

Submitted by Garrett Kavanaugh RC 034

Prop 55 Amended Language

"REPEAL THE CAPE IGVAK MANAGEMENT PLAN AND IMPLEMENT A DAY FOR DAY EQUAL FISHING TIME WITH CHIGNIK"

This is not as outrageous as the original proposal and actually has more historical credibility.

Prop 56 Amended Language

"Reduce percentage of sockeye salmon considered BOUND FOR CHIGNIK from 90% to 80%"

This would return the Igvak management plan back to pre-2002 projections and in light of the 2016 initial genetic testing results could be more accurate
