

Substitute language for proposal 227:

5 AAC 47.020 General provisions for seasons and bag, possession, annual, and size limits for the saltwater fo the Southeast Alaska Area.

(X) Demersal Shelf Rockfish: may be taken Jan 1- December 31, as follows:

(X) resident: bag limit of one Demersal Shelf Rockfish excluding yelloweye; possession limit of two fish; no annual limit; no size limit.

(X) nonresident: no retention of Demersal Shelf Rockfish

Rationale:

If proposal 226 was adopted for a bag limit of slope rockfish, this RC would apply to Demersal Shelf Rockfish
