2017–2020
Kodiak Area
Commercial Salmon Fishing Regulations
Alaska Department of Fish and Game
This booklet contains regulations regarding commercial salmon fisheries in the **KODIAK AREA**. This booklet covers the period May 2017 through June 2020.

**Note to Readers:** These statutes and administrative regulations were excerpted from the Alaska Statutes (AS), and the Alaska Administrative Code (AAC) based on the official regulations on file with the Lieutenant Governor. There may be errors or omissions that have not been identified and changes that occurred after this printing. **This booklet is intended as an informational guide only. To be certain of the current laws, refer to the official statutes and the AAC.**

**Changes to Regulations in this booklet:** The regulations appearing in this booklet may be changed by subsequent board action, emergency regulation, or emergency order at any time. Supplementary changes to the regulations in this booklet will be available on the department's website and at offices of the Department of Fish and Game.

This publication was released by the Department of Fish and Game at a cost of $_.__ per copy, and printed in San Diego, CA.

The Alaska Department of Fish and Game (ADF&G) administers all programs and activities free from discrimination based on race, color, national origin, age, sex, religion, marital status, pregnancy, parenthood, or disability. The department administers all programs and activities in compliance with Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and Title IX of the Education Amendments of 1972.

If you believe you have been discriminated against in any program, activity, or facility please write:

- ADF&G ADA Coordinator, P.O. Box 115526, Juneau, AK 99811-5526
- U.S. Fish and Wildlife Service, 4401 N. Fairfax Drive, MS 2042, Arlington, VA 22203

The department's ADA Coordinator can be reached via phone at the following numbers.

- (VOICE) 907-465-6077
- (Statewide Telecommunication Device for the Deaf) 1-800-478-3648
- (Juneau TDD) 907-465-3646
- (FAX) 907-465-6078

For information on alternative formats and questions on this publication, please contact the Regulations Program Coordinator at (907) 465-6124.

ADF&G Mission Statement

The Alaska Department of Fish and Game's mission is to manage, protect, maintain, and improve the fish, game and aquatic plant resources of Alaska. The primary goals are to ensure that Alaska's renewable fish and wildlife resources and their habitats are conserved and managed on the sustained yield principle, and the use and development of these resources are in the best interest of the economy and well-being of the people of the state.

Guiding Principles

- Seeking excellence in carrying out its responsibilities under state and federal law, the department will:
- Provide for the greatest long-term opportunities for people to use and enjoy Alaska's fish, wildlife and habitat resources.
- Improve public accessibility to, and encourage active involvement by the public in, the department's decision making processes.
- Build a working environment based on mutual trust and respect between the department and the public, and among department staff.
- Maintain the highest standards of scientific integrity and provide the most accurate and current information possible.
- Foster professionalism in department staff, promote innovative and creative resource management, and provide ongoing training and education for career development.

Commercial Fisheries Entry Commission
Juneau 789-6160
CHAPTER 18. KODIAK AREA.

Article 1. Description of Area.

5 AAC 18.001. Application of this chapter. Requirements set out in this chapter apply to commercial fishing only, unless otherwise specified. Subsistence, personal use, and sport fishing regulations affecting commercial fishing vessels or affecting any other commercial fishing activity are set out in the subsistence fishing regulations in 5 AAC 01 and 5 AAC 02, personal use fishing regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 64 and 5 AAC 75.

5 AAC 18.100. Description of area. The Kodiak Area includes all waters of Alaska south of a line extending from Cape Douglas (58° 51.10' N. lat.), west of 150° W. long., north of 55° 30.00' N. lat., and north and east of a line extending 135° southeast for three miles from a point near Kilokak Rocks at 57° 10.34' N. lat., 156° 20.22' W. long. (the longitude of the southern entrance of Imuya Bay), then due south.

Article 2. Fishing Districts and Sections.

5 AAC 18.200. Description of fishing districts and sections. (a) Afognak District: all waters of Afognak and Shuyak Islands bounded by a line from Occident Point (57° 57.42' N. lat., 152° 51.75' W. long.), to Last Timber Point (57° 58.60' N. lat., 152° 59.05' W. long.), by the latitude of Dolphin Point on Whale Island (57° 59.17' N. lat.), by the latitude of Raspberry Cape (58° 03.58' N. lat.), by midstream Shelikof Strait, and by the latitude of Cape Douglas (58° 51.10' N. lat.).

(1) Raspberry Strait Section: all waters of Raspberry Strait bounded by the longitude of Dolphin Point on Afognak Island (153° 09.04' W. long.) and by a line from Head Point (57° 59.67' N. lat., 152° 46.75' W. long.) to Dolphin Point on Whale Island and a line from Occident Point to Last Timber Point;

(2) Southwest Afognak Section: all waters west of Afognak Island bounded by the latitude of Raspberry Cape, the longitude of Dolphin Point on Afognak Island in Raspberry Strait, by the latitude of Cape Paramanof (58° 18.33' N. lat.), and by midstream Shelikof Strait;

(3) Northwest Afognak Section: all waters northwest of Afognak Island bounded by the latitude of Cape Paramanof, by a line extending along midstream Shuyak Straits and perpendicular to midstream Shelikof Strait to Cape Current (58° 27.60' N. lat., 152° 28.90' W. long.), and by midstream Shelikof Strait;

(4) Shuyak Island Section: all waters in the vicinity of Shuyak Island bounded by a line extending along midstream Shuyak Straits and perpendicular to midstream Shelikof Strait to Cape Current, north of a line from Cape Current to Posieddni Point (58° 26.00' N. lat., 152° 19.50' W. long.), west of the longitude of Posieddni Point, south of the latitude of Cape Douglas, and by midstream Shelikof Strait;

(5) Perenosa Bay Section: all waters of Perenosa Bay south of a line extending from Cape Current to Posieddni Point;

(6) Northeast Afognak Section: all waters northeast of Afognak Island bounded by the longitude of Posieddni Point and by the latitude of Pillar Cape (58° 08.90' N. lat.);

(7) Izhut Bay Section: all waters of Izhut Bay, excluding the Inner and Outer Kitoi Bay Sections, bounded by a line from Pillar Cape at 58° 08.90' N. lat., 152° 06.77' W. long. to Peril Cape at 58° 08.06' N. lat., 152° 15.77' W. long.;
KODIAK AREA

(8) Outer Kitoi Bay Section: all waters of Kitoi Bay bounded by a line from 58° 10.58' N. lat., 152° 17.36' W. long., to 58° 09.50' N. lat., 152° 18.70' W. long., and by a line at the jaws from 58° 11.25' N. lat., 152° 20.55' W. long., to 58° 11.05' N. lat., 152° 20.80' W. long.;

(9) Inner Kitoi Bay Section: all waters of inner Kitoi Bay bounded by a line at the jaws from 58° 11.25' N. lat., 152° 20.55' W. long. to 58° 11.05' N. lat., 152° 20.80' W. long.;

(10) Duck Bay Section: all waters of Duck Bay bounded by the latitude of Pillar Cape, by a line from Pillar Cape at 58° 08.90' N. lat., 152° 06.77' W. long. to Peril Cape at 58° 08.06' N. lat., 152° 15.77' W. long., and by a line along 152° 33.40' W. long. from Cape Kostromitinof to the latitude of Dolphin Point on Whale Island (57° 59.17' N. lat., 152° 43.45' W. long.), and by the latitude of Dolphin Point on Whale Island;

(11) Southeast Afognak Section: all waters of Kazakof Bay (Danger Bay) and Afognak Bay bounded by a line along 152° 33.40' W. long. from Cape Kostromitinof to the latitude of Dolphin Point on Whale Island, a line from Head Point on Afognak Island to Dolphin Point on Whale Island, and the latitude of Dolphin Point on Whale Island;

(12) Pauls Bay Section: all waters of Pauls Bay east of 152° 21.67' W. long.

(b) Northwest Kodiak District: all waters of north and west Kodiak Island bounded by the latitude of Termination Point (57° 51.37' N. lat.), by the latitude of Dolphin Point on Whale Island (57° 59.17' N. lat.), by a line from Occident Point (57° 57.42' N. lat., 152° 51.75' W. long.) to Last Timber Point (57° 58.60' N. lat., 152° 59.05' W. long.), by the latitude of Raspberry Cape (58° 03.58' N. lat.), by the latitude of Rocky Point (57° 39.78' N. lat.), and by midstream Shelikof Strait.

(1) Anton Larsen Bay Section: all waters of Anton Larsen Bay south of 57° 52.25' N. lat.;

(2) Sharatin Bay Section: all waters of Sharatin Bay south of 57° 51.07' N. lat.;

(3) Kizhuyak Bay Section: all waters of Kizhuyak Bay south of 57° 50.00' N. lat.;

(4) Terror Bay Section: all waters of Terror Bay and Uganik Bay passages south of 57° 50.00' N. lat., and east of 153° 12.60' W. long.;

(5) Inner Uganik Bay Section: all waters of the South and East Arms of Uganik Bay south of a line from Rock Point at 57° 46.47' N. lat., 153° 29.30' W. long., to 57° 46.27' N. lat., 153° 32.90' W. long.;

(6) Spiridon Bay Section: all waters of Spiridon Bay east of 153° 46.33' W. long.;

(7) Zachar Bay Section: all waters of Zachar Bay east of a line from Carlsen Point at 57° 34.70' N. lat., 153° 50.15' W. long., to a point on the opposite shore at 57° 35.60' N. lat., 153° 49.10' W. long.;

(8) Uyak Bay Section: all waters of Inner Uyak Bay south of the latitude of the southernmost tip of Amook Island (57° 25.72' N. lat.) to the west shore, and south of the latitude of the northernmost tip of Amook Island (57° 33.16' N. lat.) to the east shore;

(9) Central Section: all waters of the Northwest Kodiak District bounded by a line from Termination Point (57° 51.37' N. lat., 152° 24.15' W. long.), to South Point (57° 53.00' N. lat., 152° 22.00' W. long.), to Ouzinkie Point (57° 54.80' N. lat., 152° 31.27' W. long.),
to Shakmanof Point (57° 55.50' N. lat., 152° 35.36' W. long.), to a point at 57° 54.20' N. lat. on the east shore of Kizhuyak Bay; north of 57° 52.25' N. lat. in Anton Larsen Bay; north of 57° 51.07' N. lat. in Sharatin Bay; north of 57° 50.00' N. lat., and south of the latitude of Inner Point (57° 54.05' N. lat.) in Kizhuyak Bay; west of a line from Inner Point (57° 54.05' N. lat., 152° 47.75' W. long.) to Bird Point (57° 55.30' N. lat., 152° 47.50' W. long.); south of a line from Occident Point (57° 57.42' N. lat., 152° 51.75' W. long.) to Last Timber Point (57° 58.60' N. lat., 152° 59.05' W. long.); south of the latitude of Raspberry Cape (58° 03.58' N. lat.); north of 57° 50.00' N. lat., and west of 153° 12.60' W. long. in Terror Bay and Uganik Bay passages; north of the line from Rock Point at 57° 46.47' N. lat., 153° 29.30' W. long., to 57° 46.27' N. lat., 153° 32.90' W. long., in the South and East Arms of Uganik Bay; west of 153° 46.33' W. long. in Spiridon Bay; west of a line from Carlsen Point (57° 34.70' N. lat., 153° 50.15' W. long.) to 57° 35.60' N. lat., 153° 49.10' W. long., in Zachar Bay; all waters of Inner Uyak Bay north of the latitude of the southernmost tip of Amook Island (57° 25.72' N. lat.) to the west shore, and north of the latitude of the northernmost tip of Amook Island (57° 33.16' N. lat.) to the east shore; north of the latitude of Rocky Point (57° 39.78' N. lat.); and by midstream Shelikof Strait;

(10) North Cape Section: all other waters of the Northwest Kodiak District.

(c) Southwest Kodiak District: all waters southwest of Kodiak Island bounded by the latitudes of Rocky Point (57° 39.78' N. lat.) and Low Cape (56° 59.50' N. lat.), and by midstream Shelikof Strait.

(1) Outer Karluk Section: all waters west of Kodiak Island bounded by the latitude of Rocky Point, the latitude of Pafco Point (57° 36.78' N. lat.), and by midstream Shelikof Strait;

(2) Inner Karluk Section: all waters west of Kodiak Island bounded by the latitude of Pafco Point, the latitude of Cape Karluk (57° 34.20' N. lat.), and by midstream Shelikof Strait;

(3) Sturgeon Section: all waters west of Kodiak Island bounded by the latitude of Cape Karluk, the latitude of Sturgeon Head (57° 30.65' N. lat.), and by midstream Shelikof Strait;

(4) Halibut Bay Section: all waters southwest of Kodiak Island bounded by the latitude of Sturgeon Head, the latitude of Cape Ikolik (57° 17.40' N. lat.), and by midstream Shelikof Strait;

(5) Outer Ayakulik Section: all waters southwest of Kodiak Island bounded on the north by the latitude of Cape Ikolik, and on the south at 57° 13.15' N. lat., and offshore at midstream Shelikof Strait;

(6) Inner Ayakulik Section: all waters southwest of Kodiak Island bounded on the north by 57° 13.15' N. lat., and on the south by the latitude of Low Cape, and offshore at midstream Shelikof Strait.

(d) Alitak District: all waters south of Kodiak Island bounded by the latitude of Low Cape, the latitude of Cape Trinity (56° 44.80' N. lat.), and by midstream Shelikof Strait.

(1) Cape Alitak Section: all waters bounded by the latitude of Low Cape, the latitude of Cape Trinity, by midstream Shelikof Strait, by a line from Cape Trinity (56° 44.80' N. lat., 154° 08.90' W. long.) to Middle Reef (56° 54.00' N. lat., 154° 03.00' W. long.), and by a line from Middle Reef to Tanner Head at 56° 53.17' N. lat., 154° 13.90' W. long.;
(2) Humpy-Deadman Section: all waters of Alitak Bay east of a line from Cape Trinity, to Middle Reef, to the southernmost tip of Fox Island (56° 59.08' N. lat., 154° 02.10' W. long.), and from the northernmost tip of Fox Island (56° 59.68' N. lat., 154° 01.85' W. long.), to 57° 01.11' N. lat., 154° 00.95' W. long., to the Moser Peninsula at 57° 01.10' N. lat., 154° 01.15' W. long.;

(3) Alitak Bay Section: all waters of Alitak Bay bounded on the south by a line from Tanner Head (56° 53.17' N. lat., 154° 13.90' W. long.), to Middle Reef, to the southernmost tip of Fox Island, and a line from the northernmost tip of Fox Island to 57° 01.11' N. lat., 154° 00.95' W. long., to the Moser Peninsula at 57° 01.10' N. lat., 154° 01.15' W. long., and bounded on the north by a line from Bun Point to Amik Island at 56° 58.04' N. lat., 154° 07.02' W. long., to the southwest end of Amik Island at 56° 57.85' N. lat., 154° 07.60' W. long., to the northeast end of Miller Island at 56° 57.80' N. lat., 154° 07.65' W. long., to the northwest end of Miller Island at 56° 57.80' N. lat., 154° 08.80' W. long., to Kodiak Island at 56° 57.90' N. lat., 154° 08.70' W. long.;

(4) Moser Bay Section: all waters of Moser Bay bounded on the south by a line from Bun Point to Amik Island at 56° 58.04' N. lat., 154° 07.02' W. long., to the southwest end of Amik Island at 56° 57.85' N. lat., 154° 07.60' W. long., to the northeast end of Miller Island at 56° 57.80' N. lat., 154° 07.65' W. long., to the northwest end of Miller Island at 56° 57.80' N. lat., 154° 08.80' W. long., to Kodiak Island at 56° 57.90' N. lat., 154° 08.70' W. long., running east to a point 75 fathoms from the mean low tide mark, then to 57° 00.12' N. lat., 154° 08.08' W. long.;

(5) Olga Bay Section: all waters of Olga Bay north of 57° 04.36' N. lat., and south of a line from Stockholm Point (57° 07.64' N. lat., 154° 06.70' W. long.) east to the opposite shore at 57° 07.64' N. lat., 154° 05.00' W. long., excluding the Dog Salmon Flats Section;

(6) Dog Salmon Flats Section: all waters of Lower Olga Bay northeast of a line from 57° 06.38' N. lat., 154° 00.00' W. long., to the opposite shore at 57° 07.53' N. lat., 154° 03.00' W. long.;

(7) Outer Upper Station Section: all waters of Upper Olga Bay south of a line from 57° 07.64' N. lat., 154° 23.23' W. long., to 57° 07.79' N. lat., 154° 06.70' W. long., to Stockholm Point, excluding the Inner Upper Station Section;

(8) Inner Upper Station Section: all waters of Upper Olga Bay south of a line from 57° 03.41' N. lat., 154° 23.65' W. long., to 57° 04.20' N. lat., 154° 20.55' W. long.;

(9) Outer Akalura Section: all waters of Upper Olga Bay north of a line from 57° 07.64' N. lat., 154° 23.23' W. long., to 57° 07.79' N. lat., 154° 06.70' W. long., to Stockholm Point, excluding the Inner Akalura Section;

(10) Inner Akalura Section: all waters of Upper Olga Bay north of a line from 57° 08.70' N. lat., 154° 15.15' W. long., to 57° 08.70' N. lat., 154° 11.05' W. long.

(e) Eastside Kodiak District: all waters south and east of Kodiak Island bounded by the latitude of Cape Trinity (56° 44.80' N. lat.), and the latitude of Cape Chiniak (57° 37.20' N. lat.), and by midstream Shelikof Strait.

(1) Seven Rivers Section: all waters south and east of Kodiak Island bounded by midstream Shelikof Strait, by the latitude of Cape Trinity, and by the latitude of Boot Point (56° 49.98' N. lat.);
(2) Two-Headed Section: all waters east of Kodiak Island bounded by the latitude of Boot Point and by a line extending seaward 144° from Cape Kasiak (57° 03.98' N. lat., 153° 29.85' W. long.);

(3) Sitkalidak Section: all waters east of Kodiak Island bounded by a line extending seaward 144° from Cape Kasiak and by the latitude of Dangerous Cape (57° 16.58' N. lat.);

(4) Inner Ugak Bay Section: all waters of Ugak Bay west of the longitude of Gull Point (152° 36.10' W. long.);

(5) Outer Ugak Bay Section: all waters east of Kodiak Island bounded by the longitude of Gull Point, the latitude of Dangerous Cape, and the latitude of Cape Chiniak (57° 37.20' N. lat.).

(f) Northeast Kodiak District: all waters northeast of Kodiak Island bounded by the latitude of Cape Chiniak (57° 37.20' N. lat.), and the latitude of Termination Point (57° 51.37' N. lat.).

(1) Outer Chiniak Bay Section: all waters north of Kodiak Island bounded by the latitude of Cape Chiniak and the longitude of Isthmus Point (152° 19.06' W. long.);

(2) Inner Chiniak Bay Section: all waters of Chiniak Bay bounded by the longitude of Isthmus Point and the latitude of Spruce Cape (57° 49.57' N. lat.), excluding the Buskin River Section;

(3) Buskin River Section: all waters of Chiniak Bay west of a line from Cliff Point (57° 43.51' N. lat., 152° 26.60' W. long.) to Spruce Cape (57° 49.57' N. lat., 152° 19.60' W. long.);

(4) Monashka/Mill Bay Section: all waters north of Kodiak Island bounded by the latitude of Spruce Cape and the latitude of Termination Point.

(g) Mainland District: all waters along the southside of the Alaska Peninsula bounded by the latitude of Cape Douglas (58° 51.10' N. lat.), midstream Shelikof Strait, and north and east of a line extending 135° southeast for three miles from a point near Kilokak Rocks at 57° 10.34' N. lat., 156° 20.22' W. long., then due south.

(1) Big River Section: all waters bounded by the latitude of Cape Douglas, the latitude of Cape Chiniak on the mainland (58° 30.96' N. lat.), and by midstream Shelikof Strait;

(2) Hallo Bay Section: all waters of Hallo Bay bounded by the latitude of Cape Chiniak on the mainland, the latitude of Cape Nukshak (58° 23.50' N. lat.), and by midstream Shelikof Strait;

(3) Outer Kukak Bay Section: all waters bounded by the latitude of Cape Nukshak and the latitude of Cape Gull (58° 13.04' N. lat.), excluding the Inner Kukak Section;

(4) Inner Kukak Bay Section: all waters of Kukak Bay west of 154° 13.70' W. long.;

(5) Dakavak Bay Section: all waters bounded by the latitude of Cape Gull, the latitude of the southern entrance of Dakavak Bay (58° 01.00' N. lat.), and by midstream Shelikof Strait;

(6) Katmai Section: all waters bounded by the latitude of the southern entrance of Dakavak Bay, the latitude of Cape Kubugakli (57° 53.85' N. lat.), and by midstream Shelikof Strait;
(7) Alinchak Section: all waters bounded by the latitude of Cape Kubugakli, the latitude of Cape Aklek (57° 41.30' N. lat.), and by midstream Shelikof Strait;

(8) Cape Igvak Section: all waters bounded by the latitude of Cape Aklek, a line extending 135° southeast for three miles from a point near Kilokak Rocks at 57° 10.34' N. lat., 156° 20.22' W. long., then due south, and by midstream Shelikof Strait, excluding the Wide Bay Section;

(9) Wide Bay Section: all waters of Wide Bay enclosed by a line from Cape Kayakliut (57° 17.63' N. lat., 156° 18.98' W. long.) to the easternmost tip of Terrace Island at 156° 15.00' N. lat., to Cape Igvak (57° 26.04' N. lat., 156° 01.43' W. long.).

5 AAC 18.206. Use of global positioning system (GPS). In the Kodiak Area, boundaries, lines, and coordinates are identified with the global positioning system (GPS). If the global positioning system is not operating, the boundaries, lines, and coordinates are as identified by ADF&G regulatory markers.

Article 3. Salmon Fishery.

5 AAC 18.310. Fishing seasons. Salmon may be taken only from June 1 through October 31.

5 AAC 18.320. Fishing periods. Salmon may be taken only during fishing periods established by emergency order.

5 AAC 18.330. Gear. (a) In the Afognak District, salmon may be taken only by purse seines and beach seines.

(b) In the Northwest Kodiak District, salmon may be taken only by purse seines and beach seines, except that in the Central Section, salmon may also be taken by set gillnets.

(c) In the Southwest Kodiak District, salmon may be taken only by purse seines and beach seines.

(d) In the Alitak District, salmon may be taken

(1) in the Humpy-Deadman and Cape Alitak Sections by purse seines and beach seines only;

(2) in the Alitak Bay, Moser Bay, Olga Bay, Dog Salmon Flats, Outer and Inner Upper Station, and Outer and Inner Akalura Sections by set gillnets only, except that after September 4, salmon may be taken also by purse seines and beach seines.

(3) notwithstanding subsection (d)(1) of this section, in the Humpy-Deadman and Cape Alitak Sections north of a line from Cape Trinity at 56° 44.80’ N. lat., 154° 08.90’ W. long, to Cape Alitak at 56° 50.58’ N. lat., 154° 18.50’ W. long, after September 4, salmon may also be taken by set gillnet gear. The provisions of this paragraph do not apply after December 31, 2019.

(e) In the East Kodiak District, salmon may be taken only by purse seines and beach seines.

(f) In the Northeast Kodiak District, salmon may be taken only by purse seines and beach seines.

(g) In the Mainland District, salmon may be taken only by purse seines and beach seines.

5 AAC 18.331. Gillnet specifications and operations. (a) Except as provided in (e) of this section, a CFEC permit holder may operate no more than two set gillnets, with no more
than 150 fathoms of set gillnet in the aggregate.

(b) Seine webbing no greater than 3.75 inch mesh size, or polypropylene webbing 3 millimeters or greater in diameter, may be used on the shoreward end of a set gillnet and the length of the seine webbing used may extend no more than 50 fathoms seaward of the beach at the lowest tide of the current day, except that in the Alitak District,

(1) seine webbing may be used only from the high tide mark seaward, and no portion of the seine web may be in water deeper than five feet at the lowest tide of the current day;

(2) in the Alitak Bay Section and that portion of the Moser Bay Section south of a line from Bun Point to the opposite shore at 56° 57.95' N. lat., 154° 08.70' W. long., seine webbing may be used only from the high tide mark seaward, and must meet one of the following requirements:

(A) no portion of the seine web may be in water deeper than five feet at the lowest tide of the current day; or

(B) the length of seine webbing used may be no more than 20 fathoms per set.

(c) Set gillnets must be operated in substantially a straight line, except that no more than 25 fathoms of a set gillnet may be used as a hook. A hook may be used in any configuration.

(d) Except as provided in (i) of this section, the shoreward end of a set gillnet must be attached to a point of land that is exposed at the lowest tide of the day or to a rock that is within five feet of the surface at the lowest tide of the day. For the purpose of this section, "a rock" is any naturally located or created geological formation that shows no evidence of having been located or created through man-made means. A set gillnet may not be attached to the beach inside closed waters.

(e) Two salmon set gillnet CFEC permit holders may form a joint venture and combine their gear under the following conditions:

(1) a permit must be obtained from a local representative of the department before a joint venture may start operations;

(2) only one permit per year will be issued for each joint venture;

(3) the permit must be signed by both CFEC permit holders and each must have a copy of the permit readily available for inspection;

(4) the permit may be canceled by the department upon the request of one of the joint venture operators;

(5) the gear and site markers required by 5 AAC 39.280 must bear the five-digit CFEC permit serial number of both permit holders;

(6) no single set gillnet may be more than 150 fathoms in length;

(7) a joint venture may operate no more than three set gillnets, with no more than 300 fathoms of gillnet gear in the aggregate; and

(8) both parties of the joint venture are legally responsible for the operation of all gear of the joint venture.

(f) Set gillnet gear, including running lines, shore leads, anchors, and buoys, may not be placed in the water, and signs required by 5 AAC 18 or 5 AAC 39 may not be placed on the beach, before emergency order openings of the
(1) closed waters areas of Upper Olga Bay described in 5 AAC 18.350(a)(1)(B)(i);
(2) Dog Salmon Flats Section; and
(3) the portions of the Humpy-Deadman and Cape Alitak Sections described in 5 AAC 18.330(d)(3).

(g) No gillnet may be more than 125 meshes in depth.

(h) In the Alitak District, the shoreward end of a set gillnet may not begin further seaward, or in water deeper, than the limit specified for seine webbing in (b) of this section.

(i) In the Alitak Bay, Moser Bay, and Olga Bay Sections, the shoreward end attachment point of a set gillnet must be attached to a point of land or rock that is no more than 2.1 feet below the surface of the water at mean lower low water at Alitak Bay. The shoreward end attachment point of a set gillnet in the Alitak Bay, Moser Bay, and Olga Bay Sections that is not above the surface of the water at all times

(1) must be certified, by a registered land surveyor, to be no more than 2.1 feet below the surface of the water at mean lower low water at Alitak Bay;

(2) must be marked with a permanent survey monument by a registered land surveyor;

(3) may not be below the survey monument; and

(4) may not be more than two horizontal feet from the survey monument; a set gillnet may not be attached to the beach inside closed waters; for the purpose of this subsection, a "registered land surveyor" is a land surveyor registered by the state under AS 08.48 and 12 AAC 36.

(j) Repealed 5/1/2014.

(k) Except for nets which may not be in the water after the closure, set gillnet gear, including running lines, shore leads, anchors, and buoys must be removed from the water, and signs required by 5 AAC 18 or 5 AAC 39 must be removed from the beach, no more than 24 hours after the closure of the

(1) closed waters areas of Upper Olga Bay described in 5 AAC 18.350(a)(1)(B)(i);

(2) Dog Salmon Flats Section; and

(3) the portions of the Humpy-Deadman and Cape Alitak Sections described in 5 AAC 18.330(d)(3).

5 AAC 18.332. Seine specifications and operations. (a) No purse seine or hand purse seine may be less than 100 fathoms or more than 200 fathoms in length. No seine may be less than 100 meshes or more than 325 meshes in depth. At least 50 fathoms of a seine must be 150 meshes in depth.

(b) One lead no more than 100 fathoms in length may be used with each purse seine or hand purse seine. The aggregate length of seine and lead may not exceed 250 fathoms. Leads must be removed from the water within two hours after a season or fishing period closure. Each lead must have at each end a buoy, cork, or float plainly and legibly marked with the operator's five-digit CFEC permit serial number.

(c) Beach seines no less than 100 fathoms nor more than 225 fathoms in length may be used.
(d) Beach seines may not be less than 100 meshes in depth.

(e) When an anchor is used during the operation of a purse seine, hand purse seine, or beach seine, only the shoreward end of the seine or lead may be anchored; the seine shall be attached to the licensed vessel, and the vessel may not be anchored, except that, in the operation of a beach seine, an additional anchor, used to anchor the vessel to a beach, may be used only while retrieving the beach seine.

(f) In the Mainland District, it is unlawful to take salmon with the assistance of an aircraft directing the operation of the seine gear.

(g) Seine mesh size may not be more than seven inches.

(h) A ring, strap, purse, or tow line may be attached to the corkline, ribline, or leadline of a beach seine. Hydraulic power may be used to set, retrieve, or purse a beach seine. A beach seine must be set from, and hauled to, a beach, or to a vessel anchored to a beach. One end of a beach seine must remain on a beach above the water surface at all times during the set.

(i) A beach seine has ceased fishing when all of the leadline is out of the water.

(j) Overlapping panels of net web may not be used in seine leads.

(k) Notwithstanding 5 AAC 39.240, a CFEC purse seine salmon permit holder may use a registered salmon seine fishing vessel, when it has seine gear on board, to tow another registered salmon seine fishing vessel with seine gear on board if the permit holder for the vessel being towed is on board one of the vessels.

(l) A purse seine has stopped fishing when both ends of the seine, excluding tow lines and straps, are attached to the fishing vessel.

5 AAC 18.335. Minimum distance between units of gear. No part of a set gillnet may be set or operated within 900 feet of any part of another set gillnet, or be attached to the beach within 900 feet of another net, except that in the Dog Salmon Flats, Outer Upper Station, Inner Upper Station, Outer Akalura, and Inner Akalura Sections there is no minimum distance between units of set gillnet gear.

5 AAC 18.337. Purse seine practice sets. (a) From May 25 through October 31, purse seine vessels may make practice purse seine sets in the locations specified in (b) of this section. The sets may be made only during daylight hours. All fish caught shall be returned to the water without further harm.

(b) Purse seine practice sets may be made only in the following locations:

(1) inside Lazy Bay west of 154° 13.50' W. long.;
(2) inside Larson Bay west of 153° 59.00' W. long.;
(3) Kodiak, within one-half mile of the Sealand dock;
(4) Old Harbor, within one-half mile of the entrance to the boat harbor;
(5) Port Bailey, within one-half mile of the Port Bailey Cannery dock; and
(6) Northeast Arm Uganik, within one-half mile of the Uganik Cannery dock.

