ALASKA DEPARTMENT OF FISH AND GAME

Division of Sport Fish
1255 West 8th Street
P.O. Box 115526
Juneau, Alaska 99811-5526
(907) 465-4180

Mike Dunleavy, Governor
Doug Vincent-Lang, Commissioner

The Alaska Department of Fish and Game (ADF&G) is responsible for managing fish and game under statutory authority from the Alaska Legislature. By law, the mission of ADF&G is to protect, maintain, and improve the fish, game, and aquatic plant resources of the state, and manage their use and development in the best interest of the economy and the well-being of the people of the state, consistent with the sustained yield principle.

The Division of Sport Fish (DSF) is one of four divisions within ADF&G. By law, the mission of DSF is to protect and improve the state's sport fisheries resources. DSF operations are largely funded by anglers and recreational boaters through contributions to Federal Aid in Sport Fish Restoration and ADF&G license funds. At least 15% of the state's federal aid apportionment must be used for improvement of recreational boating facilities and access.

ADF&G MAY CHANGE FISHING REGULATIONS AT ANY TIME BY EMERGENCY ORDER.

Statewide, numerous emergency orders may be issued to open or close seasons or areas, modify bag and possession limits, methods and means, and more in any given year. Most, but not all, affect salmon fishing, as opposed to fishing for resident species. Emergency orders may also be posted at key access points. All emergency orders are widely announced via news media, recorded on ADF&G hotlines, available at ADF&G offices, and online at www.adfg.alaska.gov. Anglers can also subscribe to receive emergency orders, advisory announcements, and press releases through the ADF&G website.

HOW REGULATIONS ARE CHANGED 2

The Alaska Board of Fisheries (Board) adopts Alaska's fishing regulations under statutory authority from the Alaska Legislature. The Board sets fishing seasons, bag limits, and methods and means. It also sets policy and provides direction of the management of the state's fishery resources through regulatory management plans. The Board consists of seven members that are appointed by the governor, confirmed by the Legislature, and serve three-year terms.

The Board process is one of the more open systems for incorporating public input into state fisheries policy. The Board meets four to six times per year to consider proposed changes to fishing regulations in specific areas of the state. Any individual or organization may submit a proposal to change a fishing regulation. The Board uses biological and socioeconomic information provided by ADF&G, public comment, input from Advisory Committees and guidance from the Alaska Department of Public Safety and Alaska Department of Law when creating regulations.

The Board meets on a three-year cycle. It most recently addressed Bristol Bay Finfish regulations in December 2022; Arctic, Yukon, and Kuskokwim Finfish regulations in January 2023; Alaska Peninsula, Aleutian Island, and Chignik Finfish regulations in February 2023; and will address Statewide Finfish regulations in March 2023.

HOW TO USE THIS BOOK

Licensing Requirements - Read licensing and harvest recording requirements on pages 5 and 6.

Regional Regulations - Read the regional regulations for allowable sport fishing gear, possession requirements for sport-caught fish, and other general regulations, as well as prohibited acts.

General Regulations - Read the general regulations for seasons, bag, possession, and size limits, and methods and means for the area in which you intend to fish.

Special Regulations - Check out the Southeast Alaska Waters Index on pages 13 and 14. If a special regulation exists for the species when and where you plan to fish, follow the special regulation; special regulations supersede the general regulations listed for that area. If the waters you plan to fish **DO NOT APPEAR** in the index or within the special regulations, follow the general regulations for seasons, bag, possession, and size limits, and methods and means for that area.

This summary of Alaska sport and personal use fishing and shellfish regulations is published by the Division of Sport Fish as a service to anglers. It is not intended to be a complete digest of all fishing regulations.

For a complete list of all sport fishing regulations, see the Alaska Administrative Code, Title 5 online at www.akleg.gov/basis/aac.asp#5.

Some regulations in this booklet may be changed by the Alaska Board of Fisheries during its regular meetings, by emergency regulation, or by emergency order at any time.

Anglers Please Note: New or revised regulations and information for 2023 are printed in **GREEN TEXT** with a corresponding  symbol.

EMERGENCY ORDERS: Inseason changes to regulations.

Regulations in this booklet may be changed by emergency order at any time. If an inseason change has been made by emergency order for the species when and where you plan to fish, follow the inseason regulation; inseason regulatory changes prevail over the regulations listed in this booklet. All such changes can be found by contacting any ADF&G Sport Fish office or online on the ADF&G website.

**YOU CAN SIGN UP TO RECEIVE EMERGENCY ORDER NOTIFICATIONS VIA EMAIL.

PROPER **CATCH-AND-RELEASE** METHODS

4

Sport fishing in Alaska requires sound and ethical angling practices to ensure continued opportunity for years to come. By following these tips when fishing, an angler can help increase the chance of survival for released fish and help conserve some of Alaska's most unique and important resources.

TAKE PICTURES OF THE FISH IN THE WATER.

HOOKING MORTALITY IS OFTEN HIGHER FOR FISH HOOKED IN VITAL AREAS SUCH AS THE GILLS AND STOMACH. BAIT INCREASES THE CHANCE OF HOOKING IN THESE AREAS.

DO

- Handle the fish as little as possible. If you must touch the fish, use wet hands to maintain scale integrity.
- Use tools such as pliers or forceps to remove the hook without removing the fish from the water.
- Support the weight of fish along the length of its entire body.
- Barbless hooks, single-hook lures, or flies allow for an easier release.
- Use hooks that will rust away. This provides anglers the option to cut the line near the hook if the fish is hooked in a vital area such as the gills, esophagus, or stomach.
- Use knotless or rubber nets if a landing net is necessary before release.
- Use a deepwater release device when releasing rockfish. See page 39 for more information.

DON'T

- Don't use bait if you plan to release the fish. Fish typically swallow bait deeper which can increase release mortality.
- Don't remove the fish from the water unless necessary for dehooking, measuring, or for identification.
- Don't use a gaff to puncture a fish that is intended for release.
- Don't fight the fish until exhaustion.
- Don't suspend a fish by its lip, gill plate, or tail.
- Don't release a fish without reviving it by supporting it in water until it is able to swim away.

AN ALASKA SPORT FISHING LICENSE IS REQUIRED FOR ALL RESIDENT ANGLERS 18 YEARS AND OLDER, AND NONRESIDENT ANGLERS 16 YEARS AND OLDER TO FISH IN ALL FRESH AND SALT WATERS IN ALASKA.

A sport fishing license must be in the anglers actual possession, must be signed, and may be in paper or electronic form.

- In accordance with the regulations outlined in this summary booklet, a sport fishing license allows you to take, or attempt to take finfish or shellfish in the fresh and salt waters of Alaska. Additionally, you may need a king salmon stamp or a harvest record card.
- Your sport fishing license, PID, or DV must be in your possession while you are sport fishing.
- All persons engaged in sport fishing or in possession of sport-caught finfish or shellfish must show their sport fishing license, required harvest record card and/or king stamp, and their harvest to any representative of ADF&G or any peace officer of the state, upon request.
- No person may alter, loan, or transfer to any other person any sport fishing license; and no person may use any license issued to another person.
- If your sport fishing, hunting, or trapping license is revoked in any state, you may not obtain an Alaska sport fishing license.

A resident of Alaska is a person who...

- For the preceding 12 consecutive months, has maintained a home in Alaska with the intent to stay, and who is not claiming residency (or receiving benefits under a claim of residency) in another state, territory, or country. Benefits include but are not limited to applying for a resident fishing and hunting license in another state, obtaining a driver's license in another state, or receiving benefits or paying taxes as a resident of another state.

Active duty military personnel and their dependents...

- Stationed in Alaska for the preceding 12 months may purchase a resident sport fishing license regardless of benefits received in another state. Resident sport fishing regulations apply.
- Permanently stationed in Alaska for less than 12 months may purchase a nonresident military sport fishing license and a nonresident military annual king salmon stamp at reduced rates and are considered nonresidents. Nonresident sport fishing regulations apply.

If you have questions about your residency, please call your local Alaska Wildlife Troopers. See the Alaska Wildlife Troopers telephone numbers listed on page 43.

SPORT FISHING LICENSE FEES - ALASKA RESIDENTS

Alaska Sport Fishing License \$20
Alaska residents 18 years old and older. Valid for the calendar year from date of purchase.

ADF&G Permanent (Senior) ID Card (PID) FREE
Free to qualifying Alaska residents. You must be 60 years old or older to apply for a PID which is good for fishing, hunting, and trapping. **FOR ALASKA RESIDENTS ONLY.** If you become a nonresident, your PID card is no longer valid and you are required to purchase a nonresident sport fishing license.

ADF&G Disabled Veteran ID Card (DV) FREE
Free to qualifying Alaska residents who are disabled veterans with a disability of 50% or greater that was incurred during military service. This card is only good for fishing and hunting. **FOR ALASKA RESIDENTS ONLY.** If you become a nonresident, your DV card is no longer valid and you are required to purchase a nonresident sport fishing license.

Resident Blind Sport Fishing License \$0.50
Affidavit required - forms are available from ADF&G or license vendors.

Low Income Sport Fishing License \$5
To be eligible for a low income license, you must be an Alaska resident and have an annual family or household income equal to or less than the most recent poverty guidelines for the state. These are set by the U.S. Department of Health and Human Services for the year preceding application. AS. 16.05.340(a)(6) **THIS IS NOT A PROGRAM BASED LICENSE.** For more information, please visit www.adfg.alaska.gov/index.cfm?adfg=license.lowincome.

SPORT FISHING LICENSE FEES - NONRESIDENTS

Nonresidents under the age of 16 years old do not need to purchase a sport fishing license. Residents of the Yukon Territory may purchase a nonresident license at Alaska resident fees. Annual sport fishing license is valid for the calendar year from date of purchase.

1-Day Sport Fishing License \$15

3-Day Sport Fishing License \$30

7-Day Sport Fishing License \$45

14-Day Sport Fishing License \$75

Annual Sport Fishing License \$100

Nonresident Military Annual Sport Fishing License ... \$20
Only for active duty military service members permanently stationed in Alaska for less than 12 months or for their dependent(s) of such.

SPORT FISHING HARVEST RECORD

Harvest records are required by ALL anglers when harvesting any species with an annual limit. Species with an annual limit are listed in the general regulations section.

• Areas to record harvested species with an annual limit are printed on each sport fishing license.

• A harvest record card is required for resident anglers under 18 years old, nonresident anglers under 16 years old, and PID or DV licensed anglers.

• Immediately upon landing and retaining a fish that has an annual limit, all anglers must enter the species, date, and location **IN INK** on the harvest record portion listed on the back or front of their sport fishing license or on a harvest record card.

• A person obtaining a duplicate or additional license or harvest record card must transfer their harvest records of species with annual limits previously landed during the current year to their new license or harvest record card.

**Alaska Department of Fish and Game

For more information, please review the back of the card or visit www.adfg.alaska.gov.

Example of a Harvest Record Card

WHERE TO GET A SPORT FISHING LICENSE, STAMP, & HARVEST CARD

Sport fishing licenses and king salmon stamps may be purchased at local ADF&G offices, from licensed local vendors (i.e. sporting good stores), and online at <https://store.adfg.alaska.gov>.

Harvest record cards are available at local ADF&G offices, from licensed local vendors, and online at https://www.adfg.alaska.gov/static/license/sportlicense/pdf/sf_harvest_record_card.pdf.

PID or DV cards may be obtained online at <https://store.adfg.alaska.gov>.

KING SALMON STAMP INFORMATION

Anglers sport fishing for king salmon including catch-and-release (except king salmon stocked into landlocked lakes) must purchase a current year's king salmon stamp. Anglers can purchase stamps online and print them immediately. If you purchase a physical stamp, it must be signed across the face of the stamp, in ink, and stuck to the back or front of your sport fishing license depending if you have purchased a handwritten sport fishing license or a sport fishing license online.

Examples of a physical king salmon stamp and a king salmon stamp purchased through the ADF&G online store. →

KING SALMON STAMP FEES

Alaska residents 18 years and older and nonresidents 16 years and older need to purchase a king stamp to fish for king salmon in fresh and salt waters.

Annual king stamps are valid for the calendar year from date of purchase.

Resident Annual King Salmon Stamp	\$10
Nonresident 1-day King Salmon Stamp	\$15
Nonresident 3-day King Salmon Stamp	\$30
Nonresident 7-day King Salmon Stamp	\$45
Nonresident 14-day King Salmon Stamp	\$75
Nonresident Annual King Salmon Stamp	\$100
Nonresident Military King Salmon Stamp	\$30
Duplicate King Salmon Stamp	\$5

The following individuals do not need a king salmon stamp:

- Resident anglers under 18 and nonresidents under 16.
- Residents who possess an ADF&G PID and DV card.
- Residents who possess the Low Income Sport Fishing License.
- Residents who possess the Resident Blind Sport Fishing License.

Purchase your sport fishing license, king salmon stamp, permits, and so much more through the ADF&G online store.

DATA COLLECTION REQUIREMENTS

Upon request by a department representative or state peace officer, anglers must forfeit the heads of any salmon or trout with external or internal tags or an adipose finclip along with date and location of catch.

LIABILITY FOR VIOLATIONS

Unless otherwise provided by regulation or statute, a person who violates a provision of these regulations is strictly liable for the offense, regardless of that person's intent.

PROHIBITED ACTS

BAIT PROHIBITED IN FRESH WATER FROM NOVEMBER 16 THROUGH SEPTEMBER 14:

- Only unbaited, artificial lures or flies may be used.
- The use of bait is only allowed in freshwater from September 15 through November 15, unless otherwise noted in the Special Regulations listed on pages 15-32.

CLOSED WATERS/ WATERS CLOSED TO SPORT FISHING:

- Unless otherwise posted by department markers, it is unlawful to cast, drift, or place by any means a hook, bait, artificial lure, or artificial fly into waters closed to sport fishing.

FELT-SOLED BOOTS PROHIBITED:

- The use of footwear with absorbent felt or other fibrous material on the soles is prohibited while sport fishing in fresh water. See page 45.

GAFFS PROHIBITED:

- A gaff may not be used to puncture any fish intended or required to be released.

MOLESTING OF FISH:

- Molesting or impeding spawning or the natural movement of fish contrary to lawful methods and means of sport fishing is prohibited.

POSSESSION, TRANSPORT, OR MARKING OF LIVE FISH, EGGS, OR AQUATIC ORGANISMS:

- It is unlawful, except in accordance with the provisions listed on page 8 under "Use of Sport-Caught Fish as Bait," or in compliance with the terms of a permit issued by the Commissioner for a person to collect, transport, possess, propagate, export, mark in any way, or release into the waters or the lands of the state, any live fish, fish eggs, or aquatic organism.
- It is unlawful for a person to possess, import, propagate, transport, release, purchase, or sell within the state a banned invasive species (see Definitions on page 42), including any part of the organism, such as reproductive or genetic material, at any stage of its life cycle.

SALE OF SPORT-CAUGHT FISH PROHIBITED:

- No person may buy, sell, or barter sport-caught fish or their parts.

SNAGGING IN FRESH WATER PROHIBITED:

- It is unlawful to intentionally snag or attempt to snag any fish in fresh water.
- "Snag" means to hook a fish elsewhere than in its mouth. A fish unintentionally hooked elsewhere than its mouth must be released immediately.

USE OF EXPLOSIVES OR TOXICANTS:

- The use of any toxicant or explosive is prohibited in the taking of any fish in the waters of Alaska. Except that a shaft tipped with an explosive charge (commonly known as a bangstick or powerhead) or a firearm may be used on board a vessel in salt water to dispatch a fish caught with legal gear.

WASTE OF FISH:

- The intentional waste or destruction of any species of sport-caught fish is prohibited.

METHODS AND MEANS

FISH LADDERS:

- Fishing is allowed within 300-feet of fish ladders unless otherwise posted by department markers. No person may fish from, on, or in a fish ladder.

SPORT FISHING GEAR:

Unless otherwise provided in regulation, sport fishing may be conducted only by use of:

- A single line per angler attached to not more than one plug, spoon, spinner, or series of spinners, or two flies, or two hooks.
- The line must be closely attended.
- No more than six lines may be fished from any vessel.
 - The maximum number of fishing lines that may be fished from a vessel engaged in charter activities is equal to the number of paying clients on board the vessel but cannot exceed six lines.

