RE: Proposal 185 & 186

Dear Chairman Kluberton

Thank you for the opportunity to give testimony this morning.

I would like to oppose Proposals 185 and 186.

We have a site in this area and depend on this for our livelihood. It would be devastating to us and our community if you support this proposal.

Our family has been using this area for fishing and subsistence from the early 1900s and we would like to continue to be able to fish here.

Please oppose these proposals.