5 AAC 18.350. Closed waters. (a) Salmon may not be taken in the following waters:

(1) Alitak District:
   (A) Humpy Cove: all waters east of a line from the northern entrance of
KODIAK AREA

Seaborg Cove at 56° 53.55' N. lat., 153° 58.95' W. long., to a point approximately two and three-quarters miles northeast of Hawk Point at 56° 50.95' N. lat., 154° 03.80' W. long.;

(B) Olga Bay:
  (i) Upper Olga Bay: north and west of a line from Stockholm Point at 57° 07.64' N. lat., 154° 06.70' W. long., east to the opposite shore at 57° 07.64' N. lat., 154° 05.00' W. long.;
  (ii) Horse Marine: northeast of a line from 57° 06.38' N. lat., 154° 00.00' W. long., to 57° 07.53' N. lat., 154° 03.00' W. long.;
  (iii) Olga Narrows: south of 57° 04.36' N. lat., and north of a line from 57° 01.37' N. lat., 154° 08.70' W. long., running east to a point 75 fathoms from the mean low tide mark to 57° 00.12' N. lat., 154° 08.08' W. long.;

(C) Portage Bay:
  (i) Southeast Arm: east of the longitude of Bert Point (153° 51.50' W. long.);
  (ii) Sulua Bay: north of 56° 58.54' N. lat.;

(D) Deadman Bay: east of 153° 51.30' W. long.;

(E) Sukhoi Lagoon: in the bay and the lagoon;

(2) Southwest Kodiak District:
  (A) all waters east of the terminus of the Ayakulik River (Red River);
  (B) all waters east of the terminus of the unnamed stream at 57° 16.30' N. lat., 154° 37.33' W. long.;
  (C) Sturgeon Section: south of 57° 33.20' N. lat. and east of 154° 33.20' W. long.;
  (D) all waters of Grant's Lagoon and Halibut Bay Lagoon;
  (E) Inner Karluk Section: south of 57° 34.50' N. lat. and east of 154° 28.20' W. long.;

(3) Northwest Kodiak District:
  (A) Uyak Bay: south of 57° 23.00' N. lat.;
  (B) Zachar Bay: east of 153° 47.60' W. long.;
  (C) Spiridon Bay: east of 153° 42.59' W. long.;
  (D) Little River: south of 57° 50.70' N. lat. and east of 153° 51.89' W. long.;
  (E) Cannon's Lagoon (Campbell's): north of 57° 51.24' N. lat. and west of 153° 37.91' W. long.;
  (F) Uganik Bay:
    (i) South Arm: south of 57° 39.65' N. lat.;
    (ii) East Arm (Mush Bay): all waters south and east of a line between the ADF&G regulatory markers located on Mink Point at 57° 43.10' N. lat., 153° 30.95' W. long., and on Packers Spit at 57° 43.95' N. lat., 153° 30.00' W. long.;
  (G) North Uganik Passage: south of 57° 49.48' N. lat., to 57° 48.40' N. lat.;
(H) Terror Bay: south of 57° 46.32' N. lat.;

(I) Kizhuyak Bay:
(i) Barabara Cove: west of 152° 54.20' W. long.;
(ii) south of 57° 46.84' N. lat.;

(J) Sharatin Bay: south of 57° 50.63' N. lat.;

(K) Soldier's Bay: within a line from Otmeloi Point to Entrance Point to the southern tip of Low Island to Seredni Point;

(L) Anton Larsen Bay: south of 57° 51.83' N. lat.;

(M) Ouzinkie Harbor: north of a line from Ouzinkie Point at 57° 54.80’ N. lat., 152° 31.27’ W. long., to a point on Prokoda Island at 57° 54.64’ N. lat., 152° 30.39’ W. long., and north of a line from Black Point at 57° 54.79’ N. lat., 152° 29.24’ W. long., to a point on Prokoda Island at 57° 54.66’ N. lat., 152° 30.18’ W. long.;

(N) Monks Lagoon: all waters of the lagoon northwest of a line between ADF&G regulatory markers located on both sides of the entrance to the lagoon;

(4) Northeast Kodiak District:

(A) Mill Bay and all those waters bounded by a line from Spruce Cape, to the northernmost point of Woody Island, to the northernmost point of Holiday Island, to the northernmost point of Near Island, to the opposite shore on Kodiak Island at 57° 47.32’ N. lat., 152° 23.80’ W. long.;

(B) Womens Bay: west of 152° 31.50’ W. long.;

(C) Middle Bay: south of 57° 39.70’ N. lat.;

(D) Kalsin Bay: south of 57° 36.45’ N. lat.;

(5) Eastside Kodiak District:

(A) Ugak Bay:
(i) west of 152° 52.65’ W. long.;
(ii) Eagle Harbor: south of 57° 25.60’ N. lat. and west of 152° 42.40’ W. long.;
(iii) Gull Cape Lagoon: in the lagoon;
(iv) Salterly Cove: all waters north of a line from a point at 57° 29.00’ N. lat., 152° 43.29’ W. long., to a point on the opposite shore at 57° 29.79’ N. lat., 152° 47.70’ W. long.;
(v) Pasagshak Bay: north of 57° 27.00’ N. lat. and east of 152° 27.60’ W. long.;

(B) Kiliuda Bay:
(i) west of 153° 03.79’ W. long.;
(ii) Dog Bay: north of 57° 19.85’ N. lat.;
(C) Shearwater Bay: east of 152° 53.60’ W. long.;
(D) Sitkalidak Strait: north of the latitude of Old Harbor Village (57° 12.08’ N. lat.) and west of 153° 13.00’ W. long.;
(E) Barling Bay: inside a line from 57° 10.70' N. lat., 153° 21.90' W. long., to 57° 11.42' N. lat., 153° 20.59' W. long.;

(F) Kukiugnak Bay: west of 153° 39.68' W. long.;

(G) Kiavak Bay: south of 57° 01.10' N. lat. and west of 153° 35.70' W. long.;

(H) Kaguyak Bay: west of 153° 45.45' W. long.;

(I) Seven Rivers: all waters west of the stream terminus of Seven Rivers (stream No. 258-701);

(J) Natalia Bay Lagoon: in the lagoon inside of a line from 57° 05.49' N. lat., 153° 19.30' W. long. to 57° 05.42' N. lat., 153° 19.19' W. long.;

(K) Three Saints Bay: west of 153° 32.00' W. long.;

(Afognak District:

(A) Kazakof Bay (Danger Bay): north of 58° 10.88' N. lat.;

(B) Kitoi Bay: all waters near the terminus of Big Kitoi Creek (stream No. 252-324) west of a line from 58° 11.53' N. lat., 152° 21.77' W. long., to 58° 11.25' N. lat., 152° 21.69' W. long., and all waters near the terminus of Little Kitoi Creek (stream No. 252-323) west of a line from 58° 11.69' N. lat., 152° 21.59' W. long., to 58° 11.55' N. lat., 152° 21.59' W. long.;

(C) Seal Bay: south of 58° 21.60' N. lat., in the inner West Bay;

(D) Pauls Bay (Perenosa): south and east of a line from 58° 23.85' N. lat., 152° 20.80' W. long. to 58° 23.53' N. lat., 152° 21.35' W. long. to 58° 23.30' N. lat., 152° 21.35' W. long.;

(E) Discoverer Bay: south of 58° 19.00' N. lat.;

(F) Paramanof Bay:

(i) East Arm: east of 152° 45.05' W. long.;

(ii) South Arm: south of 58° 15.95' N. lat.;

(iii) Thorsheim Bay (includes stream No. 251-302): south of a line from 58° 17.15' N. lat., 152° 50.40' W. long., to 58° 17.08' N. lat., 152° 50.88' W. long.;

(iv) Long Lagoon: south of 58° 16.38' N. lat.;

(G) Malina Bay:

(i) east of 152° 55.19' W. long.;

(ii) Malka Bay: south of 58° 10.53' N. lat.;

(H) Afognak Bay: north of line from Otrubisoi Point at 58° 02.00' N. lat., 152° 45.50' W. long. to Settlement Point at 58° 03.00' N. lat., 152° 43.70' W. long.;

(I) Muskomee Bay: east of 153° 04.00' W. long.;

(J) Selief Bay: south of 58° 02.15' N. lat.;

(K) Shuyak Strait:

(i) Shangin Bay (includes streams No. 251-702 to 251-704): south of 58° 33.75' N. lat.;

(ii) Whitey's Hole (includes stream No. 251-702): south of 58° 34.74'
KODIAK AREA

N. lat.;

(iii) Carry Inlet (includes stream No. 251-710): south of 58° 34.15' N. lat.;

(iv) Big Bay (includes streams No. 251-601 and 251-603): south of 58° 32.75' N. lat.;

(L) Redfox Bay: south of 58° 27.10' N. lat., and southwest of a line from 58° 27.15' N. lat., 152° 36.85' W. long. to 58° 27.30' N. lat., 152° 37.00' W. long.;

(M) Bluefox Bay: south of 58° 25.70' N. lat.;

(N) Izhut Bay: all waters near the terminus of stream No. 252-302, north of 58° 14.36' N. lat. and west of 152° 17.73' W. long.;

(O) Marka Bay: all waters near the terminus of stream No. 252-343 west of 152° 39.42' W. long.;

(7) Mainland District:

(A) Swikshak Lagoon: all waters of the lagoon;

(B) Kukak Bay: all waters west of a line from a point at 58° 18.86' N. lat., 154° 16.49' W. long., then to a point at 58° 18.69' N. lat., 154° 16.33' W. long., then to a point at 58° 17.58' N. lat., 154° 17.20' W. long., then to a point at 58° 15.90' N. lat., 154° 16.63' W. long.;

(C) Kaflia Bay: west of 154° 10.50' W. long.;

(D) Wide Bay:

(i) west of 156° 30.00' W. long.;

(ii) Big Creek (stream No. 262-851): north of 57° 28.20' N. lat. and west of 156° 11.94' W. long.;

(E) Chiniak Lagoon Creek (stream No. 262-154): south of 58° 31.50' N. lat. and west of 153° 54.50' W. long.;

(F) all waters of Big River (stream No. 262-152) flats west of 153° 52.50' W. long.;

(G) Hallo Bay:

(i) Ninagiak River: north of 58° 28.10' N. lat. and west of 154° 04.00' W. long.;

(ii) Serpent Creek: south of 58° 26.40' N. lat. and west of 154° 03.70' W. long.;

(H) Village Creek (stream No. 262-153): north of 58° 33.00' N. lat. and west of 153° 53.80' W. long.;

(I) Kinak Bay (includes stream No. 262-451): north of 58° 10.64' N. lat. and east of 154° 27.45' W. long.;

(J) Dry Bay: all waters of Dry Bay (includes stream No. 262-752) west of 155° 44.00' W. long.

(8) within the freshwater salmon streams and rivers of the Kodiak Area, including streams not listed in this subsection designated on the ADF&G Kodiak Area Salmon
Statistical Chart (Revision, January 2014), adopted by reference, with streams marked with a circled number remaining open to commercial salmon fishing up to a straight line between the seaward extremities of the exposed tideland banks and streams marked without a circled number remaining closed to commercial salmon fishing in all salt water within 500 yards of all points of a straight line extending between the seaward extremities of the exposed tideland banks, or as marked by ADF&G regulatory markers; the provisions of 5 AAC 39.290 do not apply to the Kodiak Area;

(9) repealed 4/9/2005;

(10) all waters seaward of the territorial sea of Alaska as shown on National Oceanic and Atmospheric Nautical Chart Number 16580 (13th Edition, January 2005), adopted by reference, and all waters seaward of the territorial sea of Alaska as shown on the ADF&G Kodiak Area Salmon Statistical Chart (Revision, January 2014).

(b) Where regulatory markers have been deployed by the department to aid fishermen in determining closed waters locations listed in this section, the markers will be placed either as close as possible to the described locations or in a location deemed necessary by the department. If the location of a regulatory marker is in conflict with the closed waters listed in this section, it is illegal to fish on the streamward side of that marker.

Editor's note: Copies of the National Oceanic and Atmospheric Administration (NOAA) chart adopted by reference in 5 AAC 18.350(a)(10) can be viewed, downloaded, and purchased at NOAA's website at http://www.nauticalcharts.noaa.gov/staff/chartspubs.html. and copies of the Kodiak Area Salmon Statistical Chart adopted by reference in 5 AAC 18.350(a)(8) can be obtained at the Department of Fish and Game, Kodiak office, 351 Research Court, Kodiak, Alaska 99615-6399. In addition, the charts are available for inspection at the Lieutenant Governor's Office, Juneau, Alaska.

5 AAC 18.355. Reporting requirements. (a) The operator of a floating salmon processing vessel or tender, or a shorebased processing operation, and a company employing aircraft used for transporting salmon, shall report in person, or by radio or telephone, to a local representative of the department located in the management area of intended operation before the start of processing or buying operations. The report must include the location and the date of intended operation, and identify and describe each vessel or other method of transport employed in hauling or processing salmon.

(b) A commercial fisherman shall report, on an ADF&G fish ticket at the time of landing, the number of salmon taken but not sold.

5 AAC 18.360. Cape Igvak Salmon Management Plan. (a) In years when a harvestable surplus beyond escapement goals for the first (Black Lake) and second (Chignik Lake) runs of Chignik River system sockeye salmon is expected to be less than 600,000, there will be no commercial salmon fishery allowed in the Cape Igvak Section, as described in 5 AAC 18.200(g)(8), until a harvest of 300,000 sockeye salmon in the Chignik Area, as described in 5 AAC 15.100, is achieved. After July 8, after at least 300,000 sockeye salmon have been harvested in the Chignik Area, and if escapement goals are being met, the department shall manage the fishery so that the number of sockeye salmon harvested in the Chignik Area will be at least 600,000 and the harvest in the Cape Igvak Section will approach as near as possible 15 percent of the total Chignik sockeye salmon catch.

(b) In years when a harvestable surplus beyond escapement goals for the first and second runs of Chignik River system sockeye salmon is expected to be more than 600,000,
but the first run fails to develop as predicted and it is determined that a total sockeye salmon harvest in the Chignik Area of 600,000 or more may not be achieved, the Cape Igvak Section commercial salmon fishery will be curtailed in order to allow at least a minimum harvest in the Chignik Area of 300,000 sockeye salmon by July 9 if that number of fish are determined to be surplus to the escapement goals of the Chignik River system. After July 8, after at least 300,000 sockeye salmon have been harvested in the Chignik Area, and if escapement goals are being met, the department shall manage the fishery so that the number of sockeye salmon harvested in the Chignik Area will be at least 600,000 and the harvest in the Cape Igvak Section will approach as near as possible 15 percent of the total Chignik sockeye salmon catch.

(c) In years when a harvestable surplus beyond the escapement goals for the first and second runs of Chignik River system sockeye salmon is expected to be more than 600,000 and the department determines the runs are as strong as expected, the department will manage the fishery in such a manner whereby the number of sockeye salmon taken in the Cape Igvak Section will approach as near as possible 15 percent of the total Chignik sockeye salmon catch.

(d) The total Chignik sockeye salmon catch constitutes those sockeye salmon caught within the Chignik Area plus 80 percent of the sockeye salmon caught in the East Stepovak, Southwest Stepovak, Stepovak Flats, Balboa Bay, and Beaver Bay Sections, as described in 5 AAC 09.200(f), plus 90 percent of the sockeye salmon caught in the Cape Igvak Section. The harvest in the Cape Igvak Section at any time before July 25 may be permitted to fluctuate above or below 15 percent of the cumulative Chignik sockeye salmon catch.

(e) This allocation method will be in effect through July 25. The first fishing period of the commercial salmon fishing season in the Cape Igvak Section will not occur before the first fishing period of the commercial salmon fishing season in the Chignik Area.

(f) During the period from approximately June 26 through July 8, the strength of the second run of Chignik River system sockeye salmon cannot be evaluated. In order to prevent overharvest of the second run, commercial salmon fishing in the Cape Igvak Section will, in the department's discretion, be disallowed or severely restricted during this period.

(g) The department shall announce commercial salmon fishing periods by emergency order. The department shall give at least one-day notice prior to the opening of a commercial salmon fishing period unless it is an extension of a fishing period in progress.

5 AAC 18.361. Alitak District Salmon Management Plan. (a) The department shall manage the commercial salmon fishery in the Alitak District in accordance with the management plan set out in this section. The goal of the management plan is to achieve escapement and harvest objectives of salmon stocks returning to the Humpy-Deadman Section systems, and the Horse Marine, Frazer, Akalura, and Upper Station systems.

(1) repealed 4/15/2017;

(2) repealed 4/15/2017;;

(3) repealed 4/15/2017;

(b) In the Cape Alitak, Humpy-Deadman, Alitak Bay, Moser Bay, and Olga Bay Sections, from June 1 through June 13, the commissioner may open, by emergency order, a 33-hour commercial test fishing period beginning at 12:00 noon. From the conclusion of the commercial test fishing period through September 15, there shall be a minimum closure of 63 consecutive hours in every 10-day period, to apply to each section individually as each section closes, unless the department determines that the sockeye salmon escapement goals
will be achieved for the Frazer and Upper Station sockeye salmon runs.

(c) All fishing periods in the Cape Alitak, Alitak Bay, Moser Bay, and Olga Bay Sections will open and close at the same time.

   (1) repealed 4/15/2017;
   (2) repealed 4/15/2017;
   (3) repealed 4/15/2017;
   (4) repealed 4/15/2017;
   (d) repealed 4/15/2017;

(g) The Cape Alitak Section shall be managed as follows: from June 1 through June 30, based on the Frazer and early Upper Station systems sockeye salmon returns. From July 1 through July 15, based on either the Frazer or early Upper Station systems sockeye salmon returns. From July 16 through August 9, in odd-numbered years, the Cape Alitak Section shall be managed based on either the sockeye salmon or pink salmon return to the Frazer system, and in even-numbered years it shall be managed based on the sockeye salmon return to either the Frazer system or to the Upper Station system. From August 10 through August 25, in odd-numbered years, the Cape Alitak Section shall be managed based on the sockeye salmon return to the Upper Station system, and in even-numbered years it shall be managed based on the pink salmon return to the Frazer system or on the sockeye salmon return to the Upper Station system. From August 26 through the end of the fishing season, the Cape Alitak Section shall be managed based on the coho and sockeye salmon returns to the entire Alitak District.

(h) The Alitak Bay, Moser Bay, and Olga Bay Sections shall be managed as follows: from June 1 through June 30 based on the Frazer and early Upper Station systems sockeye salmon returns. From July 1 through July 15, based on either the Frazer or early Upper Station systems sockeye salmon returns. From July 16 through August 9, in odd-numbered years, the Alitak Bay, Moser Bay, and Olga Bay Sections shall be managed based on either the sockeye salmon or pink salmon return to the Frazer system, and in even-numbered years it shall be managed based on the sockeye salmon return to the Frazer system or the Upper Station system. From August 10 through August 25, in odd-numbered years, the Alitak Bay, Moser Bay, and Olga Bay Sections shall be managed based on the sockeye salmon return to the Upper Station system, and in even-numbered years it shall be managed based on the pink salmon return to the Frazer system or on the sockeye salmon return to the Upper Station system. From August 26 through the end of the fishing season, the Alitak Bay, Moser Bay, and Olga Bay Sections shall be managed based on the coho and late sockeye salmon returns to all Olga Bay systems.

(i) The Humpy-Deadman Section shall be managed, from June 1 through July 15, at the same time, and with equal fishing time, with the Cape Alitak Section. After July 15, the Humpy-Deadman Section shall be managed based on the strength of salmon returns to systems located within the Humpy-Deadman Section.

(j) The Dog Salmon Flats Section shall be managed, from June 1 through August 20, based on sockeye and pink salmon returns to the Frazer system. From August 21 through the end of the fishing season, the Dog Salmon Flats Section shall be managed based on
KODIAK AREA

coho salmon returns to the Dog Salmon River and Horse Marine systems. These openings may not jeopardize achievement of minimum escapement goals for other salmon species. The department shall give at least 24-hours’ advance notice before opening the Dog Salmon Flats Section.

(k) The Inner and Outer Akalura Sections shall be managed, from June 1 through August 20, based on sockeye salmon returns to the Akalura system. From August 21 through August 26, the Inner and Outer Akalura Sections shall be managed based on coho and sockeye salmon returns to the Akalura system. After August 26, the Inner and Outer Akalura Sections shall be managed based on coho salmon returns to the Akalura system. The Inner and Outer Akalura Sections may be opened to fishing only when the department determines that escapement goals will be exceeded. These openings may not jeopardize achievement of minimum escapement goals for other salmon species. The department shall give at least 24-hours’ advance notice before opening either the Inner or Outer Akalura Sections.

(l) The Inner and Outer Upper Station Sections shall be managed, from June 1 through August 25, based on early and late returns of sockeye salmon to the Upper Station system. After August 25, the Inner and Outer Upper Station Sections shall be managed based on coho and late sockeye salmon returns to the Upper Station system. The Inner and Outer Upper Station Sections may be opened to fishing only when the department determines that escapement goals will be exceeded. These openings may not jeopardize achievement of minimum escapement goals for other salmon species. The department shall give at least 24-hours’ advance notice before opening either the Inner or Outer Upper Station Sections.

5 AAC 18.362. Westside Kodiak Salmon Management Plan. (a) The goal of the Westside Kodiak Management Plan is to achieve escapement and harvest objectives of sockeye salmon returning to the Karluk, Ayakulik, and other Westside minor sockeye salmon systems, and of pink, chum, and coho salmon returning to systems in the Southwest Afognak, Central, North Cape, Anton Larsen Bay, Sharatin Bay, Kizhuyak Bay, Terror Bay, Inner Uganik Bay, Spiridon Bay, Zachar Bay, Uyk Bay, Outer Karluk, Inner Karluk, Sturgeon Bay, Halibut Bay, Outer Ayakulik, and Inner Ayakulik Sections. It is the intent of the board that salmon bound to these systems be harvested to the extent possible by the traditional fisheries located in all 17 sections. The department shall manage the Northwest Kodiak and the Southwest Kodiak Districts and the Southwest Afognak Section in accordance with the guidelines set out in this plan.

(b) The Central and North Cape Sections must be managed

(1) from June 1 through approximately June 15, as a mixed-stock fishery directed on early-run sockeye salmon returning to Karluk, Ayakulik, and Olga Bay systems; the commissioner shall open, by emergency order, at least two commercial test fishing periods of 33 hours in length;

(2) from approximately June 16 through July 5, based on early-run sockeye salmon returning to the Karluk system;

(3) from approximately July 6 through August 15, based on pink salmon returning to the major pink salmon systems in the Northwest Kodiak District;

(4) from approximately August 16 through August 24, based on pink salmon returning to the Northwest Kodiak District and on late-run sockeye salmon returning to the Karluk system;

(5) from approximately August 25 through September 5, based on late-run sockeye
KODIAK AREA

salmon returning to the Karluk system; and

(6) after approximately September 5, based on late-run sockeye salmon returning to the Karluk system and coho salmon returning to the Northwest Kodiak District.

c) The Anton Larsen Bay, Sharatin Bay, Kizhuyak Bay, Terror Bay, Inner Uganik Bay, Spiridon Bay, Zachar Bay, and Uyak Bay Sections must be managed

(1) from June 1 through approximately June 15, based on local sockeye and early-run chum salmon returning to the major systems in each section; the commissioner shall open, by emergency order, at least two commercial test fishing periods of 33 hours in length to occur at the same time as those in the Central and North Cape Sections;

(2) from approximately June 16 through July 5, based on local sockeye and early-run chum salmon returning to the major systems in each section;

(3) from approximately July 6 through July 31, based on local sockeye, pink, and early-run chum salmon returning to the major systems in each section;

(4) from approximately August 1 through August 24, based on local pink and late-run chum salmon returning to the major systems in each section;

(5) from approximately August 25 through September 5, based on local pink, late-run chum, and coho salmon returning to the major salmon systems in each section; and

(6) after approximately September 5, based on coho salmon returning to the major coho salmon systems in each section.

d) The Southwest Afognak Section must be managed

(1) from June 1 through approximately June 15, as a mixed-stock fishery directed on early-run sockeye salmon returning to Karluk, Ayakulik, and Olga Bay systems; the commissioner shall open, by emergency order, one commercial test fishing period of 33 hours in length; the department may allow additional fishing time in the Malina Creek Terminal Harvest Area described in 5 AAC 18.378 in order to harvest sockeye salmon bound for Malina Creek;

(2) from approximately June 16 through July 5, based on early-run sockeye salmon returning to the Karluk system; the department may allow additional fishing time in the Malina Creek Terminal Harvest Area described in 5 AAC 18.378 in order to harvest sockeye salmon bound for Malina Creek;

(3) from approximately July 6 through August 15, based on pink salmon returning to the major pink salmon systems in the Southwest Afognak Section and the Northwest Kodiak District; from July 6 through July 25, the section must also be managed according to 5 AAC 18.363(c), the North Shelikof Management Plan;

(4) from approximately August 16 through August 24, based on pink salmon returning to the major pink salmon systems in the Southwest Afognak Section and the Northwest Kodiak District and on the late-run sockeye salmon returning to the Karluk system;

(5) from approximately August 25 through September 5, based on late-run sockeye salmon returning to the Karluk system; and

(6) after approximately September 5, based on coho salmon returning to the major coho salmon systems in the Southwest Afognak District.

e) The Inner and Outer Karluk Sections must be managed
(1) from June 1 through July 15, based on early-run sockeye salmon returning to the Karluk system; the commissioner may open, by emergency order, fishing periods in the Inner Karluk Section only if the department determines that the midpoint of the early-run escapement goal range will be achieved; in the Outer Karluk Section, from June 16 through approximately July 15, the commissioner shall open fishing periods to occur at the same time as open fishing periods in the Central Section;

(2) from July 16 through approximately August 24
   (A) on odd-year cycles, based on late-run sockeye salmon returning to the Karluk system;
   (B) on even-year cycles, based on late-run sockeye and pink salmon returning to the Karluk system;

(3) from approximately August 25 through September 5, based on late-run sockeye salmon returning to the Karluk system; and

(4) after approximately September 5, based on late-run sockeye salmon and coho salmon returning to the Karluk system.

(f) The Sturgeon and Halibut Bay Sections must be managed

(1) from June 1 through approximately June 22, as mixed-stock fisheries directed on early-run sockeye salmon returning to the Karluk, Ayakulik, and Olga Bay systems; the department shall not open any commercial fishing periods during this time;

(2) from approximately June 23 through July 15, based on early-run sockeye salmon returning to the Ayakulik and Karluk systems, except that the Sturgeon Section must also be managed with consideration for early-run chum salmon returning to the Sturgeon system;

(3) from approximately July 16 through August 24,
   (A) in the Sturgeon Section
      (i) on odd-year cycles, based on late-run sockeye salmon returning to the Karluk system;
      (ii) on even-year cycles, based on late-run sockeye and on pink salmon returning to the Karluk system;
   (B) in the Halibut Bay Section
      (i) on odd-year cycles, from approximately July 16 through July 31 on late-run sockeye salmon returning to the Ayakulik system, and from approximately August 1 through August 24 on late-run sockeye salmon returning to the Karluk system;
      (ii) on even-year cycles, from approximately July 16 through July 31 on late-run sockeye salmon and pink salmon returning to the Ayakulik system, and from approximately August 1 through August 24 on late-run sockeye salmon returning to the Karluk system and on pink salmon returning to the Ayakulik system;
   (4) from approximately August 25 through September 5, based on late-run sockeye salmon returning to the Karluk system; and
   (5) after approximately September 5, based on coho salmon returning to local coho salmon systems.

(g) The Inner and Outer Ayakulik Sections must be managed
(1) from June 1 through approximately July 15, based on early-run sockeye salmon returning to the Ayakulik system;

(2) from approximately July 16 through August 24,

(A) on odd-year cycles, based on late-run sockeye salmon returning to the Ayakulik system;

(B) on even-year cycles, based on late-run sockeye and pink salmon returning to the Ayakulik system; and

(3) after approximately August 24, based on coho salmon returning to the Ayakulik system.

5 AAC 18.363. North Shelikof Strait Sockeye Salmon Management Plan. (a) The purpose of the North Shelikof Strait Sockeye Salmon Management Plan is to allow traditional fisheries in the area to be conducted on Kodiak Area salmon stocks, while minimizing the directed harvest of Cook Inlet sockeye salmon stocks. The board recognizes that some incidental harvest of other stocks has and will occur in this area while the seine fishery is managed for Kodiak Area salmon stocks. The board intends, however, to prevent a repetition of the nontraditional harvest pattern which occurred during 1988.

(b) From July 6 through July 25 in the Dakavak Bay, Outer Kukak Bay, Inner Kukak Bay, Hallo Bay, and Big River Sections of the Mainland District, and in the Shuyak Island and Northwest Afognak Sections of the Afognak District, the department shall manage the fishery as follows:

(1) management of the fishery must be based on local stocks;

(2) the fishery may remain open during normal fishing periods until the harvest exceeds 15,000 sockeye salmon;

(3) when the harvest exceeds 15,000 sockeye salmon, the department shall restrict the fishery by emergency order to waters of the

(A) Dakavak Bay, Outer Kukak Bay, Inner Kukak Bay, Hallo Bay, and Big River Sections west of a line from Cape Douglas at 58° 51.10' N. lat., 153° 15.10' W. long., to a point at 58° 42.90' N. lat., 153° 25.95' W. long., to a point east of Swikshak River at 58° 37.97' N. lat., 153° 35.55' W. long., to Cape Chiniak at 58° 30.96' N. lat., 153° 54.50' W. long., to Cape Nukshak at 58° 23.50' N. lat., 153° 58.90' W. long., to Cape Ugyak at 58° 16.55' N. lat., 154° 06.15' W. long., to Cape Gull at 58° 13.04' N. lat., 154° 08.60' W. long., to Cape Kuliak at 58° 08.10' N. lat., 154° 12.30' W. long., to Cape Atushagvik at 58° 05.00' N. lat., 154° 18.90' W. long., to Cape Ilktugitak at 58° 01.17' N. lat., 154° 35.00' W. long., to the southern entrance of Dakavak Bay at 58° 01.00' N. lat., 154° 43.60' W. long.;

(B) Shuyak Island Section south and east of a line from Point Banks at 58° 37.95' N. lat., 152° 18.90' W. long., to Dark Island at 58° 38.72' N. lat., 152° 33.15' W. long., to Gull Island at 58° 35.80' N. lat., 152° 38.70' W. long., to the northern entrance of Big Bay at 58° 33.85' N. lat., 152° 40.30' W. long., to the western entrance of Blue Fox Bay at 58° 27.68' N. lat., 152° 43.65' W. long.;

(C) Northwest Afognak Section south and east of a line from one-half mile west of the northern entrance of Big Bay at 58° 33.85' N. lat., 152° 40.30' W. long., to one-half mile west of the western entrance of Blue Fox Bay at 58° 27.68' N. lat., 152° 43.65' W. long., to one-half mile west of Black Cape at 58° 24.50' N. lat., 152° 53.30' W. long., to one-half mile west of Cape Paramanof at 58° 18.33' N. lat., 153° 02.65' W. long.
(c) From July 6 through July 25 in the Southwest Afognak Section of the Afognak District, the department shall manage the fishery as follows:

(1) management of the fishery must be based on local stocks consistent with 5 AAC 18.362(d)(3);

(2) the fishery may remain open during normal fishing periods until the harvest exceeds 50,000 sockeye salmon;

(3) when the harvest exceeds 50,000 sockeye salmon, the commissioner shall restrict, by emergency order, the fishery to waters of the Southwest Afognak Section east of a line from one-half mile west of Cape Paramanof at 58° 18.33' N. lat., 153° 02.65' W. long., to one-half mile west of Tanaak Cape at 58° 15.53' N. lat., 153° 06.25' W. long., to one-half mile west of Steep Cape at 58° 12.05' N. lat., 153° 12.65' W. long., to one-half mile west of a point at 58° 08.38' N. lat., 153° 19.00' W. long., to one-half mile west of Raspberry Cape at 58° 03.58' N. lat., 153° 25.20' W. long.

5 AAC 18.364. Crescent Lake Coho Salmon Management Plan. (a) From July 15 through October 31, the department shall manage the commercial, sport, and subsistence fisheries in Settler Cove to provide for full utilization of the enhanced stock of coho salmon returning to Crescent Lake in accordance with the Crescent Lake Coho Salmon Management Plan in this section.

(b) Sport and subsistence fisheries are allowed in all waters of Settler Cove consistent with 5 AAC 64 and 5 AAC 01.

(c) The department may open, by emergency order, those waters of Settler Cove, between the causeway and a line from the seaward end of the Port Lions breakwater to a department marker located directly across Settler Cove from the breakwater, to the commercial taking of salmon only as follows:

(1) the department may not allow the commercial taking of salmon before September 10; and

(2) before opening the fishery, the department shall determine that 500 or more coho salmon are available in Settler Cove for harvest.

5 AAC 18.365. Eastside Afognak Management Plan. (a) The goal of the management plan set out in this section is to achieve escapement and harvest objectives of sockeye, pink, coho, and chum salmon returning to natural spawning systems in the Raspberry Strait, Southeast Afognak, Duck Bay, Izhut Bay, and Kitoi Bay Sections, and brood stock to Kitoi Bay hatchery. It is the intent of the board that salmon bound to these systems be harvested by the commercial fisheries located in these sections.

(b) The Southeast Afognak Section shall be managed based on sockeye salmon returning to Afognak Lake from June 1 through July 5. From July 6 through August 24, fishing opportunities will be based on pink salmon returning to major systems in Afognak, Kazakof (Danger), and Marka Bays. After August 24, fishing time will be dependent on coho salmon returning to the Southeast Afognak Section.

(c) The Duck Bay Section shall be managed based on early chum or sockeye salmon returns to Kitoi Bay hatchery from June 1 through July 18. From July 19 through August 24, fishing time will be based on returning mixed wild and hatchery pink salmon. After August 24, the Duck Bay Section shall be managed on local coho salmon runs.

(d) The Izhut Bay Section shall be managed based on the early chum or sockeye salmon returning to Kitoi Bay hatchery from June 1 through July 26. Fishing time in the Izhut Bay
Section will depend on returning wild and hatchery pink salmon from July 27 through August 24. After August 24, fishing time will be dependent on returns of local coho salmon and hatchery-bound sockeye or coho salmon runs. Throughout the season, fishing time may be restricted in order to meet cost recovery goals for hatchery-bound chum, sockeye, pink, or coho salmon.

(e) The Inner and Outer Kitoi Bay Sections shall be managed based on early-run chum or sockeye salmon returning to the Kitoi Bay hatchery from June 1 through July 26. From June 18 through July 26, fishing opportunities will not occur in the Inner Kitoi Bay Section until chum or sockeye salmon broodstock requirements for the hatchery are assured. From July 27 through August 24, the Inner and Outer Kitoi Bay Sections shall be managed for pink salmon broodstock requirements. Fishing time may occur if the pink salmon broodstock requirements are not jeopardized. After August 24, fishing opportunities may be provided to harvest returning late sockeye and coho salmon that exceed broodstock needs. Throughout the season, fishing time may be restricted in order to meet cost recovery goals for hatchery-bound chum, sockeye, pink, or coho salmon.

(f) The Raspberry Strait Section shall remain closed to fishing until July 6. From July 6 through August 24, the Raspberry Strait Section shall be managed based on local and mixed Kodiak pink salmon returns. After August 24, the Raspberry Strait Section shall be managed based on returns of coho salmon to streams located within the Raspberry Strait Section.

5 AAC 18.366. Spiridon Bay Sockeye Salmon Management Plan. (a) The department shall manage the commercial, sport, and subsistence fisheries in Spiridon Bay to provide for full use of the enhanced stock of sockeye salmon returning to Spiridon Lake.

(b) The purpose of the Spiridon Bay harvest strategy is to allow the orderly harvest of sockeye salmon returning to Telrod Cove from the Spiridon Lake enhancement project while providing adequate protection for local natural salmon stocks returning to other streams of the bay. The intent of the enhancement project is for the harvest of returning enhanced salmon to occur in traditional commercial fishing areas of the Northwest Kodiak District during openings directed at harvesting Karluk sockeye and westside pink and chum salmon stocks. Throughout the season, fishing time in the Spiridon Bay Special Harvest Area may be restricted in order to meet cost recovery goals for enhanced sockeye salmon.

(c) The Spiridon Bay Special Harvest Area consists of all waters of Telrod Cove north of a line extending from Stream Point at 57° 39.00' N. lat., 153° 38.50' W. long., to a point at 57° 38.80' N. lat., 153° 37.70' W. long.

(d) Only purse seines and beach seines may be operated in the Spiridon Bay Special Harvest Area.

5 AAC 18.367. Eastside Kodiak Salmon Management Plan. (a) The goal of the Eastside Kodiak Salmon Management Plan is to achieve escapement and harvest objectives for sockeye, pink, chum, and coho salmon returning to natural spawning systems located in the Northeast Kodiak and Eastside Kodiak Districts. The commissioner shall open and close, by emergency order, commercial fishing periods under this plan.

(b) In the Northeast Kodiak District, the

(1) Outer Chiniak Bay Section shall remain closed until July 6; from July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon; from August 25 through September 5, fishing opportunities shall be
based on runs of local pink and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon;

(2) Inner Chiniak Bay Section shall remain closed until July 6; from July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink and chum salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon;

(3) Buskin River Section shall remain closed until July 6; from July 6 through July 15, fishing opportunities shall be based on the abundance of local pink salmon and Buskin Lake sockeye salmon; from July 16 through August 24, fishing opportunities shall be based on the abundance of local pink and chum salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon;

(4) Monashka/Mill Bay Section shall remain closed until July 6; from July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon.

