

This is Franklin John I am from batzulnetas
area

I oppose Proposal 10:

I support the emergency order to open
the Batzulnetas subsistence fishery after
consideration has been given to the ability to
meet escapement goals

also, emergency order must include considerations
for federal subsistence fisheries too

Keep current system for emergency order
for Batzulnetas fisheries.

if anilea goes away, this will take away
emergency order process, keep this regulation
in place

Thank you
Franklin John
