

PROPOSAL 140

5 AAC 09.365. South Unimak and Shumagin Islands June Salmon Management Plan.

Include the area from Cape Tolstoi to McGinty Point in the area open to commercial fishing for salmon under the *South Unimak and Shumagin Islands June Salmon Management Plan*, as follows:

5 AAC 09.365(c) The Shumagin Islands June fishery takes place in the Shumagin Islands Section and the area from Cape Tolstoi to McGinty Point.

What is the issue you would like the board to address and why? Areas in the south peninsula June fishery that are closed for no reason, causing loss of fishing opportunities.

PROPOSED BY: Sand Point Fish and Game Advisory Committee (HQ-F18-071)