FRESH WATER SPORT FISHING:

Fish may not be taken in fresh water by means of:

- Fixed or weighted hooks and lures (except those of standard manufacture).
- Multiple hooks with gap between point and shank larger than one-half inch.
- Spear, unless permitted by area regulations; or arrow, unless permitted by area regulations.
- **Spearguns are not legal gear in fresh waters.**
- Bowfishing is prohibited in Southeast Alaska.
- The use of bait is only allowed from September 15 through November 15. This regulation applies to all fresh waters, unless otherwise noted in the specific exceptions listed on pages 15-32.
- Fresh waters closed to salmon fishing but open to trout, grayling, char, or kokanee fishing are also open to the taking of salmon less than 16 inches in length.
- Sport fishing through the ice is permitted with the use of two closely attended lines, provided only one hook or artificial lure is used on each line.

POWER-ASSISTED FISHING REEL:

A power-assisted fishing reel may only be used to sport fish if:

- The reel is mounted on a fishing rod by means of a reel seat and;
- The reel assembly, motor, gearbox, fishing line, reel-mounted battery, or other reel-mounted attachments weigh no more than 15 pounds in total when detached from the fishing rod.

METHODS AND MEANS (CONTINUED)

SPORT FISHING GEAR FOR HERRING AND SMELT:

- In salt water, herring and smelt may be taken with the use of 15 or less unbaited, single or multiple hooks attached to a single line.

USE OF UNDERWATER SPEAR (SALT WATER):

- In salt water, spears and spearguns may be used to take fish, subject to applicable seasons and limits, by persons who are completely submerged, provided that the spear or speargun is not tipped with an explosive charge.
- Bowfishing is prohibited in Southeast Alaska.

USE OF ATTRACTOR (BEAD):

An attractor, including a bead, when used with an artificial fly, artificial lure, or bare hook, must be:

- Either fixed within two inches of the bare hook, fly, or lure,
- Or be free sliding on the line or leader.
- A bead fished on the line above a bare single hook is legal gear in waters where only flies may be used.

SPORT FISHING FROM COMMERCIALY LICENSED VESSELS

- A person sport fishing from a vessel licensed for commercial salmon fishing shall immediately mark harvested salmon by removing its dorsal (large back) fin. This marking requirement doesn't apply to commercial vessels that are also registered as charter vessels when paying clients are on board.
- Sport fishing from a commercially licensed vessel while commercially caught salmon are in possession is illegal in waters closed to commercial salmon fishing.
- A person may not sport fish and commercial fish for salmon from the same vessel on the same day.
- A person may not possess unpreserved sport caught salmon on any commercial salmon vessel while engaged in commercial salmon fishing.
- Additional restrictions and provisions apply to persons and vessels who participate in commercial shellfish fisheries. For specific information, see commercial shellfish regulations.

POSSESSION OF SPORT-CAUGHT FISH (EXCEPT HALIBUT)

- Sport-caught fish, their parts, and articles manufactured from such fish may be possessed within the state by any person at any time, and may be transported within and exported out of the state by any person at any time, except that no person may possess any unpreserved fish, or part of one, not legally taken by the angler, unless the angler furnishes, upon request of any peace officer of the state, a statement signed by the person taking the fish stating the type of fish, number of fish, location, date taken, and license number. The statement is unnecessary if the person possessing the fish is accompanied by the person who took the fish. See Transfer of Possession Form on page 47. No person may possess fish which were not legally taken.
- A person may possess only the limit of fish allowed for the water on which that person is fishing.
- Upon request by an employee of the department, or a peace officer of the state, a person must present for inspection any fish taken or possessed by the person in a sport fishery.
- Upon request by an employee of the department or a peace officer of the state, a person while taking fish must present, for inspection, any apparatus designed to be or capable of being used to take fish in a sport fishery.

USE OF SPORT-CAUGHT FISH AS BAIT

- Unless provided for in this section, fish taken under sport fishing regulations may not be used as bait, except:
 - Herring, chum salmon, pink salmon, and whitefish may be used as bait, and:
 - Species for which bag limits and seasons are not provided for in sport fishing regulations, as well as:
 - The head, tail, fins, closely trimmed skeleton, and viscera of legally taken sport fish, may be used as bait.
- Live herring and other species for which no seasonal or harvest limits are specified in sport fishing regulations may be used as live bait, except that live fish may not be used as bait for sport fishing in fresh water.
 - Live bait may be possessed, transported, or released only in the salt waters of the regulatory area in which it was taken.

USE OF SPORT-CAUGHT HALIBUT

- Pacific halibut fisheries are managed by the federal government under international treaty.
- Federal possession and landing requirements for sport-caught halibut differ from state regulations. Possession includes unpreserved AND preserved fish for halibut, but possession limits only apply in saltwaters.
- Transfer of Possession forms, as mentioned in the previous section, are not valid for halibut.
- Consult federal regulations for halibut bag, size, and possession limits for guided (charter) anglers; and possession and landing requirements.
- Federal halibut regulations are available through NOAA Fisheries Alaska Region at (907) 586-7228.
www.alaskafisheries.noaa.gov/fisheries/sport-halibut

SPORT FISH GUIDING

- All individuals and businesses who are providing sport fishing guide services must register and obtain a guide and/or business registration with ADF&G before guiding clients.
- All sport charter vessels used for the guided taking of fish or shellfish in fresh or salt water must have a current Division of Motor Vehicles boat registration number or USCG documentation number and an ADF&G sport fishing guide vessel decal with the current year renewal sticker.
 - Decals must be displayed in plain sight on each side of the vessel any time sport fishing guide services are taking place.
- In Southeast Alaska, all saltwater sport fishing businesses must use an eLogbook.
- Additional information on requirements for sport fish guides and businesses can be found online at www.adfg.alaska.gov/index.cfm?adfg=SFGuidesLicense.main.

GENERAL REGULATIONS - FRESH WATER

The fresh water fishing season for all species is open year-round except for king salmon in the fresh waters between Cape Fairweather and the International Boundary at Dixon Entrance.

KING SALMON

- **Yakutat Area (between Cape Suckling and Cape Fairweather).** See map on page 15:
 - 20 inches or longer: 1 per day, 1 in possession.
 - Less than 20 inches: 10 per day, 10 in possession.
- Nonresident anglers: **Annual limit is established annually by an emergency order as specified in the Southeast Alaska King Salmon Management Plan.**
- **Southeast Alaska (outside of the Yakutat Area):** **CLOSED**

COHO SALMON

- **Between Cape Suckling and Cape Fairweather:**
 - 16 inches or longer: 4 per day, 8 in possession.
- **Between Cape Fairweather and Dixon Entrance:**
 - 16 inches or longer: 6 per day, 12 in possession.

CHUM, PINK, AND SOCKEYE SALMON (INCLUDING KOKANEE)

- 16 inches or longer: 6 of each species per day, 12 of each species in possession.

COHO, CHUM, PINK, AND SOCKEYE SALMON (INCLUDING KOKANEE) (IN COMBINATION)

- Less than 16 inches: 10 per day, 10 in possession.

STEELHEAD

- 36 inches or longer: 1 per day, 2 in possession. 2 fish annual limit, harvest record is required (see page 6).

CUTTHROAT AND RAINBOW TROUT (IN COMBINATION)

- 11 inch minimum and 22 inch maximum size limit: 2 per day, 2 in possession.

DOLLY VARDEN

- No size limit: 10 per day, 10 in possession.

BROOK TROUT

- No size limit: 10 per day, 10 in possession.

ARCTIC GRAYLING

- No size limit: 10 per day, 10 in possession.

OTHER FISH SPECIES NOT LISTED ABOVE

- Open, no limit.

Teamwork makes the dream work. Take a kid fishing!

It is unlawful to operate a motorized or tracked vehicle, without a valid Fish Habitat permit, in or across waters where salmon, trout, Dolly Varden, Arctic char, sheefish, or whitefish spawn, rear, or migrate. For more information, please contact the ADF&G Habitat Division in Douglas at (907) 465-4105 or in Craig at (907) 826-2560.

GENERAL REGULATIONS - SALT WATER

The salt water fishing season for all species is open year-round, except for halibut, lingcod, rockfish, Tanner crab, and resident king crab fisheries. For shellfish regulations see pages 33-36.

KING SALMON

- 28 inches or longer: Bag, possession, annual, and size limits are established by emergency order, as specified in the Southeast Alaska King Salmon Management Plan.
- Less than 28 inches: Retention prohibited.
- Nonresident anglers: A harvest record is required (see page 6). Anglers should check with the nearest ADF&G office for current bag, possession, annual, and size limit regulations.
- Charter operators and crew members may not retain king salmon while clients are on board the vessel.

COHO, CHUM, PINK, AND SOCKEYE SALMON

- 16 inches or longer: 6 of each species per day, 12 of each species in possession.

COHO, CHUM, PINK, AND SOCKEYE SALMON (IN COMBINATION)

- Less than 16 inches: 10 per day, 10 in possession.

STEELHEAD

- 36 inches or longer: 1 per day, 2 in possession. 2 fish annual limit, harvest record required (see page 6).

CUTTHROAT AND RAINBOW TROUT (IN COMBINATION)

- 11 inch minimum and 22 inch maximum size limit: 2 per day, 2 in possession.

DOLLY VARDEN

- No size limit: 10 per day, 10 in possession.

SABLEFISH (BLACK COD)

- Alaska residents: No size limit: 4 per day, 4 in possession.
- Nonresidents: No size limit: 4 per day, 4 in possession. 8 fish annual limit, harvest record is required (see page 6).

SHARKS (EXCEPT SPINY DOGFISH)

- No size limit: 1 per day, 1 in possession. 2 shark annual limit, harvest record required (see page 6).

SPINY DOGFISH

- No size limit: 5 per day, 5 in possession, harvest record is **NOT** required.

Make memories that will last a lifetime.

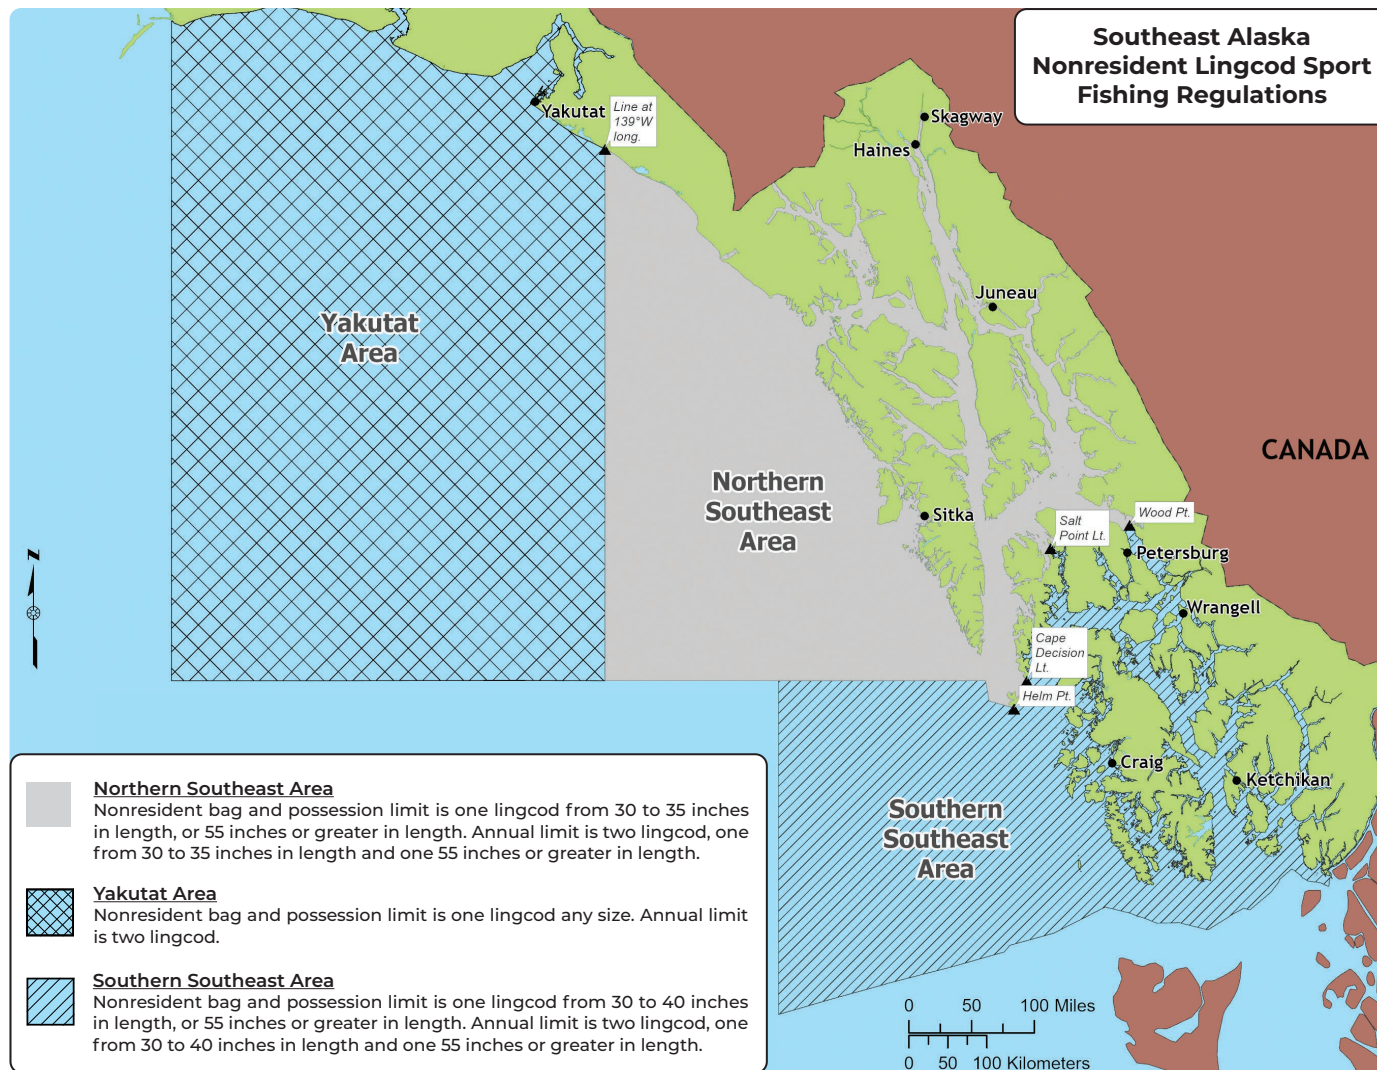

...continued

LINGCOD

- **Season:** May 16-November 30.
- **Charter operators and crew members may not retain lingcod while clients are on board the vessel.**
- **Yakutat Lingcod Area:**
 - **Alaska Residents**
 - No size limit: 1 per day, 2 in possession.
 - **Nonresidents**
 - No size limit: 1 per day, 1 in possession; annual limit of 2 fish, harvest record is required (see page 6).
- **Northern Southeast Lingcod Area:**
 - **Alaska Residents**
 - No size limit: 1 per day, 2 in possession.
 - **Nonresidents**
 - 1 per day, 1 in possession; 30-35 inches or 55 inches and longer, annual limit of 2 fish, one of which is 30-35 inches in length, and one that is 55 inches or greater in length, harvest record is required (see page 6).

Lingcod caught in SE waters.

• **Southern Southeast Lingcod Area:**

• **Alaska Residents**

- No size limit: 1 per day, 2 in possession.

• **Nonresidents**

- 1 per day, 1 in possession; 30-40 inches or 55 inches and longer, annual limit of 2 fish, one of which is 30-40 inches in length, and one that is 55 inches or greater in length, harvest record is required (see page 6).

