

PROPOSAL 208 – 5 AAC 75.010 Possession of sport-caught fish. Establish bag limits by port of call, as follows:

1. One shall not retain any fish from a management area with a bag limit larger than that of Port of Call.

What is the issue you would like the board to address and why? Limits for bag and possession should be from the port of call. One should not be able to retain fish from a management area with a bag limit larger than that of the port of call.
