

Re: Proposal 62 as amended by RC 49

The 24-hour head start for Setnetters DOES NOT TAKE AWAY FROM SEINERS

Seiners can harvest fish traveling into the Central Section from sections beyond the Central Section

Seiners still get their full length opener

Setnetters get 24-hour head start before the seine fleet blocks fish traveling into the bays by making sets side by side in a line 2-5 seines off the capes stretching up to a 1 mile offshore.
