

From Central Peninsula Advisory Committee

Proposal 226 - Amended wording

The amended wording deletes the last sentence: "No snagging is allowed."

After discussions with enforcement it was determined that having the wording "No snagging is allowed." would be hard to enforce. Therefore we are dropping that sentence.

The amended wording would read:

The Little Susitna River coho fishery, below the weir, is restricted to catch and keep, up to the daily bag limit. Coho salmon shall not be released no matter where they are hooked. When the bag limit is caught the angler cannot continue to fish in the Little Susitna River for the remainder of the day.