...continued

HALIBUT

- **January 1-January 31:** Closed to fishing for halibut.
- **Season:** February 1-December 31.
- **Unguided anglers:**
 - No size limit: 2 per day, 4 in possession.
- Pacific halibut fisheries are managed by the federal government under international treaty.
- Federal possession and landing requirements for sport-caught halibut differ from state regulations. Possession includes unpreserved AND preserved fish for halibut.
- Proxy fishing for halibut is not allowed.
- No person shall possess on board a vessel, including charter vessels and pleasure craft used for fishing, Pacific halibut that have been filleted, mutilated, or otherwise disfigured in any manner, except that each Pacific halibut may be cut into no more than 2 ventral pieces, 2 dorsal pieces, and 2 cheek pieces, with a patch of skin on each piece, naturally attached.
- Consult federal regulations for the following: bag, size, and possession limits for guided (charter) anglers; possession and landing requirements, and inseason changes to the regulations.
- Federal halibut regulations are available through NOAA Fisheries Alaska Region at (907) 586-7228.

www.alaskafisheries.noaa.gov/fisheries/sport-halibut

ALL ROCKFISH

- All vessels must have at least one functional deepwater release mechanism on board and readily available for use when sport fishing activities are taking place regardless of species targeted.
- All rockfish not retained must be released at the depth they were caught or 100 feet, whichever is shallower.
- Upon request, a deepwater release mechanism must be presented to a local representative of the department or a peace officer of the state.

PELAGIC ROCKFISH

- Pelagic rockfish include black, blue, dark, dusky, widow, and yellowtail. These six species are uniformly gray, green, brown, or black (see page 38). All rockfish not listed as pelagic are considered nonpelagic.
- No size limit: 5 per day, 10 in possession.

NONPELAGIC ROCKFISH (DEMERSAL SHELF AND SLOPE ROCKFISH) - All Southeast Waters

• Demersal Shelf Rockfish (DSR):

- **Alaska Residents:** No size limit: 1 per day, 2 in possession, excluding yelloweye which may NOT be retained.
- **Nonresidents:** Demersal shelf rockfish may NOT be retained.
- Demersal shelf rockfish include canary, China, copper, quillback, rosethorn, tiger, and yelloweye (see pages 38-39).

• Slope Nonpelagic Rockfish:

- No size limit: 1 per day, 2 in possession.
- Slope rockfish include blackgill, blackspotted, bocaccio, brown, chilipepper, darkblotched, greenstriped, harlequin, northern, Pacific Ocean perch, Puget Sound, pygmy, redstripe, redbanded, roughey, sharpchin, shortbelly, shortraker, silvergray, splitnose, stripetail, vermilion, and yellowmouth (see pages 38-39).

OTHER FISH SPECIES NOT LISTED ON PAGES 10-12

- Open, no limit.

Examples of Rockfish Release Devices

FISHING REPORTS  ADVISORY ANNOUNCEMENTS  EMERGENCY ORDERS

YAKUTAT MANAGEMENT AREA - SPECIAL REGULATIONS

SPECIAL REGULATIONS - FRESH WATER

The following regulations apply to all drainages crossed by the Yakutat road system and all streams draining into the Yakutat Bay between Ocean Cape and Point Latouche:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.

SITUK-AHRNKLIN ESTUARY - all waters flowing into the Situk-Ahrnklin Estuary:

- Sockeye salmon limits:
 - 3 per day, 6 in possession.

ANTLEN RIVER DRAINAGE (including Pike Lakes) - upstream of the Forest Highway 10:

- **Northern pike retention prohibited.** Any northern pike caught must be released immediately.

LOST RIVER DRAINAGE (unless specified below):

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.
- **Lost River - Upstream from the Lost River Bridge:**
 - The fishing season is open January 1-August 14.
- **Ophir Creek - upstream from the Yakutat Airport highway Ophir Creek Bridge:**
 - **Closed year-round to sport fishing.**
- **Tawah Creek - within 50 yards of the R.E.L (Cannon Beach Road) Bridge:**
 - The fishing season is open October 1-June 15.

...continued

SITUK AREA

**SITUK RIVER DRAINAGE** (unless specified below):

- Single hooks only allowed. Up to two single hooks per line may be used.
- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.
- **Situk River from its mouth to the railroad bridge ruins:**
 - The fishing season is open October 15-June 14, except anglers 60 years of age or older may fish this section of river year-round.
- **Upstream from the Middle Situk airstrip:**
 - The fishing season for king salmon is open September 1-June 30.
- **Upstream from the ADF&G markers located 2 miles upstream from the Situk River Nine Mile Bridge to ADF&G markers 2 miles downstream from Situk Lake:**
 - The fishing season is open May 16-April 14.

YAKUTAT AREA

SPECIAL REGULATIONS - SALT WATER

YAKUTAT MANAGEMENT AREA:

All waters between the longitude of Cape Suckling (144° W long.), and a line projected SW (225°) seaward from the westernmost tip of Cape Fairweather (58°47.89'N. lat. and 137°56.68'W. long.).

- **Closed to sport fishing for Dungeness crab.**

ANKAU LAGOON:

- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.
- **All salt waters of Ankau Lagoon - east of a line from Smokehouse Pt. north to the mainland:**
 - The fishing season is open October 1-August 14.

NEW **PUGET COVE** (see map on the bottom):

- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.

VILLAGE LAGOON:

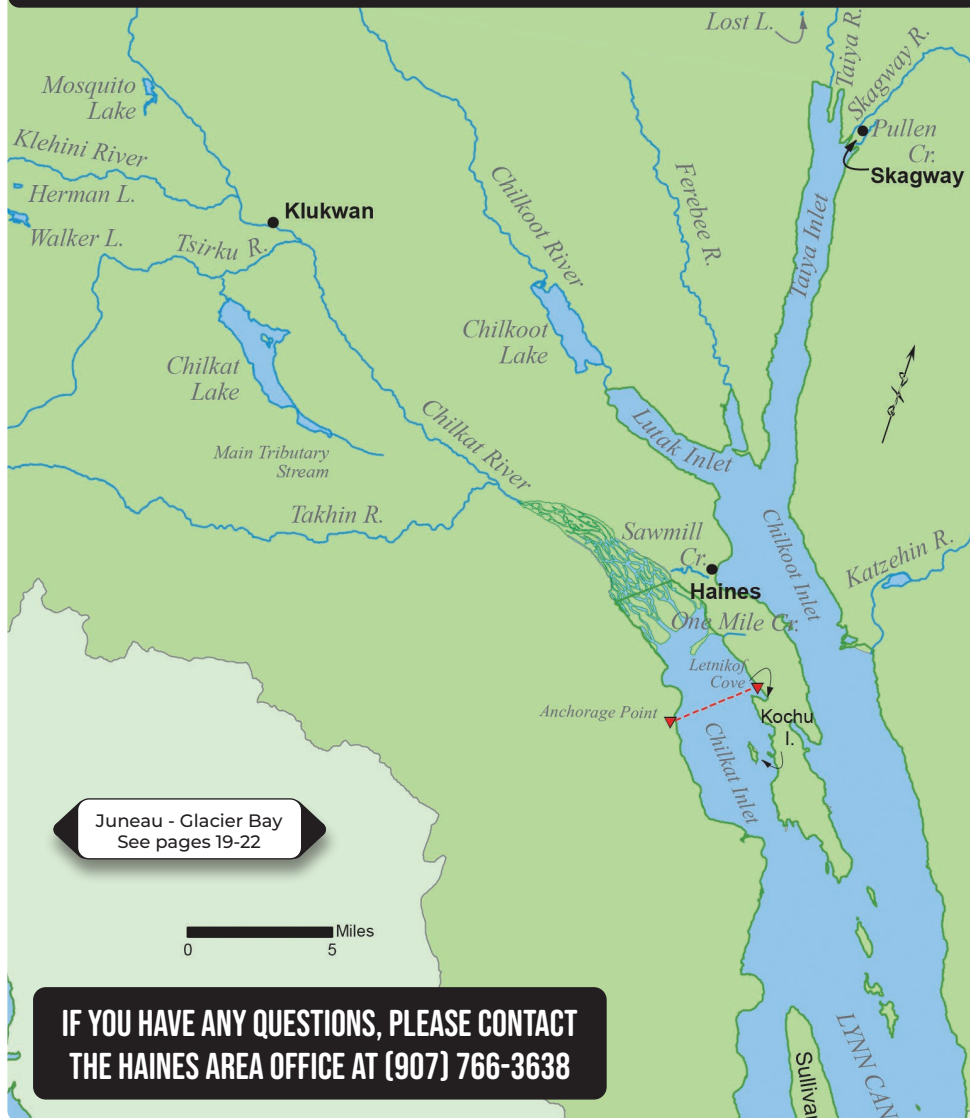

- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.

Jumping coho salmon.

FRESH WATER SPECIAL REGULATIONS - HAINES/SKAGWAY

CHILKAT RIVER DRAINAGE (unless specified below):

- The use of bait is allowed year-round.
- Coho salmon limits: 16 inches or longer: 3 per day, 6 in possession.

• Mosquito Lake:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

• Mosquito Lake inlet and outlet streams down to the confluence with Chilkat River:

- The use of bait is allowed September 15-November 15.

• Chilkat Lake:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

• Chilkat Lake inlet and outlet streams down to the confluence with the Tsiurku River:

- The use of bait is allowed September 15-November 15.

• Chilkat Lake's tributary stream (located at the southeast end of the lake):

- The use of bait is allowed September 15-November 15.
- Fishing season is open July 1-March 31.

...continued

CHILKOOT RIVER DRAINAGE:

- Chilkoot Lake inlet streams - including upper Chilkoot River:
 - **Closed to salmon fishing.** All salmon caught must be released immediately.
 - The use of bait is allowed year-round.
 - Dolly Varden limits:
 - 4 per day, 4 in possession, no size limit.
- **Chilkoot Lake and Chilkoot River below lake:**
 - The use of bait is allowed year-round.
 - Chum, pink, and sockeye salmon limits:
 - 16 inches or longer: 6 of each species per day, 6 of each species in possession.
 - Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.
 - Dolly Varden limits:
 - 4 per day, 4 in possession, no size limit.

HERMAN LAKE:

- The use of bait is allowed year-round.

ONE MILE CREEK (Mud Bay Road):

- Fishing season is open July 1-March 31.

SAWMILL CREEK and its tributaries:

- Fishing season is open July 1-March 31.

WALKER LAKE:

- The use of bait is allowed year-round.

SALT WATER SPECIAL REGULATIONS - HAINES

CHILKAT INLET - in all salt waters north of a line from an ADF&G marker 1 mile south of Anchorage Point to an ADF&G marker directly north of the Letnikof Cove boat ramp:

- **Closed to king salmon fishing April 15-July 15.**
- Any king salmon caught from April 15-July 15 must be released immediately.
- Outside of April 15-July 15, please check for emergency orders for current regulations or contact the local ADF&G office.

When your catch is as big as your kiddos!

FRESH WATER SPECIAL REGULATIONS - SKAGWAY AREA

LOST LAKE:

- The use of bait is allowed year-round.
- Rainbow trout limits: 2 per day 2 in possession, 9 inches or longer.

PULLEN CREEK (above Second Ave.):

- Fishing season is open December 1-September 14.

TAIYA INLET DRAINAGES - all waters flowing into Taiya Inlet including lakes:

- The use of bait is allowed year-round.

A young angler and their catch.

ADMIRALTY ISLAND

FRESH WATER SPECIAL REGULATIONS - JUNEAU AREA ROAD SYSTEM

ALL JUNEAU AREA ROAD SYSTEM DRAINAGES:

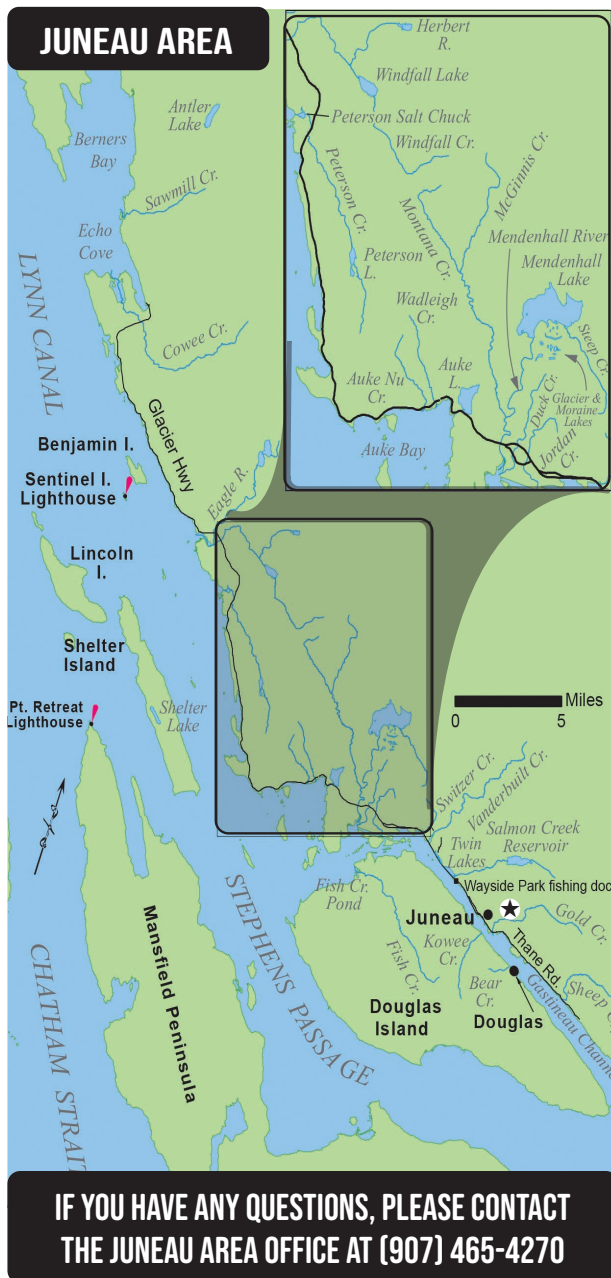

- Unless otherwise specified in this section, the following regulations apply to all drainages crossed by the Juneau road system.
- King salmon limits: 4 per day 4 in possession, no size limit. Annual limit does not apply.
- Coho salmon limits:
 - 16 inches or longer: 2 per day, 2 in possession.
- Sockeye salmon limits:
 - 16 inches or longer: 1 per day, 1 in possession.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- Dolly Varden limits:
 - 2 per day, 2 in possession, no size limit.
- Steelhead: Catch-and-release fishing only; all steelhead caught must be released immediately.

AUKE LAKE DRAINAGE:

- Auke Lake drainage downstream of Glacier Highway to ADF&G stream mouth markers:
 - **Closed to sport fishing.**

Note: ADF&G stream mouth markers are located 300 feet downstream of the Auke Creek weir.

- Auke Lake drainage upstream of Glacier Highway - including Auke Lake and its inlet streams and Auke Creek:
 - **Closed to sockeye salmon and Dolly Varden fishing.** All sockeye salmon and Dolly Varden caught must be released immediately.
 - Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
 - See drainages crossed by the Juneau road system above for salmon and trout limits.

**IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT
THE JUNEAU AREA OFFICE AT (907) 465-4270**

AUKE CREEK MOUTH - All waters within a 200 yard radius that extends seaward of the ADF&G stream mouth markers:

- **Snagging or attempting to snag is prohibited.** Any fish hooked elsewhere than in its mouth must be released immediately.
- **Closed to sockeye salmon fishing.** All sockeye salmon caught must be released immediately.
- **Auke Bay:** See saltwater exceptions on page 22.

AUKE NU DRAINAGE:

- **Closed to salmon fishing.** All salmon caught must be released immediately.

BEAR CREEK (Douglas Island):

- **Closed to sport fishing.**

COWEE CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited except:
 - Anglers under 16 years of age may use bait from September 15 through November 15.

NEW CRYSTAL LAKE (Dredge Lakes Area):

- The bag and possession limit for rainbow trout is five fish; no size limit.
- The bag and possession limit for cutthroat trout is two fish; 14 inch minimum and 22 inch maximum size limit.

DUCK CREEK:

- **Closed to sport fishing.**

FISH CREEK POND ONLY (Douglas Island):

- **June 1-August 31:**
 - Use of bait, weighted hooks and lures, multiple (treble) hooks with a gap between point and shank larger than 1/2 inch are allowed.
- King salmon limits:
 - 4 per day, 4 in possession, no size limit.
 - Nonresident annual limit does not apply.
- King salmon hooked elsewhere than in the mouth (snagged) may be retained.

