

Matt Kinney Sitka Petition. Testimony #109

Sitka Community Members,

Board of Fisheries meetings will be held starting on the 14th of January to discuss a number of regulation changes regarding Southeast Alaska Finfish. Among those changes brought before the board are proposals to downsize, and or shut down our local herring sac roe fishery. As we all know the herring fishery is the first financial breath of fresh air in the spring and a huge boost to both small business and the large businesses in this town. Everyone from local restaurant owners and employees, cannery workers, truck drivers and shippers, gas station operators, bartenders and bar owners, hotel and B&B operators, and a number of other goods and services providers will be affected to a detrimental level by the loss of this influx of money and industry. I will be testifying on behalf of the town and supporting the scrutiny and attention to detail in data collection and the record provided by the Sitka branch of the Alaska Department of Fish and Game in their continuous effort to manage a fluctuating resource. What I'm asking is for a signature of members of the community that will be affected by the downsizing of the fleet or complete absence of work that will inevitably come if not stood up for.

Thank you for your support, I urge anyone who has stake in this decision to come to the public hearing held from January 14, to January 23rd to support and take action to preserve the harvest of a resource that supports this community.

I am opposed by reduction in the Sitka Herring Roe Fishery since that would adversely affect the community, me personally, or my business.
