

December 5, 2017

Dear Alaska Board of Fisheries,

Proposal 46 Reconsideration.

On November 14, 2017, December 1, 2017, and December 2, 2017 we provided comment on Prince William Sound Finfish Proposal 46.

We understand the Board has a 24-hour period to reconsider its decision on a Proposal. We request the Board reconsider and amend its decision on Proposal 46.

We are concerned that Proposal 46 was determined without setting GPS coordinates for the proposed Main Bay Subdistrict Line change. This decision leaves substantial uncertainty about the location of the Main Bay Sub District line location on the south side of the bay and may inadvertently place our first place on the line in jeopardy.

We understand the intent of the Board's decision was to keep the Harvey's lease #1 in line, and put the Flemings lease #2 in line. We request the Board reconsider and amend its decision on Proposal 46 to memorialize that intent, and provide specific instruction to ADF&G to ensure Susan Harvey's ADL 221686 lease remains first in line when the GPS coordinates are set.

Absent specific coordinates in the Board decision, we are concerned future (yet-to-be-determined) Main Bay Subdistrict Line coordinates may inadvertently exclude Susan's lease tract at the rockpile location from being first in line on the South Side of Main Bay. Susan's lease site (first in line) is a very valuable site, we would appreciate this clarification.

We request the Board Reconsider Proposal 46 to add the following:

The Board instructs ADF&G to revise the Main Bay Subdistrict Line and set GPS coordinates in a manner that preserves Susan Harvey's lease (ADL 221686) Tracts A (North Side of Main Bay) and Tract B (South Side of Main Bay) as first in line on both sides of the Bay.

We believe this is an important amendment that needs reconsideration. Thank you for considering our comments.
