in re: RC 266

RC 304

I support the ATA position.

Additionally I recommend that the April 15-
June 14 single, unbaited hook restriction be ex-
tended the length of the Chilkat chinook migration
corridor, i.e., Icy Strait and Cross Sound.

To protect Unuk river Chinook in sport
regulations extend single unbaited hook requirement
to all times and areas closed to trollings MAR. 15
through June 30.
