

RC 044

**RC**

**Regarding RC 35 to Proposal 32  
Submitted by CDFU**

This RC is a violation of public process. It is a serious modification, which in essence is another proposal in itself, that has not received timely notice or review from the stakeholders of this body, the regional AC's, or the board. This RC should have been a proposal submitted prior to the deadline for this meeting in order to receive public comment in advance.
