

**PROPOSAL 131 – 5 AAC 21.200. Fishing districts, subdistricts, and sections.** Define commercial fishing statistical areas in the Upper Subdistrict set gillnet fishery, as follows:

New section in 5 AAC 21.200 and/or 5 AAC 21.330 would define the six ESSN statistical areas into regulation for more accurate and accountable reporting purposes.

**What is the issue you would like the board to address and why?** In 5 AAC 39.130 (c) (7) The first purchaser of raw fish is required to record on a fish ticket information for reporting ...the ADF&G statistical area, district, and subdistrict, and the nearest headland or bay in the which the fish were taken; In Cook Inlet, 5 AAC 21.355 requires ... a commercial salmon fisherman shall, at the time of the landing, report on an ADF&G fish ticket the number of salmon, by species, taken but not sold. Statistical areas that makeup the ESSN beaches are not specifically defined in regulation. General reporting regulations require the raw fish purchaser to report on the fish ticket a statistical area. Further, 5 AAC 21.310 (b) (2) (C) (iii) closes by emergency order after July 31st if the ADF&G determines a 1 % production/participation threshold and relies on the statistical areas reported. Some fishermen harvest in both the Kenai and Kasilof sections thus different statistical areas. There is no accountability or requirement in Cook Inlet for commercial fishermen to give an accurate statistical area for a percentage of their catch. In 2015, the Kasilof section was shut down earlier than the Kenai section for just a few hundred pounds. Sockeye goals had been exceeded in both the Kenai and Kasilof Rivers. The King BEG in the Kenai was assured. Statistical areas 244-31, 244 -32, 244-41 and 244-42 have coordinates listed in various sections. 244-21 and 244-22 describe the Clam Gulch road as the arbitrary division but it has no coordinates defined in regulation. Placing the actual ESSN statistical areas in 5 AAC 21.200 would clarify boundaries for management purposes and adherence to current reporting requirements on fish tickets. In Bristol Bay 5 AAC 06.370 (l) (1-7) statistical areas are used for registration areas. A management tool to allow for surgical openings to align fishing opportunity with abundance.

**PROPOSED BY:** Paul Shadura, spokesperson for South K-Beach Independent Fishermen’s Association (SOKI) (EF-F16-161)
