PROPOSAL 112
5 AAC 21.359. Kenai River Late-Run King Salmon Management Plan.
Remove gear restrictions in the Upper Subdistrict commercial set gillnet fishery when the use of bait is prohibited in the sport fishery, as follows:

5 AAC 21.359 (e) (3) (A)
(i) DELETE
(ii) DELETE
(iii) DELETE

What is the issue you would like the board to address and why? The current restriction to set net gear have not been used and are unproven. When openings are warranted all setnet gear is needed to harvest a limited opening. A reduction of 3.5 feet of linear gear does little to conserve king salmon when they are present.