...continued

FRESH WATER SPECIAL REGULATIONS - JUNEAU AREA ROAD SYSTEM

GLACIER LAKE (Dredge Lakes Area):

- The bag and possession limit for rainbow trout is five fish; no size limit.
- The bag and possession limit for cutthroat trout is two fish; 14 inch minimum and 22 inch maximum size limit.

HERBERT RIVER: See Windfall Lake drainage.

JORDAN CREEK:

- **Closed to sport fishing.**

KOWEE CREEK (Douglas Island):

- **Closed to salmon fishing.** All salmon caught must be released immediately.

MCGINNIS CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.

MENDENHALL LAKE:

- **Closed to Dolly Varden fishing.** All Dolly Varden caught must be released immediately.
- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.

MONTANA CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.

MORaine LAKE (Dredge Lakes Area):

- The bag and possession limit for rainbow trout is five fish; no size limit.
- The bag and possession limit for cutthroat trout is two fish; 14 inch minimum and 22 inch maximum size limit.

PETERSON CREEK SALT CHUCK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.

SALMON CREEK RESERVOIR:

- The use of bait is allowed year-round.

STEEP CREEK:

- **Closed to sport fishing.**

SWITZER CREEK:

- **Closed to sport fishing.**

TWIN LAKES:

- The use of bait is allowed year-round.
- Chum, coho, king, pink, and sockeye salmon limits (in combination): 16 inches or less: 10 per day, 10 in possession.
- Cutthroat and rainbow trout limits (in combination): 5 per day, 5 in possession, no size limit.

VANDERBILT CREEK:

- **Closed to sport fishing.**

WAYDELICH CREEK (Wadleigh Creek):

- **Closed to salmon fishing.** All salmon caught must be released immediately.

WINDFALL LAKE DRAINAGE:

- **Herbert River** - in the section of Herbert River within 100 yards of its confluence with Windfall Creek:
 - Windfall Creek regulations listed below apply.
- **Windfall Creek - from the outlet of Windfall Lake to the confluence of Herbert River:**
 - **Closed to sport fishing June 1-July 31**, except;
 - Sport fishing is allowed during the month of June on Wednesdays and Saturdays.
 - During these days, the sockeye salmon limit is 1 per day, 1 in possession, 16 inches or longer.
- **Windfall Lake and all inlet streams:**
 - Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
 - Sockeye salmon retention prohibited. All sockeye salmon caught must be released immediately.

SALT WATER SPECIAL REGULATIONS - JUNEAU AREA ROAD SYSTEM

ALL SALT WATERS ADJACENT TO THE JUNEAU ROAD SYSTEM - all salt waters adjacent to the Juneau City and Borough road system to a line ¼ mile offshore:

- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- Dolly Varden limits:
 - 2 per day, 2 in possession, no size limit.

AUKE BAY - in all waters of Auke Bay east of a line from Waydelich (Wadleigh) Creek to an ADF&G marker located ¼ mile south of the mouth of Auke Creek:

- **Closed to sockeye salmon fishing.** All sockeye salmon caught must be released immediately.
- **Closed to Dolly Varden fishing April 1-May 31.** All Dolly Varden caught from April 1-May 31 must be released immediately.

GASTINEAU CHANNEL - Wayside Park fishing dock - in the waters of Gastineau Channel within 150 feet of the City and Borough of Juneau's Gastineau Channel Wayside Park fishing dock located near the Macaulay Salmon Hatchery:

- Snagging or attempting to snag is prohibited; a fish hooked anywhere other than in its mouth must be released immediately.

SALT LAKE (See the map on page 20) - at the head of Mitchell Bay on Admiralty Island:

- Coho salmon limits:
 - 16 inches or longer: 6 per day, 6 in possession.

SITKA MANAGEMENT AREA - SPECIAL REGULATIONS

FRESH WATER SPECIAL REGULATIONS - SITKA AREA

BARANOF LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

BEAVER LAKE:

- The use of bait is allowed year-round.

BUCK LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 9 inch minimum and 22 inch maximum size limit.

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

REDOUBT LAKE DRAINAGE:

- Sockeye salmon limits:
 - 16 inches or longer: 4 per day, 4 in possession.
- Redoubt Bay: See Sitka Area Salt Water Special Regulations.

SALMON LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

SITKA SOUND SPECIAL USE AREA - tributaries in the fresh water drainages that drain into the Sitka Sound Special Use Area (see map on page 25):

- King salmon limits:
 - 10 per day, 10 in possession, no size limit.
 - Nonresident annual limit does not apply.

SITKOH LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

STARRIGAVAN CREEK:

- **Closed to chum, coho, and sockeye salmon fishing.** All chum, coho, and sockeye salmon caught must be released immediately.
- Pink salmon limits:
 - 16 inches or longer: 6 per day, 12 in possession.
- King salmon limits:
 - See Sitka Sound Special Use Area tributaries.

SUKOI LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 9 inch minimum and 22 inch maximum size limit.

THIMBLEBERRY LAKE:

- The use of bait is allowed year-round.

WRINKLENECK CREEK - main inlet to Swan Lake:

- **Closed to sport fishing.**

A great day of fishing!

SALT WATER SPECIAL REGULATIONS - SITKA AREA

Sitka Pelagic Rockfish Special Area - all the waters of Central Southeast Outside Section (CSEO map on page 23):

- Nonresidents pelagic rockfish: 3 per day, 6 in possession, no size limit.

BEAR COVE (in Silver Bay) - in all waters east of a line between the ADF&G markers in Bear Cove:

- **Closed to snagging.** Any fish hooked elsewhere than in its mouth must be released immediately.

CAPE EDGE CUMBE (The Pinnacles) - in the waters off Cape Edgecumbe enclosed by a box defined as 56°55.5'N. lat. and 56°57'N. lat. and 135°54'W. long. and 135°57'W. long. (see the map on page 25):

- **Closed to halibut and bottomfish fishing,** including lingcod and all rockfish. All halibut and bottomfish caught must be released immediately.
- Vessels with halibut on board may not be anchored.

KASNYKU BAY - in all waters west of a line between the ADF&G markers:

- **Closed to sport fishing for salmon.**

MIST COVE - in all waters west of a line between the ADF&G markers:

- **Closed to sport fishing for salmon.**

REDOUBT BAY - South of the latitude of 56°54.71'N. (see the map on page 23):

- **Closed to snagging June 1-August 31 by nonresidents;** any fish hooked elsewhere than in its mouth must be released immediately.
- **Closed to snagging June 1-July 15, by resident anglers;** any fish hooked elsewhere than in its mouth must be released immediately.
- Sockeye salmon limits: 4 per day, 4 in possession.

SALT WATER SPECIAL REGULATIONS - SITKA AREA (CONTINUED)

SITKA SOUND SPECIAL USE AREA - In the area of Sitka Sound enclosed on the north by lines from Kruzof Island at 57°20.50'N. lat., 135°45.17' W. long. to Chichagof Island at 57° 22.05'N. lat., 135°43'W. long., and from Chichagof Island at 57°22.58' N. lat., 135°41.30'W. long. to Baranof Island at 57°22.28' N. lat., 135°40.95'W. long., and on the south and west by a line running from the southernmost tip of Sitka Point at 56°59.38'N. lat., 135°49.57'W. long. to Hanus Point at 56°51.92'N. lat., 135°30.50'W. long. to the green day marker in Dorothy Narrows to Baranof Island at 56°49.28'N. lat., 135°22.60'W. long.; the following regulations apply (see the map):

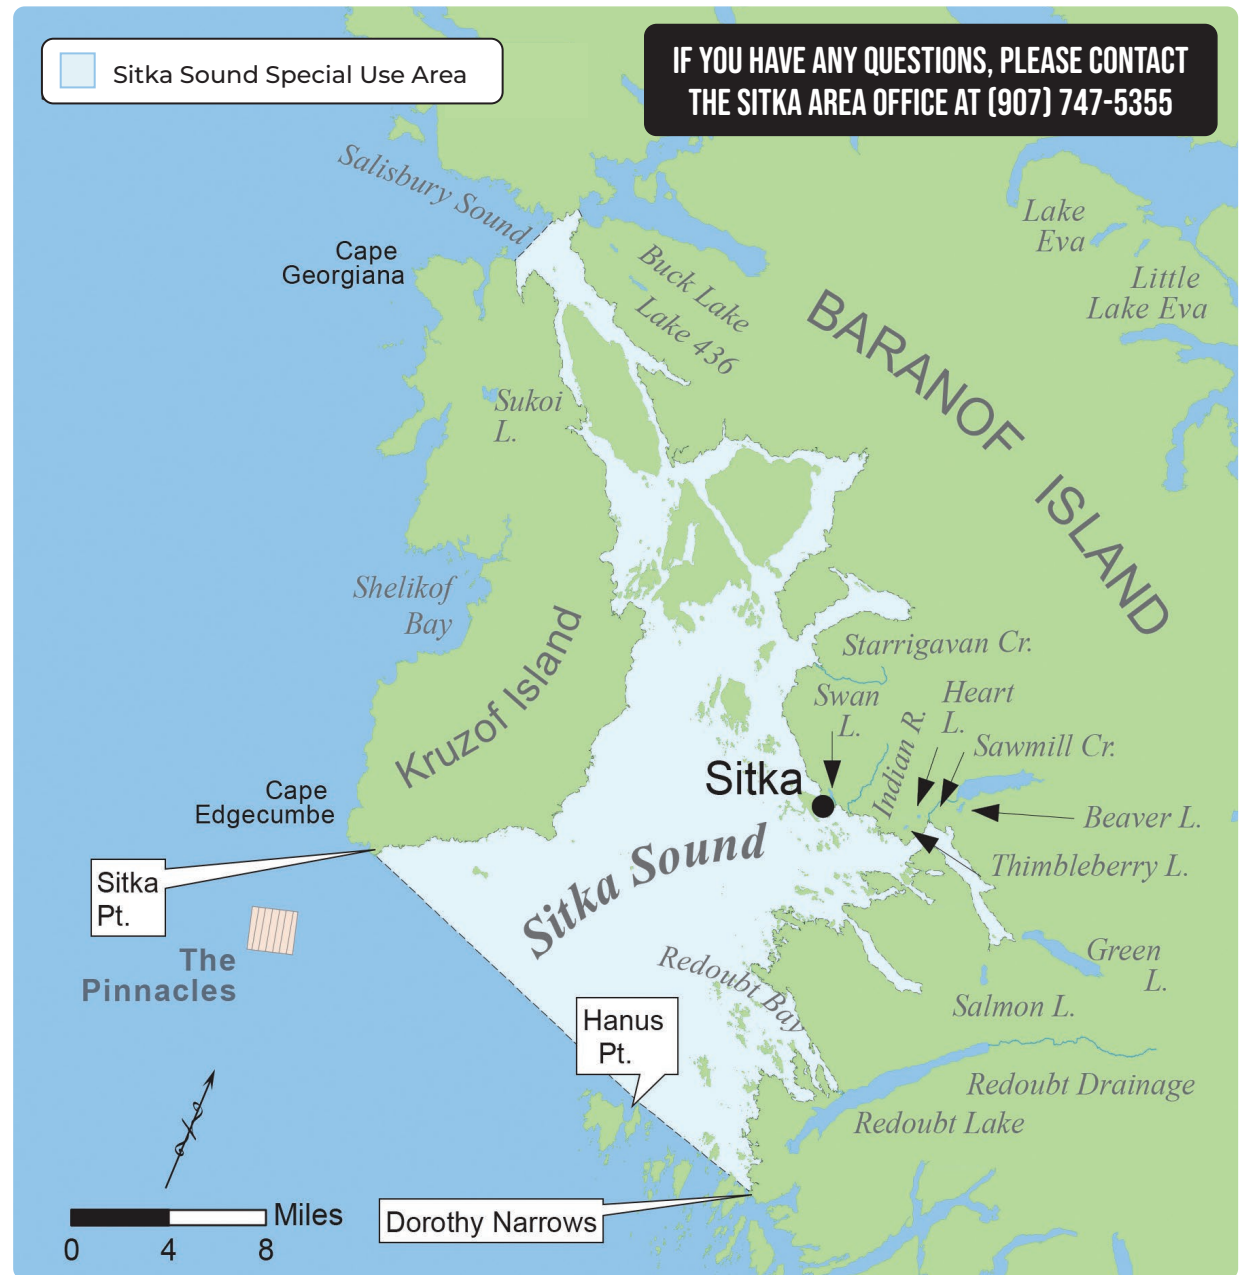

- See Sitka Sound Special Use Area tributaries in fresh water exceptions on page 23-24.

SHELLFISH:

- **Closed to sport fishing for shrimp.** The personal use shrimp fishery is open. See page 35 for more information.
- **Closed to the retention of razor clams. All razor clams caught must be released immediately.**

HALIBUT:

- **Closed to the retention of halibut by chartered anglers from June 1-August 31.**

FRESH WATER SPECIAL REGULATIONS - PETERSBURG AREA

BLIND SLOUGH - upstream of a line between Blind Point and Anchor Point (see map on the next page):

- **Closed to snagging**, any fish hooked elsewhere than in its mouth must be released immediately.
- Bait may be used from June 1-November 15. Only unbaited, artificial lures or flies may be used from November 16-May 31.
- King salmon limits:
 - 28 inches or greater in length: 2 per day, 2 in possession.
 - Less than 28 inches in length: 2 per day, 2 in possession.
 - A king salmon 28 inches or greater in length harvested by a nonresident counts towards their annual limit and must be recorded on their harvest record.
 - These regulations remain in place except when modified by emergency order.

BLIND SLOUGH TRIBUTARIES - including Manmade Hole (see map on the next page):

- **Closed to salmon fishing**. All salmon caught must be released immediately.

CASTLE RIVER:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

CRYSTAL LAKE:

- The use of bait is allowed year-round.

HAMILTON CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

FRESH WATER SPECIAL REGULATIONS - PETERSBURG AREA (CONTINUED)

KAH SHEETS LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

KANE PEAK LAKE:

- The use of bait is allowed year-round.

BLIND SLOUGH & SURROUNDING AREAS

There's always time for one more cast.

FRESH WATER SPECIAL REGULATIONS - WRANGELL AREA

ANAN LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

EAGLE LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

LONG LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 9 inch minimum and 22 inch maximum size limit.

PATS LAKE:

- During the 3rd and 4th Saturday and Sunday of June (In 2023: June 17-18 and June 24-25) the following regulations apply:
 - Bait may be used only by anglers under the age of 16.
 - Cutthroat trout limits for anglers under the age of 16 only: 2 per day, 2 in possession, no size limit.

THOMS LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

TYEE LAKE:

- The use of bait is allowed year-round.

VIRGINIA LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

A happy angler with their catch!

FRESH WATER SPECIAL REGULATIONS - PRINCE OF WALES ISLAND AREA

108 CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

CONTROL LAKE DRAINAGE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

DOG SALMON CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

EAGLE CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

HATCHERY CREEK:

- **From June 1-July 31 closed to sport fishing** 100 feet upstream of the upper falls to 100 feet downstream of the lower falls.
- Only unbaited, artificial lures or flies may be used year-round.
- Sockeye salmon limit:
 - 16 inches or longer: 3 per day, 6 in possession.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

HUNTER BAY CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

KARTA RIVER DRAINAGE - including Karta Lake and Salmon Lake:

- The use of bait is prohibited year-round.
- Only one unbaited, single-hook, artificial lure or fly may be used year-round.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

KEGAN LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

KLAKAS CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

KLAWOCK RIVER DRAINAGE:

- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- **Klawock River drainage upstream of the Klawock River Bridge:**
 - **Closed to sockeye salmon fishing.** All sockeye caught must be released immediately.
- **Klawock River upstream from department markers:**
 - Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- **Klawock River downstream of department markers (below Klawock weir):**
 - Bait is allowed from September 15-October 15.

**IF YOU HAVE ANY QUESTIONS, PLEASE CONTACT
THE CRAIG AREA OFFICE AT (907) 826-2498**

FRESH WATER SPECIAL REGULATIONS - PRINCE OF WALES ISLAND AREA (CONT.)