(c) In the Eastside Kodiak District, from June 1 through June 13, commercial fishing is closed. For the

(1) Seven Rivers, Two Headed, and Sitkalidak Sections, from June 14 through July 5, fishing opportunities shall be based on the abundance of local and mixed Kodiak sockeye salmon and there may not be more than two 33-hour fishing periods; from July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink and chum salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink, chum, and coho salmon; after September 5, fishing opportunities shall be based on the abundance of late-run chum and coho salmon;

(2) Outer Ugak Bay Section, from June 14 through June 21, fishing opportunities shall be based on the abundance of local and mixed Kodiak sockeye salmon; from June 22 through July 5, fishing opportunities shall be based on sockeye salmon bound to the Pasagshak River; from July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink and chum salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink, chum, and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon;

(3) Inner Ugak Bay Section, from June 14 through June 21, fishing opportunities shall be based on the abundance of local and mixed Kodiak sockeye salmon and there may not be more than two 33-hour fishing periods; from June 22 through July 5, fishing opportunities shall be based on sockeye salmon bound to Saltery Lake; from July 6 through July 31, fishing opportunities shall be based on the abundance of local pink, chum, and Saltery Lake sockeye salmon; from August 1 through August 24, fishing opportunities shall be based on the abundance of local pink and chum salmon; from August 25 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon; after September 5, fishing opportunities shall be based on the abundance of local coho salmon.

5 AAC 18.368. North Afognak/Shuyak Island Salmon Management Plan. (a) The goal
of the North Afognak/Shuyak Island Management Plan is to achieve escapement and harvest objectives of sockeye, pink, and coho salmon returning to spawning systems located in the Northeast Afognak, Perenosa Bay, Pauls Bay, Shuyak Island, and Northwest Afognak Sections. The commissioner shall open and close, by emergency order, commercial fishing under this plan.

(b) The Northeast Afognak Section shall remain closed before July 6. From July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon. From August 25 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon. After September 5, fishing opportunities shall be based on the abundance of local coho salmon.

(c) In the Perenosa Bay Section, from June 1 through July 5, fishing opportunities shall be based on sockeye salmon returning to Pauls Bay and Portage Lake. Additional fishing time to harvest sockeye salmon bound to Waterfall Lake will occur in the Waterfall Bay Special Harvest Area only. From July 6 through July 20, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon and sockeye salmon bound to Portage Lake and Pauls Bay. From July 21 through August 20, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon. From August 21 through September 5, fishing opportunities shall be based on the abundance of local pink and coho salmon. After September 5, fishing opportunities shall be based on the abundance of local coho salmon.

(d) The Shuyak Island Section shall remain closed before July 6. From July 6 through August 1, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon. After August 1, fishing opportunities shall be based on the abundance of local coho salmon. From July 6 through July 25, the Shuyak Island Section shall also be managed in accordance with 5 AAC 18.363(b).

(e) In the Northwest Afognak Section, from June 1 through July 5, fishing opportunities shall be based on sockeye salmon bound to Thorsheim and Long Lagoon and there may not be more than two 33-hour fishing periods. Additional fishing time to harvest sockeye salmon bound for Hidden Lake will occur in the Foul Bay Special Harvest Area only. From July 6 through August 24, fishing opportunities shall be based on the abundance of local and mixed pink salmon. After August 24, fishing opportunities shall be based on the abundance of local coho salmon. Additional fishing time to harvest coho salmon bound to Hidden Lake will occur in the Foul Bay Special Harvest Area. From July 6 through July 25, the Northwest Afognak Section shall also be managed in accordance with 5 AAC 18.363(b).

(f) In the Pauls Bay Section, from June 1 through July 5, fishing opportunities shall be based on sockeye salmon returning to Pauls Bay. From July 6 through August 1, fishing opportunities shall be based on the abundance of local and mixed Kodiak pink salmon and sockeye salmon bound to Pauls Bay. After August 1, fishing opportunities shall be based on the abundance of local coho salmon.

5 AAC 18.369. Mainland District Salmon Management Plan. (a) The goal of the management plan set out in this section is to achieve escapement and harvest objectives for sockeye, pink, coho, and chum salmon returning to natural spawning systems within the Mainland District (from Cape Douglas south to Kilokak Rocks).

(b) The Big River Section shall be managed, from June 1 through July 5, based on the sockeye salmon return to Swikshak River and there may not be more than two 33-hour fishing periods. From July 6 through August 20, the Big River Section shall be managed
based on the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. From July 6 through July 25, the Big River Section shall also be managed in accordance with the North Shelikof Strait Sockeye Salmon Management Plan set out in 5 AAC 18.363. After August 20, the Big River Section shall be managed based on the return of coho salmon to streams located within the Big River Section.

(c) The Hallo Bay Section will remain closed to fishing until July 6. From July 6 through August 20, the Hallo Bay Section shall be managed based on the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. From July 6 through July 25, the Hallo Bay Section shall also be managed in accordance with the North Shelikof Strait Sockeye Salmon Management Plan set out in 5 AAC 18.363. After August 20, the Hallo Bay Section shall be managed based on the return of coho salmon to streams located within the Hallo Bay Section.

(d) The Outer Kukak Section shall be managed, from June 1 through July 5, based on the sockeye salmon return to Kaflia Lakes and there may not be more than two 33-hour fishing periods. From July 6 through August 15, the Outer Kukak Section shall be managed based on the return of local and mixed Kodiak sockeye, pink, and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. From July 6 through July 25, the Outer Kukak Section shall also be managed in accordance with the North Shelikof Strait Sockeye Salmon Management Plan set out in 5 AAC 18.363. After August 15, the Outer Kukak Section shall be managed based on the return of late-run chum and coho salmon to streams located within the Outer Kukak Section.

(e) The Inner Kukak Section will remain closed to fishing until July 6. From July 6 through August 15, the Inner Kukak Section shall be managed based on the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. After August 15, the Inner Kukak Section shall be managed based on the return of late-run chum and coho salmon to streams located within the Inner Kukak Section.

(f) The Dakavak Bay Section will remained closed to fishing until July 6. From July 6 through August 25, the Dakavak Bay Section shall be managed based on the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. From July 6 through July 25, the Dakavak Bay Section shall also be managed in accordance with the North Shelikof Strait Sockeye Salmon Management Plan set out in 5 AAC 18.363. After August 25, the Dakavak Bay Section shall be managed based on the return of late-run pink and coho salmon to streams located within the Dakavak Bay Section.

(g) The Katmai and Alinchak Bay Sections will remain closed to fishing until July 6. From July 6 through August 25, the Katmai and Alinchak Bay Sections shall be managed based on the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. After August 25, the Katmai and Alinchak Bay Sections shall be managed based on the return of late-run pink and coho salmon to streams located within the Katmai and Alinchak Bay Sections.

(h) The Cape Igvak Section shall be managed, from June 1 through July 25, in accordance with the Cape Igvak Salmon Management Plan set out in 5 AAC 18.360. From July 26 through August 25, the Cape Igvak Section shall be managed based on the return of the return of local and mixed Kodiak pink and chum salmon. Weekly fishing periods may not exceed 57 hours in duration from July 6 through July 25. From July 6 through July 25, the Cape Igvak Section shall also be managed in accordance with the North Shelikof Strait Sockeye Salmon Management Plan set out in 5 AAC 18.363. After August 20, the Cape Igvak Section shall be managed based on the return of coho salmon to streams located within the Cape Igvak Section.
local and mixed Kodiak pink and chum salmon. After August 25, the Cape Igvak Section shall be managed based on the return of late-run pink and coho salmon to streams located within the Cape Igvak and Wide Bay Sections.

(i) The Wide Bay Section will remain closed to fishing until July 26 in order to provide for maximum protection of sockeye salmon bound to Chignik Lakes during years of weak returns, and to provide for increased closed water protection for pink and chum salmon bound for streams located in Wide Bay during years when fishing time is allowed in the Cape Igvak Section to harvest Chignik bound sockeye in accordance with the Cape Igvak Salmon Management Plan. From July 26 through August 25, the Wide Bay Section shall be managed based on the return of pink and chum salmon to streams located within Wide Bay. After August 25, the Wide Bay Section shall be managed based on the return of late-run pink and coho salmon to streams located within Wide Bay.

Editor's note: The substance of 5 AAC 18.375; 5 AAC 18.376; and 5 AAC 18.377 appears in 5 AAC 40.085 to reflect the change in designation from terminal harvest areas to special harvest areas.

5 AAC 18.378. Malina Creek Terminal Harvest Area. The Malina Creek Terminal Harvest Area consists of all waters within one-half nautical mile of the beach near the terminus of Malina Creek between 58° 10.00' N. lat. and 58° 11.00' N. lat.

5 AAC 18.392. Net pens and other devices for holding live, commercially-caught salmon before processing in the Kodiak Area. In the Kodiak Area, a net pen or other device may be used to hold live salmon before processing, only under the conditions specified in a commissioner's permit.

5 AAC 18.394. Possession of steelhead. Steelhead taken incidental to commercial salmon fishing in Karluk Lagoon must be returned to the water unharmed.

5 AAC 18.395. Retention of king salmon taken in a commercial fishery. (a) In the Inner Karluk, Outer Karluk, Inner Ayakulik, and Outer Ayakulik Sections, if the department determines that the king salmon runs will not meet seasonal escapement goals, the commissioner may, by emergency order, close the commercial salmon fishery and immediately reopen the commercial salmon fishery, during which king salmon 28 inches or greater in length may not be retained, and king salmon 28 inches or greater in length taken incidentally in the commercial salmon fishery must be returned to the water unharmed.

(b) Before July 30, if the department projects that the Karluk River biological escapement goal will not be met and the sport fishery is restricted in the Karluk watershed to the nonretention of king salmon or the sport fishery for king salmon is closed, the commissioner shall, by emergency order, close the commercial salmon seine fishery season in the waters south of a line from Cape Kulik at 57° 48.20' N. lat., to the southern boundary of the Inner Ayakulik Section by the latitude of Low Cape, and immediately reopen a commercial salmon seine fishery season during which

(1) king salmon 28 inches or greater in length may not be retained; and

(2) king salmon 28 inches or greater in length taken incidentally must be returned to the water unharmed.
(c) In addition to the other provisions in this section, in the Kodiak Area, from June 1 through July 5, king salmon 28 inches or greater in length taken during the commercial salmon seine fishery may not be retained and must be immediately returned to the water.
CHAPTER 39. GENERAL PROVISIONS.

5 AAC 39.001. Application of this chapter. Unless otherwise specified in this section or 5 AAC 01 – 5 AAC 77, requirements in this chapter apply to commercial fishing only, except that 5 AAC 39.002 and 5 AAC 39.999 applies to all of 5 AAC 01 – 5 AAC 77. Subsistence, personal use, and sport fishing regulations affecting commercial fishing vessels or affecting any other commercial fishing activity are set out in the subsistence fishing regulations in 5 AAC 01 and 5 AAC 02, personal use regulations in 5 AAC 77, and sport fishing regulations in 5 AAC 47 – 5 AAC 75.

5 AAC 39.002. Liability for violations. Unless otherwise provided in 5 AAC 01 – 5 AAC 41 or in AS 16, a person who violates a provision of 5 AAC 01 – 5 AAC 41 is strictly liable for the offense, regardless of his intent.

5 AAC 39.010. Retention of fish taken in a commercial fishery. (a) A person engaged in commercial fishing may retain finfish from lawfully taken commercial catch for that person's own use, including for the use as bait in a commercial fishery. Finfish retained under this section may not be sold or bartered.

(b) Except as otherwise specified in 5 AAC 01 – 5 AAC 39, a commercial fisherman shall report on an ADF&G fish ticket, at the time of delivery of the commercial catch, the number of steelhead retained from the commercial catch but not sold. For the purposes of this subsection, "delivery" means the offloading of the finfish for sale or for transport to a buyer for later sale.

5 AAC 39.105. Types of legal gear. (a) All gear shall be operated in a manner conforming to its basic design.

(b) The size of meshes of a gillnet shall be substantially consistent.

(c) All references to mesh size in the regulations are considered to be "stretched measure."

(d) Unless otherwise provided in this title, the following are legal types of gear:

(1) a gillnet is a net primarily designed to catch fish by entanglement in the mesh and consisting of a single sheet of webbing hung between cork line and lead line, and fished from the surface of the water;

(2) a set gillnet is a gillnet that has been intentionally set, staked, anchored, or otherwise fixed;

(3) a drift gillnet is a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed;

(4) a purse seine is a floating net designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line;

(5) a hand purse seine is a floating net designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed;

(6) a beach seine is a floating net designed to surround fish which is set from and hauled to the beach;

(7) power troll gear consists of a line or lines with lures or baited hooks which
are deployed, drawn through the water, and retrieved by means of a power troll gurdy, for which the power source may be hydraulic, electrical, or mechanical; power troll gear does not include hand troll gear;

(8) **hand troll gear** consists of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical or other assisting device or attachment;

(9) a **fish wheel** is a fixed, rotating device, with no more than four baskets on a single axle, for catching fish which is driven by river current or other means;

(10) a **trawl** is a bag-shaped net towed through the water to capture fish or shellfish;

(A) a **beam trawl** is a trawl with a fixed net opening utilizing a wood or metal beam;

(B) an **otter trawl** is a trawl with a net opening controlled by devices commonly called otter doors;

(C) a **pelagic trawl** is a trawl where the net, or the trawl doors or other trawl-spreading device, do not operate in contact with the seabed, and which does not have attached to it any protective device, such as chafing gear, rollers, or bobbins, that would make it suitable for fishing in contact with the seabed;

(11) a **pot** is a portable structure designed and constructed to capture and retain fish and shellfish alive in the water;

(12) a **ring net** is a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that when fishing it does not prohibit free movement of fish or shellfish across the top of the net;

(13) a **longline** is a stationary buoyed or anchored line or a floating, free drifting line with lures or baited hooks attached;

(14) a **shovel** is a hand-operated implement for digging clams or cockles;

(15) a **mechanical clam digger** is a mechanical device used or capable of being used for the taking of clams;

(16) a **scallop dredge** is a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor;

(17) a **fyke net** is a fixed, funneling (fyke) device used to entrap fish;

(18) a **lead** is a length of net employed for guiding fish into a seine or set gillnet;

(19) an **anchor** is a device used to hold a salmon fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship's anchor or being secured to another vessel or net that is anchored;

(20) a **herring pound** is an enclosure used primarily to retain herring alive over extended periods of time;

(21) **diving gear** is any type of hard hat or skin diving equipment, including scuba, a tethered, umbilical, surface-supplied system, and a snorkel;

(22) a **hydraulic clam digger** is a device using water or a combination of air and
water to remove clams from their environment;

(23) a **grappling hook** is a hooked device with flukes or claws and attached to a line and operated by hand;

(24) a **dip net** is a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed five feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand;

(25) a **mechanical jigging machine** is a device that deploys a line with lures or baited hooks and retrieves that line with electrical, hydraulic, or mechanically powered assistance; a mechanical jigging machine allows the line to be fished only in the water column; a mechanical jigging machine must be attached to a vessel registered to fish with a mechanical jigging machine; the mechanical jigging machine may not be anchored or operated unattached from the vessel;

(26) an **abalone iron** is a flat device used for taking abalone and which is more than one inch (24 mm) in width and less than 24 inches (61 cm) in length and with all prying edges rounded and smooth;

(27) a **handline** is a hand-held line, with one or more hooks attached, which may only be operated manually; a handline is legal gear only for smelt in the Bristol Bay Area, described in 5 AAC 06.100;

(28) **dinglebar troll gear** consists of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while the vessel is making way;

(29) a **sea urchin rake** is a hand-held implement, no longer than four feet, equipped with projecting prongs used to gather sea urchins;

(30) a **cast net** is a circular net with a mesh size of no more than one and one-half inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved.

5 AAC 39.107. **Operation of gear.** (a) Each fisherman shall operate or assist in operating only one type of net gear at any one time.

(b) Throughout the period of operation of mobile net gear, a person who holds a valid CFEC permit for that gear must be physically present on board the vessel from which the net gear is operated.

(c) A CFEC permit holder shall personally operate or assist in the operation of mobile net gear. "Personally operate or assist in operation" means assisting or supervising some portion of the immediate operation.

(d) A person who holds a limited entry permit or an interim-use permit for stationary fishing gear must be physically present at a beach or riparian fishing site during the operation of net gear or other stationary fishing gear at the site, except when the permit holder is at or traveling to or from the location of (1) a sale of fish caught in the gear; or (2) other stationary gear of the permit holder. For purposes of this subsection "fishing site" includes any structure used for providing shelter in support of the operation of net gear or
other stationary gear.

(e) A person who holds a CFEC permit for the operation of stationary net gear or fish wheels shall be within a reasonable distance of the gear when at a point of sale or at the location of other stationary gear of that permit holder. A "reasonable distance" means a distance that ensures that the CFEC permit holder retains competent supervision of the gear.

(f) In the Yukon Area, as described in 5 AAC 05.100, a person who holds a CFEC permit for stationary fishing gear must be physically present for the initial deployment of the gear at the beginning of the commercial fishing period and at the end of the commercial fishing period to terminate operation of the gear.

(g) In the Yakutat District south of 59° 40' N. lat. in Yakutat Bay, a fishing site under AS 16.05.253(b) includes the CFEC permit holder's permanent place of residence in Yakutat.

5 AAC 39.109. Nonresident crewmember fishing license fees. The amount to be added, in accordance with AS 16.05.480(h), to the annual base fee for a nonresident crewmember fishing license is the additional amount calculated every three years by the Commercial Fisheries Entry Commission under 20 AAC 05.245(a)(7).

5 AAC 39.110. Crewmember fishing license requirements. (a) Each commercial fisherman who does not hold a valid interim-use or entry permit card issued by the Commercial Fisheries Entry Commission shall obtain a crewmember fishing license before fishing in any waters of Alaska. A crewmember fishing license is not required for the holder of a valid interim-use or entry permit card.

(b) Repealed 8/15/2008.

(c) A crewmember licensee who does not hold a valid CFEC permit may crew in any fishery if he or she is working for the holder of a valid CFEC permit for that fishery who is operating the fishing gear in the manner described in 5 AAC 39.107.

(d) A valid interim-use or entry permit card holder may crew in any fishery.

(e) In this section, "crew" means the activities of a commercial fisherman as defined in AS 16.05.940(4), who is actively engaged in the operation of fishing gear that is being operated in the manner described in 5 AAC 39.107.

(f) Each holder of a commercial fishing license, as required in AS 16.05.480(a), who is 16 years or age or older and participating in a commercial fishery in which crewmember participation is restricted by exclusive or superexclusive area registration requirements shall possess an identification card that has been issued to the commercial fishing license holder by a state or federal agency or other organization specified by the Department of Public Safety that bears a photograph of the commercial fishing license holder.

(g) The department will issue a duplicate crewmember license to a person whose crewmember license has been lost or destroyed and who submits a request for a duplicate crewmember license on a form prescribed by the department along with a $5 duplicate crewmember license fee.

5 AAC 39.111. Personal identification required. A person who is in possession of a CFEC interim-use or entry permit card shall, upon the request of a buyer of fish or a peace officer of the state, present the personal identification required under AS 16.10.267(a)(2) to establish that the permit card is in the possession of the person to whom the permit card is issued.

5 AAC 39.112. Use of net pens and other holding devices. A net pen or other holding
GENERAL PROVISIONS

device may be used to hold live salmon or herring before processing only under the conditions specified in a commissioner's permit.

5 AAC 39.115. Designation of salmon net registration area. A person who holds salmon net gear permits for more than one registration area listed in 5 AAC 39.120(d) shall designate upon a form provided by the Commercial Fisheries Entry Commission the single area in which he desires to salmon net fish in that year. The area so designated must be an area for which the person holds a valid salmon net permit.

5 AAC 39.117. Vessel length; bulbous bow. (a) Notwithstanding any other provision in 5 AAC 01 – 5 AAC 39, the addition of a bulbous bow may cause a vessel, other than a vessel engaged in the Bering Sea hair crab fishery, to exceed an established vessel overall length limitation. Only that portion of the vessel comprising the bulbous bow may cause the vessel to exceed a vessel overall length limitation.

(b) For the purposes of this section, "bulbous bow" means a bulbous extension of the bow, below or predominately below the water line of a vessel, that is designed to increase stability or fuel efficiency and does not contain storage space or equipment that can be accessed from within the vessel.

5 AAC 39.119. Vessel identification. (a) Unless otherwise specified, a commercial fishing vessel required to be licensed under AS 16.05.490 must display its permanent vessel license plate number

(1) in permanent symbols at least 12 inches high and with lines at least one inch wide that contrast with the background;

(2) on both sides of the hull, cabin, or mast;

(3) in a manner such as to be plainly visible and unobscured; and

(4) at all times when registered to fish.

(b) Repealed 10/1/98.

(c) The following vessels are exempt from the requirements of this section:

(1) those exempt from licensing under AS 16.05.495;

(2) seine skiffs operating with a seine vessel.

5 AAC 39.120. Registration of commercial fishing vessels. (a) A person who owns a commercial fishing vessel or that person's authorized agent shall register that vessel by completing a vessel license application or renewal form and submitting it to the Commercial Fisheries Entry Commission, unless the vessel is not required to be licensed under AS 16.05.495. Vessel registration is required before fishing or transporting unprocessed fish in any waters of Alaska. A vessel, if it is in compliance with all regulations governing registration and if it displays a license issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, is considered to be registered under the laws of the state and may take or transport unprocessed fish. It is unlawful to take, attempt to take or possess unprocessed fish aboard a vessel in the waters of Alaska unless the vessel is registered under the laws of the state. For purposes of this subsection

(1) "employ", as used in AS 16.05.475, means taking or attempting to take fish, or transporting fish which have been taken or any operation of a vessel aiding or assisting in the taking or transporting of unprocessed fish;

(2) "in compliance with all regulations governing registration" includes vessel
GENERAL PROVISIONS

registration required by 5 AAC 28.020, 5 AAC 31.020, 5 AAC 31.030, 5 AAC 32.020, 5 AAC 32.030, 5 AAC 34.020, 5 AAC 34.030, 5 AAC 35.020, 5 AAC 35.030, 5 AAC 38.020 and 5 AAC 38.030, and includes district or subdistrict registration requirements of 5 AAC 03 – 5 AAC 38, and includes the provisions of this section;

(3) "registered under the laws of the state" means that a vessel displays a license described in 20 AAC 05.1958 and issued under AS 16.05.530, unless the vessel is not required to be licensed under AS 16.05.495, and that the registration provisions of 5 AAC 03 – 5 AAC 39 have been complied with and evidence of compliance is immediately available at all times during fishing or transporting operations, and can be shown upon request to an authorized representative of the department.

(b) Area registration requirements for shellfish vessels are as specified in the registration regulations in 5 AAC 31 – 5 AAC 38.

(c) Area registration requirements for salmon net fishing vessels are as follows:

(1) a person who owns a fishing vessel to be used to take salmon with net gear, or his authorized agent, shall register for an area by designating on the vessel license application or renewal form the vessel's one area of intended salmon net gear operation for the year; it is unlawful for a vessel to engage in salmon net fishing in an area other than the single area selected;

(2) in this section the term "area" means any registration area listed in (d) of this section, except that

(A) in salmon net Registration Area T, a vessel must also be registered by the department for a fishing district as required by 5 AAC 06.370;

(B) in salmon net Registration Area Y, a vessel must also be registered by the department for a fishing district as required by 5 AAC 05.370;

(C) a purse seine vessel registered for salmon net Registration Area M is also registered to operate purse seine gear in Registration Area F during the same registration year;

(3) a vessel registered for an area of salmon net fishing in compliance with (c)(1) of this section will be issued, by the Commercial Fisheries Entry Commission, a vessel license area tab for that year; it is unlawful for a vessel to fish in the area of registration unless the vessel displays the area tab on the vessel license number plate; no vessel owner or operator may possess for each vessel, or no vessel may display, more than one vessel license area tab;

(4) a person who owns a fishing vessel registered for an area of intended operation in compliance with (c)(1) of this section or his authorized agent may register it for a different salmon net registration area under the following conditions:

(A) the reregistration of a salmon net fishing vessel shall be authorized by the

(i) commissioner upon receipt of proof in writing that the vessel has been lost through sinking, destruction, or extensive mechanical breakdown, or that the vessel operator has suffered serious injury, sickness or death during the open season; or

(ii) Commercial Fisheries Entry Commission upon receipt of a written certification or personal affidavit stating that the vessel has not been used for salmon net fishing in the original area of registration during the current registration year;
(B) a person authorized to reregister a vessel must complete a reregistration form issued by the Commercial Fisheries Entry Commission and submit it to the commissioner together with any previously issued vessel license area tab;

(C) it is unlawful for a vessel to fish in the area of reregistration unless the vessel displays the appropriate area tab on the vessel license number plate;

(D) area reregistration under this section shall supersede the original area registration as if the original area registration had never been made;

(E) once a vessel has reregistered for another net registration area to replace a lost vessel, that vessel can not transfer back to its original net registration area during that season.

(d) Salmon net gear registration areas are as follows:

<table>

(e) Evidence of proper registration or licensing must be kept immediately available at all times during fishing operations and must be shown upon request to any peace officer of the state.

(f) The provisions of this section do not apply to halibut fishing.

5 AAC 39.123. Late registration. (a) To qualify for an extension of a registration or permit deadline set out in 5 AAC 01 – 5 AAC 39, a person must show that the person had
demonstrated an intent to harvest fish before the deadline. An "intent to harvest fish" may be demonstrated by

(1) renewing or applying for, before the deadline, a CFEC permit which is effective in the fishery and area for which extension is being requested;

(2) participation during the previous season in the fishery in the requested area, unless entry into the fishery is limited and the person did not own a permit for that season;

(3) purchasing or showing intent to purchase a vessel, permit, or fishing gear for the fishery before the deadline;

(4) showing intent to start, starting, or completion of vessel or gear repair or maintenance for the fishery before the deadline; or

(5) any other written documentation, such as loan applications, agreements with fish buyers, license applications, or other writings, which indicate the necessary intent to participate in the fishery before the deadline.

(b) In addition to (a) of this section, a person must demonstrate that failure to apply before the deadline was a result of excusable neglect. "Excusable neglect" may be demonstrated by

(1) loss of registration or permit form in the mail, or other documentation which may demonstrate excusable carelessness or inattention on the part of authorized agents or other third parties;

(2) receipt of incorrect information from a department official, which is substantiated by the appropriate official;

(3) illness or injury of the individual or a member of his family that was serious enough to prevent him from meeting the deadline;

(4) required government or military service; or

(5) written documentation that will substantiate other unavoidable circumstances that prevented meeting the deadline.

5 AAC 39.128. Reporting requirements for unlicensed commercial fishing vessels in the waters of Alaska. (a) Before entering the waters of Alaska,

(1) an operator of an unlicensed commercial fishing vessel shall report by telephone, and shall leave a recorded report at a telephone number designated by the department for that purpose, or shall report by other means specified by the department. A report under this section must

(A) identify the vessel and vessel operator;

(B) certify that no unprocessed fish are on board the vessel;

(C) include the destination, travel route, and dates of transit; and

(D) include the quantity, species, and the location from which the fish were taken if any processed fish are on board the vessel.

(b) The commissioner may, upon request by a local representative of the department, waive all or part of the requirements of this section if the commissioner determines that compliance with this section is not necessary for conservation, management, or enforcement in a designated geographical area.
(c) For the purposes of this section,

(1) "commercial fishing vessel" means a floating craft powered, towed, rowed, or otherwise propelled, which is used for or equipped to be used for

(A) commercial fishing;
(B) fish processing;
(C) fish transport; or
(D) fish storage, including temporary storage;

(2) "unlicensed" means not licensed under AS 16.05.490 – 16.05.530.

Editor's note: For the purposes of 5 AAC 39.128, the designated phone number to report to the department is (907) 247-2334. Before Register 183, October 2007, the substance of 5 AAC 39.128 appeared in 5 AAC 39.130(k).

5 AAC 39.130. Reports required of fishermen, processors, buyers, exporters, and operators of certain commercial fishing vessels; transporting requirements. (a) An individual, company, firm, or other organization that is the first purchaser of raw fish, catches and processes fish or byproducts of fish, catches and has fish or byproducts of fish processed by another person or company, or catches and exports fish or byproducts of fish shall

(1) furnish to the department each calendar year before operating, a completed Intent to Operate Application on a form, provided by the department; a individual, company, firm, or other organization described in this subsection may begin to operate only after receiving a written authorization from the

(A) department to begin operating, along with the individual's or organization's code plate number for the current year or code plate and fish tickets for the current year; or
(B) National Marine Fisheries Service to begin operating an eLandings operation;

(2) furnish, verbally or in writing, purchasing or production records as requested by the commissioner or the commissioner's designee;

(3) submit, on a form provided by the department, no later than April 1, a

(A) Commercial Operator's Annual Report (COAR), which is an operator's accurate and complete summary of activity for each Intent to Operate Application form filed for the previous year; or
(B) signed statement of nonactivity for the previous year.

(b) A catcher-seller must complete a registration form provided by the department each calendar year and may begin to operate only after receiving a written authorization from the

(1) department to begin operating, along with the catcher-seller's code plate number for the current year or code plate and fish tickets for the current year; or
(2) National Marine Fisheries Service to begin operating an eLandings operation.

(c) The first purchaser of raw fish, a catcher-seller, or an individual or company that catches and processes or exports that individual's or company's own catch or has that catch processed or received by another individual or company shall record each delivery on an ADF&G fish ticket. The operator of a fishing vessel that harvests or off-loads fish in the
waters of Alaska must complete an ADF&G fish ticket. Fish tickets must be submitted to a local representative of the department within seven days after delivery or final delivery if multiple deliveries are made, or as otherwise specified by the department for each particular area and fishery. The operator of a fishing vessel that has fished in the waters of Alaska whose port of delivery is outside this state, or who sells, transfers, receives, or delivers fish in the Exclusive Economic Zone (EEZ), shall submit a completed hailed weight form or an ADF&G fish ticket to the department before the fish are transported out of the jurisdiction of this state. At the time of delivery or as otherwise directed by the department, fish tickets must include the following:

1. the name of the individual or company that is the first purchaser of raw fish, catcher-seller, catcher-exporter, or catcher-processor, the assigned processor code imprinted on the fish ticket from the code plate issued by the department or the electronically captured information from the CFEC permit card, and the signature of the individual or a company representative to whom the code plate is issued or the eLandings system operation is authorized;

2. the full name and signature of the CFEC permit holder at the time of delivery, including the time of delivery to a commercial fish transporter as specified in AS 16.05.671;

3. the name, or the United States Coast Guard number or Department of Transportation number, of the vessel employed in taking the fish;

4. the date fishing gear was deployed and the date of the delivery of the fish;

5. the permanent vessel license plate number or, if a fishing operation does not possess a vessel license plate number, the five-digit missing value code number 99999;

6. the type of gear by which the fish were taken by gear code number;

7. the ADF&G statistical area, district, and subdistrict, and the nearest headland or bay in which the fish were taken;

8. information applicable to the following species, and as found on the department's ADF&G _ FC 101 form;

   A) the number, pounds, delivery condition code, product designation code, overage code, and disposition code of salmon, by species;

   B) the pounds, delivery condition code, product designation code, overage code, and disposition code of salmon roe, by species;

   C) the number, pounds, delivery condition code, product designation code, overage code, and disposition code of other finfish, by species;

   D) the number, pounds, delivery condition code, product designation code, overage code, and disposition code of king, Dungeness, and Tanner crab;

   E) the number or pounds, delivery condition code, product designation code, overage code, and disposition code of other shellfish by species;

   F) repealed 12/5/2009;

   G) the weight modification code number applicable to the eLandings system;

   H) the pounds or tons of herring;

   I) partial deliveries of groundfish as specified in 5 AAC 28.070(f);

9. the CFEC permit number of the operator of the unit of gear with which the
fish were taken, imprinted on the fish ticket from the valid permit card or electronically captured from the valid permit card; the imprinting requirement under this paragraph may be suspended by a local representative of the department after presentation by the commercial fisherman of documentation from the department or CFEC that the permit card has been lost, transferred, or destroyed; if a suspension is granted, the buyer or commercial fisherman must write the permit number on the fish ticket;

(10) the number of fish of any species retained by a commercial fisherman for that person's own use as specified in 5 AAC 39.010;

(11) the number of licensed crewmembers, including the vessel operator on board the vessel;

(12) the number of certified onboard observers, if applicable;

(13) the management program code, if using the eLandings system;

(14) the permanent vessel license plate number of the tender vessel or vehicle used to tender fish, if applicable;

(15) use of a dual permit and the second CFEC permit number, if applicable;

(16) any other information that the commissioner determines is necessary.

(d) An individual may not possess a fish ticket that has been imprinted with a CFEC permit number until the time of delivery, except for a fish ticket that has been imprinted with a CFEC permit number for fish that have been transferred to a permitted commercial fish transporter for delivery to a processor.

(e) A commercial fisherman shall furnish to the buyer factual catch data necessary for completion of reports required by the commissioner.

(f) A processor using the eLandings System must electronically submit the initial landing report at the completion of the delivery, and submit to the department the final landing report and the eLandings fish ticket within seven days.

(g) A commercial shellfish fisherman shall submit to the department in writing or electronically through the eLandings System, directly or through the buyer, data necessary for reports required by the commissioner.

(h) Unless otherwise specified in this chapter, in addition to other requirements of this section, each person that is the first purchaser of or that first processes raw groundfish or halibut shall comply with the record keeping and electronic reporting requirements through the eLandings System or any other reporting requirements in 50 C.F.R. 679.5 revised as of December 15, 2008. The commissioner may, by emergency order, close a fishing season and immediately reopen a fishing season during which a different reporting requirement is in effect, as determined by the commissioner.

(i) Notwithstanding (a) of this section, if the commissioner determines it is necessary, the following information regarding the transporting of unprocessed fish must be transmitted to an authorized local representative of the department either verbally, in writing, or by telephone:

(1) the number and species of salmon taken in a regulatory area must be reported before being transported to any other area or out of the state;

(2) the numbers or pounds, by species, of all other fish must be reported before being transported out of the state.
(j) An operator of a floating fish processing vessel shall report in person, or by radio or telephone, to the local representative of the department located within the management area of intended operation before the start of processing operations. The report must include the initial processing location by district or subdistrict, the exact latitude and longitude of the location, and the date of intended operation. Before moving the operation and upon arriving at a new location, the operator shall notify the local department representative in person, or by radio or telephone, of the new location of operation by district or subdistrict and exact latitude and longitude of the location. A local representative of the department may waive all or part of the requirements of this subsection upon determining that the requirements are not necessary for the conservation or management of the fishery in that area.

