

Moses Toyukak, Sr.
Manokotak, AK

Dear Mr. Chairman and members of ADF&G Board,

My name is Moses Toyukak Sr. I have been fishing for 56 years and still fishing. Growing up at Igushik I can remember a lot more fish out in the murky waters of our fishing area finning as they were on their way going up the river to spawn at Amanka Lake and Ualik Lake by the thousands. They would go up there to mill around and get ready to lay their eggs, although now a days I haven't see as much fish in our lakes. So I would like to support proposals 155, 22, 23, 24 and oppose 182 and 183. We have been hearing that our fish have been being intercepted below us, and we been provided by scientists to prove the interception. If science is proven right, we know for sure more fish would be coming back to our area. Thank you for your time.

Sincerely,

A handwritten signature in cursive script that reads "Moses Toyukak Sr.".

Moses Toyukak, Sr.