LUCK LAKE - including Eagle Creek:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

MARGE LAKE:

- The use of bait is allowed year-round.

MELLEN LAKE:

- The use of bait is allowed year-round.

NONAME LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
• 2 per day, 2 in possession, 9 inch minimum size limit.

OLD FRANKS CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

RED BAY LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
• 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

SALMON BAY LAKE DRAINAGE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **Salmon Bay Lake:**
 - Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

SALMON LAKE: See Karta River drainage.

SARKAR RIVER DRAINAGE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **Sarkar Lake:**
 - Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

SHINAKU LAKE:

- The use of bait is allowed year-round.

STANEY CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

SUMMIT LAKE:

- The use of bait is allowed year-round.

SWEETWATER LAKE DRAINAGE - including Log Jam drainage:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Sockeye salmon limit:
 - 16 inches or longer: 3 per day, 6 in possession.
- Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

THORNE RIVER DRAINAGE - including Control Lake drainage:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

SALT WATER SPECIAL REGULATIONS - PRINCE OF WALES ISLAND AREA

COFFMAN COVE - in the waters of Coffman Cove southwest of a line from the entrance of Coffman Cove at 56°01.71'N. lat., 132°51.01'W. long., to eastern shore of Coffman Island at 56°01.35'N. long., 132°49.67'W. long.:

- **Closed to sport fishing for Dungeness crab.** All Dungeness crab caught must be released immediately.

KLAWOCK HARBOR - in all waters of Klawock Harbor south of the line from the Klawock blinker light to the Klawock cannery dock:

- **Closed to sockeye salmon fishing.** Any sockeye salmon caught must be immediately released.
- **Closed to snagging,** any fish hooked elsewhere than in its mouth must be released immediately.

 **KLAWOCK/SHINAKU INLETS** - In the waters of Klawock and Shinaku inlets east of a line from Entrance Point in Klawock Inlet at 55°31.20'N. lat., 133°07.63'W. long., to Shinaku Inlet at 55°34.72'N. long., 133°13.38'W. long.:

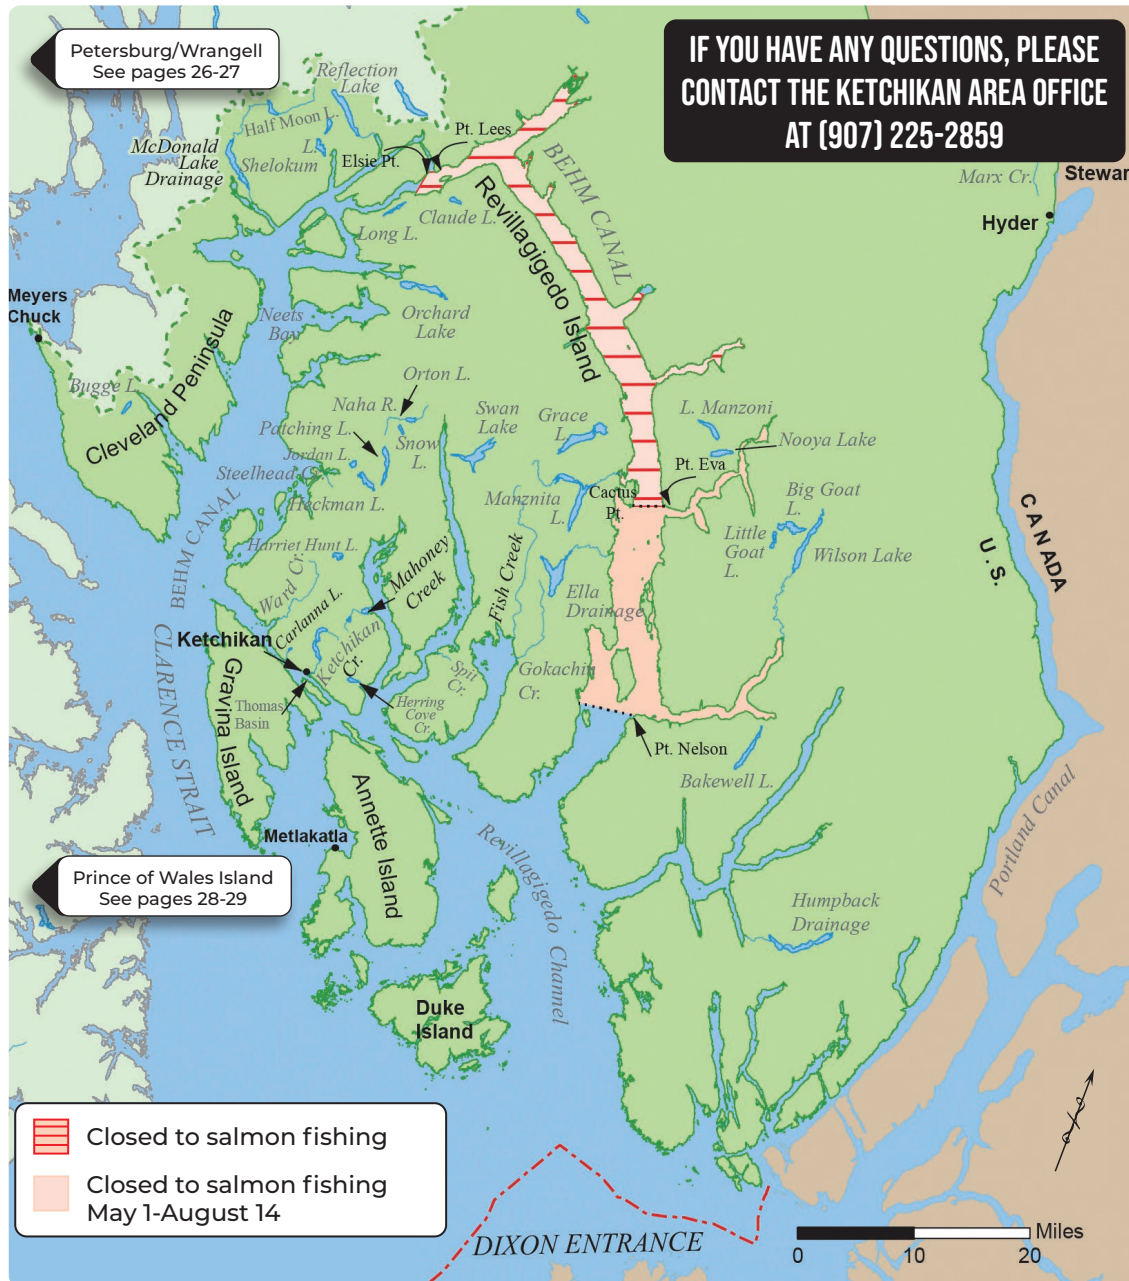

- **Closed to sport fishing for Dungeness crab.** All Dungeness crab caught must be released immediately.

 **TWELVE-MILE ARM** - in the waters of Twelve-Mile Arm West of a line from Prince of Wales Island at 55°29.07'N. lat., 132°37.60'W. long., to the northeastern most tip of Loy Island at 55°29.07'N. lat., 132°36.70'W. long., to the eastern most tip of Cat Island at 55°27.80'N. lat., 132°39.08'W. long., to Prince of Wales Island at 55°27.80'N. lat., 132°40.93'W. long., including water nearest Hollis Anchorage:

- **Closed to sport fishing for shrimp.** All shrimp caught must be released immediately.

 **WHALE PASS** - in the waters of Whale Pass north of a line from the entrance of Whale Pass at 56°05.62'N. lat., 133°07.33'W. long., to 56°05.81'N. long., 133°06.52'W. long.:

- **Closed to sport fishing for Dungeness crab.** All Dungeness crab caught must be released immediately.

FRESH WATER SPECIAL REGULATIONS - KETCHIKAN AREA

BAKEWELL LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat and rainbow trout limits (in combination):
 - 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

BIG GOAT LAKE: The use of bait is allowed year-round.

BUGGE LAKE: The use of bait is allowed year-round.

CLAUDE LAKE: The use of bait is allowed year-round.

ELLA CREEK DRAINAGE - including Ella Lake:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **Ella Lake:**
 - Cutthroat trout limits:
 - 1 per day, 1 in possession, 25 inch minimum size limit.

FISH CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

GOKACHIN (SEALEVEL) CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

GRACE LAKE:

- The use of bait is allowed year-round.

HALF-MOON LAKE:

- The use of bait is allowed year-round.

FRESH WATER SPECIAL REGULATIONS - KETCHIKAN AREA (CONTINUED)

HECKMAN LAKE: See Naha River drainage.

HUMPBACK CREEK DRAINAGE - including Humpback Lake:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **Humpback Lake:**
 - Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

JORDAN LAKE: See Naha River drainage.

LITTLE GOAT LAKE:

- The use of bait is allowed year-round.

MAHONEY LAKE DRAINAGE (Revillagigedo Island):

- **Mahoney Creek:**
 - **Closed to salmon fishing.** All salmon caught must be released immediately.
- **Mahoney Lake:**
 - The use of bait is allowed year-round.
- **Upper Mahoney Lake:**
 - The use of bait is allowed year-round.

MANZANITA LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

MANZONI LAKE:

- The use of bait is allowed year-round.

MCDONALD LAKE DRAINAGE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **McDonald Lake:**
 - Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 inch maximum size limit.

MINNE LAKE:

- The use of bait is allowed year-round.

NAHA RIVER DRAINAGE - including Heckman, Jordan, and Patching lakes:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.
- **Heckman Lake:**
 - Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 maximum size limit.
- **Jordan Lake:**
 - Cutthroat and rainbow trout limits (in combination): 2 per day, 2 in possession, 14 inch minimum and 22 maximum size limit.
- **Patching Lake:**
 - Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

NELLIE LAKE:

- The use of bait is allowed year-round.

NOOYA LAKE:

- The use of bait is allowed year-round.

ORCHARD LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

ORTON LAKE:

- The use of bait is allowed year-round.

PATCHING LAKE: See Naha River drainage.

REFLECTION LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.
- Coho, chum, pink, and sockeye salmon limits (in combination):
 - 16 inches or longer: 2 per day, 2 in possession.

SHELOKUM LAKE:

- The use of bait is allowed year-round.

SNOW LAKE:

- The use of bait is allowed year-round.

SPIT CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

STEELHEAD CREEK:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch-and-release fishing only, all steelhead caught must be released immediately.

SWAN LAKE:

- The use of bait is allowed year-round.

WILSON LAKE:

- Only unbaited, artificial lures or flies may be used year-round. The use of bait is prohibited.
- Cutthroat trout limits: 1 per day, 1 in possession, 25 inch minimum size limit.

...continued

FRESH WATER SPECIAL REGULATIONS - KETCHIKAN AREA ROAD SYSTEM

KETCHIKAN ROAD SYSTEM - all drainages crossed by the Ketchikan City and Borough road system:

- Chum, coho, pink, and sockeye salmon limits (in combination):
 - 16 inches or longer: 2 per day, 2 in possession.
 - Less than 16 inches: 10 daily, 10 in possession.

CARLANNA LAKE DRAINAGE:

- **Carlanna Creek:**
 - **Closed to sport fishing.**
- **Carlanna Lake - including inlet streams:**
 - The use of bait is allowed year-round.
 - Cutthroat and rainbow trout limits (in combination): 5 per day, 5 in possession, no size limit.

CITY PARK PONDS (near Ketchikan Creek):

- The fishing season is open the first Saturday in June through August 31.
- The use of bait is allowed year-round.
- Rainbow trout, coho salmon, and king salmon limits (in combination): 5 per day, 5 in possession, no size limit.

HARRIET HUNT LAKE:

- The use of bait is allowed year-round.
- Cutthroat and rainbow trout limits (in combination): 5 per day, 5 in possession, no size limit.

HERRING COVE CREEK:

- **Upstream from the highway:**
 - **Closed to fishing.**
- **From the highway downstream to ADF&G markers:**
 - The fishing season is open August 10-December 31.
 - Coho, chum, pink, and sockeye salmon limits (in combination):
 - 16 inches or longer: 2 per day, 2 in possession.

KETCHIKAN CREEK - including Schoenbar Creek:

- The fishing season is open September 15-May 31.
- Only unbaited, single hook artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead limits: 1 per day, 2 in possession, 36 inch minimum size, 2 fish annual limit, harvest record required (see page 6).
- Coho, chum, pink, and sockeye salmon limits (in combination):
 - 16 inches or longer: 2 per day, 2 in possession.
- Note: See Thomas Basin in salt water exceptions if fishing at the mouth of Ketchikan Creek.
- **Ketchikan Lake:**
 - The use of bait is allowed year-round.
- **Schoenbar Creek:** See Ketchikan Creek.

WARD CREEK DRAINAGE - including Perseverance, Connell, and Talbot Lakes:

- Only unbaited, single hook artificial lures or flies may be used year-round. The use of bait is prohibited.
- Steelhead: Catch and release fishing only, all steelhead caught must be released immediately.
- Coho, chum, pink, and sockeye salmon limits (in combination):
 - 16 inches or longer: 2 per day, 2 in possession.

WHITMAN LAKE:

- The use of bait is allowed year-round.

SALT WATER SPECIAL REGULATIONS - KETCHIKAN AREA

BEHM CANAL:

- **Northern Behm Canal and contiguous bays** - enclosed by a northern line from Point Lees to Elsie Point, which continues through the ADF&G markers at the longitude of the outlet of Long Lake and by a southern line from Point Eva to Cactus Point, (see map on page 30):
 - **Closed to salmon fishing.** All salmon caught must be released immediately.

- **Southern Behm Canal and contiguous bays** - enclosed by a northern line from Point Eva to Cactus Point and by southern line at the latitude of Point Nelson (see map on page 30):
 - The fishing season for all species of salmon is open August 15-April 30.

CLOVER PASS AREA - all waters east of a line from Indian Point to the northeastern most tip of Betton Island to Survey Point:

- **Closed to nonresidents sport fishing for shrimp.** All shrimp caught by nonresidents must be released immediately.

NEETS BAY - east of a line between ADF&G regulatory markers located approximately one mile from the head of the Bay:

- The fishing season for all species of salmon is open November 16-June 14.

THOMAS BASIN - seaward from the Thomas Basin Bridge to the breakwater:

- **Closed to snagging,** any fish hooked elsewhere than in its mouth must be released immediately.
- A maximum of two single hooks may be used year-round.
- The use of bait is allowed year-round.

FRESH WATER SPECIAL REGULATIONS - HYDER AREA

FISH CREEK AND MARX CREEK:

- A maximum of two single hooks may be used year-round.

SHELLFISH REGULATIONS

SPORT AND PERSONAL USE • SOUTHEAST ALASKA

License Requirements: A valid Alaska sport fishing license is required to take shellfish under personal use and sport regulations. Alaska residents 60 years or older with an ADF&G permanent ID card, residents under 18, and nonresidents under 16 years of age are exempt from these license requirements. **Alaska residents** harvest shellfish under personal use or subsistence regulations and **nonresidents** harvest shellfish under sport regulations.

Please note that this summary does not include subsistence regulations.

Seasons: Fishing for shellfish is open the entire year except:

- Tanner crab: **Closed June 16 through June 30**, except in the Yakutat area (Cape Suckling to Cape Fairweather) where there is no closed season for Alaska residents.
- King crab: Open to residents only. Check for emergency orders and/or permits with the nearest ADF&G office.

Combining Limits: Harvest, bag, possession, and pot limits for shellfish may not be added to those allowed for other fisheries (i.e. anglers may not combine gear or harvests from multiple fisheries to exceed applicable limits).

Permit for Shrimp: Anglers are required to obtain a free permit to harvest shrimp. Permits are available online at <https://store.adfg.alaska.gov> or at ADF&G offices.

- Nonresidents should obtain the Sport Shrimp permit.
- Residents should obtain the Personal Use/Subsistence Shrimp permit.

Possession Limit: For all shellfish species in Southeast Alaska, the possession limit equals one daily bag limit.

Legal Crab: Only male crab may be retained. Male crab less than the minimum size limit and all female crab may not be possessed and must be returned unharmed to the water immediately (see page 36).

Live Holding Facilities: Live holding facilities used to pool multiple bag limits of crab by one or more persons are not allowed.

