PROPOSAL 157

5 AAC 09.331. Gillnet specifications and operations.
Allow two legal limits of set gillnet gear to be transported by a single vessel as long as both limited entry permit holders owning the gear are onboard the vessel, as follows:

5 AAC 39.240 (F) A set gillnet salmon fishing vessel in the Alaska Peninsula Area can operate, or assist in operating, or have aboard it or any vessel towed by it, the legal limit of salmon fishing gear for two CFEC permit holders 4 nets, 100 fathoms each of gear as long as both CFEC permit holders are on board the vessel.

What is the issue you would like the board to address and why? Alaska Peninsula set gillnet fishing vessels are not allowed to fish combine on one vessel with two set net CFEC permit holders with their 400 fathoms of legal gear (4 nets). The Alaska Peninsula area has very rough dangerous waters and weather at times and some set gillnet net permit holders in the area only have a small vessel such as a skiff to fish off of which can lead to injury/death or not being able to fish the opener at all resulting in a loss in season profits or crew due to injury. Not all set gillnet vessels can make it to the fishing grounds safely due to vessel size and weather conditions which fishing in combine with larger vessels will benefit both parties.
