I'm a power troller from Juneau.

July 8 start for king salmon is NOT a good idea for a couple reasons.

1. Coho opening before the king open will result in thousands of kings being shook and killed.
2. Kings headed for the rivers are not on the coast July 1.
3. Trollers income is already being cut by not being able to fish in the late winter and spring. July 1-8 is typically very productive coho harvest time, so having a closures during this time to restart the king season will financially effect every troller.

Please keep the July 1 king and coho opening.

Sincerely,

Tracy Rivera