Disfiguring of Crab: Until a crab has been processed or prepared for human consumption, no one may mutilate or otherwise disfigure it in any manner that prevents determination of whether it meets the minimum size limit.

Sale of Shellfish: It is unlawful to buy, sell, trade, or barter shellfish, their parts, or eggs caught under personal use or sport fishing regulations.

Disturbing Other Angler's Pots: Anglers may not disturb, tamper with, or pull another angler's pots without prior permission of the pots' owner.

Furnishing Shellfish to Clients or Guests: An owner, operator, or employee of a lodge, charter vessel, or other enterprise that furnishes food, lodging, or guide services may not furnish a client or guest of that enterprise shellfish, unless: (1) the shellfish has been taken with gear deployed and retrieved by the client or guest; (2) the gear has been marked with the client or guest's name and address, as specified on page 34; and (3) the shellfish is to be consumed by the client or guest or is consumed in the presence of the client or guest.

Operators and Crew of a Charter Vessel: A captain and crew of a charter vessel may not deploy, set, or retrieve their own gear in a shellfish fishery when that vessel is being chartered.

Fishing From a Commercial Vessel: A commercially licensed and registered vessel may not be used to take that species for which they are registered either 14 days before or 14 days after an open commercial season in the same area the vessel is registered. Additionally, **a person or vessel** that operates pots or ring nets for sport or personal use during the 30 days (14 days for the Yakutat area) immediately before the scheduled opening date of a commercial **king or Tanner crab** fishery, may not participate in these crab fisheries.

- A commercially licensed and registered shrimp fishing vessel may not be used to take **personal use shrimp** in **Districts 6-8 and 10** from February 15 through April 30.
- Additional restrictions or provisions (including provisions to deregister a vessel) may apply. See commercial shellfish regulations for specific information.

ALLOWABLE GEAR:

Shrimp: Shrimp may be taken by pots, ring nets, and trawls (trawls may be operated only by Alaska residents and require a permit).

Crab: Crab may be taken by pots, ring nets, diving gear, hand, dip nets, and hooked or hookless hand lines.

Clams: Clams may be taken by rakes, shovels, hand, or manually operated clam guns. Geoducks may also be taken by residents using a hydraulic clam digger.

Abalone: Abalone may be taken by abalone irons, diving gear (except SCUBA and hookah gear, which are prohibited), or by hand.

Scallops: Scallops may be taken by diving gear, dip nets, or by hand. Residents may use abalone irons.

 **Squid:** Squid may be taken with the use of not more than two squid jigs attached to a single line. See page 43 for definition of squid jig. Standard sport fishing gear described on page 7 may also be used.

Other Shellfish: Other shellfish may be taken by hook and line in addition to all other gear listed above. Alaska residents may use trawls, hand jigging, and hand-operated dredges.

SHELLFISH REGULATIONS - POT REQUIREMENTS

34

ESCAPE RINGS: Each pot used to take Dungeness, Tanner, or king crab must have a minimum of two escape rings on opposite sides of the pot. Escape rings on Dungeness crab pots must be on the upper half of the vertical plane of the pot.

- **Dungeness crab escape rings:** $4\frac{3}{8}$ inches minimum inside diameter.
- **Tanner crab escape rings:** $4\frac{3}{4}$ inches minimum inside diameter.
- **King crab escape rings:** $6\frac{1}{4}$ inches minimum inside diameter.

ESCAPE MECHANISM: A biodegradable escape mechanism is required for crab and shrimp pots. Required escape mechanisms vary by pot construction and are divided into two categories: non-rigid mesh pots and rigid mesh pots.

Non-rigid Mesh Pots: Pot sidewalls, which may include the tunnel sidewalls, must contain an opening that is laced, sewn, or secured together by a single length of untreated, 100% cotton twine, no larger than 30-thread. The cotton twine may be knotted at each end only. The opening must be within six inches of the bottom of the pot and must be parallel with it. The cotton twine may not be tied or looped around the web bars. The opening must be equal to or exceeding the following lengths listed by species.

- **Dungeness:** Opening is a minimum of 18 inches long. Or, as a substitute, the pot lid tie-down straps may be secured to the pot at one end by a single loop of untreated, 100% cotton twine, no larger than 60-thread. The pot lid must be secured so that when the twine degrades, the lid will no longer be securely closed.
- **King and Tanner:** Opening is a minimum of 18 inches long.
- **Shrimp:** Opening is a minimum of 6 inches long.

Opening at least 18 inches long (6 inches for shrimp pots) - no more than 6 inches from bottom of pot and parallel to it.

Untreated 100% cotton twine, no larger than 30-thread

BUOY MARKINGS: Shellfish pot and ring buoys must be marked with:

- Angler's first initial and last name;
- Home address; and
- The Division of Motor Vehicles registration number (AK number) of the vessel used to operate the pot or the vessel name.

SHRIMP POT SIZE REQUIREMENTS: Any pot used to take shrimp may not have more than 4 tunnel eye openings, may not have a bottom perimeter greater than 153 inches, and may not exceed a volume of 25 cubic feet. No tunnel eye opening may exceed 15 inches in perimeter.

Rigid Mesh Pots: Must have at least one rectangular opening in a sidewall of the pot which may include a side of the tunnel. The lower long edge of the opening must be parallel to and within six inches of the bottom of the pot. The opening may be covered with a single panel secured to the pot with no more than four single loops of untreated, 100% cotton twine, no larger than 30-thread; each single loop of cotton twine may not be laced along the opening. The panel must be attached to the pot in a manner that when the cotton twine degrades, the panel will drop away from the pot exposing the opening completely. The panel must be equal to or exceeding the dimensions listed below.

- **Dungeness:** 10 inches x 6 inches or, as a substitute, the pot lid tie-down straps may be secured to the pot at one end by a single loop of untreated, 100% cotton twine, no larger than 60-thread. The pot lid must be secured so that when the twine degrades, the lid will no longer be securely closed.
- **King and Tanner:** 12 inches x 8 inches.
- **Shrimp:** 4 inches x 4 inches.

CAUTION! PARALYTIC SHELLFISH POISONING HAS OCCURRED ON SOME ALASKAN BEACHES. For more information, please contact (907) 269-7638 or check the State of Alaska Department of Environmental Conservation's Seafood and Shellfish webpage at <https://health.alaska.gov/dph/epi/id/pages/dod/psp/default.aspx>.

SHELLFISH REGULATIONS - RESIDENT AND NONRESIDENT

ALASKA RESIDENTS PERSONAL USE SHELLFISH REGULATIONS

King Crab: Check for emergency order and/or permits with the nearest ADF&G office.

Tanner Crab: 30 males, 5½ inches minimum size.

Dungeness Crab: 20 males, 6½ inches minimum size, except in the waters of Thorne Bay west of the longitude of the southernmost tip of Thorne Head, the daily bag and possession limit is 5 male Dungeness crab, 6½ inches minimum size.

- **Dungeness Crab:** Closed year-round in the Yakutat Area (Cape Suckling to Cape Fairweather).

Razor Clams: No bag, possession, or size restrictions, except Sitka Sound where razor clams may not be retained and the waters of western Kruzof Island beaches between Cape Edgecumbe and Cape Georgiana, where the bag and possession limit is 50 clams.

Scallops: 5 rock scallops (*Hinnites sp.*) and 10 weathervane scallops (*Pecten sp.*), except in the Yakutat Area (between the longitude of Cape Suckling and Cape Fairweather) where the limit is 50 weathervane scallops. There are no limits for all other scallops.

Shrimp: A permit is required. No bag, possession, or size restrictions EXCEPT in the District 13 Sitka Area where the bag and possession limit of spot shrimp is 10 gallons (whole or deheaded).

Geoducks: 6 geoducks.

Abalone: 5 abalone, 3½ inches minimum size.

Other Shellfish Species Not Listed Above: No bag, possession, or size restrictions.

NUMBER OF POTS & RINGS ALLOWED FOR RESIDENTS

Dungeness, King, & Tanner Crab:

- While taking Dungeness crab, 5 pots OR 10 ring nets per person may be used, with a maximum of 10 pots OR 20 ring nets per vessel.
- While taking Tanner or king crab, no more than 4 pots OR 10 ring nets per vessel may be used (except 20 ring nets per vessel may be used in the Yakutat area).
- In the Juneau area, shellfish gear limits are established by emergency order. Please check with your local ADF&G office for this information.
- In total, no more than 5 pots per person and 10 pots per vessel may be used for taking shellfish regardless of pot type.

Shrimp:

- In addition to crab pots, 10 shrimp pots per person with a maximum of 20 pots per vessel may be used. Shrimp pots may be longlined.

NONRESIDENTS SPORT SHELLFISH REGULATIONS

King Crab: Closed to nonresidents.

Tanner and Dungeness Crab (in combination): 3 males.

- **Tanner Crab:** 5½ inches minimum size.
- **Dungeness Crab:** 6½ inches minimum size.
- **Areas Closed to the Taking of Dungeness Crab:**
 - Yakutat Area (Cape Suckling to Cape Fairweather). See page 16 for more information.
 -  **Prince of Wales: Klawock/Shinaku inlets, Coffman Cove, and Whale Pass.** See page 29 for more information.

Shrimp: A permit is required. 3 pounds or quarts (whole or deheaded) - no size restrictions.

• **Areas Closed to the Taking of Shrimp:**

- **Ketchikan:** East of a line from Indian Point to the northeastern most tip of Betton Island to Survey Point. See page 32.
- **Prince of Wales:** Twelve-Mile Arm - See page 29.
- **Sitka Sound Special Use Area:** See page 25.

Razor Clams: 10 razor clams, except Sitka Sound where razor clams may not be retained.

Scallops: 5 rock scallops (*Hinnites sp.*) and 10 weathervane scallops (*Pecten sp.*). There are no limits for all other scallops.

Abalone: Closed to nonresidents.

Geoducks: Closed to nonresidents.

Other Shellfish Species Not Listed Above: No bag, possession, or size restrictions.

NUMBER OF POTS & RINGS ALLOWED FOR RESIDENTS

Dungeness & Tanner Crab:

- While taking Dungeness crab, 4 crab pots OR 10 ring nets per person may be used, with a maximum of 10 crab pots OR 20 ring nets per vessel.
- While taking Tanner crab, no more than 4 crab pots OR 10 ring nets per vessel may be used.
- In total, no more than 4 pots per person and 10 pots per vessel may be used for taking shellfish regardless of pot type.

Shrimp:

- In addition to crab pots, 5 shrimp pots per person with a maximum of 10 pots per vessel may be used. Shrimp pots may **NOT** be longlined.

SHELLFISH REGULATIONS - CRAB ID AND MEASUREMENTS 36

TANNER CRAB (MINIMUM SIZE 5½ INCHES)

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside
(females usually smaller than 5½ inches)

MALE

Narrow abdominal flap

Width measurement of Tanner crab is the straight-line distance across the carapace, **including** spines.

DUNGENESS CRAB (MINIMUM SIZE 6½ INCHES)

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside

MALE

Narrow abdominal flap

Width measurement of Dungeness crab is the straight-line distance across the carapace, **NOT** including spines.

KING CRAB (MINIMUM SIZE 7 INCHES)

FEMALE - NO HARVEST ALLOWED

Wide abdominal flap covers most of underside

MALE

Narrow abdominal flap

6 prominent spines on mid-dorsal plate

RED KING CRAB

5 to 9 spines on mid-dorsal plate

BROWN KING CRAB

4 prominent spines on mid-dorsal plate

BLUE KING CRAB

ATLANTIC SALMON - IDENTIFICATION

Atlantic salmon photographs courtesy of Troy Tydingco.

REPORT NON-NATIVE ATLANTIC SALMON TO THE NEAREST FISH AND GAME OFFICE

Over the past few years, ADF&G has verified harvests of Atlantic salmon in Southeast Alaska salt waters. Atlantic salmon are not native to the Pacific Ocean; they are raised in areas along the West Coast outside of Alaska, and their presence in Southeast Alaska waters is biologically undesirable. Anglers have reported catching Atlantic salmon in several of Southeast Alaska's fresh water systems. Alaska sport fishing regulations do not limit harvest of Atlantic salmon, but if you catch one, you can help us determine their status by bringing the entire fish to the nearest ADF&G office for biological sampling.

Atlantic Salmon

Identification Characteristics:

- Body tapered at head and tail
- Black spots on gill cover distinguish from all Pacific species
- Base of tail is slender or "pinched" in appearance
- Black x-shaped spots on back
- Large scales
- Upper jaw does not extend past rear of eye
- Fewer than 13 anal fin rays

Steelhead Trout

Chinook Salmon

Rockfish Identification

FOR THE PURPOSES OF SPORT FISHERY MANAGEMENT, ROCKFISH ARE DIVIDED INTO TWO GROUPS, **PELAGIC** AND **NONPELAGIC**. BAG AND POSSESSION LIMITS DIFFER FOR THE GROUPS, SO IT IS IMPORTANT TO BE ABLE TO DISTINGUISH THEM. THIS CHART SHOWS THE MOST COMMON SPECIES IN EACH GROUP. NONPELAGIC ROCKFISH ARE FURTHER DIVIDED INTO DEMERSAL SHELF ROCKFISH (DSR) AND SLOPE ROCKFISH.

Pelagic Rockfish:

BLACK ROCKFISH

Dark gray to black with white belly. Usually uniform in color, but may have lighter patches along back. No pores on lower jaw. Size: up to 25 inches.

DUSKY ROCKFISH

Brownish body color with whitish belly, tinged with pink or orange; finstinged with pink or orange; more common in deep water. Three pores on each side of lower jaw, and two dark bars on each cheek. Size: up to 20 inches.

YELLOWTAIL ROCKFISH

Olive green to greenish brown with lighter underside; fins distinctly yellowish green. Size: up to 26 inches.

Photo by Vicky Okimura (WDFW)

WIDOW ROCKFISH

This is a relatively slim species in various shades of brown or brass that lighten towards the belly. Size: up to 23 inches.

DARK ROCKFISH

Uniform black to dark blue on back and sides with slight gradual lightening on the belly, more common in shallow water. Size: up to 20 inches.

Slope Rockfish:

REDBANDED ROCKFISH

Light pink to red with four dark red or reddish-brown vertical bars on body. Size: up to 25 inches.

SILVERGRAY ROCKFISH

Greenish to silver-gray body, belly white, tinged with soft orange or pink. Slender body fish with a long lower jaw protruding well beyond upper jaw. Size: up to 28 inches.

VERMILION ROCKFISH

Dark red to orange-yellow with mottling on sides. Fins often edged with black. Three obscure stripes radiating from each eye. Rough, scaly lower jaw. Size: up to 30 inches.

ROUGHEYE ROCKFISH

Red, pink, or reddish-orange with dark blotches, fins often have black edges. 2-10 spines below the eye on the rim of orbit. Size: up to 38 inches.

SHORTRAKER ROCKFISH

Reddish pink to orange-red. Large pores on the lower jaw. Mouth is red and may have blotches. Gills very short and knob-tipped. Size: up to 43 inches.

Demersal Shelf Rockfish:

QUILLBACK ROCKFISH

Brown body mottled with orange and yellow. Long, prominent spines on a high dorsal fin.
Size: up to 24 inches.

YELLOW EYE ROCKFISH

Orange red and orange yellow, bright golden yellow eye, fins may be black at tips. Juveniles have two light bands along the side, one on the lateral line and a smaller one below the lateral line.
Size: up to 36 inches.

CHINA ROCKFISH

Mostly black, with bright yellow and white blotches and a yellow stripe along most of the lateral line.
Size: up to 17 inches.

CANARY ROCKFISH

Bright yellow to orange mottled on a gray background. Fins orange and three orange stripes across the head. Gray along the lateral line.
Size: up to 30 inches.

COPPER ROCKFISH

Olive brown to copper with pink or yellow blotches, white on sides and belly. Dorsal fins dark copper brown to black with some white. Rear two-thirds of lateral line is light.
Size: up to 22 inches.

Help Conserve Alaska's Rockfish

Deepwater Release is Mandatory

Deepwater Release Methods

Step 1:

Make sure your release device is ready - rockfish are most likely to survive when time at the surface is minimized. With practice, rockfish can be released within two minutes of reaching the surface.