(k) For purposes of this section,

(1) "buyer-exporter" means the first purchaser of unprocessed fish or a fishery resource from a commercial fisherman and transports that unprocessed fish or fishery resource out of this state;

(2) "catcher-exporter" means a commercial fisherman who exports or attempts to export out of this state unprocessed fish that were legally taken by the catcher-exporter;

(3) "catcher-processor" means a commercial fisherman who catches and sells processed or unprocessed fish or fish products and

(A) exports the fish processed or unprocessed out of this state;
(B) processes or has the fish custom processed for sale in this state or out of this state;

(4) "catcher-seller" means a commercial fisherman, who sells or attempts to sell unprocessed fish that were legally taken by the catcher-seller,

(A) to the general public for use for noncommercial purposes;
(B) for use as bait for commercial or noncommercial purposes;
(C) to restaurants, grocery stores, and established fish markets;
(D) by shipping the fish to a licensed buyer, processor, or exporter within this state;

(5) "commercial fish transporter" means those individuals whose activities require a permit under AS 16.05.671;

(6) "delivery" means offloading fish for sale or for transport to a buyer for later sale;

(7) "eLandings System"

(A) means the electronic and Internet based reporting system developed by the department, the National Marine Fisheries Service, and the International Pacific Halibut Commission to provide an alternative to paper fish tickets;
(B) includes the following:

(i) eLandings, which is a web application for shore side and Internet capable vessels;
(ii) seaLandings, which is a desktop application for sea vessels without Internet capability; and
(iii) tLandings, which is thumb drive application for salmon and other tender operations;

(8) "first purchaser"

(A) means the person that first purchases raw fish directly from the commercial fisherman for the purchaser's own business and does not act as a buying agent for another business;

(B) includes a

(i) buyer-exporter;

(ii) floating processor;

(iii) independent buyer; and

(iv) shorebased processor;

(9) "floating processor" means the operator of a vessel who is the first purchaser of an unprocessed fishery resource from a commercial fisherman who caught the fish and

(A) exports that resource, processed or unprocessed, out of this state;

(B) processes that resource or has that resource custom processed;

(10) "independent buyer" means the first purchaser of an unprocessed fishery resource from a commercial fisherman for sale to a shorebased, floating processor, or buyer-exporter;

(11) "shorebased processor" means the first purchaser of unprocessed fishery resource from a commercial fisherman and

(A) exports that resource, processed or unprocessed, out of this state;

(B) processes that resource or has that resource custom processed.

Editor's note: The department's hailed weight form (ADF&G _HWT 1) and ADF&G _ FC 101 form required in 5 AAC 39.130(c) are available on the department's website at http://www.cf.adfg.state.ak.us.

5 AAC 39.132. Annual statistical survey of processor capacity. (a) For fishery management or conservation purposes, or to assist the governor's determination on the issuance of foreign fish processing permits under 5 AAC 39.198, the commissioner or the commissioner's designee may conduct annual statistical surveys of fish buyers and processors intending to purchase and process fish for an upcoming fishing season.

(b) The commissioner, or the commissioner's designee, will determine annually the specific fisheries that require a statistical survey as specified in (a) of this section.

(c) The commissioner, or the commissioner's designee, will select survey participants based on the amount of fish the participants purchased and processed in the subject fishery in prior years. The participant's previous purchasing and processing activity will be assessed from fish ticket records, annual statistical reports required under 5 AAC 39.130(a)(2), and any other pertinent information collected by the department.

(d) The department will provide to selected survey participants written notification of the department's intent to conduct a statistical survey regarding the participant's intent and capacity to purchase and process fish in a fishery during the upcoming fishing season. Within 72 hours of receipt of the written notification of participation, a selected survey participant
shall furnish to the department the name, mailing address, facsimile number, and telephone contact number for the person able to accurately provide the information requested on the participant's behalf.

(e) A statistical survey under this section will address the following data:

1. the maximum amount of fish in pounds or numbers of fish that the participant intends to purchase and process during the upcoming fishing season;

2. the approximate maximum daily amount of fish in pounds or numbers of fish that the participant intends to purchase and process in the upcoming fishing season;

3. the approximate number of vessels or fishermen from which the participant intends to purchase and process fish;

4. the number of tenders and remote fish buying stations that the participant intends to operate during the upcoming fishing season;

5. the approximate beginning and ending dates for the time period the participant intends to purchase and process fish in the subject fishery;

6. any anticipated changes in facilities, processes, or operations that would substantially change the intended purchasing and processing capacity in the subject fishery from the participant's operation the previous year; and

7. any other information the commissioner or commissioner's designee determines to be important for fishery management or conservation purposes or for the governor's determinations regarding foreign fish processing permits.

(f) A buyer or processor selected to participate in the survey shall

1. submit a complete and accurate response to the department by the return date specified on the survey; and

2. immediately notify the department of any changes in purchasing and processing capacity plans compared to those previously reported in the survey.

(g) Annual survey responses that identify intended fish purchasing and processing activities are confidential as annual statistical reports under AS 16.05.815(a).

5 AAC 39.135. Requirements for releasing confidential information to third persons.

(a) A person requesting the release of confidential information to a third person regarding the requesting person's fishery landings shall make the request in the form of a limited power of attorney on a request form provided by the department. The department will make the request form available at its local and regional offices and its web site.

(b) The person requesting the release of information under this section shall indicate on the request form the time period that the person authorizes the department to release the information that is not less than 30 days and not more than one year from the date that the person signs the form.

(c) The person requesting the release of information under this section shall complete the request form as prescribed by the department. When submitting the form in person, the person shall produce a government-issued photo identification for inspection by a department employee. If the form is being submitted by mail, the person shall first have the form notarized. If the form is being sent by facsimile, the person shall first have the form notarized, and after facsimile transmission, shall mail the original form to the department office that the facsimile was sent. The department will not release information requested
under this section until it receives the original, completed request form.

Editor's note: A copy of the release form can be found on the Department of Fish and Game's, Division of Commercial Fisheries, web site at www.cf.adfg.state.ak.us. A list of addresses and telephone and fax numbers for the Department of Fish and Game's local and regional offices can be found on the Division of Commercial Fisheries website at www.cf.adfg.state.ak.us/geninfo/contacts/offices.htm. In addition, copies of the release form, and addresses, and telephone and fax numbers, may be obtained at the Department of Fish and Game, Division of Commercial Fisheries, 1255 W. 8th Street, P.O. Box 25526, Juneau, Alaska 99802-5526: Phone (907) 465-4210.

5 AAC 39.140. Inspection of fishing establishments and vessels. (a) Representatives of the Department of Fish and Game or the Department of Public Safety shall have free and unobstructed access to all fishing vessels, canneries, salteries, and other land-based or floating processing establishments to inspect catch, equipment, gear, and operational compliance with AS 16 and regulations promulgated thereunder.

(b) Upon being approached by a vessel or aircraft under the control of a representative of the Departments of Fish and Game or Public Safety, the operator of a fishing vessel, catcher/processor, or floating processor shall be alert for, and immediately comply with, signals conveying enforcement intent. A vessel operator signaled to stop or heave to for boarding shall

(1) stop immediately and lay to or maneuver in such a way as to permit the representative and his party to come aboard;

(2) if requested, provide a safe ladder for the representative and his party;

(3) when necessary to facilitate the boarding, provide a man rope, safety line and illumination of the ladder;

(4) take such other actions as necessary to ensure the safety of the representative and party and to facilitate the boarding; and

(5) make every effort to comply with all lawful orders given by the representative, except that the owner or operator of the vessel is solely responsible for navigation, supervision, and control of the vessel and his decisions shall be final in all matters pertaining to proper navigation and safety of the vessel crew, and fishing gear.

(c) On a vessel which catches and processes crab and is required to carry an observer under 5 AAC 39.645, the vessel operator must separate crab to be retained and, before butchering, must make those crab available to the observer for inspection.

(d) Notwithstanding the requirements of 5 AAC 30.392(c), 5 AAC 30.393, 5 AAC 33.392(d), and 5 AAC 33.393, upon request by a representative of the Department of Fish and Game or a peace officer of the state, a fisherman or processor shall relinquish the tag and head of adipose-fin-clipped salmon, and shall inform the representative or peace officer of the date and location of the catch, if known.

5 AAC 39.141. Onboard observer program. (a) The Board of Fisheries finds that, in particular fisheries, observers on board fishing vessels would greatly enhance management, primarily by facilitating information gathering, and by improving regulatory compliance. Onboard observers may be the only practical fishery monitoring, data-gathering, or enforcement mechanism in some Alaska fisheries where a large component of vessels, such as catcher-processors and floating processors, rarely or never enter Alaskan ports.
GENERAL PROVISIONS

Board of Fisheries, therefore, finds it necessary to authorize the Alaska Department of Fish and Game to implement onboard observer programs in particular fisheries when the board determines that it 

(1) is the only practical data-gathering or enforcement mechanism; 
(2) will not unduly disrupt the fishery; and 
(3) can be conducted at a reasonable cost. 

(b) Every onboard observer shall have free and unobstructed access to inspect the catch, equipment, gear, or operations of the fishing vessel or the tender to which the observer is assigned, and to board vessels delivering to the vessel to which the observer is assigned and inspect the catches of vessels delivering to the vessel to which the observer is assigned while the vessel to which the observer is assigned is 

(1) within waters under the jurisdiction of the state; 
(2) taking or intending to take any species of fish; or 
(3) transporting or processing any species of fish. 

(c) Onboard observers must be as unintrusive to vessel operations as practicable and must make the scope of their activities as predictable as possible in the performance of their assigned observer duties. 

(d) Onboard observers are not required to obtain criminal or administrative search warrants to conduct their duties. 

(e) Onboard observers shall carry out such scientific and other duties as deemed necessary or appropriate to manage, protect, maintain, improve, and extend the fish and aquatic plant resources of the state. 

(f) Onboard observers shall have free access to all vessel location information at any time, including free and unobstructed access to vessel coordinates and depths for all sampled pots. 

(g) Every independent contracting agent, and their office personnel and business agents while employed by the independent contracting agent and for six months after terminating that employment, may not work as an onboard observer. 

5 AAC 39.150. Explosives, chemicals and poisons unlawful. The use of an explosive, chemical or poison in the taking or killing of fish or shellfish is prohibited, except that chemical baits or lures may be used to attract shellfish. 

5 AAC 39.155. Seine drums unlawful. It shall be unlawful to have mounted aboard any seine vessel a seine drum or reel around which a seine can be coiled or rolled. 

5 AAC 39.170. Monofilament purse seine web unlawful. It is unlawful to use single- or multiple-strand monofilament purse seine web. For the purpose of this regulation, "monofilament" means any single filament having more than 50 denier, that is, weighing more than 50 grams per 9,000 meters of filament. 

5 AAC 39.175. Use of lights prohibited. It is unlawful to use artificial lights to attract salmon out of closed waters for the purpose of a commercial taking. 

5 AAC 39.180. Time limit for preservation of salmon. It is unlawful to preserve for sale as food any salmon, unless it has been canned, salted, iced, frozen, brine chilled, smoked, or dried within 48 hours after being killed.
5 AAC 39.185. **Policy on closures due to illegal fishing.** (a) Some fisheries have had a documented history of illegal commercial fishing dating back to 1968. Enforcement efforts by the Department of Public Safety have been largely ineffective in controlling this recurring problem on a long-term basis. The Board recognizes the difficulty of enforcement in some areas of the state and although the current regulations are sufficient to protect fish stocks, they may be ineffective due to special enforcement problems.

   (b) In the interest of the conservation of valuable renewable fish resources, the Board of Fisheries directs the commissioner, or his authorized designee, to take the following actions given the specified circumstances. If illegal fishing activities develop to the point that regulations pertaining to protection of fish stocks become ineffective, the commissioner shall consider closing the affected fishery by emergency order for a period of up to one week. When the fishery reopens and illegal fishing continues to be a problem, the appropriate fishery may be closed for an additional period of time. Continued violations may result in additional closures of the fishery.

5 AAC 39.190. **Driving salmon prohibited.** It is unlawful to drive or attempt to drive salmon from waters closed to salmon fishing.

5 AAC 39.195. **Announcement of emergency orders.** Announcement of emergency orders will be publicized and made known to interested persons, fishermen, buyers, packers and canneries by one or more of the following means if possible:

   (1) radio transmission by department stations;
   (2) notices posted at canneries and public places;
   (3) press releases and announcements in
      (A) the department's website;
      (B) local newspapers; and
      (C) commercial radio stations;
   (4) telephone message hotline;
   (5) electronic mail;
   (6) facsimile transmission; and
   (7) other appropriate public notification media.

5 AAC 39.197. **Unlawful possession of fish.** No person may possess, purchase, sell, barter or transport fish within the state or within water subject to the jurisdiction of the state if that person knows or has reason to know that fish were taken or possessed in contravention of 5 AAC 03 – 5 AAC 39.

5 AAC 39.198. **Foreign fish processing permits.** (a) Except as provided in this chapter, a foreign fishing vessel is prohibited from engaging in fish processing in the internal waters of Alaska.

   (b) A foreign fishing vessel may engage in fish processing in the internal waters of Alaska if

   (1) the foreign nation under which it is flagged will be a party to an agreement or a treaty, as required by 16 U.S.C. 1856(c), and during the time the vessel will engage in the fish processing;

   (2) the owner or operator of the foreign fishing vessel, or a person representing
the owner or operator, applies to the governor for, and is granted, a foreign processing permit for the vessel to engage in fish processing in the internal waters of Alaska.

(c) The governor will not grant a permit under (b)(2) of this section if he determines that fish processors in Alaska have adequate capacity, and will use that capacity, to process all of the United States harvested fish from the fishery concerned that are landed in Alaska.

(d) In determining whether or not fish processors in Alaska have adequate capacity, and will use that capacity, to process all of the United States harvested fish from the fishery, the governor will, in his discretion, consider the following factors:

1. the total allowable catch expected in the fishery;
2. availability and capability of harvesting vessels in Alaska, seasonal fishing and processing schedules, and marketing and other similar conditions in the fishery concerned and in alternative fisheries;
3. availability of labor, adequacy and condition of processing machinery, freezers, and cold storage facilities of fish processors in Alaska, and the ability, intent and plans of those processors to process particular species;
4. economic considerations, including contracts, agreements, and negotiations for the purchase of United States harvested fish by processors in Alaska;
5. geographical considerations including proximity of harvest areas to the facilities of fish processors in Alaska; and
6. the extent to which fish processors in Alaska have processed particular species.

(e) An owner or operator of a foreign fishing vessel who submits an application for a permit to engage in fish processing in the internal waters of Alaska must

1. state the reasons why fish processors in Alaska do not have adequate capacity, or will not use their capacity, to process all of the United States harvested fish from the fishery concerned that are landed;
2. provide the following information:
   a. vessel description and identification;
   b. names and descriptions of the vessels, if known, from which the applicant will purchase fish;
   c. the species and quantity proposed to be processed and processing methods to be used;
   d. a description of the fishery from which the species will be harvested;
   e. the stage of development of the fishery as established, developing or undeveloped, and a statement of how the proposed operation in the fishery will help to achieve the full potential of the resources and provide benefits including employment, food supply, and revenue;
   f. the dates for which permission is sought;
   g. the specific locations in internal waters proposed for foreign processing;
   h. the qualifying governing international fisheries agreement or treaty, as required by 16 U.S.C. 1856(c);
   i. evidence of compliance with applicable federal and state regulations
including state laws and regulations that apply to processing vessels;

(J) proof of financial ability to purchase the expected quantity of fish to be processed, at reasonable market conditions;

(K) the ultimate sales market for the product, and marketing information showing how the operation will benefit development of the United States fishing industry;

(L) other information on the applicant's vessels, equipment, operations, and experience, reliance on local fishing vessel operations, and ability to benefit the United States fishing industry and residents of Alaska.

(f) In evaluating an application for a foreign processing permit, the governor will consider whether and to what extent the applicant and the applicant's nation have been, are, or will be contributing to the conservation, use, management, development, and enforcement of domestic fisheries programs.

(g) If a permit is granted, the governor will, in his discretion, designate times and areas of operations, species and quantities to be processed and other conditions of operation in order to attain desired benefits to the United States fishing industry.

(h) The governor will, in his discretion, suspend or terminate a permit granted under this section when he determines that processors in Alaska have adequate capacity, and will use that capacity, to process all United States harvested fish from the fishery and that the suspension or termination is necessary to achieve desired benefits to the United States fishing industry.

(i) The governor will, in his discretion, appoint a foreign processing advisory committee to obtain and review information regarding fish processing operations, including capacity determinations, in Alaska.

(j) In this section,

(1) "developed fishery" means a fishery in which United States processing capacity is available and has been used by United States fishermen and processors but not to the full extent of the total allowable catch in the fishery;

(2) "established fishery" means a fishery in which United States processing capacity has been available and has been used by United States fishermen and processors to the full extent of the total allowable catch in the fishery and in which full utilization by United States fishermen and processors is likely to continue;

(3) "fishery" means

(A) a stock or stocks of fish which may be treated as a unit for purposes of conservation and management and which are identified on the basis of geographical, scientific, technical, recreational, and economic characteristics; or

(B) the commercial taking of these stocks;

(4) "foreign fishing vessel" means a vessel that is documented under the flag of a foreign nation and engages in fish processing;

(5) "internal waters of Alaska" means all waters within the boundaries of the state except those seaward of the baseline from which the territorial sea is measured;

(6) "processing" means the application of preservative methods to the flesh of fish to maintain quality and prevent deterioration, including
GENERAL PROVISIONS

(A) storage and transportation of unprocessed fish;
(B) preparation for preservation;
(C) cooking, canning, smoking, salting, drying, freezing, icing, refrigeration, vacuum packing, gas, microwave preservation, and other preservation means;

(7) "total allowable catch" means the quantity of fish in a fishery that may be harvested without detriment to sustained yield;

(8) "undeveloped fishery" means a fishery in which there has been no United States commercial fishing nor processing of the total allowable catch in the fishery.

Editor's note: Although 5 AAC 39.198 appears in Title 5 of the Alaska Administrative Code, it was amended effective 6/16/82, Register 83, by the governor under the Magnuson Fishery Management and Conservation Act, 16 U.S.C. 1801 et seq., and Article III of the Alaska Constitution. It was amended effective 9/30/84, Register 91, by the commissioner of commerce and economic development under an October 31, 1983 delegation of authority from the governor.

5 AAC 39.200. Application of fishery management plans. (a) The Board of Fisheries has implemented by regulation fishery management plans that provide the Department of Fish and Game with guidelines to be followed when making management decisions regarding the state's subsistence, commercial, sport and personal use fisheries. The primary goal of these management plans is to protect the sustained yield of the state's fishery resources while at the same time providing an equitable distribution of the available harvest between various users. The regulations contained in this section are intended to aid in the achievement of that goal and therefore will apply to all fishery management plans contained in 5 AAC 03 – 5 AAC 39.

(b) In some fishery management plans, the distribution of harvestable fish between various users is determined by the harvest that occurs during a specific time period, at a specific location or by a specific group or groups of users. At times fishermen, due to circumstances that are beyond the control of the department, such as weather or price disputes, will not harvest fish. When this happens in a fishery governed by a management plan, the goals of that plan may not be achieved. Therefore, when a fishery is open to the taking of fish and the group or groups of users whose catch determines the distribution of the harvest as set out in the applicable management plan is not taking the harvestable fish available to them, the department shall manage the fishery as if the available harvest is being taken. When determining the available harvest, the department shall consider the number of fish needed to meet spawning requirements, the number of fish present in the fishery and in spawning areas that are in excess of spawning requirements and the estimated harvesting capacity of the group or groups of users that would normally participate in the fishery.

5 AAC 39.205. Criteria for the allocation of fishery resources among personal use, sport, and commercial fisheries. Before adopting regulations that allocate fish among personal use, sport, and commercial fisheries, the board will, as appropriate to particular allocation decisions, consider factors such as those set out in AS 16.05.251(e).

Article 2. Salmon Fishery.

5 AAC 39.220. Policy for the management of mixed stock salmon fisheries. (a) In applying this statewide mixed stock salmon policy for all users, conservation of wild salmon stocks consistent with sustained yield shall be accorded the highest priority. Allocation of salmon resources under this policy will be consistent with the subsistence preference
in AS 16.05.258, and the allocation criteria set out in 5 AAC 39.205, 5 AAC 75.017, and 5 AAC 77.007.

(b) In the absence of a regulatory management plan that otherwise allocates or restricts harvest, and when it is necessary to restrict fisheries on stocks where there are known conservation problems, the burden of conservation shall be shared among all fisheries in close proportion to their respective harvest on the stock of concern. The board recognized that precise sharing of conservation among fisheries is dependent on the amount of stock-specific information available.

(c) The board’s preference in assigning conservation burdens in mixed stock fisheries is through the application of specific fishery management plans set out in the regulations. A management plan incorporates conservation burden and allocation of harvest opportunity.

(d) Most wild Alaska salmon stocks are fully allocated to fisheries capable of harvesting available surpluses. Consequently, the board will restrict new or expanding mixed stock fisheries unless otherwise provided for by management plans or by application of the board's allocation criteria. Natural fluctuations in the abundance of stocks harvested in a fishery will not be the single factor that identifies a fishery as expanding or new.

(e) This policy will be implemented only by the board through regulations adopted (1) during its regular meeting cycle, or (2) through procedures established in the Joint Board's Petition Policy (5 AAC 96.625), Subsistence Petition Policy (5 AAC 96.625(f)), Policy for Changing Board Agenda (5 AAC 39.999), or Subsistence Proposal Policy (5 AAC 96.615).

5 AAC 39.222. Policy for the management of sustainable salmon fisheries. (a) The Board of Fisheries (board) and Department of Fish and Game (department) recognize that

(1) while, in the aggregate, Alaska's salmon fisheries are healthy and sustainable largely because of abundant pristine habitat and the application of sound, precautionary, conservation management practices, there is a need for a comprehensive policy for the regulation and management of sustainable salmon fisheries;

(2) in formulating fishery management plans designed to achieve maximum or optimum salmon production, the board and department must consider factors including environmental change, habitat loss or degradation, data uncertainty, limited funding for research and management programs, existing harvest patterns, and new fisheries or expanding fisheries;

(3) to effectively assure sustained yield and habitat protection for wild salmon stocks, fishery management plans and programs require specific guiding principles and criteria, and the framework for their application contained in this policy.

(b) The goal of the policy under this section is to ensure conservation of salmon and salmon's required marine and aquatic habitats, protection of customary and traditional subsistence uses and other uses, and the sustained economic health of Alaska's fishing communities.

(c) Management of salmon fisheries by the state should be based on the following principles and criteria:

(1) wild salmon stocks and the salmon's habitats should be maintained at levels of resource productivity that assure sustained yields as follows:

(A) salmon spawning, rearing, and migratory habitats should be protected as follows:
GENERAL PROVISIONS

(i) salmon habitats should not be perturbed beyond natural boundaries of variation;

(ii) scientific assessments of possible adverse ecological effects of proposed habitat alterations and the impacts of the alterations on salmon populations should be conducted before approval of a proposal;

(iii) adverse environmental impacts on wild salmon stocks and the salmon's habitats should be assessed;

(iv) all essential salmon habitat in marine, estuarine, and freshwater ecosystems and access of salmon to these habitats should be protected; essential habitats include spawning and incubation areas, freshwater rearing areas, estuarine and nearshore rearing areas, offshore rearing areas, and migratory pathways;

(v) salmon habitat in fresh water should be protected on a watershed basis, including appropriate management of riparian zones, water quality, and water quantity;

(B) salmon stocks should be protected within spawning, incubating, rearing, and migratory habitats;

(C) degraded salmon productivity resulting from habitat loss should be assessed, considered, and controlled by affected user groups, regulatory agencies, and boards when making conservation and allocation decisions;

(D) effects and interactions of introduced or enhanced salmon stocks on wild salmon stocks should be assessed; wild salmon stocks and fisheries on those stocks should be protected from adverse impacts from artificial propagation and enhancement efforts;

(E) degraded salmon spawning, incubating, rearing, and migratory habitats should be restored to natural levels of productivity where known and desirable;

(F) ongoing monitoring should be conducted to determine the current status of habitat and the effectiveness of restoration activities;

(G) depleted salmon stocks should be allowed to recover or, where appropriate, should be actively restored; diversity should be maintained to the maximum extent possible, at the genetic, population, species, and ecosystem levels;

(2) salmon fisheries shall be managed to allow escapements within ranges necessary to conserve and sustain potential salmon production and maintain normal ecosystem functioning as follows:

(A) salmon spawning escapements should be assessed both temporally and geographically; escapement monitoring programs should be appropriate to the scale, intensity, and importance of each salmon stock's use;

(B) salmon escapement goals, whether sustainable escapement goals, biological escapement goals, optimal escapement goals, or inriver run goals, should be established in a manner consistent with sustained yield; unless otherwise directed, the department will manage Alaska's salmon fisheries, to the extent possible, for maximum sustained yield;

(C) salmon escapement goal ranges should allow for uncertainty associated with measurement techniques, observed variability in the salmon stock measured, changes in climatic and oceanographic conditions, and varying abundance within related populations of the salmon stock measured;

(D) salmon escapement should be managed in a manner to maintain genetic
and phenotypic characteristics of the stock by assuring appropriate geographic and temporal
distribution of spawners as well as consideration of size range, sex ratio, and other popula-
tion attributes;

(E) impacts of fishing, including incidental mortality and other human-
induced mortality, should be assessed and considered in harvest management decisions;

(F) salmon escapement and harvest management decisions should be made
in a manner that protects nontarget salmon stocks or species;

(G) the role of salmon in ecosystem functioning should be evaluated and
considered in harvest management decisions and setting of salmon escapement goals;

(H) salmon abundance trends should be monitored and considered in harvest
management decisions;

(3) effective management systems should be established and applied to regulate
human activities that affect salmon as follows:

(A) salmon management objectives should be appropriate to the scale and
intensity of various uses and the biological capacities of target salmon stocks;

(B) management objectives should be established in harvest management
plans, strategies, guiding principles, and policies, such as for mixed stock fishery harvests,
fish disease, genetics, and hatchery production, that are subject to periodic review;

(C) when wild salmon stocks are fully allocated, new fisheries or expanding
fisheries should be restricted, unless provided for by management plans or by application
of the board's allocation criteria;

(D) management agencies should have clear authority in statute and regula-
tion to

(i) control all sources of fishing mortality on salmon;

(ii) protect salmon habitats and control nonfishing sources of mortality;

(E) management programs should be effective in

(i) controlling human-induced sources of fishing mortality and should
incorporate procedures to assure effective monitoring, compliance, control, and enforcement;

(ii) protecting salmon habitats and controlling collateral mortality and
should incorporate procedures to assure effective monitoring, compliance, control, and
enforcement;

(F) fisheries management implementation and outcomes should be consistent
with regulations, regulations should be consistent with statutes, and effectively carry out
the purpose of this section;

(G) the board will recommend to the commissioner the development of effec-
tive joint research, assessment, and management arrangements with appropriate management
agencies and bodies for salmon stocks that cross state, federal, or international jurisdictional
boundaries; the board will recommend the coordination of appropriate procedures for effec-
tive monitoring, compliance, control, and enforcement with those of other agencies, states,
or nations;

(H) the board will work, within the limits of its authority, to assure that

(i) management activities are accomplished in a timely and responsive
manner to implement objectives, based on the best available scientific information;

(ii) effective mechanisms for the collection and dissemination of information and data necessary to carry out management activities are developed, maintained, and utilized;

(iii) management programs and decision-making procedures are able to clearly distinguish, and effectively deal with, biological and allocation issues;

(I) the board will recommend to the commissioner and legislature that adequate staff and budget for research, management, and enforcement activities be available to fully implement sustainable salmon fisheries principles;

(J) proposals for salmon fisheries development or expansion and artificial propagation and enhancement should include assessments required for sustainable management of existing salmon fisheries and wild salmon stocks;

(K) plans and proposals for development or expansion of salmon fisheries and enhancement programs should effectively document resource assessments, potential impacts, and other information needed to assure sustainable management of wild salmon stocks;

(L) the board will work with the commissioner and other agencies to develop effective processes for controlling excess fishing capacity;

(M) procedures should be implemented to regularly evaluate the effectiveness of fishery management and habitat protection actions in sustaining salmon populations, fisheries, and habitat, and to resolve associated problems or deficiencies;

(N) conservation and management decisions for salmon fisheries should take into account the best available information on biological, environmental, economic, social, and resource use factors;

(O) research and data collection should be undertaken to improve scientific and technical knowledge of salmon fisheries, including ecosystem interactions, status of salmon populations, and the condition of salmon habitats;

(P) the best available scientific information on the status of salmon populations and the condition of the salmon's habitats should be routinely updated and subject to peer review;

(4) public support and involvement for sustained use and protection of salmon resources should be sought and encouraged as follows:

(A) effective mechanisms for dispute resolution should be developed and used;

(B) pertinent information and decisions should be effectively disseminated to all interested parties in a timely manner;

(C) the board's regulatory management and allocation decisions will be made in an open process with public involvement;

(D) an understanding of the proportion of mortality inflicted on each salmon stock by each user group, should be promoted, and the burden of conservation should be allocated across user groups in a manner consistent with applicable state and federal statutes, including AS 16.05.251(e) and AS 16.05.258; in the absence of a regulatory management plan that otherwise allocates or restricts harvests, and when it is necessary to restrict fisheries
on salmon stocks where there are known conservation problems, the burden of conserva-
tion shall be shared among all fisheries in close proportion to each fisheries' respective use, 
consistent with state and federal law;

(E) the board will work with the commissioner and other agencies as neces-
sary to assure that adequately funded public information and education programs provide 
timely materials on salmon conservation, including habitat requirements, threats to salmon 
habitat, the value of salmon and habitat to the public and ecosystem (fish and wildlife), 
natural variability and population dynamics, the status of salmon stocks and fisheries, and 
the regulatory process;

(5) in the face of uncertainty, salmon stocks, fisheries, artificial propagation, and 
essential habitats shall be managed conservatively as follows:

(A) a precautionary approach, involving the application of prudent foresight 
that takes into account the uncertainties in salmon fisheries and habitat management, the 
biological, social, cultural, and economic risks, and the need to take action with incomplete 
knowledge, should be applied to the regulation and control of harvest and other human-
induced sources of salmon mortality; a precautionary approach requires

(i) consideration of the needs of future generations and avoidance of 
potentially irreversible changes;

(ii) prior identification of undesirable outcomes and of measures that 
will avoid undesirable outcomes or correct them promptly;

(iii) initiation of any necessary corrective measure without delay and 
prompt achievement of the measure's purpose, on a time scale not exceeding five years, 
which is approximately the generation time of most salmon species;

(iv) that where the impact of resource use is uncertain, but likely presents 
a measurable risk to sustained yield, priority should be given to conserving the productive 
capacity of the resource;

(v) appropriate placement of the burden of proof, of adherence to the 
requirements of this subparagraph, on those plans or ongoing activities that pose a risk or 
habitability or production;

(B) a precautionary approach should be applied to the regulation of activities 
that affect essential salmon habitat.

(d) The principles and criteria for sustainable salmon fisheries shall be applied, by the 
department and the board using the best available information, as follows:

(1) at regular meetings of the board, the department will, to the extent practicable, 
provide the board with reports on the status of salmon stocks and salmon fisheries under 
consideration for regulatory changes, which should include

(A) a stock-by-stock assessment of the extent to which the management of 
salmon stocks and fisheries is consistent with the principles and criteria contained in the 
policy under this section;

(B) descriptions of habitat status and any habitat concerns;

(C) identification of healthy salmon stocks and sustainable salmon fisheries;

(D) identification of any existing salmon escapement goals, or management 
actions needed to achieve these goals, that may have allocative consequences such as the
(i) identification of a new fishery or expanding fishery;
(ii) identification of any salmon stocks, or populations within stocks, that present a concern related to yield, management, or conservation; and
(iii) description of management and research options to address salmon stock or habitat concerns;

(2) in response to the department's salmon stock status reports, reports from other resource agencies, and public input, the board will review the management plan, or consider developing a management plan, for each affected salmon fishery or stock; management plans will be based on the principles and criteria contained in this policy and will

(A) contain goals and measurable and implementable objectives that are reviewed on a regular basis and utilize the best available scientific information;

(B) minimize the adverse effects on salmon habitat caused by fishing;

(C) protect, restore, and promote the long-term health and sustainability of the salmon fishery and habitat;

(D) prevent overfishing; and

(E) provide conservation and management measures that are necessary and appropriate to promote maximum or optimum sustained yield of the fishery resource;

(3) in the course of review of the salmon stock status reports and management plans described in (1) and (2) of this subsection, the board, in consultation with the department, will determine if any new fisheries or expanding fisheries, stock yield concerns, stock management concerns, or stock conservation concerns exist; if so, the board will, as appropriate, amend or develop salmon fishery management plans to address these concerns; the extent of regulatory action, if any, should be commensurate with the level of concerns and range from milder to stronger as concerns range from new and expanding salmon fisheries through yield concerns, management concerns, and conservation concerns;

(4) in association with the appropriate management plan, the department and the board will, as appropriate, collaborate in the development and periodic review of an action plan for any new or expanding salmon fisheries, or stocks of concern; action plans should contain goals, measurable and implementable objectives, and provisions, including

(A) measures required to restore and protect salmon habitat, including necessary coordination with other agencies and organizations;

(B) identification of salmon stock or population rebuilding goals and objectives;

(C) fishery management actions needed to achieve rebuilding goals and objectives, in proportion to each fishery's use of, and hazards posed to, a salmon stock;

(D) descriptions of new or expanding salmon fisheries, management concern, yield concern, or conservation concern; and

(E) performance measures appropriate for monitoring and gauging the effectiveness of the action plan that are derived from the principles and criteria contained in this policy;

(5) each action plan will include a research plan as necessary to provide information to address concerns; research needs and priorities will be evaluated periodically, based
on the effectiveness of the monitoring described in (4) of this subsection;

(6) where actions needed to regulate human activities that affect salmon and
salmon's habitat that are outside the authority of the department or the board, the depart-
ment or board shall correspond with the relevant authority, including the governor, relevant
boards and commissions, commissioners, and chairs of appropriate legislative committees,
to describe the issue and recommend appropriate action.

(e) Nothing in the policy under this section is intended to expand, reduce, or be inconsis-
tent with, the statutory regulatory authority of the board, the department, or other state
agencies with regulatory authority that impacts the fishery resources of the state.

