Comment:

Proposal 63 I support with amendment.

I would like to see permit stacking again, with a sunset clause. I believe stacking helps participants in hard times, weak runs, and or low x vessel value.

I don't want to see drastic changes to the fishery, but I would like set net fishing to be some what viable for those that are struggling to hold on to a traditional fishery, that has seen a drastic decline in harvest and price.

I believe it worked well before and with a sunset clause it will go away in a board cycle or two automatically, just like before.

Thank you,

Kevin Fisher
