Hello !

I am Ron Cunningham owner operator of F/V Juanita C F.A.S Troller I've been a Commercial fisherman for 44 years , in my opinion having the king salmon opener moved to 8 July causes many problems such as... a Freezer boat does not have enough time to do a full trip!! Why are we not thinking about maybe 15 July or later where the ice fishermen and Freezer boats all have ample time to get their trips in and off loaded, also fish get bigger every day I see no reason why we can't do this .. the other issue I have is we should never give up our high abundance king areas due to the fact that we already know by history we never get them back once they get taken away , proven by history !! One other issue to keep in mind is by not having the King opening on July 1 as usual you are sending a fleet out and everybody will know where the Kings are and they will be dog piled on top of themselves !!

That's a BIG ISSUE, please help our industry ☑

Thank you