Reel the fish up as quickly as possible. After unhooking it, hook the release device through soft tissue on the jaw. Make sure the hook does not have a barb. Release the anti-reverse on the reel so line can spool out freely.

Rockfish are most likely to survive when released quickly at depth of capture (or 100 feet) using the following steps:

Step 2:

Swing the fish slightly to one side and let go of the jig. Let line out as the weight pulls the fish back to the bottom. When the jig hits bottom (or 100 feet in depth), lock the reel and give a hard tug to release the fish.

LEARN MORE AT WWW.ADFG.ALASKA.GOV/ROCKFISH

Conservation Tips

▪ Avoid catching unwanted rockfish.

When targeting other species, such as halibut or lingcod, avoid rockfish by keeping jigs and bait 10-15 feet off the bottom. This has little or no effect on halibut and lingcod catch rates. Move to a different area if you are catching rockfish unintentionally.

▪ Avoid excessive rockfish harvests.

Rockfish have a freezer life of about four months, so harvest only what you are likely to eat in the near future.

▪ Use release-friendly tackle.

When fishing with bait, use a single circle hook. Circle hooks are less likely to cause injury by being deeply swallowed, increasing the chances of survival for released fish.

HOW TO IDENTIFY THE FIVE SALMON SPECIES FOUND IN ALASKA

40

KING (CHINOOK, TYEE, BLACKMOUTH) SALMON

Blue-gray back with silvery sides. Small, irregular-shaped black spots on back, dorsal fin, and usually on both lobes of the tail.

Black mouth with
BLACK gums at base of
teeth on lower jaw.

Spawning king salmon adults lose their silvery bright color and turn maroon to olive brown.

COHO (SILVER) SALMON

Greenish-blue back with silvery sides. Small black spots on the back, dorsal fin, and usually on upper lobe of tail only.

Black mouth with
WHITE gums at base of
teeth on lower jaw.

Spawning coho salmon adults develop greenish-black heads and dark brown to maroon bodies.

SOCKEYE (RED) SALMON

Dark blue-black back with silvery sides. No distinct spots on back, dorsal fin, or tail.

Spawning sockeye salmon adults develop dull-green heads and brick-red to scarlet bodies.

CHUM (DOG, KETA, CALICO) SALMON

Dull gray back with yellowish-silver sides. No distinct spots on back or tail. Large eye pupil, covers nearly the entire eye.

Spawning adults develop olive-green coloration on the back with maroon sides covered with irregular dull red bars. Males exhibit many large canine-like teeth.

PINK (HUMPY) SALMON

Large spots on the back and large black oval blotches on both tail lobes. Very small scales.

Spawning adults turn dull gray on their backs and upper sides and creamy white below. Males develop a pronounced hump.

TROUT AND OTHER SPECIES FOUND IN SOUTHEAST ALASKA

RAINBOW TROUT

Green to bluish back with silvery to yellowish-green sides. Broad pinkish band along side and black spots on back, sides, and tail. Upper jaw usually does not extend past eye on adult.

CUTTHROAT TROUT

Yellowish-green body with no pinkish band along sides. Many black spots on back, sides, and tail. Upper jaw extends well past eye on adults. Red to orange slash on underside of lower jaw.

EASTERN BROOK TROUT

Duane Raver/USFWS

Dark green or blue background with white belly; its upper body and dorsal fin have wavy, pale yellow wormlike markings or vermiculations. Its sides have small red or pink spots surrounded by light blue halo rings scattered among larger light yellow spots. The lower fins are white tipped and the tail is square. Not found in marine waters.

ARCTIC GRAYLING

Light copper brown to dark purple back, fading to bluish-gray with black spots on sides. Very large dorsal fin with red and violet spots.

STEELHEAD

White mouth with white gums at base of teeth on lower jaw.

California Department of Fish and Game

Sea-run rainbow trout with bluish-gray back and bright silvery sides. Slender body profile; 8-10 anal fin rays. Small black spots on back, sides, and tail. Pink/red coloration develops after returning to fresh water to spawn.

DOLLY VARDEN CHAR

The body has a background coloration that can range from emerald green to bluish-gray or silver and is covered with lots of small light red spots (usually smaller than its pupil). The tail is slightly forked and there are no distinct spots on head or tail. Lower fins are red or orange with a white anterior border. Easily confused with Eastern Brook Trout, but Dolly Varden do not have wormlike markings on their back or dorsal fin. Found both in fresh and salt waters.

WATERBODY	COMMUNITY
Rustabach Lake	Haines
Upper & Lower Dewey Lakes	Skagway
Dorothy Lake	Juneau
Salmon Creek Reservoir	Juneau
Deep Lake	Sitka
Green Lake	Sitka
Heart Lake	Sitka
Long Lake	Sitka
Thimbleberry Lake	Sitka
Crystal Lake	Petersburg
Grace Lake	Ketchikan
Ketchikan Lake	Ketchikan
Shelokum Lake	Ketchikan
Perseverance Lake	Ketchikan
Emerald (Texas) Lake	Hyder

Eastern Brook Trout are not native to Alaska and are found only in the bodies of water listed above.

The following are some of the definitions set forth in AS 16.05.940, 5 AAC 75.020, and 5 AAC 75.995

AREA: Means a regulatory management area as described in 5 AAC 47-5 AAC 74.

ARTIFICIAL FLY: A fly which is constructed by common methods known as fly tying, including a dry fly, wet fly, and nymph, or a bare single hook that is free of bait as defined in 5 AAC 75.995. Materials and chemicals designed and produced primarily to cause flies to float or sink may be used on artificial flies.

ARTIFICIAL FLY (UNWEIGHTED): A fly which weighs less than $\frac{3}{4}$ ounce in its entirety.

ARTIFICIAL LURE: Any lure which is man-made, free of bait as defined in 5 AAC 75.995, and is used to attract fish. This includes an artificial fly.

BAG LIMIT: The maximum legal take of fish per person per day, in the area in which the person is fishing, even if part or all of the fish are immediately preserved; a fish when landed and not immediately released becomes a part of the bag limit of the person originally hooking it.

BAIT: Any substance applied to fishing gear for the purpose of attracting fish by scent, including fish eggs in any form, natural or preserved animal, fish, fish oil, shellfish, or insect parts, natural or processed vegetable matter, and natural or synthetic chemicals.

BANNED INVASIVE SPECIES: A nonnative species that can become established in Alaska; compete with native species for resources; degrade habitat; threaten the health or population of native species; or cause economic and environmental harm. These species include the American bull frog, Pacific chorus frog, red-legged frog, signal crayfish, red swamp crayfish, rusty crayfish, European green crab, Asian carp, yellow perch, New Zealand mudsnail, Dreissenid mussels, quagga mussel, zebra mussel, and Conrad's or dark false mussel.

CHAR: All char, including Dolly Varden, Arctic char, lake trout (Mackinaw), and eastern brook trout.

CHARTER VESSEL: Means a vessel used for hire in the sport, personal use, or subsistence taking of fish or shellfish, and not used on the same day for any other commercial fishing purpose; a charter vessel does not include a vessel or skiff without a charter vessel operator.

CHARTER VESSEL OPERATOR: A person engaged in carrying passengers on a charter vessel for any valuable consideration that passes directly or indirectly to the vessel's owner, operator, or a person with a financial interest in the vessel, in consideration of the carriage of any person on board.

CLOSED SEASON: The time during which fish may not be taken, including no catch-and-release fishing.

CLOSED WATERS: Waters designated by the Board wherein it is illegal to take fish.

CLOSELY ATTENDED LINE: That the line or strike indicator is within the view of and is accessible to the angler at all times.

DEEPWATER RELEASE MECHANISM: A device designed to return a rockfish back near the bottom where it was hooked, or to a specified depth, and to assist the fish in recompression and to improve the fish's chance of survival.

DRAINAGE: All of the waters comprising a watershed including tributary rivers, streams, sloughs, ponds, and lakes which contribute to the water supply of the watershed.

FISHING ROD: A tapered, flexible rod typically used for sport fishing, equipped with a hand grip and a line guide system that guides the line from the reel to the tip of the rod, and upon which is mounted a fishing reel used to deploy and retrieve the sport fishing line.

FRESH WATER: All inland waters; inland waters are separated from salt water at the mouths of creeks, streams, and rivers at a line between extremities of the latter's banks at a mean low tide or at a point to be determined and adequately marked by the Department.

LENGTH OF FISH: The length from the tip of the snout to the tip of the tail (total length).

LOCAL REPRESENTATIVE OF THE DEPARTMENT: (a) The nearest most accessible professional employee of the Department, (b) a person designated by the Commissioner or by a professional employee of the Department to perform specific functions for the Department, or (c) a law enforcement officer of the Department of Public Safety.

MARK OR MARKING: All forms of skin alteration, fin clipping, or other mutilation, or insertion of foreign materials in live fish that permit later identification.

MOLESTING: The harassing, disturbing, or interfering with fish by any means, including the use of any missile or object not established as legal gear; molesting includes dragging, kicking, throwing, striking, or otherwise abusing a fish which is intended to be released.

MULTIPLE HOOK: A fish hook with two or more points with or without barbs.

OPEN SEASON: The time during which fish may lawfully be taken; each period of time prescribed as an open season shall be construed to begin at 12:01 a.m. on the first day and end at midnight of the last day thereof.

PEACE OFFICER OF THE STATE: (a) An employee of ADF&G authorized by the Commissioner; (b) a police officer in the state; or (c) any other person authorized by the Commissioner.

POSSESSION LIMIT: The maximum number of unpreserved fish a person may have in possession.

POWER ASSISTED FISHING REEL: A reel used to deploy and retrieve the sport fishing line that is operated or assisted by any electronic hydraulic, or other mechanical power source other than by hand-cranking a handle attached to the reel.

PRESERVED FISH: Fish prepared in such a manner, and in an existing state of preservation, as to be fit for human consumption after a 15-day period, and does not include unfrozen fish temporarily stored in coolers that contain ice, dry ice, or fish that are lightly salted.

REEL SEAT: An attachment mechanism that holds the fishing reel to the rod using locking, threading rings, sliding bands, or other attachment devices and is designed to allow the reel to be readily detached from the fishing rod.

DEFINITIONS

ROCKFISH: Includes all fish of the genus *Sebastes*.

SALMON: All salmon, including the five species of Pacific salmon: Chinook (king), chum (dog), coho (silver), pink (humpy), and sockeye (red).

SALT WATER: All marine waters; marine waters are separated from fresh water at the mouths of streams, rivers, and creeks.

SINGLE HOOK: A fish hook with only one point with or without a barb.

SNAG: To hook a fish elsewhere than in its mouth.

SPEAR: A hand-operated shaft with a sharp point or fork-like implement attached to one end, used to thrust through the water to impale or retrieve fish; includes a Hawaiian sling or pole spear which is a shaft propelled by a single loop of elastic material that is not equipped with a mechanical release or trigger.

SPEARGUN: A device designed to propel a spear through the water by means of elastic bands, compressed gas, or other mechanical propulsion to take fish that is equipped with a mechanical release or trigger.

SPORT FISHING: The taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held in the hand, or by hook and line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Alaska Board of Fisheries.

SPORT FISHING GUIDE: A person who provides sport fishing guide services to persons who are engaged in sport fishing.

SPORT FISHING GUIDE SERVICES: Assistance, for compensation or with the intent to receive compensation, to a sport fisherman to take or attempt to take fish by accompanying or physically directing the sport fisherman in sport fishing activities during any part of a sport fishing trip; however, the term does not include sport fishing services or services provided by an assistant, deckhand, or similar person who works directly under the supervision of and on the same vessel as a sport fishing guide.

SPORT FISHING SERVICES: The indirect provisions of assistance, for compensation or with the intent to receive compensation, to a person engaged in sport fishing in taking or attempting to take fish or shellfish by a business that employs a sport fishing guide to

provide sport fishing guide services to the person during any portion of a sport fishing trip; sport fishing services does not include an activity for which a sport fishing guide license is required, or booking and other ancillary services provided by a tour broker or agent to a sport fishing services operator.

NEW SQUID JIG: An artificial lure that may not exceed 24 inches in total length, used to target squid, that consists of barbless hook clusters and may not contain any barbed hooks.

STREAM MOUTH: The downstream point defined as a straight line running from the most downstream extremity on one stream bank to the most downstream extremity on the other stream bank, or a point defined and marked by the Department

TAKE: Taking, pursuing, fishing, or in any manner disturbing, capturing, or killing or attempting to take, pursue, fish, or in any manner capture or kill fish or shellfish.

TOXICANT: Any material or chemical that upon introduction to the waters of Alaska by direct or indirect means will kill, stun, or drive fish from their natural repose.

TRANSPORT: Ship, transport, carry, import, export, or receive or deliver for shipment, transportation, carriage, or export.

TROUT: Includes rainbow, steelhead, and cutthroat.

WATERS OF ALASKA: Has the same meaning as set out in 5 AAC 39.975(13).

YEAR: The calendar year from January 1 through December 31.

The best days are spent fishing.

Sitka	(907) 747-3254
Wrangell	(907) 874-3215
Yakutat	(907) 784-3220

Trout regulations in Southeast Alaska are based on the ADF&G's research on cutthroat trout and steelhead in Southeast, published literature on trout, and an intensive public review process. Regulations for managing trout (cutthroat and rainbow trout, in combination) and steelhead in Southeast Alaska are separated into two categories: steelhead and all other trout. Within these two categories, there are eight different levels of regulation which achieve maximum angler opportunity while preserving existing stocks at optimum levels.

STEELHEAD:

1. Region Wide Regulations: Wild steelhead are one of Southeast Alaska's most prized resources. A minimum size limit of 36 inches has been established to provide a limited harvest opportunity yet protect most adult steelhead. Research shows that this size limit provides protection for 96% of adult steelhead throughout the region. In addition, there is an annual limit of 2 steelhead per person.

2. Fall-run Steelhead Streams: The Board of Fisheries has adopted added protection to 24 fall-run steelhead streams. The use of bait and retention of steelhead is prohibited year-round in these waters. See area specific regulations for these streams.

CUTTHROAT/RAINBOW TROUT:

3. Region Wide Regulations: The 11 inch minimum and 22 inch maximum size limit for cutthroat trout accomplishes two essential goals: it protects the majority of all cutthroat trout until they can spawn at least once, and it protects juvenile steelhead (rainbow) trout so they cannot be harvested before they migrate to the ocean. Size limits are only effective if hooking mortality is reduced. Studies show that mortality rates for cutthroat when caught and released with natural bait can be as high as 48%, whereas mortalities from artificial gear (lures, flies, etc.) is less than 5%. Rainbow trout caught with bait and released may suffer a mortality rate of 28%, again much higher than with artificial gear. Bait is therefore banned in most fresh waters for 10 months of the year, with an opening intended to allow the use of bait for coho salmon fishing September 15 to November 15.

4. Trophy Cutthroat Lakes: Thirteen lakes in Southeast Alaska have produced cutthroat trout that historically qualified for entry in the ADF&G Trophy Fish Program. Anglers in a 1993 survey said that the opportunity to catch trophy-size cutthroat trout is important to them, and our research shows that cutthroat may not reach the 3-pound trophy size for about 12 years. No bait is allowed in trophy lakes, and 12 of the 13 lakes have a minimum size limit of 25 inches to allow harvest opportunity of a trophy fish, the exception being Turner Lake, where the retention of cutthroat trout is prohibited.

5. High-use Waters: Areas with developed access have more intensive fisheries: 28 lakes and the Juneau roadside waters are in this category. The minimum size limit is set at 14 inches to protect local populations of cutthroat trout until nearly all females have had a chance to spawn at least once. Bait is prohibited in these high-use lakes and areas year-round. In addition, in the Juneau road system streams, the retention of steelhead is prohibited.

6. Small Cutthroat Lakes: These are smaller lakes where sustainable populations of trout that are known not to produce trout over the regional size limit of 11 inches. In these lakes a 9 inch minimum and a 22 inch maximum size limit apply, bait is prohibited and region wide limits of 2 per day and 2 in possession stand.

7. Stocked Lakes: Twin Lakes in Juneau, and Carlanna Lake and Harriet Hunt Lake near Ketchikan, bait is allowed year-round. There is no minimum size limit, and the bag limit is 5 trout per day and 5 in possession.

