Re: 2022200485 - 5 AAC 01.225(b)(1) - 5 AAC  
75.955(a): Dept. of Fish and Game - Errors and  
Omissions

Dear Lieutenant Governor Dahlstrom:

The Department of Law has reviewed the attached regulations of the Department of Fish and Game against the statutory standards of the Administrative Procedure Act. Based upon our review, we find no legal problems. This memorandum constitutes the written statement of approval under AS 44.62.060(b) and (c) that authorizes your office to file the attached regulations.

The Department of Fish and Game adopted the regulations after the close of the public comment period. The regulations clarify existing regulations and correct errors and omissions in Title 5 of the Alaska Administrative Code, such as adjusting existing GPS coordinates and cardinal directions, repealing erroneous area descriptions, and correcting misspellings. The regulations repeal or restore provisions erroneously amended by prior regulations and add provisions previously approved by the Alaska Board of Fisheries but inadvertently omitted. Finally, the regulations rearrange some provisions by moving them into their own separate sections. The department adopted the regulations under a delegation of authority from the board to the department to correct technical deficiencies, error and omissions in board regulations.

Both the March 28, 2023 public notice and the May 3, 2023 order adopting changes to the regulations state that this action is not expected to require an increased appropriation. Therefore, a fiscal note under AS 44.62.195 is not required.

In accordance with AS 44.62.125 we have made numerous technical corrections to the regulations. The corrections are incorporated into the attached copy of the regulations. The regulations are now 62 pages, not the 63 pages referred to in the adoption order.

Sincerely,

TREG R. TAYLOR  
ATTORNEY GENERAL