(f) In this section, and in implementing this policy,

(1) "allocation" means the granting of specific harvest privileges, usually by regu-
lation, among or between various user groups; "allocation" includes quotas, time periods,
area restrictions, percentage sharing of stocks, and other management measures providing
or limiting harvest opportunity;

(2) "allocation criteria" means the factors set out in AS 16.05.251(e) considered
by the board as appropriate to particular allocation decisions under 5 AAC 39.205, 5 AAC
75.017, and 5 AAC 77.007;

(3) "biological escapement goal" or "(BEG)" means the escapement that provides
the greatest potential for maximum sustained yield; BEG will be the primary management
objective for the escapement unless an optimal escapement or inriver run goal has been
adopted; BEG will be developed from the best available biological information, and should
be scientifically defensible on the basis of available biological information; BEG will be
determined by the department and will be expressed as a range based on factors such as
salmon stock productivity and data uncertainty; the department will seek to maintain evenly
distributed salmon escapements within the bounds of a BEG;

(4) "burden of conservation" means the restrictions imposed by the board or
department upon various users in order to achieve escapement, rebuild, or in some other
way conserve a specific salmon stock or group of stocks; this burden, in the absence of a
salmon fishery management plan, will be generally applied to users in close proportion to
the users' respective harvest of the salmon stock;

(5) "chronic inability" means the continuing or anticipated inability to meet
escapement thresholds over a four to five year period, which is approximately equivalent
to the generation time of most salmon species;

(6) "conservation concern" means concern arising from a chronic inability, de-
spite the use of specific management measures, to maintain escapements for a stock above
a sustained escapement threshold (SET); a conservation concern is more severe than a
management concern;

(7) "depleted salmon stock" means a salmon stock for which there is a conserva-
tion concern;

(8) "diversity" in a biological context, means the range of variation exhibited
within any level of organization, such as among genotypes within a salmon population,
among populations within a salmon stock, among salmon stocks within a species, among
salmon species within a community, or among communities within an ecosystem;

(9) "enhanced salmon stock" means a stock of salmon that is undergoing specific
GENERAL PROVISIONS

manipulation, such as hatchery augmentation or lake fertilization, to enhance its productivity above the level that would naturally occur; "enhanced salmon stock" includes an introduced stock, where no wild salmon stock had occurred before, or a wild salmon stock undergoing manipulation, but does not include a salmon stock undergoing rehabilitation, which is intended to restore a salmon stock’s productivity to a higher natural level;

(10) "escapement" means the annual estimated size of the spawning salmon stock; quality of the escapement may be determined not only by numbers of spawners, but also by factors such as sex ratio, age composition, temporal entry into the system, and spatial distribution within the salmon spawning habitat;

(11) "expanding fishery" means a salmon fishery in which effective harvesting effort has recently increased significantly beyond historical levels and where the increase has not resulted from natural fluctuations in salmon abundance;

(12) "expected yields" mean levels at or near the lower range of recent historic harvests if they are deemed sustainable;

(13) "genetic" means those characteristics (genotypic) of an individual or group of salmon that are expressed genetically, such as allele frequencies or other genetic markers;

(14) "habitat concern" means the degradation of salmon habitat that results in, or can be anticipated to result in, impacts leading to yield, management, or conservation concerns;

(15) "harvestable surplus" means the number of salmon from a stock’s annual run that is surplus to escapement needs and can reasonably be made available for harvest;

(16) "healthy salmon stock" means a stock of salmon that has annual runs typically of a size to meet escapement goals and a potential harvestable surplus to support optimum or maximum sustained yield;

(17) "incidental harvest" means the harvest of fish, or other species, that is captured in addition to the target species of a fishery;

(18) "incidental mortality" means the mortality imposed on a salmon stock outside of directed fishing, and mortality caused by incidental harvests, interaction with fishing gear, habitat degradation, and other human-related activities;

(19) "inriver run goal" means a specific management objective for salmon stocks that are subject to harvest upstream of the point where escapement is estimated; the inriver run goal will be set in regulation by the board and is comprised of the SEG, BEG, or OEG, plus specific allocations to inriver fisheries;

(20) "introduced stock" means a stock of salmon that has been introduced to an area, or portion of an area, where that stock had not previously occurred; an "introduced stock" includes a salmon stock undergoing continued enhancement, or a salmon stock that is left to sustain itself with no additional manipulation;

(21) "management concern" means a concern arising from a chronic inability, despite use of specific management measures, to maintain escapements for a salmon stock within the bounds of the SEG, BEG, OEG, or other specified management objectives for the fishery; a management concern is not as severe as a conservation concern;

(22) "maximum sustained yield" or "(MSY)" means the greatest average annual yield from a salmon stock; in practice, MSY is achieved when a level of escapement
is maintained within a specific range on an annual basis, regardless of annual run strength; the achievement of MSY requires a high degree of management precision and scientific information regarding the relationship between salmon escapement and subsequent return; the concept of MSY should be interpreted in a broad ecosystem context to take into account species interactions, environmental changes, an array of ecosystem goods and services, and scientific uncertainty;

(23) "mixed stock fishery" means a fishery that harvests fish from a mixture of stocks;

(24) "new fishery" means a fishery that new units of effort or expansion of existing effort toward new species, areas, or time periods, results in harvest patterns substantially different from those in previous years, and the difference is not exclusively the result of natural fluctuations in fish abundance;

(25) "optimal escapement goal" or "(OEG)" means a specific management objective for salmon escapement that considers biological and allocative factors and may differ from the SEG or BEG; an OEG will be sustainable and may be expressed as a range with the lower bound above the level of SET, and will be adopted as a regulation by the board; the department will seek to maintain evenly distributed escapements within the bounds of the OEG;

(26) "optimum sustained yield" or "(OSY)" means an average annual yield from a salmon stock considered to be optimal in achieving a specific management objective other than maximum yield, such as achievement of a consistent level of sustained yield, protection of a less abundant or less productive salmon stock or species, enhancement of catch per unit effort in sport fishery, facilitation of a nonconsumptive use, facilitation of a subsistence use, or achievement of a specific allocation;

(27) "overfishing" means a level of fishing on a salmon stock that results in a conservation or management concern;

(28) "phenotypic characteristics" means those characteristics of an individual or group of salmon that are expressed physically, such as body size and length at age;

(29) "rehabilitation" means efforts applied to a salmon stock to restore it to an otherwise natural level of productivity; "rehabilitation" does not include an enhancement, which is intended to augment production above otherwise natural levels;

(30) "return" means the total number of salmon in a stock from a single brood (spawning) year surviving to adulthood; because the ages of adult salmon (except pink salmon) returning to spawn varies, the total return from a brood year will occur over several calendar years; the total return generally includes those mature salmon from a single brood year that are harvested in fisheries plus those that compose the salmon stock's spawning escapement; "return" does not include a run, which is the number of mature salmon in a stock during a single calendar year;

(31) "run" means the total number of salmon in a stock surviving to adulthood and returning to the vicinity of the natal stream in any calendar year, composed of both the harvest of adult salmon plus the escapement; the annual run in any calendar year, except for pink salmon, is composed of several age classes of mature fish from the stock, derived from the spawning of a number of previous brood years;

(32) "salmon" means the five wild anadromous semelparous Pacific salmon species *Oncorhynchus sp.*, except steelhead and cutthroat trout, native to Alaska as follows:
GENERAL PROVISIONS

(A) Chinook or king salmon (O. tshawytscha);
(B) sockeye or red salmon (O. nerka);
(C) coho or silver salmon (O. kisutch);
(D) pink or humpback salmon (O. gorbuscha); and
(E) chum or dog salmon (O. keta);

(33) "salmon population" means a locally interbreeding group of salmon that is distinguished by a distinct combination of genetic, phenotypic, life history, and habitat characteristics, comprised of an entire stock or a component portion of a stock; the smallest uniquely identifiable spawning aggregation of genetically similar salmon used for monitoring purposes;

(34) "salmon stock" means a locally interbreeding group of salmon that is distinguished by a distinct combination of genetic, phenotypic, life history, and habitat characteristics or an aggregation of two or more interbreeding groups which occur within the same geographic area and is managed as a unit;

(35) "stock of concern" means a stock of salmon for which there is a yield, management, or conservation concern;

(36) "sustainable escapement goal" or "(SEG)" means a level of escapement, indicated by an index or an escapement estimate, that is known to provide for sustained yield over a 5 to 10 year period, used in situations where a BEG cannot be estimated or managed for; the SEG is the primary management objective for the escapement, unless an optimal escapement or inriver run goal has been adopted by the board; the SEG will be developed from the best available biological information, and should be scientifically defensible on the basis of that information; the SEG will be determined by the department and will take into account data uncertainty and be stated as either a "SEG range" or "lower bound SEG"; the department will seek to maintain escapements within the bounds of the SEG range or above the level of a lower bound SEG;

(37) "sustainable salmon fishery" means a salmon fishery that persists and obtains yields on a continuing basis; characterized by fishing activities and habitat alteration, if any, that do not cause or lead to undesirable changes in biological productivity, biological diversity, or ecosystem structure and function, from one human generation to the next;

(38) "sustained yield" means an average annual yield that results from a level of salmon escapement that can be maintained on a continuing basis; a wide range of average annual yield levels is sustainable; a wide range of annual escapement levels can produce sustained yields;

(39) "sustained escapement threshold" or "(SET)" means a threshold level of escapement, below which the ability of the salmon stock to sustain itself is jeopardized; in practice, SET can be estimated based on lower ranges of historical escapement levels, for which the salmon stock has consistently demonstrated the ability to sustain itself; the SET is lower than the lower bound of the BEG and lower than the lower bound of the SEG; the SET is established by the department in consultation with the board, as needed, for salmon stocks of management or conservation concern;

(40) "target species" or "target salmon stocks" means the main, or several major, salmon species of interest toward which a fishery directs its harvest;
"yield" means the number or weight of salmon harvested in a particular year or season from a stock;

"yield concern" means a concern arising from a chronic inability, despite the use of specific management measures, to maintain expected yields, or harvestable surpluses, above a stock's escapement needs; a yield concern is less severe than a management concern, which is less severe than a conservation concern;

"wild salmon stock" means a stock of salmon that originates in a specific location under natural conditions; "wild salmon stock" may include an enhanced or rehabilitated stock if its productivity is augmented by supplemental means, such as lake fertilization or rehabilitative stocking; "wild salmon stock" does not include an introduced stock, except that some introduced salmon stocks may come to be considered "wild" if the stock is self-sustaining for a long period of time;

"action point" means a threshold value for some quantitative indicator of stock run strength at which an explicit management action will be taken to achieve an optimal escapement goal.

5 AAC 39.223. Policy for statewide salmon escapement goals. (a) The Department of Fish and Game (department) and the Board of Fisheries (board) are charged with the duty to conserve and develop Alaska's salmon fisheries on the sustained yield principle. Therefore, the establishment of salmon escapement goals is the responsibility of both the board and the department working collaboratively. The purpose of this policy is to establish the concepts, criteria, and procedures for establishing and modifying salmon escapement goals and to establish a process that facilitates public review of allocative issues associated with escapement goals.

(b) The board recognizes the department's responsibility to

(1) document existing salmon escapement goals for all salmon stocks that are currently managed for an escapement goal;

(2) establish biological escapement goals (BEG) for salmon stocks for which the department can reliably enumerate salmon escapement levels, as well as total annual returns;

(3) establish sustainable escapement goals (SEG) for salmon stocks for which the department can reliably estimate escapement levels when there is not sufficient information to enumerate total annual returns and the range of escapements that are used to develop a BEG;

(4) establish sustained escapement thresholds (SET) as provided in 5 AAC 39.222 (Policy for the Management of Sustainable Salmon Fisheries);

(5) establish escapement goals for aggregates of individual spawning populations with similar productivity and vulnerability to fisheries and for salmon stocks managed as units;

(6) review an existing, or propose a new, BEG, SEG and SET on a schedule that conforms, to the extent practicable, to the board's regular cycle of consideration of area regulatory proposals;

(7) prepare a scientific analysis with supporting data whenever a new BEG, SEG, or SET, or a modification to an existing BEG, SEG, or SET is proposed and, in its discretion, to conduct independent peer reviews of its BEG, SEG, and SET analyses;
(8) notify the public whenever a new BEG, SEG, or SET is established or an existing BEG, SEG, or SET is modified;

(9) whenever allocative impacts arise from any management actions necessary to achieve a new or modified BEG, SEG or SET, report to the board on a schedule that conforms, to the extent practicable, to the board's regular cycle of consideration of area regulatory proposals so that it can address allocation issues.

(c) In recognition of its joint responsibilities, and in consultation with the department, the board will

(1) take regulatory actions as may be necessary to address allocation issues arising from implementation of a new or modified BEG, SEG, and SET;

(2) during its regulatory process, review a BEG, SEG or SET determined by the department and, with the assistance of the department, determine the appropriateness of establishing an optimal escapement goal (OEG); the board will provide an explanation of the reasons for establishing an OEG and provide, to the extent practicable, and with the assistance of the department, an estimate of expected differences in yield of any salmon stock, relative to maximum sustained yield, resulting from implementation of an OEG.

(d) Unless the context requires otherwise, the terms used in this section have the same meaning given those terms in 5 AAC 39.222(f).

5 AAC 39.230. Gear. Only those gillnets, seines, troll lines, fish wheels, spears or other appliances as provided for in 5 AAC 03 – 5 AAC 39 may be used to take salmon.

5 AAC 39.240. General gear specifications and operations. (a) A salmon fishing vessel shall operate, assist in operating, or have aboard it or any boat towed by it, only one legal limit of salmon fishing gear in the aggregate except as otherwise provided in this title.

(b) Unhung gear sufficient for mending purposes may be carried aboard fishing vessels.

(c) A purse seine, hand purse seine or beach seine may not be fished simultaneously with gillnet gear by any individual or vessel.

(d) Salmon fishing nets must be measured, either wet or dry, by determining the maximum or minimum distance between the first and last hanging of the net when the net is fully extended with traction applied at one end only.

(e) The interim-use or entry permit card holder is responsible for the operation of the net.

5 AAC 39.250. Gillnet specifications and operations. (a) The trailing of gillnet web is prohibited at any time or place where fishing is not permitted.

(b) Set gillnets shall be removed from the water during any closed period.

(c) The gillnet web in a gillnet must contain

(1) at least 30 filaments, each of which must be of equal diameter; or

(2) at least six filaments, each of which must be at least 0.20 millimeter in diameter.

(d) The float line and floats of gillnets must be floating on the surface of the water while the net is fishing, unless natural conditions cause the net to temporarily sink. The restriction of this subsection does not apply in the Arctic-Kotzebue Area (5 AAC 03.100), the Norton Sound-Port Clarence Area (5 AAC 04.100), the Yukon Area (5 AAC 05.100), the Kuskokwim Area (5 AAC 07.100), and the Kodiak Area (5 AAC 18.100).
5 AAC 39.260. Seine specifications and operations. (a) In the use of purse seines and hand purse seines, not more than one anchor may be used to hold the seine, lead and seine boat during a set.

(b) Repealed 3/26/76.

(c) Unless otherwise provided in 5 AAC 03 – 5 AAC 38, a purse seine is considered to have ceased fishing when all the rings are out of the water.

(d) A hand purse seine is considered to have ceased fishing when both ends of the seine are fast to the vessel.

(e) A beach seine is considered to have ceased fishing when all of the lead line is above the water on the beach.

(f) Where the use of leads is permitted, a purse seine vessel may not have or use more than one lead of legal length and depth, without purse rings attached, and with a minimum mesh size of seven inches, except that a lead may have a cork line border strip not to exceed five meshes of less than seven-inch meshes stretch measure and a lead line chafing strip not to exceed 25 meshes less than seven-inch stretch measure.

(g) If a purse seine and a lead are operated together

1. the lead must be attached to the purse seine;
2. the lead may be attached to only one end of the purse seine;
3. the lead may not be attached at any other part of the purse seine;
4. the web of the purse seine must overlap the web of the lead by at least one fathom, or the web of the purse seine must be sewn to the end of the lead for the entire depth of the shallowest net.

(h) One end, and only one end, of a seine lead may be attached to land above the waterline. If the lead is attached to land above the waterline, no other anchor may be used on the lead, purse seine, seine vessel, or skiff. "Anchor" is defined in 5 AAC 39.105(d)(19).

(i) During the operation of a purse seine, the propulsion engines of the seine vessel, or the skiff assisting the operation, must be running and the vessel must be controlling the configuration of the purse seine.

(j) A seine vessel must be attached to one end, and only one end, of a purse seine or lead when it is in operation. Any line used to make the attachment may not be more than 10 fathoms in length.

(k) A purse seine may not be used as a lead for another purse seine.

5 AAC 39.265. Retention of salmon taken in a commercial fishery. (a) The Board of Fisheries recognizes that at times during a commercial salmon season it may be necessary to require retention of all salmon species taken in a commercial net fishery for the purpose of conservation or development of the salmon resource.

(b) In a commercial salmon net fishery, if the commissioner determines that retention of all salmon species is necessary under this section, the commissioner may, by emergency order, close a commercial salmon net fishery and immediately reopen the fishery, during which all salmon species caught must be retained, unless otherwise specified in 5 AAC 01 – 77.

5 AAC 39.280. Identification of stationary fishing gear. (a) The owner or operator of a set gillnet or fish wheel in operation shall place in a conspicuous place on or near the set
gillnet or fish wheel the name of the fisherman operating it, together with the fisherman's five-digit CFEC permit serial number. Numbers must be at least six inches in height with lines at least one inch wide and of a color contrasting with the background. The identification name and numbers for fish wheels must be placed on the side of the fish wheel facing midstream of the river.

(b) In addition to the requirements of (a) of this section, the owner or operator of a set gillnet in operation shall have at each end of the set gillnet a red keg, buoy, or cluster of floats, or, in the case of set gillnets anchored to land, shall have a red keg, buoy, or cluster of floats at the outer end of the net. The kegs, buoys, or clusters of floats must be plainly and legibly marked with the fisherman's five-digit CFEC permit serial number. The kegs, buoys, or clusters of floats may bear only a single number – that of the permit holder operating the gear. In the Upper Subdistrict of the Central District of the Cook Inlet Area, the operator of a set gillnet shall attach to the net a trailer buoy that floats at all times.

5 AAC 39.290. Closed waters. (a) Except as otherwise specified in this title, commercial fishing for salmon is prohibited at all times in the waters of Alaska that are

(1) within the fresh water of streams and rivers of this state;

(2) within 500 yards of the fresh water of a stream that is a salmon stream;

(3) over the beds or channels of fresh water of streams and rivers of this state.

(b) The department may post any closed area designated in (a) of this section by appropriate markers. The department shall place such markers as close as practically possible to the distance or location specified by the applicable regulation or emergency order. However, where markers have been deployed, it is unlawful to take salmon for commercial purposes on the streamward side of the area indicated by the markers and as described in (a) of this section.

(c) Where markers as described above have been lost or destroyed or are not in place, the area closed to commercial salmon fishing is as specified by the applicable regulation or emergency order.

(d) The Ugashik, Yukon and Kuskokwim Rivers, the Yakutat Area and any other river where a legal commercial fishery now exists are the only exceptions to this closure.

(e) The points established for stream mouths listed in the Catalog of Waters Important for Spawning, Rearing, or Migration of Anadromous Fishes under 5 AAC 95.011 do not apply to enforcement of this section or other regulations limiting the distance that commercial fishing may occur from the fresh water of a stream that is a salmon stream.

5 AAC 39.291. Boundary markers. The department may post a boundary described in regulation by an appropriate marker. The marker must be placed as close as possible to the location specified in the applicable regulation. Where markers have been lost or destroyed, the boundary is as specified in the applicable regulation.

Article 7. Commercial Freshwater Fishery.

5 AAC 39.734. Identification of gear. All freshwater fishing gear, while in operation, must be plainly and legibly marked with the operator's name and permanent vessel license plate number of the vessel fishing the gear or the fishing permit number assigned by the department.

5 AAC 39.780. Permit required. (a) Whitefish, sheefish, char, trout, pike, burbot and lamprey in fresh and salt water may be taken or purchased under the authority of a permit
issued by the commissioner or the commissioner's designee. Smelt may only be taken by, or purchased from, a person who meets the requirements of AS 16.05.660 and only under the authority of a permit issued by the commissioner or the commissioner's designee.

(b) The permit may be issued to either the fisherman or the buyer.

(c) These species, when taken incidentally in conjunction with commercial salmon fishing, are legally taken and possessed without a permit, unless otherwise provided in this title.

(d) The following stipulations apply to both the permit holder or buyer and to fishermen selling their catch to the buyer:

(1) the time and area of fishing and type and amount of fishing gear may be designated;

(2) the species to be harvested may be designated and the number of fish may be limited.

Article 9. Definitions; Miscellaneous.

5 AAC 39.975. Definitions. In 5 AAC 01 – 5 AAC 39,

(1) "alien" means a person who is not a citizen of the United States, and who does not have a petition for naturalization pending before the district court;

(2) "bag limit" means the maximum legal take per person per day, even if part or all of the fish are preserved;

(3) "buyer" means a person who purchases fish from the fishermen who caught the fish or who, for commercial purposes, processes fish he has caught himself;

(4) "depth of net" means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed;

(5) repealed 2/18/73;

(6) "gear" means any type of fishing apparatus;

(7) "inclusive season dates" means whenever the doing of an act between certain dates or from one date to another is allowed or prohibited, the period of time thereby indicated includes both dates specified; the first date specified designates the first day of the period, and the second date specified designates the last day of the period;

(8) "legal limit of fishing gear" means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district or section;

(9) "local representative of the department" means the nearest, most accessible professional employee of the department, a person designated by the commissioner or by a professional employee of the department to perform a specific function for the department and a law enforcement officer of the Department of Public Safety;

(10) "salmon stream" means a stream used by salmon, at any stage of life, for spawning, rearing, presence, or migration;

(11) "stretched measure" means the average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet;
GENERAL PROVISIONS

the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under five-pound weight, except as otherwise provided in this title;

(12) repealed 6/30/79;

(13) "waters of Alaska" means the internal waters of the state including rivers, streams, lakes and ponds, the tidal zone of the state from mean higher high water to mean lower low water, and those waters extending three miles seaward of a line (the baseline) between the following points: (A) – (E)

Editor's note: A copy of the point by point definition of the baseline is available at local offices of ADF&G.

(F) and extending three miles seaward of all islands not enclosed by the above line;

(14) "salmon stream terminus" means a line drawn between the seaward extremities of the exposed tideland banks of any salmon stream at mean lower low water;

(15) repealed 8/14/70;

(16) "ton" means 2,000 pounds avoirdupois weight;

(17) "king crab" means any or all of the following species:

(A) Paralithodes camtschaticus (red king crab);
(B) Paralithodes platypus (blue king crab);
(C) Lithodes couesi;
(D) Lithodes aequispinus (golden king crab);
(E) Paralithodes brevipes (Hanasaki king crab);

(18) "Tanner crab" means any or all of the following species:

(A) Chionoecetes opilio (snow crab);
(B) Chionoecetes tanneri (grooved Tanner crab);
(C) Chionoecetes bairdi (Tanner crab);
(D) Chionoecetes angulatus (triangle Tanner crab);

(19) "Dungeness crab" means the species Cancer magister;

(20) "household" means a person or persons having the same residence;

(21) "groundfish" or "bottomfish" means any marine finfish except halibut, osmerids, herring, and salmonids;

(22) "to operate fishing gear" means

(A) the deployment of gear or to have gear deployed in the waters of Alaska;
(B) the removal of gear from the waters of Alaska;
(C) the removal of fish or shellfish from the gear during an open season or period; or
(D) possession of a gillnet containing fish during an open fishing period, except that a net which is completely clear of the water is not considered to be operating
for the purpose of minimum distance requirements;

(23) "possession limit" means the maximum number of fish a person may have in his possession if the fish have not been canned, salted, frozen, smoked, dried or otherwise preserved so as to be fit for human consumption after a 15-day period;

(24) "hung measure" means the maximum length of the cork line when measured wet or dry with traction applied at one end only;

(25) "drainage" means all of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds and lakes which contribute to the supply of the watershed;

(26) "fresh water of streams and rivers" means fresh water separated from salt water at the mouth of streams and rivers by a line drawn between the seaward extremities of the exposed tideland banks at the present stage of the tide;

(27) "guideline harvest level" means the preseason estimated level of allowable fish harvest which will not jeopardize the sustained yield of the fish stocks; an area, district, section or portion thereof may close to fishing before or after the guideline harvest level has been reached if principles of management and conservation dictate such action;

(28) "peace officer of the state" means a person defined in AS 16.05.150;

(29) "processing" means completion of

(A) cooking;
(B) canning;
(C) smoking;
(D) salting, which means uniformly mixing with a minimum salting level of at least 20 percent of the weight of the fish resources;
(E) drying; or
(F) freezing, which means to congeal and solidify the flesh of fish by abstraction of heat;

(30) "domicile" means the same as in AS 16.05.940(9); evidence of a person's domicile may include, but is not limited to, the following:

(A) statements made to obtain a license to drive, hunt, fish, or engage in an activity regulated by a government entity;
(B) affidavit of the person, or of other persons who may know of that person's domicile;
(C) place of voter registration;
(D) location of residences owned, rented, or leased;
(E) location of storage of household goods;
(F) location of business owned or operated;
(G) residence of spouse and minor children or dependents;
(H) governments to which taxes are paid;
(I) whether the person has claimed residence in another location for the purpose of obtaining benefits provided by the governments in that location;
(31) "fishing site" means a structure or vessel used by a CFEC permit holder for providing shelter in support of the operation of stationary net gear;

(32) "net gear site" means the in-water location of stationary net gear;

(33) "seine vessel" means the largest vessel, as determined by keel length, used to operate a seine and the vessel from which the seine is set, and to which the seine is retrieved to;

(34) "demersal shelf rockfish" means any or all of the following Sebastes species:
   (A) repealed 4/30/91;
   (B) S. pinniger (Canary);
   (C) S. nebulosus (China);
   (D) S. caurinus (Copper);
   (E) S. maliger (Quilback);
   (F) repealed 4/30/91;
   (G) S. helvomaculatus (Rosethorn);
   (H) repealed 4/30/91;
   (I) S. nigrocinctus (Tiger);
   (J) S. ruberrimus (Yelloweye);
   (K) repealed 4/4/97;

(35) "onboard observer" means a representative of the Departments of Fish and Game or Public Safety who
   (A) is certified by the Department of Fish and Game as having completed minimum training requirements;
   (B) is living onboard a fishing or processing vessel for all or part of the period the vessel is at sea; and
   (C) is monitoring fishing or processing activities and collecting harvest data essential to management and enforcement;

(36) "rockfish" means all species of the genus Sebastes;

(37) "pelagic shelf rockfish" means any or all of the following Sebastes species:
   (A) S. ciliatus (Dark);
   (B) S. entomelas (Widow);
   (C) S. flavidus (Yellowtail);
   (D) S. melanops (Black);
   (E) S. mystinus (Blue);
   (F) S. variabilis (Dusky);

(38) "slope rockfish" means any species of the genus Sebastes not specified as either demersal shelf rockfish or pelagic shelf rockfish;

(39) "thornyhead rockfish" or "idiot rockfish" means all species of the genus
Sebastolobus;

(40) "weather vane scallop" means the species Patinopecten caurinus;

(41) "mile" means

(A) a nautical mile when used in reference to marine waters;
(B) a statute mile when used in reference to fresh water;

(42) "miscellaneous shellfish" means all shellfish and marine invertebrates, except shrimp, and king, Tanner, and Dungeness crab;

(43) "total allowable catch" or "TAC" means the annual harvest quota or the retainable catch allowed for a species or species group;

(44) "individual fishing quota" or "IFQ" means the annual allocation of pounds for harvest that represents a quota share holder's percentage of the total allowable catch;

(45) "handicraft" means a finished product in which the shape or appearance of the natural material has been substantially changed by skillful use of the hands, such as by sewing, carving, etching, scrimshawing, painting, or other means, and which has substantially greater monetary and aesthetic value than the unaltered natural material alone.

5 AAC 39.995.  Water depth.  Unless otherwise specified, water depths in 5 AAC 01 – 5 AAC 39 are to be measured from mean lower low water.

5 AAC 39.997.  Abbreviations and symbols.  (a) The abbreviations a.m. and p.m. indicate antemeridian and postmeridian respectively for either Standard Time or Daylight Saving Time in conformance with the official time in use for Alaska.

(b) The symbols °, ', " indicate degrees, minutes, and seconds, respectively, of longitude or latitude, based upon the North American datum of 1983.

(c) Lat. and long. indicate latitude and longitude, respectively.

(d) E. indicates east, N. indicates north, W. indicates west, and S. indicates south. All bearings and directions shall be construed to be true bearings and true directions.

(e) ADF&G is the abbreviation for Alaska Department of Fish and Game.

(f) CFEC is the abbreviation for the Commercial Fisheries Entry Commission.

5 AAC 39.999. Policy for changing board agenda.  (a) The Board of Fisheries (board) will, in its discretion, change its schedule for consideration of proposed regulatory change in response to an agenda change request, submitted on a form provided by the board, in accordance with the following guidelines:

(1) the board will accept an agenda change request only

(A) for a fishery conservation purpose or reason;
(B) to correct an error in a regulation; or
(C) to correct an effect on a fishery that was unforeseen when a regulation was adopted;

(2) the board will not accept an agenda change request that is predominantly allocative in nature in the absence of new information found by the board to be compelling;

(3) the board will consider an agenda change request only at its first meeting in the fall, a request must be received by the executive director of the board at least 60 days
before the first meeting in the fall.

(b) The board will, in its discretion, change its schedule for consideration of proposed regulatory changes as reasonably necessary for coordination of state regulatory actions with federal fishery agencies, programs or laws.

(c) If the board accepts an agenda change request under this section, the executive director shall notify the public and the department of the change in the board's schedule and when the board will consider the proposed regulatory change requested.

Chapter 93. Department Programs.

Article 3. Salmon Use.

5 AAC 93.310. Waste of salmon. (a) Unless authorized under 5 AAC 93.310 – 5 AAC 93.390, a person may not waste salmon intentionally, knowingly, or with reckless disregard for the consequences.

(b) Salmon is intended for a use listed in AS 16.05.831(a)(1) – (a)(3) if the salmon was taken by or is possessed by a person who has an authorization under state or federal law to take, process for sale or sell the salmon.

(c) In AS 16.05.831 and this section, the commissioner considers waste to not include (1) normal inadvertent loss of flesh associated with uses of salmon described in AS 16.05.831(a)(1) – (a)(3) or authorized in 5 AAC 93.310 – 5 AAC 93.390 where the loss cannot be prevented by practical means; or (2) failure to use or sell spoiled, diseased, or contaminated salmon flesh if the spoilage or contamination is not the result of intentional, knowing, or reckless actions; and, if the salmon could legally have been sold, the person disposing of the salmon complies with the requirements of (d) of this section.

(d) Before disposing of spoiled, diseased, or contaminated salmon that could legally have been sold, a person shall record the number of salmon in a logbook, available from the department, by date, species, and reason for disposal. By December 31 of the year of disposal, the person shall submit a completed logbook to the department.

(e) A logbook maintained, but not yet submitted under (d) of this section, shall be provided, upon request, to the department, the department's agent, or the Department of Public Safety for inspection.

(f) Logbooks submitted under this section are public documents.

(g) In this section,

(1) "flesh" means all muscular body tissue surrounding the skeleton;

(2) "person" has the meaning given in AS 01.10.060, including joint ventures and other business entities; for purposes of this section "person" does not include the state or the federal government.

5 AAC 93.350. General authorizations for use of salmon. (a) Notwithstanding AS 16.05.831 (a) and 5 AAC 93.310, and unless otherwise prohibited by law, under the authorization of this subsection a person may use salmon taken in a hatchery cost recovery fishery, or in a commercial, sport, personal use, or subsistence fishery for bait.

(b) Notwithstanding AS 16.05.831(a) and 5 AAC 93.310, and unless otherwise prohibited by law, under the authorization of this subsection a person may use salmon taken in a commercial fishery or hatchery cost recovery fishery for the production of fertilizer or
fish meal.

(c) Notwithstanding AS 16.05.831(a) and 5 AAC 93.310, and unless otherwise prohibited by law, under the authorization of this subsection a person may use salmon taken in a hatchery cost recovery fishery, conducted in a special harvest area, for the production of fish oil.

(d) Notwithstanding AS 16.05.831(a) and 5 AAC 93.310, a person may dispose of the carcass of a salmon from which milt or eggs are extracted under a permit issued under AS 16.10.400 - 16.10.480 for lawful use as broodstock if the permit holder first documents milt or roe extraction and carcass disposal information, on a form provided by the department, and

1. removes eggs that are not used for fertilization from no more than 10 percent of the permit holder's female broodstock during milt and egg extraction; or

2. immediately notifies the department, in writing, of any extraction of eggs that will not be used for fertilization that exceed the limits established in (1) of this subsection, and immediately surrenders to the state all proceeds from the sale of eggs exceeding the limits established in (1) of this subsection.

(e) For the purposes of this section, "broodstock" has the meaning given in 5 AAC 40.990.

Chapter 96. Local Fish and Game Advisory Committees and Regional Fish and Game Councils.

Article 5. Adoption of Fish and Game Regulations.

5 AAC 96.625. Joint board petition policy. (a) Under AS 44.62.220, an interested person may petition an agency, including the Boards of Fisheries and Game, for the adoption, amendment, or repeal of a regulation. The petition must clearly and concisely state the substance or nature of the regulation, amendment, or repeal requested, the reason for the request, and must reference the agency's authority to take the requested action. Within 30 days after receiving a petition, a board will deny the petition in writing, or schedule the matter for public hearing under AS 44.62.190 – 44.62.210, which require that any agency publish legal notice describing the proposed change and solicit comment for 30 days before taking action. AS 44.62.230 also provides that if the petition is for an emergency regulation, and the agency finds that an emergency exists, the agency may submit the regulation to the lieutenant governor immediately after making the finding of emergency and putting the regulation into proper form.

(b) Fish and game regulations are adopted by the Alaska Board of Fisheries and the Alaska Board of Game. At least twice annually, the boards solicit regulation changes. Several hundred proposed changes are usually submitted to each board annually. The Department of Fish and Game compiles the proposals and mails them to all fish and game advisory committees and to other interested individuals.

(c) Copies of all proposals are available at local Department of Fish and Game offices. When the proposal books are available, the advisory committees hold public meetings in the communities and regions they represent, to gather local comment on the proposed changes. Finally, the boards convene public meetings, which have lasted as long as six weeks, taking department staff reports, public comment, and advisory committee reports before voting in public session on the proposed changes.
(d) The public has come to rely on this regularly scheduled participatory process as the basis for changing fish and game regulations. Commercial fishermen, processors, guides, trappers, hunters, sport fishermen, subsistence fishermen, and others plan business and recreational ventures around the outcome of these public meetings.

