Substitute regulatory language for Proposal 250

5 AAC 06 is amended by adding a new section to read:

5 AAC 06.332. Stacked CFEC set gillnet permits; specifications and operations of set gillnet gear. (a) In the Ugashik and Egegik Districts, a CFEC permit holder who holds two Bristol Bay set gillnet permits may operate two legal limits of set gillnet gear under stacked permits only as follows:

- (1) the permit holder may not operate more than four set gillnets;
- (2) a single set gillnet may not exceed 50 fathoms in length;
- (3) the aggregate length of set gillnets operated by the permit holder may not exceed 100 fathoms;
- (4) the buoys must be marked as specified in 5 AAC 06.334 and 5 AAC 39.280 with both of the CFEC permit holder's five-digit permit numbers followed by the letter "S";
- (5) the permit holder may not set or operate a set gillnet seaward of any other set gillnet, including a set gillnet set or operated by that permit holder.

(b) In this section, "stacked permits" means the operation of two legal limits of set gillnet gear under two Bristol Bay CFEC set gillnet permits held by the same person. (Eff.
