fishing Trip is defined as the time period between the first deployment of fishing gear from a vessel providing sport fishing guide services, and the offloading of one or more anglers or any harvested fish from the vessel. A trip that does not include any paying clients and is completed with “comped anglers” without the guide receiving ANY tips or other compensation is NOT considered a chartered trip. In this case, a logbook page should not be completed and submitted to the ADF&G. If a guide is present during a private fishing trip, the guide may be compensated for actual daily expenses for fuel, food, or bait. In this case a logbook page should not be completed or submitted to ADF&G. However, if the guide receives any other compensation for assisting anglers, such as daily wages, tips, moorage fees, etc. from a registered fishing service or from clients, a logbook page should be completed and submitted to ADF&G.

Additional information about regulations and definitions related to guide and business registration and guiding can be found at: <http://www.adfg.alaska.gov/index.cfm?adfg=SFGuidesLicense.Businesslicense>

Before a Trip (see definition above) Begins, the Guide must Record:

- The 2022 sport fishing license number, permanent identification number (PID) or disabled veteran (DAV) license number for anyone that will fish during any part of the trip, including paying and non-paying (comped) anglers and crew.
- The first and last name of each angler in the space provided below their license number.
- The word “Youth” in the fishing license space along with the first and last name on the name line for resident anglers under the age of 18 and non-resident anglers under the age of 16. Multiple youth anglers on a trip should be recorded as Youth 1, Youth 2 etc.

Complete the logbook through the last charter trip of the season in the following manner:

Returning to a Dock:

- Complete and sign the logbook page before offloading any fish from the vessel. If no fish were kept, complete and sign the logbook page before offloading any clients.

No Docking Facilities (e.g. trailered vessels):

- Complete and sign the logbook page before the vessel or guide departs the launch/landing site AND before offloading any fish from the vessel.
- If no fish were kept, complete and sign the logbook page before the vessel or guide departs the launch/landing site.

No Vessel Used (aircraft, highway vehicles, walk-in, ATVs, etc.):

- Complete and sign the logbook page before the guide leaves the fishing site. Fishing site is defined as the location where the fishing activity took place.

Multiple Trips per Day:

Use a separate logbook page for each trip if multiple trips were taken during the same day. Complete and sign the logbook page at the end of each trip as described above.

Multi-Day Trips:

Complete and sign a logbook page at the end of each day on which sport fishing guide services were provided. Use a separate logbook page for each day of the trip. Record the port or community of offloading at the end of the multiple-day trip, not the port or location where the vessel anchored or moored each night. For example, for a five-day trip with only three days of guided fishing, three logbook pages should be submitted, all with different dates fished but with the same port or community of offloading.

HOW TO REPORT INFORMATION ON THE LOGBOOK PAGE

The 2022 logbook pages are designed to be read by an optical scanner. Your cooperation and neatness in reporting minimizes data entry time and cost, and makes the information available sooner.

1. Use clear and legible handwriting. Print- Do not use cursive.
2. Use a black ink pen; do not use a pencil or other color pen.
3. Do not write in the margins.

Guide Signature	The licensed guide who led the trip with clients on board, MUST sign at the bottom of each page.
Continuing Trip Information	Complete the Page <input type="text"/> of <input type="text"/> if more than one page is required for a trip. For example, if two pages are required to list all anglers, they would be numbered page 1 of 2 and page 2 of 2. The trip information MUST be duplicated on each logbook page used.
Special Instructions & Definitions	
Charter Halibut Permit (CHP)	Federal regulations require that if one or more anglers are catching and retaining halibut in IPHC Area 2C or 3A, a valid Charter Halibut Permit (CHP) for the appropriate regulatory area must be on board the vessel at all times. Record the CHP used during a trip on each page. If more than one CHP is used during a trip, check the box next to the CHP. Complete a separate page for each CHP used during a trip. Unique trip information for each CHP, along with individual angler and catch information must be recorded for each CHP used. Angler License numbers along with Kept and Released information should be recorded only ONCE per trip. All CHP and CHP Holder names used during the fishing season MUST appear on the front cover of the logbook. The CHP used during a trip must appear on the individual logbook page. A CHP needs to appear only once on the cover but must be recorded on the logbook page each time it is used.
<p>NOAA Guided Angler Fish (GAF) Requirements</p> <p>See FEDERAL REGULATIONS on page v for Federal GAF program information</p>	<p>If you have a federal Guided Angler Fish (GAF) permit in 2022 and are allowing clients to harvest halibut under the authority of your GAF permit along side Non-GAF halibut, record the number of each within the appropriate halibut category.</p> <p>NOTE: Record the number of <u>Non-GAF halibut Kept AND Released</u>. Only record the number of <u>GAF halibut Kept</u>.</p> <p>You must record your GAF Permit Number if GAF halibut are kept.</p>

Special Instructions & Definitions (Continued)	
IPHC Area 2C/3A Operators (operators who fish both 2C and 3A for Halibut)	Federal regulations prohibit retention of halibut from IPHC Area 2C and 3A during the same charter vessel fishing trip. Contact NOAA for additional federal halibut regulations; see page v for contact information.
Angler Signature	Federal regulations require every angler (including youth) in IPHC Area 2C or 3A who keep halibut to sign on the angler signature line directly beneath the angler's first and last name on each page.
"Shakers"	King salmon under 28" in Southeast Alaska must be released upon capture, unless caught in designated terminal harvest areas, or allowed by emergency order.
Pelagic Rockfish	Includes black, dark, and dusky rockfish (commonly called "black bass"), yellowtail, widow, and blue rockfish. These species of rockfish are uniformly gray, green, brown, or black (see rockfish ID chart in your regulation booklet).
Yelloweye Rockfish	Commonly called "red snapper." Adults are primarily orange with a pale yellow line running along the lateral line; juveniles display two bold white lateral stripes. Yelloweye Rockfish have yellow eyes and can grow to 36 inches in length.
Other Non-Pelagic Rockfish	Includes quillback, copper, silvergray, China, tiger, and other rockfish species.
Sablefish (Black Cod)	Sablefish, commonly known as black cod, have a streamlined, elongated body, and are black to dark gray on top and fade to gray or white on the belly with two dorsal fins and small teeth. Larger Sablefish can be found in deep water and can grow to 40 inches.
Salmon Shark	This is a single species, <i>Lamna ditropis</i> . These sharks are large, firm, dark brown or black on top with white bellies with dark blotches. Do not include spiny dogfish ("sand shark") or sleeper sharks ("mud sharks") in this category.

FAQ's

What is the actual regulation being changed?

5 AAC 75.076 is simply changing the year from 2021 to 2022 that references forms used by ADF&G.

Why is this regulation being changed?

A law called the “Alaska Administrative Procedures Act” requires that forms that are referenced in regulation comply with the Alaska Administrative Procedures Act if any changes in the regulatory language occur. This includes a public notice process. In this case, because the year is specifically referenced in the regulatory language, it needs to be changed on a yearly basis in accordance with the Alaska Administrative Procedures Act.
