

---

Please make the following an RC on behalf of the Klawock AC:

Board members,

After speaking with the SE regional subsistence advisory council representative the Klawock AC requests to modify prop 129 with the significant changes.

-Start date of Sept. 1

-Annual limit of 80

-No fishing above the Klawock bridge.

I cannot officially say the Klawock AC would be in support of these changes without a meeting/vote but I believe they would also support these changes due to the concerns from other stakeholders and other the other AC's.

Thank you.

Kurt Whitehead  
Vice Chair Klawock AC
