

SOUTHEAST HERRING CONSERVATION ALLIANCE

Sitka, Alaska 99835
Tel. No. 907-738-3509

Board of Fisheries Finfish Meeting
March 10 – 22, 2022
Anchorage, Alaska

Dear Chair Carson-Van Dort and Board of Fish Members:

Support for ADF&G Sitka Sound Herring Management and Opposition to proposals 156, 157, & 158

We the undersigned are in strong support of the Alaska Department of Fish and Game's sustainable herring management plan and its rigorous scientific approach to the Sitka Sound herring stock assessment program. Under ADF&G's stewardship, the herring population has recovered from a minor stock in the 1970's to one of the State's largest herring populations today. The Sitka Sound herring population is a testament to ADF&G professionals who are executing their Alaska constitutional mandate to manage the herring resource on the maximum sustained yield principle while also allowing for reasonable subsistence opportunities.

Additionally, we oppose proposals 156, 157, & 158 which would be detrimental to the herring fishery and no demonstrable benefit to the health of the herring stock.
