

Submission to Alaska Board of Fish and ADF&G
Jan. 31 - Feb. 13, 2014 Meeting
Anchorage

Video Title: Fisheries Induced Genetic Selection

Link: http://youtu.be/ousioCKX_U4

Description: Evidence that fisheries management in support of trophy fishing for Kenai River Chinook likely is contributing to the decline of the Kenai River's Chinook populations

Length: 8.5 minutes

Citations: Full citations and links to all the source materials have been posted along with the video
