Table 1.- South Unimak and Shumagin Islands combined June sockeye and chum salmon harvest, 1992-2012.

Year	Sockeye GHL ^a	Chum Cap	Sockeye Harvest	Chum Harvest
1992	2,391,000	700,000	2,457,856	426,203
1993	2,899,000	700,000	2,973,744	532,247
1994	3,586,000	700,000	1,461,263	582,165
1995	3,646,000	700,000	2,105,321	537,433
1996	3,130,000	700,000	1,028,970	359,820
1997	2,246,000	700,000	1,628,181	322,325
1998	1,865,000	350k-450k	1,288,725	245,619
1999	1,250,000	350k-450k	1,375,399	245,306
2000	2,013,000	350k-450k	1,251,228	239,357
2001 ^b			150,632	48,350
2002			591,106	378,817
2003			453,147	282,438
2004			1,348,073	482,309
2005			1,004,395	427,830
2006			932,291	299,827
2007			1,589,840	297,539
2008			1,713,575	410,932
2009			1,167,918	696,775
2010			818,865	271,700
2011			1,359,441	423,335
2012			1,528,018	392,305
Average				
1992-2000			1,730,076	387,831
2001-2003			398,295	236,535
2004-2012			1,273,602	411,395

^a The South Unimak and Shumagin Islands June sockeye salmon GHL was calculated as 8.3% of the forecasted Bristol Bay inshore sockeye salmon harvest.

^b The 8.3% allocation and the chum salmon cap were removed from the *South Unimak and Shumagin Islands June Salmon Management Plan*.