8. High Productivity Lakes: Stock status studies have shown that the cutthroat trout population in Florence Lake can sustain more harvest and in addition, fishing effort in this remote lake has declined. Thus, regulations are more liberal, at 5 per day and 10 in possession, no size limits, and bait is allowed year-round.

SUMMARY OF TROUT REGULATIONS IN SOUTHEAST ALASKA

STEELHEAD

entire year

1. Region Wide Regulations
(fresh and salt waters)

1 per day/2 in possession,
36 inch min. size limit
ANNUAL LIMIT of 2

2. Fall-run Steelhead Streams

Retention and use of bait
prohibited year-round

CUTTHROAT/RAINBOW TROUT

entire year

3. Region Wide Regulations
(fresh and salt waters)

In fresh water bait is
prohibited November 16 -
September 14
2 per day/2 in possession,
11 inch min. and
22 inch max. size limit

4. Trophy Cutthroat Lakes

1 per day/1 in possession,
25 inch minimum size
limit

Turner Lake

Retention prohibited

5. High-use Waters

2 per day/2 in possession,
14 inch min. and
22 inch max. size limit

6. Small Cutthroat Lakes

2 per day/2 in possession,
9 inch min. and 22 inch
max. size limit

7. Stocked Lakes

Bait allowed year-round
5 per day/5 in possession,
no size limits

8. High Productivity Lakes

Bait allowed year-round
5 per day/10 in possession,
no size limit

Steelhead trout.

BOATING TIPS:

Division of Parks and Outdoor Recreation

KNOW YOUR VESSEL - Before departure, know that your vessel is in good working condition and properly equipped for emergencies. Avoid potential danger by keeping your boat well maintained; take a few minutes before each trip to inspect your boat. Use the checklist below.

ALWAYS WEAR A LIFE JACKET! - Drowning is the second leading cause of death in Alaska. Most Alaskans who die in boating accidents capsize or fall overboard and are not wearing life jackets. Life jackets should **always** be worn. Your life may depend on it!

OBTAIN LOCAL KNOWLEDGE - Study local maps, charts, weather reports, and tide tables. Contact the local harbormaster, village public safety officer, health officials, or talk to other local boaters before boating in a new area.

ALCOHOL AND BOATING DON'T MIX - Drinking while operating a boat is dangerous! Alcohol impairs your sense of balance, your peripheral and night vision, your judgment, and your reaction time. It also increases heat loss and risk of hypothermia.

DON'T OVERLOAD - Follow the recommendations of the capacity plate and owner's manual. Distribute weight for best handling, and secure loads against shifting. Remember, safe vessel capacity is greatly affected by weather and water conditions.

ALWAYS COMPLETE A FLOAT PLAN - Does someone know your plans in case you don't return on schedule? Leave word on where you are going and when you expect to return, who is onboard, and who to notify if you are overdue. Leave a detailed description of your boat and registration numbers. Then remember to let the same people know when you return. It's that simple!

EDUCATE YOURSELF - Boating education is a lifelong process. Take a boating safety course. Learn how to do basic troubleshooting and field repairs. Do your passengers know where the safety equipment is and how to use it? Do they know how to start, stop, and steer the boat? For information, contact the State Office of Boating Safety at (907) 269-8705, or visit our website www.alaskaboatingsafety.org.

Life jackets for each person
(properly sized and worn)
Current weather forecast and tides
checked
Boat plug installed/sea cock closed
VHF marine radio (tested prior to
departure)
Fire extinguishers (fully charged)
Throwable flotation device with
floating line attached
Sound-producing device (air horn,
whistle, bell)
Visual distress signals (flares,
orange flag, signal light)
Fuel and oil sufficient for trip
($\frac{1}{3}$ out, $\frac{1}{3}$ return, $\frac{1}{3}$ reserve)

Battery fully charged, terminals
covered, & battery secured
Bilge pump and manual pump or
bailing device
Tools and spare parts (battery,
fuses, spark plugs, belts)
Navigation lights functioning
properly
Registration certificate onboard,
numbers and decals affixed
Anchor
Paddle/oar or other alternate
propulsion
Food/emergency shelter/drinking
water
First Aid Kit

FELT-SOLED FOOTGEAR PROHIBITED

Anglers are reminded that effective January 1, 2012, footwear with absorbent felt or other fibrous material on the soles are prohibited while sport fishing in the fresh waters of Alaska. The regulation was adopted by the Alaska Board of Fisheries in 2010 to reduce the potential for introduction and spread of invasive organisms, including plants, into Alaska waters. Invasive organisms spread by contaminated waders and other gear can threaten resident fish stocks and important fish habitat.

Wading boots are not the only means of transporting invasive species; all fishing, boating, or recreational equipment exposed to aquatic invasive species are potential carriers.

To reduce the chance of introducing invasive species, anglers should:

- **CLEAN** - Rinse and remove any mud, sediment, and/or plant debris from all gear, boats, and boat trailers, floatplane rudders and floats, and anything that comes into contact with the water. Separate all pieces of wading footwear and waders (remove liners, etc.) to check for and remove visible mud, sediment and/or plant debris before leaving the area. Use a stiff bristle brush to clean all fishing gear.
- **DRAIN** - Empty all water from coolers, bilge pumps, buckets, and wring out gear before leaving the boat launch or fishing areas.
- **DRY** - Completely dry gear between systems or trips.
- **DECONTAMINATE** - If drying is not possible, either freeze gear until solid or wash gear in 130°F hot water. If drying, freezing, or heating gear is not feasible, use a 2% bleach solution to clean gear away from fresh water recreation sites. Spray or rinse gear for one minute. A 2% bleach solution can be made easily by mixing 2.5 oz. of chlorine bleach with tap water to make 1 gallon of solution.

NOTE: Bleach solutions may degrade gear made of absorbent materials. Please rinse gear on land, away from fresh water fishing areas and dispose of disinfectants as indicated on the label.

PLEASE REPORT INVASIVE SPECIES BY CALLING 1 (877) INVASIV

For more information on preventing the spread of aquatic invasive species in Alaska's waters, please visit the ADF&G invasive species webpage at www.adfg.alaska.gov/index.cfm?adfg=invasive.main.

ANGLER RECOGNITION PROGRAMS

TROPHY FISH PROGRAM

The Trophy Fish Program gives special recognition to anglers taking fish that meet minimum weight (trophy certificates) or length standards (catch-and-release certificates) within a species. Trophy fish for both certificates must be legally caught from waters open to the public in compliance with current ADF&G sport fishing regulations. There is now a category for Youth anglers.

Photo courtesy of Chris Cox.

FIVE SALMON FAMILY CHALLENGE

The Five Salmon Family certificate program provides recognition to angling families who catch and document the five species of Pacific salmon commonly found in Alaska. Certification in the program requires all salmon must be legally caught in Alaskan waters (fresh or salt water) open to the public and in compliance with current ADF&G sport fishing regulations.

STOCKED WATERS CHALLENGE

The Stocked Waters Challenge program awards a certificate of recognition to individuals or groups who successfully complete one or more angling challenges at stocked waters.

ALASKA TROPHY FISH RECORD HOLDERS

46

Species	Min.. wt.	Lbs/oz	Year	Location	Angler
Arctic char/ Dolly Varden	10 lb	27/6	2002	Wulik River	Mike Curtiss
Brook trout	3 lb	3/4	2012	Green Lake	Kyle Kitka
Burbot	8 lb	24/12	1976	Lake Louise	George R. Howard
Chinook salmon	(see below)	97/4	1985	Kenai River	Lester Anderson
Chum salmon	15 lb	32/0	1985	Caamano Point	Fredrick Thynes
Coho salmon	20 lb	26/0	1976	Icy Strait	Andrew Robbins
Cutthroat trout	3 lb	8/6	1977	Wilson Lake	Robert Denison
Arctic grayling	3 lb	5/1	2008	Fish River	Peter Cockwill
Halibut	250 lb	459/0	1996	Unalaska Bay	Jack Tragis
Lake trout	20 lb	47/0	1970	Clarence Lake	Daniel Thorsness
Lingcod	55 lb	82/9	2007	Gulf of Alaska	Robert Hammond
Northern pike	15 lb	38/8	1991	Innoko River	Jack Wagner
Pink salmon	8 lb	13/7	2016	Kenai River	Robert Dubar
Rainbow/ steelhead trout	15 lb	42/3	1970	Bell Island	David White
Rockfish	18 lb	39/1	2013	Sitka	Henry Liebman
Sheefish	30 lb	53/0	1987	Pah River	Lawrence E. Hudnall
Sockeye salmon	12 lb	16/0	1974	Kenai River	Chuck Leach
Whitefish	4 lb	9/0	1989	Tozitna River	Al Mathews

King salmon minimum weight for the Kenai River is 75 lb. For the rest of the state, it is 50 lb.

Minimum weights for trophy fish certificates are listed on the table above (second column). Entries must be weighed in the presence of witnesses and a Trophy Fish Official, on a scale currently certified by the Division of Weights and Measures.

For catch-and-release honorary certificates, do not remove your fish from the water. Hold it just at the water's surface while a photograph is quickly taken, then release it into the current.

Minimum Lengths for Catch-and-Release Certificates:

- Arctic char/Dolly Varden - 30 inches
- Arctic grayling - 18 inches
- Brook trout - 20 inches
- Burbot - 32 inches
- Cutthroat trout - 20 inches
- Lake trout - 36 inches
- Lingcod - 53 inches
- Northern pike - 40 inches
- Rainbow/steelhead trout - 32 inches
- Sheefish - 36 inches

We've added a Youth Category to our Trophy Fish Program!

Check out the details at www.wefishak.alaska.gov.

5 AAC 75.010(a) states that no person may possess any unpreserved fish not legally taken by himself or herself, unless he or she has a statement signed by the person taking the fish stating the type of fish, number of fish, the location and date taken, and the sport fishing license number. See page 7, "Possession of sport-caught fish."

Alaska Department of Fish and Game
Division of Sport Fish

TRANSFER OF POSSESSION FORM

Anglers must fill out this form and give to recipient, along with fish or shellfish. Recipient must carry this form until fish or shellfish are preserved.

SPORT FISHING BY PROXY **Proxy fishing for halibut is not allowed.**

Alaska residents may proxy sport fish, proxy personal use fish, and/or proxy subsistence fish for another Alaska resident who is:

1. 70% or greater physically disabled (physician's affidavit required);
2. 65 years or older;
3. Legally blind (physician's affidavit required); or
4. Developmentally disabled (physician's affidavit required).

No person may give or receive payment to be a beneficiary or a proxy.

To obtain a "Proxy Information Form"

Go to any Alaska Department of Fish and Game office, or visit www.adfg.alaska.gov/index.cfm?adfg=personaluseproxyfishing.main

IT'S UP TO ALL 
OF US TO **PROTECT**
ALASKA WATERS.

CLEAN all aquatic plants, animals, and mud from your boat and gear before you leave the launch. Dispose of debris in the trash.

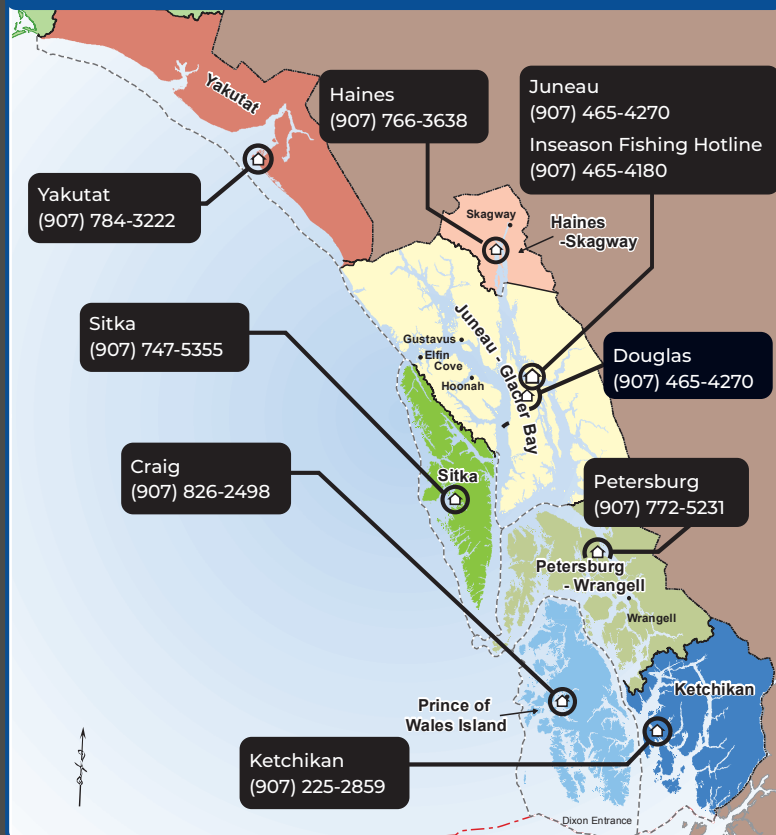

DRAIN water from bilge, ballast, motor, live-wells and bait buckets before you leave the area.

DRY your boat and gear as completely as possible between outings.

**HELP STOP THE SPREAD OF
AQUATIC INVASIVE SPECIES**

ALASKA DEPARTMENT OF FISH & GAME SOUTHEAST ALASKA SPORT FISH OFFICES

The Alaska Department of Fish and Game (ADF&G) administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972. If you believe you have been discriminated against in any program, activity, or facility, please write: ADF&G ADA Coordinator, P.O. Box 115526, Juneau, AK 99811-5526; U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, MS 2042, Arlington, VA 22203; Office of Equal Opportunity, U.S. Department of the Interior, 1849 C Street NW, MS 5230, Washington, DC 20240. The department's ADA Coordinator can be reached via phone at the following numbers: (VOICE) (907) 465-6077, (Statewide Telecommunication Device for the Deaf) 1 (800) 478-3648, (Juneau TDD) (907) 465-3646, or (FAX) (907) 465-6078. For information on alternative formats and questions on this publication, please contact the following: ADF&G, Sport Fish Division, Research and Technical Services, Anchorage, AK 99518, (907) 267-2382.

This publication was released by Alaska Department of Fish and Game at a cost of \$0.22 per copy to provide fishing regulations to the public and printed in Anchorage, Alaska.

A MESSAGE FROM THE COMMISSIONER

A new year means 365 days to create new memories. Alaska is a destination most people dream about visiting and a lot of us are lucky enough to call Alaska home. Alaska offers tons of opportunities for anglers to reel in a fish and make memories that will last a lifetime. Whether you are into river, lake, or ocean fishing, new to fishing or an experienced angler, Alaska offers plenty of opportunities to get out on the water with a fishing rod in hand.

Need help planning a fishing trip? Want a new to you fishing spot? Have family and friends visiting and want to give the experience of a lifetime? Or simply need help understanding the sport fishing regulations? Then make sure to visit or call one of our many ADF&G sport fishing front desks, you can find a list of our local area offices on the back of the regulation books. Our staff love to talk about fishing and can provide you pointers on fishing gear and tackle. As a friendly reminder, don't forget to not only read the regulations for the waters you plan to fish but also check for emergency orders before you head out. You can find emergency orders posted at local ADF&G offices or by going to the ADF&G Emergency Order webpage via www.adfg.alaska.gov/sf/EONR.

And thank you to all those who have purchased a fishing license. When you purchase a fishing license or king stamp, those funds go directly towards funding our state's fisheries resource conservation, management, research, and enhancement efforts. When you purchase fishing equipment or boat fuel, a portion of those excise tax dollars go into a federal fund designed to distribute money back to states. These funds, distributed annually, are used for resource management and conservation and to provide improved access to fishing across Alaska. Your participation as an angler in Alaska helps ADF&G maintain and improve the state's fisheries. And if the opportunity arises, please take a kid fishing. It's never too soon to start nurturing our next generation of anglers!

We hope your days fishing in Alaska are exceptional and you put some fish away for the winter, but most of all we hope you create memories you can recall in the years to come.

I look forward to seeing you on the water. Tight lines.

Doug Vincent-Lang

Commissioner, Alaska Department of Fish and Game