(e) The Boards of Fisheries and Game recognize the importance of public participation in developing management regulations, and recognize that public reliance on the predictability of the normal board process is a critical element in regulatory changes. The boards find that petitions can detrimentally circumvent this process and that an adequate and more reasonable opportunity for public participation is provided by regularly scheduled meetings.

(f) The Boards of Fisheries and Game recognize that in rare instances circumstances may require regulatory changes outside the process described in (b) – (d) of this section. Except for petitions dealing with subsistence hunting or fishing, which will be evaluated on a case-by-case basis under the criteria in 5 AAC 96.615(a), it is the policy of the boards that a petition will be denied and not scheduled for hearing unless the problem outlined in the petition justifies a finding of emergency. In accordance with state policy expressed in AS 44.62.270, emergencies will be held to a minimum and are rarely found to exist. In this section, an emergency is an unforeseen, unexpected event that either threatens a fish or game resource, or an unforeseen, unexpected resource situation where a biologically allowable resource harvest would be precluded by delayed regulatory action and such delay would be significantly burdensome to the petitioners because the resource would be unavailable in the future.
SELECTED ALASKA STATUTES

Title 16. Fish and Game.

Chapter 05. Fish and Game Code and Definitions.

Sec. 16.05.050. Powers and duties of the commissioner. The commissioner has, but not by way of limitation, the following powers and duties:

1. through the appropriate state agency and under the provisions of AS 36.30 (State Procurement Code), to acquire by gift, purchase, or lease, or other lawful means, land, buildings, water, rights-of-way, or other necessary or proper real or personal property when the acquisition is in the interest of furthering an objective or purpose of the department or state;

2. under provisions of AS 36.30, to design and construct hatcheries, pipelines, rearing ponds, fishways, and other projects beneficial for the fish and game resources of the state;

3. to accept money from any person under conditions requiring the use of the money for specific purposes in the furtherance of the protection, rehabilitation, propagation, preservation, or investigation of the fish and game resources of the state or in settlement of claims for damages to fish or game resources;

4. to collect, classify, and disseminate statistics, data and information that, in the commissioner's discretion, will tend to promote the purposes of this title except AS 16.51 and AS 16.52;

5. to take, capture, propagate, transport, buy, sell, or exchange fish or game or eggs for propagating, scientific, public safety, or stocking purposes;

6. under the provisions of AS 36.30, to provide public facilities where necessary or proper to facilitate the taking of fish or game, and to enter into cooperative agreements with any person to effect them;

7. to exercise administrative, budgeting, and fiscal powers;

8. under the provisions of AS 36.30, to construct, operate, supervise, and maintain vessels used by the department;

9. to authorize the holder of an interim-use permit under AS 16.43 to engage on an experimental basis in commercial taking of a fishery resource with vessel, gear, and techniques not presently qualifying for licensing under this chapter in conformity with standards established by the Alaska Commercial Fisheries Entry Commission;

10. not later than January 31 of each year, to provide to the commissioner of revenue the names of those fish and shellfish species that the commissioner of fish and game designates as developing commercial fish species for that calendar year; a fish or shellfish species is a developing commercial fish species if, within a specified geographical region,

   (A) the optimum yield from the harvest of the species has not been reached;

   (B) a substantial portion of the allowable harvest of the species has been allocated to fishing vessels of a foreign nation; or

   (C) a commercial harvest of the fish species has recently developed;

11. to initiate or conduct research necessary or advisable to carry out the purposes of this title except AS 16.51 and AS 16.52;
(12) to enter into cooperative agreements with agencies of the federal government, educational institutions, or other agencies or organizations, when in the public interest, to carry out the purposes of this title except AS 16.51 and AS 16.52;

(13) to implement an on-board observer program authorized by the Board of Fisheries under AS 16.05.251(a)(13); implementation

(A) must be as unintrusive to vessel operations as practicable; and

(B) must make scheduling and scope of observers' activities as predictable as practicable;

(14) to sell fish caught during commercial fisheries test fishing operations;

(15) to establish and charge fees equal to the cost of services provided by the department, including provision of public shooting ranges, broodstock and eggs for private nonprofit hatcheries, department publications, and other direct services, and reasonable fees for the use of state facilities managed by the department; fees established under this paragraph for the use of hatchery facilities, commercial use of sport fishing access sites, and for operation of state hatchery facilities as private aquaculture association, are not subject to cost limit under AS 37.10.050(a);

(16) to permit and regulate aquatic farming in the state in a manner that ensures the protection of the state's fish and game resources and improves the economy, health, and well-being of the citizens of the state.

(17) to operate state housing and facilities for employees, contractors, and others in support of the department's responsibilities and to charge rent that is consistent with applicable collective bargaining agreements, or, if no collective bargaining agreement is applicable, competitive with market conditions; rent received from tenants shall be deposited in the general fund;

(18) to petition the Alaska Commercial Fisheries Entry Commission, unless the Board of Fisheries disapproves the petition under AS 16.05.251(g), to establish a moratorium on new entrants into commercial fisheries

(A) that have experienced recent increases in fishing effort that are beyond a low, sporadic level of effort;

(B) that have achieved a level of harvest that may be approaching or exceeding the maximum sustainable level for the fishery; and

(C) for which there is insufficient biological and resource management information necessary to promote the conservation and sustained yield management of the fishery.

(19) to promote fishing, hunting, and trapping and preserve the heritage of fishing, hunting, and trapping in the state.

Sec. 16.05.055. On-board observer program. (a) The commissioner may enter into appropriate contracts and agreements with agencies, such as the National Marine Fisheries Service, the North Pacific Fishery Management Council, and the International Pacific
Halibut Commission, designed to ensure that on-board observer programs conducted in the fisheries of the state are coordinated and consistent with each other for vessels operating in state and federal water.

(b) The master of a vessel, as a condition of participating in a fishery for which an on-board observer program is authorized by the Board of Fisheries under AS 16.05.251, shall consent in writing to the placement of an observer aboard the vessel.

Sec. 16.05.060. Emergency orders. (a) This chapter does not limit the power of the commissioner or an authorized designee, when circumstances require, to summarily open or close seasons or areas or to change weekly closed periods on fish or game by means of emergency orders.

(b) The commissioner or an authorized designee may, under criteria adopted by the Board of Fisheries, summarily increase or decrease sport fish bag limits or modify methods of harvest for sport fish by means of emergency orders.

(c) An emergency order has the force and effect of law after field announcement by the commissioner or an authorized designee. An emergency order adopted under this section is not subject to the AS 44.62 (Administrative Procedure Act).

Sec. 16.05.065. Application extension. (a) The commissioner shall extend the time and dates during which application may be made for fish or game registration if the commissioner finds that

(1) the conservation and management of the fish or game resource will not be affected adversely; and

(2) the failure to timely apply is the result of excusable neglect.

(b) The fee for an extension granted under this section is $45.

(c) As used in this section, "excusable neglect" does not include unfamiliarity with or ignorance of applicable laws and regulations. In order to show excusable neglect, a person must have demonstrated, before the registration deadline, an intent to harvest fish or game.

Sec. 16.05.070. Regulations as evidence. Regulations of a board and of the commissioner, including emergency openings and closures, are admissible as evidence in the courts of the state in accordance with AS 44.62 (Administrative Procedure Act).

Sec. 16.05.080. Limitation of power. Nothing in this chapter authorizes the department or a board to change the amount of fees or licenses.

Sec. 16.05.092. Fisheries rehabilitation, enhancement, and development. The department shall

(1) develop and continually maintain a comprehensive, coordinated state plan for the orderly present and long-range rehabilitation, enhancement, and development of all aspects of the state's fisheries for the perpetual use, benefit, and enjoyment of all citizens and revise and update this plan annually;

(2) encourage the investment by private enterprise in the technological development and economic utilization of the fisheries resources;

(3) through rehabilitation, enhancement, and development programs do all things necessary to ensure perpetual and increasing production and use of the food resources of state waters and continental shelf areas;
prepare a comprehensive annual report, containing detailed information regarding its accomplishments under this section and proposals of plans and activities for the next fiscal year, and notify the legislature not later than 20 days after the convening of each regular session that the report is available.

Sec. 16.05.100. Fish and game fund established. There is created a revolving fish and game fund, which shall be used exclusively for the following:

(1) to carry out the purposes and provisions of this title, except AS 16.51 and AS 16.52, or other duties that may be delegated by the legislature to the commissioner or the department;

(2) to pay the principal of and interest on revenue bonds issued under AS 37.15.765 – 37.15.799 to finance the construction and renovation of fisheries rehabilitation, enhancement, and development projects that benefit sport fishing; and

(3) to carry out such purposes and objectives within the scope of this title except AS 16.51 and AS 16.52 as may be directed by the donor of any such funds.

Sec. 16.05.150. Enforcement authority. The following persons are peace officers of the state and they shall enforce this title except AS 16.51 and AS 16.52:

(1) an employee of the department authorized by the commissioner;

(2) a police officer in the state;

(3) any other person authorized by the commissioner.

Sec. 16.05.160. Duty to arrest. Each peace officer designated in AS 16.05.150 shall arrest a person violating a provision of this title except AS 16.51 and AS 16.52, or any regulation adopted under this title except AS 16.51 and AS 16.52, in the peace officer's presence or view, and shall take the person for examination or trial before an officer or court of competent jurisdiction unless in the judgment of the peace officer it would be in the state's best interest to issue a warning or a citation under AS 16.05.165.

Sec. 16.05.165. Form and issuance of citation. (a) When a peace officer stops or contacts a person concerning a violation of this title except AS 16.51 and AS 16.52 or of a regulation adopted under this title except AS 16.51 and AS 16.52 that is a misdemeanor, the peace officer may, in the officer's discretion, issue a citation to the person as provided in AS 12.25.175 – 12.25.230.

(b) The supreme court shall specify by rule or order those misdemeanors that are appropriate for disposition without court appearance, and shall establish a schedule of bail amounts. Before establishing or amending the schedule of bail amounts required by this subsection, the supreme court shall appoint and consult with an advisory committee consisting of two law enforcement officers of the Department of Public Safety engaged in fish and wildlife protection, two representatives of the Department of Fish and Game, two district court judges, and the chairpersons of the House and Senate Judiciary Committees of the legislature. The maximum bail amount for an offense may not exceed the maximum fine specified by law for that offense. If the misdemeanor for which the citation is issued may be disposed of without court appearance, the issuing peace officer shall write on the citation the amount of bail applicable to the violation.

(c) If a person cited for a misdemeanor for which a bail amount has been established under (b) of this section does not contest the citation, the person may, on or before the 30th day after the date of the citation, mail or personally deliver to the clerk of the court in which
the citation is filed by the peace officer

(1) the amount of bail indicated on the citation for that offense; and

(2) a copy of the citation indicating that the right to an appearance is waived, a plea of no contest is entered and the bail is forfeited.

(d) When bail has been forfeited under (c) of this section, a judgment of conviction shall be entered. Forfeiture of bail and all seized items is a complete satisfaction for the misdemeanor. The clerk of the court accepting the bail shall provide the offender with a receipt stating that fact if requested.

(e) A person cited under this section is guilty of failure to obey a citation under AS 12.25.230 if the person fails to pay the bail amount established under (b) of this section or fails to appear in court as required.

(f) Notwithstanding other provisions of law, if a person cited for a misdemeanor for which a bail amount has been established under (b) of this section appears in court and is found guilty, the penalty that is imposed for the offense may not exceed the bail amount for that offense established under (b) of this section.

Sec. 16.05.170. Power to execute warrant. Each peace officer designated in AS 16.05.150 may execute a warrant or other process issued by an officer or court of competent jurisdiction for the enforcement of this title except AS 16.51 and AS 16.52, and may, with a search warrant, search any place at any time. The judge of a court having jurisdiction may, upon proper oath or affirmation showing probable cause, issue a warrant in all cases.

Sec. 16.05.180. Power to search without warrant. Each peace officer designated in AS 16.05.150 may without a warrant search any thing or place if the search is reasonable or is not protected from searches and seizures without warrant within the meaning of art. I, Sec. 14, Alaska State Constitution, which specifically enumerates "persons, houses and other property, papers and effects." However, before a search without warrant is made a signed written statement by the person making the search shall be submitted to the person in control of the property or object to be searched, stating the reason the search is being conducted. A written receipt shall be given by the person conducting the search for property which is taken as a result of the search. The enumeration of specific things does not limit the meaning of words of a general nature.

Sec. 16.05.190. Seizure and disposition of equipment. Guns, traps, nets, fishing tackle, boats, aircraft, automobiles or other vehicles, sleds, and other paraphernalia used in or in aid of a violation of this chapter or a regulation of the department may be seized under a valid search, and all fish and game, or parts of fish and game, or nests or eggs of birds, taken, transported, or possessed contrary to the provisions of this chapter or a regulation of the department shall be seized by any peace officer designated in AS 16.05.150. Upon conviction of the offender or upon judgment of the court having jurisdiction that the item was taken, transported, or possessed in violation of this chapter or a regulation of the department, all fish and game, or parts of them are forfeited to the state and shall be disposed of as directed by the court. If sold, the proceeds of the sale shall be transmitted to the proper state officer for deposit in the general fund. Guns, traps, nets, fishing tackle, boats, aircraft, or other vehicles, sleds, and other paraphernalia seized under the provisions of this chapter or a regulation of the department, unless forfeited by order of the court, shall be returned, after completion of the case and payment of the fine, if any.

Sec. 16.05.195. Forfeiture of equipment. (a) Guns, traps, nets, fishing gear, vessels,
aircraft, other motor vehicles, sleds, and other paraphernalia or gear used in or in aid of a violation of this title or AS 08.54, or regulation adopted under this title or AS 08.54, and all fish and game or parts of fish and game or nests or eggs of birds taken, transported or possessed contrary to the provisions of this title, or regulation adopted under it, may be forfeited to the state

(1) upon conviction of the offender in a criminal proceeding of a violation of this title in a court of competent jurisdiction; or

(2) upon judgment of a court of competent jurisdiction in a proceeding in rem that an item specified above was used in or in aid of a violation of this title or a regulation adopted under it.

(b) Items specified in (a) of this section may be forfeited under this section regardless of whether they were seized before instituting the forfeiture action.

(c) An action for forfeiture under this section may be joined with an alternative action for damages brought by the state to recover damages for the value of fish and game or parts of them or nests or eggs of birds taken, transported or possessed contrary to the provisions of this title or a regulation adopted under it.

(d) It is no defense that the person who had the item specified in (a) of this section in possession at the time of its use and seizure has not been convicted or acquitted in a criminal proceeding resulting from or arising out of its use.

(e) Forfeiture may not be made of an item subsequently sold to an innocent purchaser in good faith. The burden of proof as to whether the purchaser purchased the item innocently and in good faith shall be on the purchaser.

(f) An item forfeited under this section shall be disposed of at the discretion of the department. Before the department disposes of an aircraft it shall consider transfer of ownership of the aircraft to the Alaska Wing, Civil Air Patrol.

Sec. 16.05.200. Power to administer oaths. Each peace officer designated in AS 16.05.150 may administer to or take from any person, an oath, affirmation, or affidavit when it is for use in a prosecution or proceeding under or in the enforcement of this chapter.

Sec. 16.05.221. Boards of fisheries and game. (a) For purposes of the conservation and development of the fishery resources of the state, there is created the Board of Fisheries composed of seven members appointed by the governor, subject to confirmation by a majority of the members of the legislature in joint session. The governor shall appoint each member on the basis of interest in public affairs, good judgment, knowledge, and ability in the field of action of the board, and with a view to providing diversity of interest and points of view in the membership. The appointed members shall be residents of the state and shall be appointed without regard to political affiliation or geographical location of residence. The commissioner is not a member of the Board of Fisheries, but shall be ex officio secretary.

(b) For purposes of the conservation and development of the game resources of the state, there is created a Board of Game composed of seven members appointed by the governor, subject to confirmation by a majority of the members of the legislature in joint session. The governor shall appoint each member on the basis of interest in public affairs, good judgment, knowledge, and ability in the field of action of the board, and with a view to providing diversity of interest and points of view in the membership. The appointed members shall be residents of the state and shall be appointed without regard to political affiliation or geographical location of residence. The commissioner is not a member of the
Board of Game, but shall be ex officio secretary.

(c) Members of the Board of Game serve staggered terms of three years and, except as provided in AS 39.05.080(4), each member serves until a successor is appointed. An appointment to fill a vacancy in the membership of the Board of Game shall be made in the same manner as the original appointment and, except as provided in AS 39.05.080(4), an appointment to fill a vacancy is for the balance of the unexpired term.

(d) Members of the Board of Fisheries serve staggered terms of three years. The terms of members of the board begin on July 1. Notwithstanding AS 39.05.080(1), by April 1 of the calendar year in which the term expires, the governor shall appoint a person to fill the vacancy that will arise on the board due to expiration of the term of a member of the board and submit the name of the person to the legislature for confirmation. If a vacancy arises on the board, the governor shall, within 30 days after the vacancy arises, appoint a person to serve the balance of the unexpired term and submit the name of the person to the legislature for confirmation. A person appointed to fill the balance of an unexpired term shall serve on the board from the date of the appointment until the earlier of the expiration of the term or the failure of the legislature to confirm the person under AS 39.05.080.

Sec. 16.05.241. Powers excluded. The boards have regulation-making powers as set out in this chapter, but do not have administrative, budgeting, or fiscal powers.

Sec. 16.05.251. Regulations of the Board of Fisheries. (a) The Board of Fisheries may adopt regulations it considers advisable in accordance with the AS 44.62 (Administrative Procedure Act) for

(1) setting apart fish reserve areas, refuges, and sanctuaries in the waters of the state over which it has jurisdiction, subject to the approval of the legislature;

(2) establishing open and closed seasons and areas for the taking of fish; if consistent with resource construction and development goals, the board may adopt regulations establishing restricted seasons and areas necessary for

(A) persons 60 years of age and older to participate in sport, personal use, or subsistence fishing; or

(B) residents under 18 years of age and nonresidents under 16 years of age to participate in sport fishing;

(3) setting quotas, bag limits, harvest levels, and sex and size limitations on the taking of fish;

(4) establishing the means and methods employed in the pursuit, capture, and transport of fish;

(5) establishing marking and identification requirements for means used in pursuit, capture, and transport of fish;

(6) classifying as commercial fish, sport fish, guided sport fish, personal use fish, subsistence fish, or predators or other categories essential for regulatory purposes;

(7) watershed and habitat improvement, and management, conservation, protection, use, disposal, propagation, and stocking of fish;

(8) investigating and determining the extent and effect of disease, predation, and competition among fish in the state, exercising control measures considered necessary to the resources of the state;
(9) prohibiting and regulating the live capture, possession, transport, or release of native or exotic fish or their eggs;

(10) establishing seasons, areas, quotas and methods of harvest for aquatic plants;

(11) establishing the times and dates during which the issuance of fishing licenses, permits, and registrations and the transfer of permits and registrations between registration areas is allowed; however this paragraph does not apply to permits issued or transferred under AS 16.43;

(12) regulating commercial, sport, guided sport fish, subsistence, and personal use fishing as needed for the conservation, development, and utilization of fisheries;

(13) requiring, in a fishery, observers on board fishing vessels, as defined in AS 16.05.475(d), that are registered under the laws of the state, as defined in AS 16.05.475(c), after making a written determination that an on-board observer program

(A) is the only practical data-gathering or enforcement mechanism for that fishery;

(B) will not unduly disrupt the fishery;

(C) can be conducted at a reasonable cost; and

(D) can be coordinated with observer programs of other agencies, including the National Marine Fisheries Service, North Pacific Fishery Management Council, and the International Pacific Halibut Commission;

(14) establishing nonexclusive, exclusive, and superexclusive registration and use areas for regulating commercial fishing;

(15) regulating resident or nonresident sport fishermen as needed for the conservation, development, and utilization of fishing resources;

(16) requiring unlicensed fishing vessels present in or transiting the waters of the state to report to the department the quantity, species, and origin of fish on board; in this paragraph, "unlicensed fishing vessel" means a fishing vessel that is not licensed under AS 16.05.490 – 16.05.530;

(17) promoting fishing and preserving the heritage of fishing in the state.

(b) Repealed 1986.

(c) If the Board of Fisheries denies a petition or proposal to amend, adopt, or repeal a regulation, the board, upon receiving a written request from the sponsor of the petition or proposal, shall in addition to the requirements of AS 44.62.230 provide a written explanation for the denial to the sponsor not later than 30 days after the board has officially met and denied the sponsor's petition or proposal, or 30 days after receiving the request for explanation, whichever is later.

(d) Regulations adopted under (a) of this section must, consistent with sustained yield and the provisions of AS 16.05.258, provide a fair and reasonable opportunity for the taking of fishery resources by personal use, sport, and commercial fishermen.

(e) The Board of Fisheries may allocate fishery resources among personal use, sport, guided sport, and commercial fisheries. The board shall adopt criteria for the allocation of fishery resources and shall use the criteria as appropriate to particular allocation decisions. The criteria may include factors such as
(1) the history of each personal use, sport, guided sport, and commercial fishery;

(2) the number of residents and nonresidents who have participated in each fishery in the past and the number of residents and nonresidents who can reasonably be expected to participate in the future;

(3) the importance of each fishery for providing residents the opportunity to obtain fish for personal and family consumption;

(4) the availability of alternative fisheries resources;

(5) the importance of each fishery to the economy of the state;

(6) the importance of each fishery to the economy of the region and local area in which the fishery is located;

(7) the importance of each fishery in providing recreational opportunities for residents and nonresidents.

(f) Except as expressly provided in AS 16.40.120(e) and 16.40.130, the Board of Fisheries may not adopt regulations or take action regarding the issuance, denial, or conditioning of a permit under AS 16.40.100 or 16.40.120, the construction or operation of a farm or hatchery required to have a permit under AS 16.40.100, or a harvest with permit issued under AS 16.40.120.

(g) The Board of Fisheries shall consider a request of the commissioner for approval of a petition to the Alaska Commercial Fisheries Entry Commission to establish a moratorium on new entrants into a commercial fishery under AS 16.43.225 at the board’s next regular or special meeting that follows the receipt by the board of the request for approval of the petition and that allows time for the notice required under this subsection. The board may consider the request of the commissioner for approval of the petition only after 15 days’ public notice of the board’s intention to consider approval of the petition. The board shall consider whether the commissioner, in support of the request for approval of the petition, has adequately shown that the fishery meets requirements for a moratorium on new entrants under AS 16.05.050. The board by a majority vote of its members at the meeting when the petition must be considered shall approve or disapprove the petition.

(h) The Board of Fisheries shall adopt by regulation a policy for the management of mixed stock fisheries. The policy shall provide for the management of mixed stock fisheries in a manner that is consistent with sustained yield of wild fish stocks.

(i) Notwithstanding AS 16.43.140(c)(5), the board may adopt, at a regularly scheduled meeting at which the board considers regulatory proposals for management of a specific salmon fishery, a regulation to allow a person who holds two entry permits for that salmon fishery an additional fishing opportunity appropriate for that particular fishery.

Sec. 16.05.253. Operation of stationary fishing gear. (a) The Board of Fisheries may require a person who holds a limited entry permit or an interim-use permit under AS 16.43 to be physically present at a beach or riparian fishing site during the operation of net gear or other stationary fishing gear at the site, except when the permit holder is at or traveling to or from the location of

(1) a sale of fish caught in the gear; or

(2) other stationary gear of the permit holder.

(b) In this section, "fishing site" means fishing site as defined by the Board of Fisheries.
and includes any structure used for providing shelter in support of the operation of the net gear or other stationary fishing gear.

Sec. 16.05.258. Subsistence use and allocation of fish and game. (a) Except in nonsubsistence areas, the Board of Fisheries and the Board of Game shall identify the fish stocks and game populations, or portions of stocks or populations, that are customarily and traditionally taken or used for subsistence. The commissioner shall provide recommendations to the boards concerning the stock and population identifications. The boards shall make identifications required under this subsection after receipt of the commissioner's recommendations.

(b) The appropriate board shall determine whether a portion of a fish stock or game population identified under (a) of this section can be harvested consistent with sustained yield. If a portion of a stock or population can be harvested consistent with sustained yield, the board shall determine the amount of the harvestable portion that is reasonably necessary for subsistence uses and

(1) if the harvestable portion of the stock or population is sufficient to provide for all consumptive uses, the appropriate board

(A) shall adopt regulations that provide a reasonable opportunity for subsistence uses of those stocks or populations;

(B) shall adopt regulations that provide for other uses of those stocks or populations, subject to preferences among beneficial uses; and

(C) may adopt regulations to differentiate among uses;

(2) if the harvestable portion of the stock or population is sufficient to provide for subsistence uses and some, but not all, other consumptive uses, the appropriate board

(A) shall adopt regulations that provide a reasonable opportunity for subsistence uses of those stocks or populations;

(B) may adopt regulations that provide for other consumptive uses of those stocks or populations; and

(C) shall adopt regulations to differentiate among consumptive uses that provide for a preference for the subsistence uses, if regulations are adopted under (B) of this paragraph;

(3) if the harvestable portion of the stock or population is sufficient to provide for subsistence uses, but no other consumptive uses, the appropriate board shall

(A) determine the portion of the stocks or populations that can be harvested consistent with sustained yield; and

(B) adopt regulations that eliminate other consumptive uses in order to provide a reasonable opportunity for subsistence uses; and

(4) if the harvestable portion of the stock or population is not sufficient to provide a reasonable opportunity for subsistence uses, the appropriate board shall

(A) adopt regulations eliminating consumptive uses, other than subsistence uses;

(B) distinguish among subsistence users, through limitations based on

(i) the customary and direct dependence on the fish stock or game
population by the subsistence user for human consumption as a mainstay of livelihood;

(ii) the proximity of the domicile of the subsistence user to the stock or population; and

(iii) the ability of the subsistence user to obtain food if subsistence use is restricted or eliminated.

c) The boards may not permit subsistence hunting or fishing in a nonsubsistence area. The boards, acting jointly, shall identify by regulation the boundaries of nonsubsistence areas. A nonsubsistence area is an area or community where dependence upon subsistence is not a principal characteristic of the economy, culture, and way of life of the area or community. In determining whether dependence upon subsistence is a principal characteristic of the economy, culture, and way of life of an area or community under this subsection, the boards shall jointly consider the relative importance of subsistence in the context of the totality of the following socio-economic characteristics of the area or community:

(1) the social and economic structure;
(2) the stability of the economy;
(3) the extent and the kinds of employment for wages, including full-time, part-time, temporary, and seasonal employment;
(4) the amount and distribution of cash income among those domiciled in the area or community;
(5) the cost and availability of goods and services to those domiciled in the area or community;
(6) the variety of fish and game species used by those domiciled in the area or community;
(7) the seasonal cycle of economic activity;
(8) the percentage of those domiciled in the area or community participating in hunting and fishing activities or using wild fish and game;
(9) the harvest levels of fish and game by those domiciled in the area or community;
(10) the cultural, social, and economic values associated with the taking and use of fish and game;
(11) the geographic locations where those domiciled in the area or community hunt and fish;
(12) the extent of sharing and exchange of fish and game by those domiciled in the area or community;
(13) additional similar factors the boards establish by regulation to be relevant to their determinations under this subsection.

d) Fish stocks and game populations, or portions of fish stocks and game populations not identified under (a) of this section may be taken only under nonsubsistence regulations.

e) Takings and uses of fish and game authorized under this section are subject to regulations regarding open and closed areas, seasons, methods and means, marking and identification requirements, quotas, bag limits, harvest levels, and sex, age, and size limitations. Takings and uses of resources authorized under this section are subject to AS 16.05.831 and AS 16.30.
(f) For purposes of this section, "reasonable opportunity" means an opportunity, as determined by the appropriate board, that allows a subsistence user to participate in a subsistence hunt or fishery that provides a normally diligent participant with a reasonable expectation of success of taking of fish or game.

**Sec. 16.05.259. No subsistence defense.** In a prosecution for the taking of fish or game in violation of a statute or regulation, it is not a defense that the taking was done for subsistence uses.

**Sec. 16.05.260. Advisory committees.** The Board of Fisheries and the Board of Game may adopt regulations they consider advisable in accordance with AS 44.62 (Administrative Procedure Act) establishing, at places in the state designated by the individual boards, advisory committees to be composed of persons well informed on the fish or game resources of the locality. The boards shall set the number and terms of each of the members of the advisory committees, shall delegate one member of each committee as chairman, and shall give the chairman authority to hold public hearings on fish or game matters. Recommendations from the advisory committees shall be forwarded to the appropriate board for their consideration but if the Board of Fisheries or the Board of Game chooses not to follow the recommendations of the local advisory committee the appropriate board shall inform the appropriate advisory committee of this action and state the reasons for not following the recommendations. The commissioner shall delegate authority to advisory committees for emergency closures during established seasons. The commissioner is empowered to set aside and make null and void only opening of seasons set by the advisory committees under this section. The appropriate board shall adopt the necessary regulations governing these closures.

**Sec. 16.05.270. Delegation of authority to commissioner.** For the purpose of administering AS 16.05.251 and 16.05.255, each board may delegate authority to the commissioner to act in its behalf. If there is a conflict between the board and the commissioner on proposed regulations, public hearings shall be held concerning the issues in question. If, after the public hearings, the board and the commissioner continue to disagree, the issue shall be certified in writing by the board and the commissioner to the governor who shall make a decision. The decision of the governor is final.

**Sec. 16.05.280. Removal of board members.** The governor may only remove a board member for inefficiency, neglect of duty, or misconduct in office, or because the member while serving on the board is convicted of a misdemeanor for violating a statute or regulation related to fish or game or of a felony, and shall do so by delivering to the member a written copy of the charges and giving the member an opportunity to be heard in person or through counsel at a public hearing before the governor or a designee upon at least 10 days' notice by registered mail. The member may confront and cross-examine adverse witnesses. Upon removal, the governor or a designee shall file in the proper state office the findings and a complete statement of all charges made against the member.

**Sec. 16.05.310. Special board meetings.** A board may meet at any time upon the call of the commissioner or upon the request of two board members.

**Sec. 16.05.315. Joint board meetings.** The Board of Fisheries and the Board of Game may hold a joint meeting upon the call of the commissioner or a board to resolve any conflicts in regulations of the boards and to consider matters, as determined by the commissioner or a board, that require the consideration of both boards.

**Sec. 16.05.440. Expiration date for licenses.** Licenses issued under AS 16.05.440 – 16.05.723 expire at the close of December 31 following their issuance or, for licenses that
are valid for two years, after December 31 of the year after the year of issuance, and shall be renewed upon application and payment of the license fees required by AS 16.05.440 – 16.05.723.

Sec. 16.05.450. Issuance of licenses; disclosure for child support purposes. (a) The commissioner or an authorized agent shall issue a crewmember fishing license under AS 16.05.480 to each qualified person who files a written application at a place in the state designated by the commissioner, containing the reasonable information required by the commissioner together with the required fee. The commissioner shall require the reporting of the applicant's social security number on the application. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(b) The Alaska Commercial Fisheries Entry Commission shall issue a vessel license under AS 16.05.490 to each qualified vessel for which a written application has been filed, at a place in the state designated by the commission, containing the reasonable information required by the commission together with the required fee. The application shall be simple in form and shall be executed by the applicant under the penalty of unsworn falsification in the second degree.

(c) Repealed 1977.

(d) Upon request, the commissioner shall provide a social security number provided under (a) of this section to the child support enforcement agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law.

Sec. 16.05.475. Registration of fishing vessels. (a) A person may not employ a fishing vessel in the water of the state unless it is registered under the laws of the state. Vessels registered under the laws of another state, and persons residing in another state are not excused from this provision.

(b) The term "employ", as used in this section, shall be defined by the Board of Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any activities involving the use or navigation of fishing vessels.

(c) The term "registered under the laws of the state", as used in this section, shall be defined by the Board of Fisheries through the adoption of regulations under AS 44.62 (Administrative Procedure Act). The definition may include any existing requirements regarding registration, licenses, permits, and similar matters imposed by law or regulation together with modifications of them and with any additional requirements the board finds necessary to maximize the authority of the state to apply and enforce fisheries regulations under 16 U.S.C. 1801 – 1882 (Fishery Conservation and Management Act of 1976).

(d) In this section "fishing vessel" means any vessel, boat, ship, or other craft which is used for, equipped to be used for, or of a type which is normally used for

(1) fishing, or

(2) aiding or assisting one or more vessels at sea in the performance of any activity relating to fishing, including, but not limited to, preparation, supply, storage, refrigeration, transportation, or processing.

Sec. 16.05.480. Commercial fishing license; disclosure for child support purposes. (a) A person engaged in commercial fishing shall obtain a commercial fishing license and retain
the license in possession and readily available for inspection during fishing operations. An entry permit or interim-use permit entitles the holder to participate as a gear operator in the fishery for which the permit is issued and to participate as a crewmember in any fishery. A crewmember fishing license is not transferable and entitles the holder to participate as a crewmember in any fishery.

(b) A person applying for a commercial fishing license under this section shall provide the person's social security number. A person applying for a resident commercial fishing license under this section shall also provide proof of residence that the department requires by regulation.

(c) Repealed 1978.

(d) Upon request, the department or the Alaska Commercial Fisheries Entry Commission shall provide a social security number provided by an applicant for a license under this section to the child support enforcement agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law.

(e) Except as provided under AS 16.05.470 and AS 23.35.060, fees collected from the sale of crewmember fishing licenses under this section may be appropriated into the fish and game fund.

(g) A resident engaged in commercial fishing who is 11 years of age or older and who does not hold an entry permit or an interim-use permit shall pay a fee of $60 for an annual crewmember fishing license. A resident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual fee of $5.

(h) A nonresident engaged in commercial fishing who is 11 years of age or older and who does not hold an entry permit or an interim-use permit shall pay a base fee of $60 for an annual crewmember fishing license, plus an amount, established by the department by regulation, that is as close as practicable to the maximum allowed by law. A nonresident engaged in commercial fishing who is less than 11 years of age and who does not hold an entry permit or an interim-use permit shall pay an annual base fee of $5 plus an amount, established by the department by regulation, that is as close as practicable to the maximum allowed by law.

