

PROPOSAL 217 - 5 AAC 28.410 Fishing seasons for Kodiak Area. Establish fishing season for walleye pollock that does not conflict with salmon season, as follows.

Change opening of Pollock season.

What is the issue you would like the board to address and why? Change the opening of the pollock season until the salmon season is over. Why: salmon can only be fished between June and October pollock can be fished year around and it would be easy to do this. All the canneries in Kodiak have stopped buying salmon as of August 31, 2015 and there are a large number of salmon still catchable.
