

Chairman Nelson and Board of Fisheries:

I don't support increasing the 60 pot limit.

I'm fine with the 72 hour transition from Federal to State waters.

If the Board is strongly considering a pot increase I would ask the Board to split the difference of 60 and 90 and land at 70-75 pots as a measure of compromise.

This is similar to what Captain Josh Trosvig of Cerulean commented, who recognizes and reasons that 90 pots is too much, and his number is 80.

Thank you for the opportunity to share my views.
