PROPOSAL 131

5 AAC 09.360. Southeast District Mainland Salmon Management Plan.
Increase the Southeast District Mainland allocation of Chignik River-origin sockeye salmon from 7.6% to 10%, as follows:

The percentage of sockeye salmon destined for the Chignik River that are harvested in the SEDM fishery may be permitted to fluctuate above or below 10% [7.6%] of sockeye salmon harvest in the Chignik area at any time before July 25.

What is the issue you would like the board to address and why? Lost fishing time and opportunities in the Southeast District Mainland (SEDM) fishery. The SEDM has a 7.6% allocation at 80% while Kodiak has a 15% allocation based on a 90% catch of Chignik bound salmon.

PROPOSED BY: Sand Point Fish and Game Advisory Committee (HQ-F18-073)
