

RC057

My name is Robert Odmark
I am a gill netter I live in
Ketchikan and fish in district 1
I strongly oppose proposal 145
Seiners traded away Nakat
for around 20 million extra fry
in Kendrick Bay now they want
to keep the extra fish in Kendrick
Bay and get back into Nakat we
are already having to deal with
the increased seine effort to catch
our fish on the Canadian side of the
border. Our little bit of fish won't
bring the Seiner's back into there
range. We were in poverty now
we have struggled into the middle
class this proposal will push us back
into poverty
