

PROPOSAL 168

5 AAC 57.120. General provisions for seasons, bag, possession, annual, and size limits, and methods and means for the Kenai River Drainage Area; and 5 AAC 77.540. Upper Cook Inlet Personal Use Salmon Fishery Management Plan.

Prohibit motorized vessels on the Kenai River, as follows:

Make the Kenai River drift only.

What is the issue you would like the board to address and why? The Kenai River is a park. Kings are gone. Guides ferry dipnetters up and down the river. Erosion pollution habitat degradation. King salmon spawning areas are severely impacted. Zero net loss of habitat. Dr. White, 1997? Nothing done since then.
