

**PROPOSAL 61 - 5 AAC 18.366. Spiridon Bay Sockeye Salmon Management Plan.** Amend the *Spiridon Bay Sockeye Salmon Management Plan* to reflect cost recovery activities conducted by Kodiak Regional Aquaculture Association, as follows:

(b) The purpose of the Spiridon Bay harvest strategy is to allow the orderly harvest of sockeye salmon returning to Telrod Cove from the Spiridon Laske enhancement project while providing adequate protection for local natural salmon stocks returning to other streams in the bay. The intent of the enhancement project is for the harvest of returning enhanced salmon to occur in traditional commercial fishing areas of the Northwest Kodiak District during openings directed a harvesting Karluk sockeye and westside pink and chum salmon stocks. **Throughout the season, fishing time in Telrod Cove may be restricted in order to meet cost recovery goals for enhanced sockeye salmon.**

**What is the issue you would like the board to address and why?** Current language in published regulations for harvest of enhanced salmon in Spiridon Bay and Spiridon Bay Special Harvest Area (SBSHA) is not consistent with language for the management of enhanced stocks in the Kitoi Bay Special Harvest Area. This proposal seeks to amend regulatory language to reflect cost recovery activities conducted by the Kodiak Regional Aquaculture Association within the SBSHA.

**PROPOSED BY:** Kodiak Regional Aquaculture Association (HQ-F16-066)
