

- STOCKS of CONCERN - RC 414
All related to SAAC 222 Policy for

management of sustainable salmon fisheries

I believe the policy isn't being followed in relationship to the Chilkat + King Salmon rivers (STOCKS OF CONCERN). This major

northern SEAK corridor also allows the migration of TAKU RIVER KING (a depressed stock).

There are 4 villages that fish Section 14A, 14B, 14C. with many charter lodges (CROSS SOUND / ICY STRAITS)

This needs to be addressed in Action Plan

SINCERLY John Murray

(D) an understanding of the proportion of mortality inflicted on each salmon stock by each user group, should be promoted, and the burden of conservation should be allocated across user groups in a manner consistent with applicable state and federal statutes, including AS 16.05.251 (e) and AS 16.05.258; in the absence of a regulatory management plan that otherwise allocates or restricts harvests, and when it is necessary to restrict fisheries on salmon stocks where there are known conservation problems, the burden of conservation shall be shared among all fisheries in close proportion to each fisheries' respective use, consistent with state and federal law;

(E) the board will work with the commissioner and other agencies as necessary to assure that adequately funded public information and education programs provide timely materials on salmon conservation, including habitat requirements, threats to