(i) Notwithstanding (g) and (h) of this section, a resident or nonresident engaged in commercial fishing who does not hold an entry permit or an interim-use permit may obtain a seven-day crewmember fishing license under this subsection. During the period for which the license is valid, a person who holds a seven-day crewmember fishing license may not engage in fishing with a rod and reel while present on a commercial fishing vessel. The fee for a seven-day crewmember fishing license is $30.

(j) In this section, "commercial fishing license" includes an entry permit and an interim-use permit issued under AS 16.43 and a crewmember fishing license.

Sec. 16.05.490. Vessel license. As a condition to delivery or landing of fish or engaging in commercial fishing in the state, a license is required for a commercial vessel.

Sec. 16.05.495. Vessel license exemption. A vessel used exclusively for the commercial capture of salmon in commercial salmon administrative management areas that include state water between the latitude of Point Romanof and the latitude of Cape Newenham, and
state water surrounding Nunivak Island, or at a set net site, is exempt from the licensing requirements of AS 16.05.490.

Sec. 16.05.510. Unlicensed vessel unlawful. A person may not operate a vessel to which AS 16.05.490 – 16.05.530 apply without a vessel license, whether the absence of a vessel license results from initial failure to purchase or from another reason.

Sec. 16.05.520. Number plate. (a) The vessel license includes a permanent number plate. The number plate shall be accompanied by a tab affixed to it designating the year to be fished. A number plate is not transferable, and it shall be considered a permanent fixture upon the vessel upon which it is originally placed. It shall be securely fastened well forward on the port side in plain sight. On a vessel with a superstructure, the plate shall be fastened on the port side of the superstructure. A number plate remains the property of the state. The Alaska Commercial Fisheries Entry Commission may establish by regulation a reasonable fee for the initial issuance of a permanent number plate. If a permanent number plate is accidentally defaced, mutilated, destroyed, or lost, the person owning or operating the vessel shall immediately apply for and may obtain a duplicate upon furnishing the Alaska Commercial Fisheries Entry Commission with the pertinent facts and a payment of a reasonable fee established by the commission by regulation that is not less than $2.

(b) If a vessel carrying a number plate is lost, destroyed, or sold, the owner shall immediately report the loss, destruction, or sale to the Alaska Commercial Fisheries Entry Commission.

Sec. 16.05.530. Renewal of vessel license. (a) Upon payment of the vessel license fee and filing of the name and address of the owner of the vessel or the owner’s authorized agent, the name and number of the vessel, a description of the vessel, the vessel license number, if any, the area to be fished, and other reasonable information required by the Alaska Commercial Fisheries Entry Commission, the commission shall issue a permanent number plate and a vessel license. If the vessel has a permanent number plate, the commission shall issue a vessel license and tab designating the year the license is valid. The tab shall be placed in the space provided on the permanent number plate.

(b) For calendar year 2006 and following years, the annual fee for a vessel license issued or renewed under this section is set according to the overall length, as defined by the United States Coast Guard, of the vessel under the following schedule:

1. $24
2. 0 – 25 feet ...........................................................................................................$24
3. 25 feet – 50 feet .................................................................................................60
4. 50 feet – 75 feet .................................................................................................120
5. 75 feet – 100 feet ...............................................................................................225
6. 100 feet – 125 feet ............................................................................................300
7. 125 feet – 900 feet ............................................................................................375 – 900

Sec. 16.05.660. License exemption. A person may, by complying with the $5 license requirement of AS 16.05.340(a)(6), take not more than 2,000 pounds each of tom cod, blue cod, smelt, pickerel, white fish, and spider crab a year from waters of the state.

Sec. 16.05.665. Falsification of application for license. (a) A person who knowingly makes a false statement as to a material fact on an application for a license under AS 16.05.440 – 16.05.660 is guilty of a misdemeanor and upon conviction is punishable by a
fine of not more than $1,000, or by imprisonment for not more than six months, or by both.

(b) A license issued under AS 16.05.440 – 16.05.660 to a person convicted under (a) of this section is void.

(c) A person whose license is void under (a) and (b) of this section may not obtain another license of the same type for a period of not less than two nor more than three years from the date of conviction by the court.

Sec. 16.05.671. Transportation and sale of certain fish by an agent of the fisherman who caught the fish. (a) A person may transport and sell commercially taken fish as the agent of the commercial fisherman who caught the fish if the person holds a fish transporter permit issued by the commissioner under this section.

(b) The commissioner may issue a fish transporter permit to a natural person. A fish transporter permit authorizes the permittee to transport and sell commercially taken fish as the agent of the commercial fisherman who caught the fish. A fish transporter may not buy or possess fish received for transport unless the fish transporter also holds the appropriate licenses, permits, and other authorizations required to buy or process fish.

(c) A person who applies for a fish transporter permit under this section shall provide the person’s social security number to the department. Upon request of the child support enforcement agency created under AS 25.27.010, or a child support agency or another state, the department shall provide a social security number provided by an applicant for a fish transporter permit under this section to that agency for child support purposes authorized under law.

(d) A commercial fisherman may authorize a fish transporter to transport and sell fish on behalf of the fisherman as the agent of the fisherman. The fish transporter shall complete a fish ticket in accordance with procedures prescribed by the department for each fisherman who transfers fish to the fish transporter. The fish ticket must accompany the fish transferred to the fish transporter while the fish are in possession of the fish transporter. The fish transporter shall present the fish ticket for inspection upon request by a peace officer or representative of the commissioner. The fish transporter shall present the fish ticket to the buyer of the fish at the time of sale. The buyer of the fish shall complete the fish ticket by inserting the buyer’s information as required by the department, including the weight or count of fish purchased. The buyer shall return a copy of the fish ticket to the commercial fisherman on whose behalf the fish are sold.

(e) A commercial fisherman who transfers fish to a fish transporter to transport and sell fish on behalf of the fisherman shall provide the fish transporter with all required information that the fisherman would have to provide to the buyer of the fish if the fisherman were to personally sell the fish to the buyer. The fish transporter who sells fish as the agent of a commercial fisherman shall provide all information to the buyer of the fish that the commercial fisherman would have to provide to the buyer if the fisherman were to personally sell the fish.

(f) A commercial fisherman may also hold a fish transporter permit. A commercial fisherman who holds a fish transporter permit may simultaneously transport or sell fish that the fisherman caught as well as fish caught by other fisherman. A commercial fisherman who is simultaneously operating as a fish transporter shall physically possess

(1) the fish ticket completed under (d) of this section for the fish being transported or sold on behalf of another fisherman; and
(2) other documentation that may be prescribed by the commissioner by regulation.

(g) The commissioner may adopt regulations the commissioner considers necessary to implement this section. The regulations may not conflict with regulations or management plans adopted by the Board of Fisheries. The regulations may include

(1) criteria for determining areas or fisheries for which transporter permits may not be issued because

(A) fish transporter operations may alter harvest rates for the area or fishery to the extent that conservation of the resource is jeopardized, may significantly impair the ability of the department to accurately determine catch or effort levels, or may interfere with fishery management, allocation, or enforcement matters;

(B) a fishery is managed through allocations of the harvest to individuals, such as trip limits or quota shares; or

(C) combining of catches by multiple fisherman on a vessel may impair the ability of the department to accurately determine the incidental catch by each fisherman;

(2) requirements for timely and accurate reporting and record keeping; or

(3) procedures to maintain quality of harvested resources.

(h) Fish transferred to the possession of a fish transporter under the authority of this section are property of the fisherman who caught the fish until the fish are sold to a buyer by the fish transporter on behalf of the fisherman.

(i) In this section, "fish" means fish legally harvested and retained in salmon, herring, or Pacific cod fisheries.

Sec. 16.05.675. Landing permits. (a) A person who does not hold a limited entry permit or interim-use permit issued under AS 16.43 or a fish transporter permit issued under AS 16.05.671 may not deliver or land fish in the state unless the person

(1) holds a valid federal permit to operate commercial fishing gear in the fishery conservation zone; and

(2) has been issued a landing permit by the Alaska Commercial Fisheries Entry Commission.

(b) The commissioner may by regulation establish eligibility requirements for the issuance of a landing permit.

(c) The commissioner may authorize the Alaska Commercial Fisheries Entry Commission to issue landing permits for a fishery if the commissioner has made a written finding that the issuance of landing permits for that fishery is consistent with state resource conservation and management goals.

Sec. 16.05.680. Unlawful practices. (a) It is unlawful for a person, or an agent or representative of the person,

(1) to employ, in the harvesting, transporting, or purchasing of fish, a fisherman who neither is licensed under AS 16.05.480 nor is the holder of a permit issued under AS 16.43;

(2) to purchase fish from a person who is not

(A) the holder of a limited entry, interim-use, or landing permit issued under AS 16.43;
(B) a fish transporter who is selling the fish as the agent of the holder of a limited entry, interim-use, or landing permit issued under AS 16.43; or

(C) exempt under AS 16.05.660; or

(3) to purchase fish from an association other than one to which a permit has been issued under AS 16.05.662.

(b) A person may not sell salmon that was not harvested under the authority of the entry permit, interim-use permit, or landing permit under which the salmon is sold. For purposes of this subsection, salmon sold by a fish transporter on behalf of the commercial fisherman who harvested the salmon is salmon harvested under the authority of the limited entry, interim-use, or landing permit under which the salmon is sold.

Sec. 16.05.690. Record of purchases. (a) Each buyer of fish shall keep a record of each purchase showing the name or number of the vessel from which the catch involved is taken, the date of landing, vessel license number, pounds purchased of each species, number of each species, and the Department of Fish and Game statistical area in which the fish were taken, and other information the department requires. Records may be kept on forms provided by the department. Each person charged with keeping the records shall report them to the department in accordance with regulations adopted by the department.

(b) A person may not knowingly enter false information on a fish ticket or supply false information to a person who is recording information on a fish ticket.

Sec. 16.05.710. Suspension of commercial license and entry permit. (a) Upon the conviction of a person for a misdemeanor or felony violation of a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, the court, in addition to other penalties imposed by law,

(1) may suspend one or more of the person's commercial fishing privileges and licenses for a period of not more than one year if the conviction is the person's first or second misdemeanor or felony conviction within a 10-year period for violating a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, or another jurisdiction; or

(2) shall suspend one or more of the person's commercial fishing privileges and licenses for a period of not more than three years, if the conviction is the person's third or subsequent misdemeanor or felony conviction within a 10-year period for violating a commercial fishing law of this state, in a fishery other than a commercial salmon fishery, or another jurisdiction.

(b) Upon a first conviction of a person for a violation of AS 11.46.120 – 11.46.130 in which the property is commercial fishing gear as defined in AS 16.43.990, the court shall, in addition to the penalty imposed by law, suspend one or more of the person's commercial fishing privileges and licenses for one year. Upon a second or subsequent conviction for a violation of AS 11.46.120 – 11.46.130 or a similar law of another jurisdiction in which the property is commercial fishing gear as defined in AS 16.43.990, the court shall, in addition to the penalty imposed by law, suspend one or more of the person's commercial fishing privileges and licenses for two years.

(c) If proceedings in which commercial fishing privileges or licenses may be suspended under this section are pending against a limited entry permit holder, the permit holder's limited entry permit may not be permanently transferred, unless allowed by order of the court in which the proceedings are pending, and a permanent transfer of the permit, unless
allowed by order of the court, is void. During the period for which a limited entry permit or the permit holder's right to obtain a limited entry permit or to engage in an activity for which a limited entry permit is required is suspended under this section, a permit card may not be issued to the permit holder and the permit holder's permit may not be transferred or sold.

(d) In this section,

(1) "commercial fishing law" means a statute or regulation that regulates the conduct of a person engaged in commercial fishing activities by establishing requirements relating to fishing licenses and permits; catch records and reports; size, nature, or use of fishing vessels, sites, and gear; time, place, or manner of taking fishery resources; possession, transportation, sale, barter, or waste of fishery resources; or other aspects of commercial fishing;

(2) "commercial fishing license" means a limited entry permit or a crewmember license;

(3) "commercial fishing privilege" means the privilege of participating in an activity for which a commercial fishing license is required and the privilege of obtaining a commercial fishing license;

(4) "limited entry permit" means an entry permit or an interim-use permit issued under AS 16.43.

Sec. 16.05.722. Strict liability commercial fishing penalties. (a) A person who without any culpable mental state violates AS 16.05.440 – 16.05.690, or a regulation of the Board of Fisheries or the department governing commercial fishing, is guilty of a violation and upon conviction is punishable by a fine of not more than

(1) $3,000 for a first conviction;

(2) $6,000 for a second or for a subsequent conviction not described in (3) of this subsection; and

(3) $9,000 for a third or subsequent conviction within a 10-year period.

(b) In addition, the court shall order forfeiture of any fish, or its fair market value, taken or retained as a result of the commission of the violation. For purposes of this subsection, it is a rebuttable presumption that all fish found on board a fishing vessel used in or in aid of a violation, or found at the fishing site, were taken or retained in violation of AS 16.05.440 – 16.05.690 or a commercial fisheries regulation of the Board of Fisheries or the department. It is the defendant's burden to show by a preponderance of the evidence that the fish on board or at the site were lawfully taken and retained.

(c) A person charged with a violation under this section is entitled to a trial by court but not by jury, and is not entitled to representation at public expense.

Sec. 16.05.723. Misdemeanor commercial fishing penalties. (a) A person who negligently violates AS 16.05.440 – 16.05.690, or a regulation of the Board of Fisheries or the department governing commercial fisheries, is guilty of a misdemeanor and in addition to punishment under other provisions in this title, including AS 16.05.195 and 16.05.710, is punishable upon conviction by a fine of not more than $15,000 or by imprisonment for not more than one year, or by both. In addition, the court shall order forfeiture of any fish, or its fair market value, taken or retained as a result of the commission of the violation, and the court may forfeit any vessel and any fishing gear, including any net, pot, tackle,
or other device designed or employed to take fish commercially, that was used in or in aid of the violation. Any fish, or its fair market value, forfeited under this subsection may not also be forfeited under AS 16.05.195. For purposes of this subsection, it is a rebuttable presumption that all fish found on board a fishing vessel used in or in aid of a violation, or found at the fishing site, were taken or retained in violation of AS 16.05.440 – 16.05.690 or a commercial fisheries regulation of the Board of Fisheries or the department, and it is the defendant's burden to show by a preponderance of the evidence that fish on board or at the site were lawfully taken and retained.

(b) If a person is convicted under this section of one of the following offenses, then, in addition to the penalties imposed under (a) of this section, the court may impose a fine equal to the gross value of the fish found on board or at the fishing site at the time of the violation:

(1) commercial fishing in closed waters;
(2) commercial fishing during a closed period or season;
(3) commercial fishing with unlawful gear, including a net, pot, tackle, or other device designed or employed to take fish commercially; or
(4) commercial fishing without a limited entry permit holder on board if the holder is required by law or regulation to be present.

(c) Upon a third misdemeanor conviction within a period of 10 years for an offense listed in (b) of this section or any combination of offenses listed in (b) of this section, the court shall impose, in addition to any penalties imposed under (a) of this section, a fine equal to three times the gross value of the fish on board or at the fishing site at the time of the offense, or a fine equal to $10,000, whichever is greater.

Sec. 16.05.730. Management of wild and enhanced stocks of fish. (a) Fish stocks in the state shall be managed consistent with sustained yield of wild fish stocks and may be managed consistent with sustained yield of enhanced fish stocks.

(b) In allocating enhanced fish stocks, the board shall consider the need of fish enhancement projects to obtain brood stock. The board may direct the department to manage fisheries in the state to achieve an adequate return of fish from enhanced stocks to enhancement projects for brood stock; however, management to achieve an adequate return of fish to enhancement projects for brood stock shall be consistent with sustained yield of wild fish stocks.

(c) The board may consider the need of enhancement projects authorized under AS 16.10.400 and contractors who operate state-owned enhancement projects under AS 16.10.480 to harvest and sell fish produced by the enhancement project that are not needed for brood stock to obtain funds for the purposes allowed under AS 16.10.450 or 16.10.480(d). The board may exercise its authority under this title as it considers necessary to direct the department to provide a reasonable harvest of fish, in addition to the fish needed for brood stock, to an enhancement project to obtain funds for the enhancement project if the harvest is consistent with sustained yield of wild fish stocks. The board may adopt a fishery management plan to provide fish to an enhancement project to obtain funds for the purposes allowed under AS 16.10.450 or 16.10.480(d).

(d) In this section, "enhancement project" means a project, facility, or hatchery for the enhancement of fishery resources of the state for which the department has issued a permit.
Sec. 16.05.735. Management of offshore fisheries. The state may assume management of the fisheries in offshore water adjacent to the state in the absence of a federal fishery management plan or in the event that a federal fishery management plan delegates authority to the state to manage fisheries in the United States exclusive economic zone.

Sec. 16.05.785. Effect of failure to remove old markers. If the Board of Fisheries by regulation uses department markers to establish waters closed to commercial fishing and the state fails to remove old markers when new markers are posted to establish waters closed to commercial fishing, commercial fishing is expressly permitted in the waters between the new markers and the old markers until the old markers are removed.

Sec. 16.05.800. Public nuisances. A net, seine, lantern, snare, device, contrivance, and material while in use, had and maintained for the purpose of catching, taking, killing, attracting, or decoying fish or game, contrary to law or regulation of a board or the commissioner, is a public nuisance and is subject to abatement.

Sec. 16.05.810. Burden of proof. The possession of fish or game or a part of fish or game, or a nest or egg of a bird during the time the taking of it is prohibited is prima facie evidence that it was taken, possessed, bought, or sold or transported in violation of this chapter. The burden of proof is upon the possessor or claimant of it to overcome the presumption of illegal possession and to establish the fact that it was obtained and is possessed lawfully. This section does not apply

1. during the first full 10 days after the time when a taking is prohibited, except as provided in (3) of this section,

2. if the fish or game or part of fish or game is in a preserved condition whether frozen, smoked, canned, salted, pickled, or otherwise preserved; or

3. with respect to crab aboard a commercial crab fishing vessel, during the first full three days after the time when a taking is prohibited.

Sec. 16.05.815. Confidential nature of certain reports and records. (a) Except as provided in (b) and (c) of this section, records required by regulations of the department concerning the landings of fish, shellfish, or fishery products, and annual statistical reports of fisherman, buyers, and processors required by regulation of the department are confidential and may not be released by the department or by the Alaska Commercial Fisheries Entry Commission except as set out in this subsection. The department may release the records and reports set out in this subsection to the Alaska Commercial Fisheries Entry Commission. The department and the Alaska Commercial Fisheries Entry Commission may release the records and reports set out in this subsection to the recipients identified in this subsection if the recipient other than a recipient under (5) – (9) of this subsection, agrees to maintain the confidentiality of the records and reports. The department and the Alaska Commercial Fisheries Entry Commission may release

1. any of the records and reports to the National Marine Fisheries Service and the professional staff of the North Pacific Fishery Management Council as required for preparation and implementation of the fishery management plans of the North Pacific Fishery Management Council within the exclusive economic zone;

2. any of the records and reports to the professional staff of the Pacific States Marine Fisheries Commission who are employed in the Alaska Fisheries Information Network project for the purpose of exchanging information with users authorized by the department;
(3) any of the records and reports to the Department of Revenue to assist the department in carrying out its statutory responsibilities;

(4) records or reports of the total value purchased by each buyer to a municipality that levies and collects a tax on fish, shellfish, or fishery products if the municipality requires records of the landings of fish, shellfish, or fishery products to be submitted to it for purposes of verification of taxes payable;

(5) such records and reports as necessary to be in conformity with a court order;

(6) on request, the report of a person to the person whose fishing activity is the subject of the report, or to a designee of the person whose fishing activity is the subject of the report;

(7) on request, annual statistical reports of a fisherman, buyer, or processor to the fisherman, buyer, or processor whose activity is the subject of the report, or to a designee of the fisherman, buyer, or processor whose activity is the subject of the report;

(8) any of the records and reports to the Department of Public Safety for law enforcement purposes;

(9) fish tickets, fish ticket information, records required of sport fishing guides, and annual statistical reports of fishermen, buyers, and processors and information in those reports to the law enforcement personnel of the National Marine Fisheries Service and the National Oceanic and Atmospheric Administration for the purpose of enforcing fishery laws in waters of this state and in waters of the exclusive economic zone adjacent to this state;

(10) fish tickets, fish ticket information, and records required of sport fishing guides regarding halibut to the International Pacific Halibut Commission;

(11) any of the records and reports to the child support enforcement agency created in AS 25.27.010, or the child support enforcement agency of another state, for child support purposes authorized under law;

(12) any of the records and reports to the Department of Natural Resources to assist the department in carrying out its statutory responsibilities in regard to sport fishing operations and sport fishing guides within the Kenai River Special Management Area under AS 41.21.500 – 41.21.514;

(13) fish ticket information and records or reports of the total value purchased by each fisherman, buyer, or processor to the National Marine Fisheries Service for the purpose of enforcing the industry fee system of a fishing capacity reduction program under 16 U.S.C. 1861a (Magnuson-Stevens Fishery Conservation and Management Act).

(b) Except as provided in (c) of this section, records or reports received by the department which do not identify individual fishermen, buyers, or processors or the specific locations where fish have been taken are public information.

(c) Crab stock abundance survey information that reveals crab catch by sampling location is confidential and is not subject to inspection or copying under AS 40.25.110 – 40.25.120 until the close of the fishing season for which the survey was conducted.

(d) Except as otherwise provided in this section, the department shall keep confidential (1) personal information contained in fish and wildlife harvest and usage data; and (2) the records of the department that concern (A) telemetry radio frequencies of monitored species; (B) denning sites; (C) nest locations of raptors that require special attention; (D)
the specific location of animal capture sites used for wildlife research or management; and (E) the specific location of fish and wildlife species. The department may release records and information that are kept confidential under this subsection if the release is necessary to comply with a court order, if the requestor is a state or federal agency, if the requestor is under contract with the state or federal agency to conduct research on a fish or wildlife population, or if the requestor has been authorized by the department to perform specific activities and agrees to use the records and information only for purposes as provided under a contract or agreement with the department. After 25 years, the records and information that are kept confidential under this subsection become public records subject to inspection and copying under AS 40.25.110 – 40.25.140 unless the department determines that the release of the records or information may be detrimental to the fish or wildlife population. In this subsection, "personal information" has the meaning given in AS 40.25.350.

Sec. 16.05.831. Waste of salmon. (a) A person may not waste salmon intentionally, knowingly, or with reckless disregard for the consequences. In this section, "waste" means the failure to utilize the majority of the carcass, excluding the viscera and sex parts, of a salmon intended for

(1) sale to a commercial buyer or processor;

(2) consumption by humans or domesticated animals; or

(3) scientific, educational, or display purposes.

(b) The commissioner, upon request, may authorize other uses of salmon that would be consistent with maximum and wise use of the resource.

(c) A person who violates this section or a regulation adopted under it is punishable by a fine of not more than $10,000, or by imprisonment for not more than six months, or by both. In addition, a person who violates this section is subject to a civil action by the state for the cost of replacing the salmon wasted.

Sec. 16.05.835. Maximum length of salmon seine and certain hair crab vessels. (a) Unless the Board of Fisheries has provided by regulation for the use of a longer vessel in a salmon seine fishery, a salmon seine vessel may not be longer than 58 feet overall length except vessels that have fished for salmon with seines in water of the state before January 1, 1962, as 50-foot, official Coast Guard register length vessels.

(b) A vessel engaged in the Bering Sea hair crab fishery within five miles of shore may not be longer than 58 feet overall length.

(c) In this section, "overall length" means the straight line length between the extremities of the vessel excluding anchor rollers.

Sec. 16.05.905. Activities by aliens prohibited. (a) Alien persons not lawfully admitted to the United States are prohibited from engaging in commercial fishing activities or taking marine mammals in the territorial waters of the state as they presently exist or may be extended in the future.

(b) An alien person who violates (a) of this section is guilty of a misdemeanor, and upon conviction is punishable by a confiscation and forfeiture of the fishing vessel used in the violation, or by imprisonment for not more than one year, or by fine or not more than $10,000, or by all or any two of the foregoing punishments.

Sec. 16.05.920. Prohibited conduct generally. (a) Unless permitted by AS 16.05 – AS 16.40 or by regulation adopted under AS 16.05 – AS 16.40, a person may not take, possess,
transport, sell, offer to sell, purchase, or offer to purchase fish, game, or marine aquatic plants, or any part of fish, game, or aquatic plants, or a nest or egg of fish or game.

(b) A person may not knowingly disturb, injure, or destroy a notice, signboard, seal, tag, aircraft, boat, vessel, automobile, paraphernalia, equipment, building or other improvement or property of the department used in the administration or enforcement of this title except AS 16.51 and AS 16.52, or a poster or notice to the public concerning the provisions of this title except AS 16.51 and AS 16.52, or regulation adopted under this title except AS 16.51 and AS 16.52, or a marker indicating the boundary of an area closed to hunting, trapping, fishing, or other special use under this title except AS 16.51 and AS 16.52. A person may not knowingly destroy, remove, tamper with, or imitate a seal or tag issued or used by the department or attached under its authority to a skin, portion, or specimen of fish or game, or other article for the purpose of identification or authentication in accordance with this title except AS 16.51 and AS 16.52 or a regulation adopted under this title except AS 16.51 and AS 16.52.

Sec. 16.05.925. Penalty for violations. Except as provided in AS 16.05.430, 16.05.665, 16.05.722, 16.05.783, 16.05.831, 16.05.861, and 16.05.905, a person who violates AS 16.05.920 or AS 16.05.921, or a regulation adopted under this chapter or AS 16.20, is guilty of a Class A misdemeanor.

Sec. 16.05.930. Exempted activities. (a) This chapter does not prevent the collection or exportation of fish and game, a part of fish or game or a nest or egg of a bird for scientific or educational purposes, or for propagation or exhibition purposes under a permit that the department may issue and prescribe the terms thereof.

(b) This chapter does not prohibit a person from taking fish or game during the closed season, in case of dire emergency, as defined by regulation adopted by the appropriate board.

(c) AS 16.05.920 and 16.05.921 do not prohibit rearing and sale of fish from private ponds, the raising of wild animals in captivity for food, or the raising of game birds for the purpose of recreational hunting on game hunting preserves, under regulations adopted by the appropriate board. In this subsection, "animals" includes all animal life, including insects and bugs.

(d) Nondomestic animals of any species may not be transferred or transported from the state under (a) of this section unless approved by the Board of Game in regular or special meeting. Animals transferred or transported under (a) of this section shall be animals that are certified by the department to be surplus and unnecessary to the sustained yield management of the resource. Each application for a permit under (a) of this section shall be accompanied by a statement prepared by the department examining the probable environmental impact of the action.

(e) This chapter does not prevent the traditional barter of fish and game taken by subsistence hunting or fishing, except that the commissioner may prohibit the barter of subsistence-taken fish and game by regulation, emergency or otherwise, if a determination on the record is made that the barter is resulting in a waste of the resource, damage to fish stocks or game populations, or circumvention of fish or game management programs.

(f) A permit may not be required for possessing, importing or exporting mink and fox for fur farming purposes.

(g) AS 16.05.330 – 16.05.723 do not apply to an activity authorized by a permit issued under AS 16.40.100 or 16.40.120, or to a person or vessel employed in an activity authorized
by a permit issued under AS 16.40.100 or 16.40.120.

Sec. 16.05.940. Definitions. In AS 16.05 – AS 16.40,

(1) "aquatic plant" means any species of plant, excluding the rushes, sedges, and true grasses, growing in a marine aquatic or intertidal habitat;

(2) "barter" means the exchange or trade of fish or game, or their parts, taken for subsistence uses

(A) for other fish or game or their parts; or

(B) for other food or for nonedible items other than money if the exchange is of a limited and noncommercial nature;

(3) "a board" means either the Board of Fisheries or the Board of Game;

(4) "commercial fisherman" means an individual who fishes commercially for, takes, or attempts to take fish, shellfish, or other fishery resources of the state by any means, and includes every individual aboard a boat operated for fishing purposes who participates directly or indirectly in the taking of these raw fishery products, whether participation is on shares or as an employee or otherwise; however, this definition does not apply to anyone aboard a licensed vessel as a visitor or guest who does not directly or indirectly participate in the taking; "commercial fisherman" includes the crews of tenders or other floating craft used in transporting fish, but does not include processing workers on floating fish processing vessels who do not operate fishing gear or engage in activities related to navigation or operation of the vessel; in this paragraph, "operate fishing gear" means to deploy or remove gear from state water, remove fish from gear during an open fishing season or period, or possess a gill net containing fish during an open fishing period;

(5) "commercial fishing" means the taking, fishing for, or possession of fish, shellfish, or other fishery resources with the intent of disposing of them for profit, or by sale, barter, trade, or in commercial channels; the failure to have a valid subsistence permit in possession, if required by statute or regulation, is considered prima facie evidence of commercial fishing if commercial fishing gear as specified by regulation is involved in the taking, fishing for, or possession of fish, shellfish or other fish resources;

(6) "commissioner" means the commissioner of fish and game unless specifically provided otherwise;

(7) "customary and traditional" means the noncommercial, long-term, and consistent taking of, use of, and reliance upon fish or game in a specific area and the use patterns of that fish or game that have been established over a reasonable period of time taking into consideration the availability of the fish or game;

(8) "customary trade" means the limited noncommercial exchange, for minimal amounts of cash, as restricted by the appropriate board, of fish or game resources; the terms of this paragraph do not restrict money sales of furs and furbearers;

(9) "department" means the Department of Fish and Game unless specifically provided otherwise;

(11) "domicile" means the true and permanent home of a person from which the person has no present intention of moving and to which the person intends to return whenever the person is away; domicile may be proved by presenting evidence acceptable to the Boards of Fisheries and Game;
(12) "fish" means any species of aquatic finfish, invertebrate, or amphibian, in any stage of their life cycle, found in or introduced into the state, and includes any part of such aquatic finfish, invertebrate, or amphibian;

(13) "fish derby" means a contest in which prizes are awarded for catching fish;

(14) "fish or game farming" means the business of propagating, breeding, raising, or producing fish or game in captivity for the purpose of marketing the fish or game or their products, and "captivity" means having the fish or game under positive control, as in a pen, pond, or an area of land or water that is completely enclosed by a generally escape-proof barrier; in this paragraph, "fish" does not include shellfish, as defined in AS 16.40.199;

(15) "fish stock" means a species, subspecies, geographic grouping or other category of fish manageable as a unit;

(16) "fish transporter" means a natural person who holds a fish transport permit issued under AS 16.05.671;

(17) "fishery" means a specific administrative area in which a specific fishery resource is taken with a specific type of gear; however, the Board of Fisheries may designate a fishery to include more than one specific administrative area, type of gear, or fishery resource; in this paragraph

(A) "gear" means the specific apparatus used in the harvest of a fishery resource; and

(B) "type of gear" means an identifiable classification of gear and may include

(i) classification for which separate regulations are adopted by the Board of Fisheries or for which separate gear licenses were required by former AS 16.05.550—16.05.630; and

(ii) distinct subclassification of gear such as "power" troll gear and "hand" troll gear or sport gear and guided sport gear;

(22) "nonresident" means a person who is not a resident of the state;

(23) "nonresident alien" means a person who is not a citizen of the United States and whose permanent place of abode is not in the United States;

(24) "operator" means the individual by law made responsible for the operation of the vessel;

(25) "person with developmental disabilities" means a person who presents to the department an affidavit signed by a physician licensed to practice medicine in the state stating that the person is experiencing a severe, chronic disability

(A) attributable to a mental or physical impairment or a combination of mental and physical impairments;

(B) that is manifested before the person reaches 18 years of age;

(C) that is likely to continue indefinitely;

(D) that results in substantial functional limitations in three or more of the following areas of major life activity: self-care, receptive and expressive language, learning, mobility, self-direction, capacity for independent living, and economic self-sufficiency;

(E) that reflects the person's need for a combination and sequence of special,
interdisciplinary, or generic care, treatment, or other services that are of lifelong or extended duration and are individually planned and coordinated;

(F) and that the person is not a danger to themselves or others; and

(G) and that the person does not suffer from a mental illness; in this subparagraph, "mental illness" means an organic, mental, or emotional impairment that has substantial adverse effects on a person's ability to exercise conscious control of the person's actions or ability to perceive reality or to reason or understand.

(26) "person with physical disabilities" means a person who presents to the department either written proof that the person receives at least 70 percent disability compensation from a government agency for a physical disability or an affidavit signed by a physician licensed to practice medicine in the state stating that the person is at least 70 percent physically disabled;

(27) "personal use fishing" means the taking, fishing for, or possession of finfish, shellfish, or other fishery resources, by Alaska residents for personal use and not for sale or barter, with gill or dip net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(28) "resident" means

(A) a person who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person's domicile in the state and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(B) a partnership, association, joint stock company, trust, or corporation that has its main office or headquarters in the state; a natural person who does not otherwise qualify as a resident under this paragraph may not qualify as a resident by virtue of an interest in a partnership, association, joint stock company, trust, or corporation;

(C) a member of the military service, or United States Coast Guard, who has been stationed in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made;

(D) a person who is the dependent of a resident member of the military service, or the United States Coast Guard, and who has lived in the state for the 12 consecutive months immediately preceding the time when the assertion of residence is made; or

(E) an alien who for the 12 consecutive months immediately preceding the time when the assertion of residence is made has maintained the person's domicile in the state and who is neither claiming residency in another state, territory, or country nor obtaining benefits under a claim of residency in another state, territory, or country;

(29) "rural area" means a community or area of the state in which the noncommercial, customary, and traditional use of fish or game for personal or family consumption is a principal characteristic of the economy of the community or area;

(30) "seizure" means the actual or constructive taking or possession of real or personal property subject to seizure under AS 16.05 – AS 16.40 by an enforcement or investigative officer charged with enforcement of the fish and game laws of the state;

(31) "sport fishing" means the taking of or attempting to take for personal use, and not for sale or barter, any fresh water, marine, or anadromous fish by hook and line held
in the hand, or by hook and line with the line attached to a pole or rod which is held in the hand or closely attended, or by other means defined by the Board of Fisheries;

(32) "subsistence fishing" means the taking of, fishing for, or possession of fish, shellfish, or other fisheries resources by a resident domiciled in a rural area of the state for subsistence uses with gill net, seine, fish wheel, long line, or other means defined by the Board of Fisheries;

(34) "subsistence uses" means the noncommercial, customary and traditional uses of wild, renewable resources by a resident domiciled in a rural area of the state for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation, for the making and selling of handicraft articles out of nonedible by-products of fish and wildlife resources taken for personal or family consumption, and for the customary trade, barter, or sharing for personal or family consumption; in this paragraph, "family" means persons related by blood, marriage, or adoption, and a person living in the household on a permanent basis;

(35) "take" means taking, pursuing, hunting, fishing, trapping, or in any manner disturbing, capturing, or killing or attempting to take, pursue, hunt, fish, trap, or in any manner capture or kill fish or game;

(38) "vessel" means a floating craft powered, towed, rowed, or otherwise propelled, which is used for delivering, landing, or taking fish within the jurisdiction of the state, but does not include aircraft.

Editor's note: The definitions listed in this section are only those that pertain to fish. Definitions pertaining to game were intentionally left out.

Chapter 10. Fisheries and Fishing Regulations.

Sec. 16.10.010. Interference with salmon spawning streams and waters. (a) A person may not, without first applying for and obtaining a permit or license from the Department of Environmental Conservation,

(1) obstruct, divert, or pollute waters of the state, either fresh or salt, utilized by salmon in the propagation of the species, by felling trees or timber in those waters, casting, passing, throwing, or dumping tree limbs or foliage, underbrush, stumps, rubbish, earth, stones, rock, or other debris, or passing or dumping sawdust, planer shavings, or other waste or refuse of any kind in those waters;

(2) erect a dam, barricade, or obstruction to retard, conserve, impound, or divert the waters described in (1) of this subsection to prevent, retard, or interfere with the free ingress or egress of salmon into those waters in the natural spawning or propagation process;

(3) render the waters described in (1) of this section inaccessible or uninhabitable for salmon for spawning or propagation.

(b) The application for the permit or license referred to in (a) of this section must set out the name and style of the person or concern, describe the waters and location, and state in particular the plans, purpose, and intention for which the application is made.

Sec. 16.10.030. Penalty for violations of AS 16.10.010 – 16.10.050. A person who violates AS 16.10.010 – 16.10.050 is guilty of a misdemeanor and, upon conviction, is punishable by a fine of not less than $100 nor more than $500.

Sec. 16.10.055. Interference with commercial fishing gear. A person who willfully or
with reckless disregard of the consequences, interferes with or damages the commercial fishing gear of another person is guilty of a misdemeanor. For the purposes of this section "interference" means the physical disturbance of gear which results in economic loss of fishing time, and "reckless disregard of the consequences" means a lack of consideration for the consequences of one's acts in a manner that is reasonably likely to damage the property of another.

**Sec. 16.10.070. Operation of fish traps.** Fish traps, including but not limited to floating, pile-driven, or hand-driven fish traps, may not be operated in the state on or over state land, tideland, submerged land, or water. This section does not prevent the operation of small hand-driven fish traps of the type ordinarily used on rivers of the state that are otherwise legally operated in or above the mouth of a stream or river.

**Sec. 16.10.100. Erection of fish traps prohibited on land or water owned by state.** Fish traps, including but not limited to floating, pile-driven, or hand-driven fish traps, may not be erected, moored, or maintained on or over land, tideland, submerged land, or water owned or otherwise acquired by the state. This section does not prevent the maintenance, use, or operation of small, hand-driven fish traps of the type ordinarily used on rivers of the state which are otherwise legally maintained and operated in or above the mouth of a stream or river.

**Sec. 16.10.110. Penalty for violations of AS 16.10.100.** A person who violates AS 16.10.100 is guilty of a misdemeanor and is punishable by imprisonment for not more than one year or by a fine of not more than $5,000, or by both.

**Sec. 16.10.120. Use of drum or reel in operation of purse seine.** A person may not use, employ, or operate a drum or reel around which a purse seine is coiled, rolled, or looped for purposes of taking or removing fish from a body of water located on or over land or tideland owned by the state or over which the state has jurisdiction. This section does not prevent the use of power blocks or the use of a reel mounted on a seine skiff to haul in or let out the separate purse seine lead which is temporarily connected to the purse seine proper, as these terms are generally employed or used in the fishing industry.

**Sec. 16.10.130. Penalty for violation of 16.10.120 or 16.10.125.** A person who violates AS 16.10.120 or 16.10.125 is guilty of a misdemeanor, and upon conviction is punishable by imprisonment for not more than six months, or by a fine of not more than $1,000, or by both.

**Sec. 16.10.180. Legislative findings.** The legislature finds and recognizes these facts:

1. migratory fish and migratory shellfish are present in commercial quantities inside and outside the territorial waters of the state;

2. migratory fish and migratory shellfish taken from the waters of the state are indistinguishable, in most cases, from those taken from the adjacent high seas;

3. substantial quantities of migratory fish and migratory shellfish move inshore and offshore intermittently and at various times during a given year and in so doing often enter and leave territorial waters of the state;

4. to conserve the migratory fish and migratory shellfish found inside the waters of the state it is necessary to strictly enforce local laws and regulations;

5. by making certain laws and regulations enacted or adopted for the regulation of the coastal fishery applicable to the adjacent high sea areas, enforcement of these laws and regulations is facilitated;
Sec. 16.10.190. Regulations. The Board of Fisheries may adopt regulations to carry out the purposes of AS 16.10.180 – 16.10.230 defining the adjacent high sea areas, migratory fish, and migratory shellfish and to make coastal fishery regulations governing the manner, means, conditions, and time for the taking of migratory fish and migratory shellfish applicable in designated adjacent high sea areas.

Sec. 16.10.200. Unlawful taking prohibited. A person taking migratory fish and migratory shellfish in high sea areas designated by the Board of Fisheries or in violation of the regulations adopted by the Board of Fisheries governing the taking of migratory fish and migratory shellfish in the designated areas may not possess, sell, offer to sell, barter, offer to barter, give, or transport in the state, including the waters of the state, migratory fish or migratory shellfish.

Sec. 16.10.210. Unlawful sale or offer prohibited. A person may not possess, purchase, offer to purchase, sell, or offer to sell in the state migratory fish or migratory shellfish taken on the high seas knowing that they were taken in violation of a regulation adopted by the Board of Fisheries governing the taking of migratory fish or migratory shellfish in certain areas designated by the Board of Fisheries or the commissioner.

Sec. 16.10.220. Penalty for violation of AS 16.10.200 and 16.10.210. A person who violates AS 16.10.200 and 16.10.210 is guilty of a misdemeanor, and upon conviction is punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both.

Sec. 16.10.230. Exemptions. AS 16.10.180 – 16.10.220 do not apply to

1. the use of nets for fishing for or taking salmon for the purposes of scientific investigation authorized by state law; and

2. existing laws and regulations prohibiting the taking of salmon by means of nets on the high seas.

Sec. 16.10.265. Purchase of fish from permit holders. (a) An individual may not, while acting as a fish processor or primary fish buyer, or as an agent, director, officer, member, or employee of a fish processor, of a primary fish buyer, or of a cooperative corporation organized under AS 10.15, intentionally or knowingly make an original purchase of fish from a seller who does not hold

1. a landing permit, an entry permit, or an interim-use permit; or

2. a fish transporter permit under AS 16.05.671.

(b) An individual who violates (a) of this section is

1. upon a first conviction, guilty of a class B misdemeanor and shall be sentenced to a fine of not less than $1,000 nor more than $5,000, and may be sentenced to a definite term of imprisonment of not more than 90 days;

2. upon a second conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than $5,000 nor more than $10,000, and may be sentenced to a definite term of imprisonment of not more than one year;

3. upon a third or subsequent conviction, guilty of a class A misdemeanor and shall be sentenced to a fine of not less than $10,000 nor more than $25,000, and may be sentenced to a definite term of imprisonment of not more than one year.

(c) The commissioner of revenue shall impose upon a fish processor, primary fish
buyer, or cooperative corporation organized under AS 10.15, a civil fine equal to the value of fish purchased in violation of this section by (1) the fish processor or primary fish buyer if the fish processor or primary fish buyer is not a corporation; or (2) a director, officer, or employee in a policy-making position of the fish processor, of the primary fish buyer, or of the cooperative corporation. Value is based on the average price paid to fishermen at the time of the violation.

(d) The commissioner of commerce, community, and economic development may suspend or revoke a business license issued under AS 43.70.020 and the commissioner of revenue may suspend or revoke a license to engage in the business of processing or buying raw fish if the licensee or an officer, director, or employee in a policy-making position of the licensee has been convicted of three offenses under this section. Proceedings to suspend or revoke a license are governed by AS 44.62 (Administrative Procedure Act).

(e) An organization may not be criminally prosecuted under (a) of this section.

(f) In this section, "individual" means a natural person.

Sec. 16.10.267. Possession of permit and identification by seller. (a) When a fisherman sells fish, the fisherman shall possess

(1) a landing permit, entry permit, or interim-use permit issued or transferred to the fisherman under AS 16.43, or other document authorized by regulation to be used in place of an entry permit or interim-use permit; and

(2) an identification card that has been issued to the fisherman by a state or federal agency or other organization designated by the Department of Public Safety and that bears a photograph of the fisherman.

(b) If requested by the purchaser of the fish or by a peace officer, the fisherman or fish transporter shall present for inspection the identification card, entry permit, interim-use permit, fish transporter permit, or other document required to be in the fisherman's or fish transporter's possession under (a) or (d) of this section.

(c) Examples of a suitable identification card required under (a)(2) and (d)(2) of this section are a motor vehicle operator's license issued under AS 28.15.111 and an identification card issued under AS 18.65.310.

(d) When a fish transporter sells fish as the agent of the commercial fisherman who caught the fish, the fish transporter shall possess

(1) a fish transporter permit and the fish ticket completed by the fish transporter under AS 16.05.671(d); and

(2) an identification card that has been issued to the fish transporter by a state or federal agency or other organization designated by the Department of Public Safety and that bears a photograph of the fish transporter.

(e) A person who violates this section is, upon conviction, guilty of a class B misdemeanor and may be sentenced to a definite term of imprisonment of not more than 90 days. In addition

(1) upon a first conviction for a violation of this section, the court may sentence the convicted person to pay a fine of not more than $5,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(2) upon a second conviction for a violation of this section, the court may sentence
the convicted person to pay a fine of not more than $10,000 and may order the loss of commercial fishing privileges for a period of not more than three years from the date of conviction;

(3) upon a third or subsequent conviction for a violation of this section, the court

(A) may sentence the convicted person to pay a fine of not more than $10,000;

and

(B) shall order that the convicted person lose commercial fishing privileges for a period of three years from the date of conviction.

Sec. 16.10.268. Notice of liability. (a) The commissioner of labor and workforce development shall print posters that contain notice of the requirements of AS 16.10.265. The commissioner shall distribute the posters to fish processors, primary fish buyers, and cooperative corporations organized under AS 10.15 for the purpose of buying fish.

(b) A fish processor, primary fish buyer, or cooperative corporation organized under AS 10.15 for the purpose of buying fish shall display in a prominent place on its business premises posters provided by the commissioner of labor under (a) of this section.

Sec. 16.10.269. Limitations. AS 16.10.265 and 16.10.267 do not apply to the purchase or sale of aquatic farm products from a holder of a permit issued under AS 16.40.100 or stock from a holder of a permit issued under AS 16.40.120.

Sec. 16.10.270. Purchase of fish by the pound. (a) A fish processor or primary fish buyer shall purchase raw fish by the pound. The poundage of the fish to be purchased shall be determined by weighing the fish unless both the buyer and seller agree in writing upon a sample weighing technique that will fairly determine the average weight of the fish purchased.

(b) A person who violates this section is guilty of a misdemeanor and upon conviction is punishable by imprisonment of not more than one year, or by a fine of not more than $5,000, or by both.

Sec. 16.10.275. Regulations. The commissioner may adopt regulations to carry out the provisions of AS 16.10.270 – 16.10.296.

Sec. 16.10.279. Price disputes between fishermen and fish processors. In an area where a price dispute exists between at least one-third of the registered commercial fishermen for that area, as estimated by the Department of Fish and Game on the basis of information available to the department, and fish processors on the price to be paid for salmon, and no agreement has been reached up to 120 days before the opening of the salmon fishing season in that area, a representative from the Department of Labor and Workforce Development shall intervene as mediator of the dispute upon request of either party.

Sec. 16.10.294. Administrative and judicial orders. (a) – (d) Repealed by Executive Order No. 85. (1993).

(e) If the commissioner determines that a fish processor or primary fish buyer is acting in violation of AS 16.10.270 – 16.10.280, the commissioner shall give written notice prohibiting further action by the person as a fish processor or primary fish buyer. The prohibition continues until the person has submitted evidence acceptable to the commissioner showing that the violation has been corrected.

(f) A person affected by an order issued under AS 16.10.265 – 16.10.296 may seek equitable relief preventing the commissioner from enforcing the order.
(g) In an action instituted in the superior court by the commissioner or a representative of the commissioner, a person acting in the capacity of a fish processor or primary fish buyer in violation of AS 16.10.265 – 16.10.296 may be enjoined from acting as a fish processor or primary fish buyer.

Sec 16.10.296. Definitions. In AS 16.10.265 – 16.10.296, unless the context otherwise requires,

(1) "commissioner" means the commissioner of labor and workforce development;

(2) "fish" means any species of aquatic finfish, invertebrates and amphibians, shellfish, or any other raw fishery resource, in any stage of its life cycle, found in or introduced into the state, and includes fish eggs except fish eggs sold for stock enhancement purposes;

(3) "fish processor" means a person engaging or attempting to engage in a business for which a license is required under AS 43.75;

(4) "primary fish buyer" means a person, other than a cooperative corporation organized under AS 10.15, engaging or attempting to engage in the business of originally purchasing or buying any fishery resource in intrastate, interstate, or foreign commerce.

Sec. 16.10.455. Cost recovery fisheries. (a) A hatchery permit holder may harvest salmon for a facility in

(1) a special harvest area through agents, or employees of or persons under contract with the permit holder as provided under a permit from the department or regulations of the Board of Fisheries; or

(2) a terminal harvest area through the common property fishery under this section.

(b) A hatchery permit holder may, by a majority vote of the membership of the hatchery permit holder's board, elect to harvest surplus salmon produced at a facility in a terminal harvest area established for that facility through the common property fishery. At the request of the hatchery permit holder and if the commissioner of fish and game determines that there are no allocative issues involved, and after reasonable consultation with affected commercial fishermen and the organizations of affected commercial fishermen, the commissioner may adopt regulations governing the harvest of surplus salmon in a terminal harvest area when the hatchery permit holder elects to harvest surplus salmon produced at a facility through a common property fishery. The regulations must specify the terms, conditions, and rules under which the common property fishery in the terminal harvest area shall be conducted, including requirements for hold inspections and reporting of harvests and sales of salmon taken in the terminal harvest area. Following adoption of regulations by the department, each year before March 10, the hatchery permit holder's board, by a majority vote of the board's membership, may determine whether the hatchery will operate under the regulations adopted under this subsection during the current calendar year, and shall notify the department if the hatchery intends to operate under the regulations adopted under this subsection. The Board of Fisheries may adopt regulations under AS 16.05.251 regarding a fisheries management plan governing operations under this subsection in a terminal harvest area, including allocation plans. Participation in the fishery must be open to all interim-use permit and entry permit holders who hold permits to operate a type of gear that may be used in the fishing district in which the terminal harvest area is located if that type of gear is authorized by regulation to be used in the terminal harvest area. An interim-use permit holder or an entry permit holder who takes salmon in a common property fishery in a terminal harvest area may sell the salmon to any fish buyer or processor who is licensed to do business in the state.
(c) As a condition of participation in a common property salmon fishery in a terminal harvest area under this section, a fisherman who participates in the fishery is subject to the payment of the assessment levied under (d) of this section. The assessment is levied on the value of salmon that the fisherman takes in the terminal harvest area and sells to a licensed buyer. The buyer of the salmon must be licensed under AS 43.75, and the buyer shall collect the assessment on salmon taken in a terminal harvest area at the time of purchase and remit the assessment to the Department of Revenue in accordance with regulations adopted by the Department of Revenue.

(d) The Department of Revenue may, by regulation, annually, by March 1 of each year, set the rate of the assessment levied on salmon taken in a terminal harvest area in consultation with the Department of Commerce, Community, and Economic Development, the hatchery permit holder, and representatives of affected commercial fishermen. The rate of the assessment shall provide sufficient revenue to cover debt service to the state, reasonable operating expenses, reasonable maintenance expenses, and development or maintenance of a reserve fund up to 100 percent of annual operating costs of the hatchery permit holder. In setting the rate of the assessment, the department shall consider the estimated return and harvest of salmon in the terminal harvest area, the projected price to be paid for salmon in the region, the amount of the existing reserve held by the hatchery permit holder, and the amount by which the assessment collected in previous years exceeded or fell short of the amount anticipated to be collected. The total rate of the assessment may not exceed 50 percent of the value of the salmon.

(e) The Department of Revenue shall deposit the assessments collected under this section in the general fund. The legislature may appropriate the funds collected under this section to the hatchery permit holder who operates a facility in the terminal harvest area in which the assessment was levied. A hatchery permit holder shall use funds appropriated under this subsection for the purposes set out under AS 16.10.450(a). The legislature may also appropriate funds collected under this section to the Department of Revenue for costs incurred by the department under this section.

(f) A person who violates a regulation adopted under (b) of this section is guilty of a violation under AS 16.05.722 or a misdemeanor under AS 16.05.723. A person who violates a regulation adopted by the Department of Revenue under (c) of this section is guilty of a class A misdemeanor.

(g) In this section,

1. "facility" means a hatchery or salmon rehabilitation project for which a permit is issued under AS 16.10.400 – 16.10.470;

2. "special harvest area" means an area designated by the commissioner or the Board of Fisheries where salmon returning to a hatchery may be harvested by the hatchery operators, and, in some situations, by the common property fishery;

3. "terminal harvest area" means a harvest area, which may include a hatchery release site, established by the commissioner or the Board of Fisheries where salmon returning to a hatchery may be harvested by the common property fishery;

4. "value" has the meaning given in AS 43.75.290.

Sec. 16.10.750. Findings and purpose. (a) The legislature finds that

1. the salmon fishing industry is among the state's largest industries and generates hundreds of millions of dollars and thousands of jobs each year; the salmon fishery is vitally
important to commercial, subsistence, personal use, and sport fishing interests, and to the state's developing tourist industry;

(2) the state is committed to maintaining and enhancing its wild stocks of salmon by careful management, by initiating a 20-year rebuilding program, and by investing in the fishing industry;

(3) millions of Alaska salmon are being caught and injured by high seas fisheries that intercept salmon contrary to state, federal, or international law; the high seas interception of Alaska salmon defeats the state's management and rebuilding programs, deprives the state of a return on its investment in the fishing industry, and detrimentally affects subsistence and sport fishing uses of Alaska salmon;

(4) vessels that engage in the high seas interception of salmon can move relatively freely and undetected from region to region in the North Pacific and thus are able to harvest whatever species is most readily available or most valuable; by moving farther westward, a greater proportion of the take is Asian salmon; moving eastward results in a greater proportion of the take being Alaska salmon; although there is intermixing of Asian and North American salmon stocks, scientific evidence proves that even a minimal harvest of salmon within the migratory range of each species will contain Alaska salmon;

(5) the illegal taking of salmon detrimentally affect the Alaska fishing industry; the illegal taking of Alaska salmon is of primary concern because of the direct and immediate effect on the state; in addition, the illegal taking of Asian salmon is also of concern because depletion of those stocks will ultimately result in a shifting of high seas fishing efforts, both legal and illegal, to Alaska salmon;

(6) high seas interception of salmon occurs beyond the exclusive economic zone of the United States, or through incursion within the exclusive economic zone and the state's territorial sea, by vessels that are usually not registered in this state; moreover, these vessels are not based in Alaska and can thus avoid detection more easily than Alaska-based vessels; as a practical matter, it is extremely difficult to directly or indirectly regulate the vessels themselves; it is therefore necessary to prohibit activities within the state that give aid, comfort, and financial incentives to high seas interception of salmon.

(b) The purpose of AS 16.10.750 – 16.10.800 is to prevent resources, facilities, and expertise within the state from being available to promote or facilitate the high seas interception of salmon or the making of intercepted salmon ready for or accessible to world markets.

Sec. 16.10.760. Trafficking in intercepted salmon. (a) A person commits the offense of trafficking in intercepted salmon if the person

(1) buys, sells, trades, processes, or possesses salmon, or attempts to buy, sell, trade, process, or possess salmon, with reckless disregard that the salmon has been, or will be, obtained by high seas interception;

(2) knowingly provides financing, premises, equipment, supplies, services, power, or fuel used to buy, sell, trade, process, or possess salmon that has been, or will be, obtained by high seas interception; or

(3) acts as a broker or middleman, or otherwise acts on behalf of another party, to arrange for or negotiate, or attempts to arrange for or negotiate, the purchase, sale, trade, processing, or possession of salmon, with reckless disregard that the salmon has been, or will be, obtained by high seas interception.
Sec. 16.10.770.  Falsification related to high seas interception of salmon.  (a) A person commits the offense of falsification related to high seas interception of salmon if the person creates, utters, or possesses a written instrument related to salmon, or makes an assertion for the purpose of having a written instrument related to salmon created, uttered, or accepted, with reckless disregard that the salmon was obtained by high seas interception and that the written instrument or assertion conveys misleading or untrue information about the ownership, possession, processing, origin, destination, route of shipping, type, condition, or time, place, and manner of the taking of the salmon.

(b) In this section

(1) "utter" has the meaning given in AS 11.46.580(b);

(2) "written instrument" has the meaning given in AS 11.46.580(b) and includes ships' logs and papers, bills of lading and sale, documents relating to processing, shipping, and customs, and information stamped on or affixed to cans, crates, containers, freight, or a means of storage or packaging.

(c) Falsification related to high seas interception of salmon is a class C felony.

Sec. 16.10.780.  Assisting a vessel in high seas interception of salmon.  (a) A person commits the offense of assisting a vessel in high seas interception of salmon if, knowing that a vessel is in possession of salmon obtained by high seas interception or that the owner or operator of the vessel intends to engage in the imminent interception of salmon, the person

(1) moves persons, cargo, or other property to or from the vessel;

(2) services or repairs the vessel or its equipment;

(3) provides the vessel with power, supplies, equipment, or fuel;

(4) provides the vessel with information, other than weather reports, capable of aiding the high seas interception of salmon or frustrating or avoiding detection, including communicating the movements, intentions, or activities of state or federal law enforcement officials or other fishing vessels; or

(5) is in charge of a docking facility, harbor, or anchorage, and permits the vessel to dock or anchor, or to remain docked or anchored.

(b) It is an affirmative defense, as defined in AS 11.81.900(b), to a violation of this section, if the person honestly and reasonably believed that the assistance provided to the vessel was necessary for humanitarian or environmental purposes or to prevent a significant loss of property.  An affirmative defense under this section may not be raised, unless the person provided immediate notice, by the quickest available means, to the United States Coast Guard or the Department of Public Safety indicating the type of assistance being provided and the circumstances requiring the assistance.

(c) In this section

(1) "environmental purpose" means the intent to prevent or minimize adverse ecological effects to water quality;

(2) "humanitarian purpose" means the intent to provide medical services for a sick or injured person, or to prevent the loss of human life;
"owner or operator of the vessel" means a person who

(A) has an ownership interest in the vessel;

(B) has authority to control or direct the vessel's activities; or

(C) physically operates a vessel or its equipment.

(d) Assisting a vessel in high seas interception of salmon is a class A misdemeanor.

Sec. 16.10.790. Fines. Notwithstanding the provisions of AS 12.55.035(b) and (c), a person convicted of an offense under AS 16.10.760 – 16.10.780 may be sentenced to pay a fine not exceeding the greater of

(1) $100,000;

(2) three times the pecuniary gain realized by the person as a result of the offense; or

(3) if the person is convicted under AS 16.10.760, two times the fair market value of the salmon involved or contemplated in the commission of the offense.

Sec. 16.10.800. Definitions. In AS 16.10.750 – 16.10.800

(1) "high seas interception," "interception," or a similar terms means the unauthorized catching, taking, or harvesting of salmon for other than sport, subsistence, or personal use purposes,

(A) throughout the migratory range of each species, by a vessel not registered under the laws of this state; or

(B) beyond the territorial sea of the state by a vessel registered under the laws of the state;

(2) "knowing" or "knowingly" has the meaning given for "knowingly" in AS 11.81.900(a);

(3) "process" means affecting the condition or location of salmon, including preparation, packaging, storage, refrigeration, or transportation;

(4) "reckless disregard" has the meaning given for "recklessly" in AS 11.81.900(a);

(5) "salmon" means Pacific salmon and steelhead, and parts of Pacific salmon and steelhead, whether mature or immature, processed or unprocessed; and

(6) "unauthorized" means contrary to a statute or regulation of the United States or the state, or to a treaty or international fishery agreement, or in violation of a foreign law.

Chapter 43. Regulation of Entry Into Alaska Commercial Fisheries.

Sec. 16.43.100. Duties and general powers. (a) To accomplish the purposes set out in AS 16.43.010, the commission shall

(1) regulate entry into the commercial fisheries for all fishery resources in the state;

(2) establish priorities for the application of the provisions of this chapter to the various commercial fisheries of the state;

(3) establish administrative areas suitable for regulating and controlling entry
into the commercial fisheries;

(4) establish, for all types of gear, the maximum number of entry permits for each administrative area;

(5) designate, when necessary to accomplish the purposes of this chapter, particular species for which separate interim-use permits or entry permits will be issued;

(6) establish qualifications for the issuance of entry permits;

(7) issue entry permits to qualified applicants;

(8) issue interim-use permits as provided in AS 16.43.210, 16.43.220, and 16.43.225;

(9) establish, for all types of gear, the optimum number of entry permits for each administrative area;

(10) administer the buy-back program provided for in AS 16.43.310 and 16.43.320 to reduce the number of outstanding entry permits to the optimum number of entry permits;

(11) provide for the transfer and reissuance of entry permits to qualified transferees;

(12) provide for the transfer and reissuance of entry permits for alternative types of legal gear, in a manner consistent with the purposes of this chapter;

(13) establish and administer the collection of the annual fees provided for in AS 16.43.160;

(14) administer the issuance of commercial fishing vessel licenses under AS 16.05.490;

(15) issue educational entry permits to applicants who qualify under the provisions of AS 16.43.340 – 16.43.390;

(16) establish reasonable user fees for services;

(17) issue landing permits under AS 16.05.675 and regulations adopted under that section;

(18) establish and collect annual fees for the issuance of landing permits that reasonably reflect the costs incurred in the administration and enforcement of provisions of law related to landing permits;

(19) establish a moratorium on entry into commercial fisheries as provided in AS 16.43.225; and

(20) repealed 12/30/2013;

(21) when requested by a regional development organization formed under AS 44.33.895, provide to the organization, without charge, public information contained in the commission's data with respect to relevant fisheries, including limited fisheries, fishery participants, and limited entry permit holder's harvests and earnings.

(b) The commission may do all things necessary to the exercise of its powers under this chapter, whether or not specifically designated in this chapter.

Sec. 16.43.110. Regulations and hearing procedures. (a) The commission may adopt regulations, consistent with law, necessary or proper in the exercise of its powers or for the performance of its duties under this chapter.
(b) The commission shall adopt regulations, consistent with due process of law, that govern practice and procedure and the conduct of all investigations, hearings, and proceedings which it holds.

(c) The Alaska Rules of Evidence apply to investigations, hearings, and proceedings before the commission, except when the commission determines that their application is not required in order to assure fair treatment of all parties and that the evidence is relevant and of the sort on which responsible persons are accustomed to rely in the conduct of serious matters.

(d) The commission, a commissioner, or an employee authorized by the commission may administer oaths, certify to all official acts, and issue subpoenas and other process to compel the attendance of witnesses and the production of testimony, records, papers, accounts, and documents in an inquiry, investigation, hearing, or proceeding before the commission in any part of the state. The commission may petition a court to enforce its subpoenas or other process.

(e) The commission shall adopt regulations to provide for the correction of administrative error.

Sec. 16.43.140. Permit required. (a) After January 1, 1974, a person may not operate gear in the commercial taking of fishery resources without a valid entry permit or a valid interim-use permit issued by the commission.

(b) A permit is not required of a crewman or other person assisting in the operation of a unit of gear engaged in the commercial taking of fishery resources as long as the holder of the entry permit or the interim-use permit for that particular unit of gear is at all times present and actively engaged in the operation of the gear.

(c) A person may hold more than one interim-use or entry permit issued or transferred under this chapter only for the following purposes:

(1) fishing more than one type of gear;

(2) fishing in more than one administrative area;

(3) harvesting particular species for which separate interim-use or entry permits are issued;

(4) if authorized by regulations of the commission, fishing an entire unit of gear in a fishery in which the commission has issued entry permits for less than a unit of gear under AS 16.43.270(d); under this paragraph, a person may not hold more than two entry permits for a fishery; however, the person may not

(A) fish more than one unit of gear in the fishery; or

(B) acquire a second entry permit for the fishery after the person has acquired an entry permit that authorizes the use of an entire unit of gear in the fishery;

(5) consolidation of the fishing fleet for a salmon fishery; however, a person may hold not more than two entry permits for a salmon fishery under this paragraph, but the person who holds two entry permits for a salmon fishery may not engage in fishing under the second entry permit.

Sec. 16.43.150. Terms and conditions of entry permit; annual renewal. (a) Except as may be otherwise provided under AS 16.43.270(d), an entry permit authorizes the permittee to operate a unit of gear within a specified fishery.
(b) The holder of an entry permit shall have the permit in possession at all times when engaged in the operation of gear for which it was issued.

(c) Each entry permit is issued for a term of one year and is renewable annually.

(d) Failure to renew an entry permit for a period of two years from the year of last renewal results in a forfeiture of the entry permit to the commission, except as waived by the commission for good cause. An entry permit may not be renewed until the fees for each preceding year during which the entry permit was not renewed are paid. However, failure to renew an entry permit in a year in which there is an administrative closure for the entire season for a specific fishery is good cause not to renew the entry permit. The commission shall waive the payment of fees for that year.

(e) An entry permit constitutes a use privilege that may be modified or revoked by the legislature without compensation.

(f) Except for permits that are not transferable under AS 16.43.170(e), an entry permit survives the death of the holder.

(g) Except as provided in AS 16.10.333 – 16.10.338, AS 44.81.215, 44.81.225, and 44.81.231 – 44.81.250, an entry permit may not be

(1) pledged, mortgaged, leased, or encumbered in any way;

(2) transferred with any retained right of repossession or foreclosure, or on any condition requiring a subsequent transfer; or

(3) attached, distrained, or sold on execution of judgment or under any other process or order of any court, except as provided in AS 16.43.170(g) and (h).

(h) Unless an entry permit holder has expressed a contrary intent in a will that is probated, the commission shall, upon the death of the permit holder, transfer the permanent permit by right of survivorship directly to the surviving spouse or, if no spouse survives, to a natural person designated by the permit holder on a form provided by the commission. If no spouse survives and if the person designated on the form, if any, does not survive, the permit passes as part of the permit holder's estate. A designation under this subsection must be acknowledged before a person authorized to administer an oath under AS 09.63.010 or must be witnessed by two persons who are qualified under AS 13.12.505 to witness the will of the permit holder. Except as provided in AS 16.10.333 – 16.10.337, AS 44.81.215, and 44.81.231 – 44.81.250, the permit is exempt from the claims of creditors of the estate.

(i) The holder of a transferable or nontransferable entry permit or of an interim-use permit may voluntarily relinquish the permit to the commission.

Sec. 16.43.225. Moratorium on new entrants into certain fisheries. (a) Subject to (b) of this section, the commission may establish a moratorium on new entrants into a fishery

(1) that has experienced recent increases in fishing effort that are beyond a low, sporadic level of effort;

(2) that has achieved a level of harvest that may be approaching or exceeding the maximum sustainable level for the fishery; and

(3) for which there is insufficient biological and resource management information necessary to promote the conservation and sustained yield management of the fishery.

(b) The commission may establish a moratorium on new entrants into a fishery described in (a) of this section if
(1) the commissioner of fish and game, subject to AS 16.05.251(g), petitions the
commission under AS 44.62.220 to establish a moratorium on new entrants into the fishery; and

(2) the commission finds that

(A) the fishery has reached a level of participation that may threaten the
conservation and the sustained yield management of the fishery resource and the economic
health and stability of commercial fishing; and

(B) the commission has insufficient information to conclude that the
establishment of a maximum number of entry permits under AS 16.43.240 would further
the purposes of this chapter.

(c) The commission may establish a moratorium under this section for a continuous
period of up to four years. A fishery that has been subject to a moratorium under this section
may not be subjected to a subsequent moratorium under this section unless five years have
elapsed since the previous moratorium expired.

(d) While a moratorium is in effect, the commission shall conduct investigations to
determine whether a maximum number of entry permits should be established under AS
16.43.240 by

(1) conducting research into conditions in the fishery;

(2) consulting with the Department of Fish and Game and the Board of Fisheries;

and

(3) consulting with participants in the fishery.

(e) The commission shall establish by regulation the qualifications for applicants
for an interim-use permit for a fishery subject to a moratorium under this section. The
qualifications must include the minimum requirements for past or present participation and
harvest of the fishery. The commission may not issue an interim-use permit for a fishery
subject to a moratorium under this section unless the applicant can satisfy the qualifications
established under this subsection and establish the present ability and intent to participate
actively in the fishery.

Sec. 16.43.950. Applications of regulations of Board of Fisheries. Nothing in this chapter
limits the powers of the Board of Fisheries, including the power to determine legal types
of gear and the power to establish size limitations or other uniform restrictions applying
to a certain type of gear. Holders of interim-use permits or entry permits issued under this
chapter are subject to all regulations adopted by the Board of Fisheries.
ATTENTION:

Steller sea lions west of Cape Suckling are designated as an endangered species under the federal Endangered Species Act. You may not:

- Discharge firearms at or within 100 yards of any Steller seal lion, with the exception that Alaska Natives may harvest sea lions for subsistence purposes.
- Approach within 3 nautical miles of any sea lion rookery west of 144° W. long., subject to certain exceptions.

Violations of laws protecting sea lions are subject to severe civil and criminal penalties including vessel forfeiture, fines of up to $25,000, and imprisonment for up to one year for each violation. For a comprehensive listing of pertinent regulations, call the National Marine Fisheries Service at (907) 586-7225. Specific closures are listed under the current version of the Code of Federal Regulations at 50 C.F.R. 679.22. Information containing charts and closures may also be obtained online at http://alaskafisheries.noaa.gov/maps/sslmapviewer.htm. Help yourself and Alaska’s sea lions.

Leave them alone.
