Tad Fujioka
Proposals 257, 258 & 259

1

2

From RC 178:
5 AAC 47.055 Southeast Alaska King Salmon
Management Plan

- (b) The objectives of the management plan under this section are to
- (1) manage the sport fishery to attain an average harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
 - (2) allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the sport fishery harvest ceiling;
 - (3) minimize regulatory restrictions on resident anglers; and

3

Staff-altered version that became regulation:
5 AAC 47.055 Southeast Alaska King Salmon
Management Plan

- (b) The objectives of the management plan under this section are to
- (1) manage the sport fishery to attain an average harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
 - (2) allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the [SPORT FISHERY] harvest ceiling;
 - (3) minimize regulatory restrictions on resident anglers; and

4

From PC 219 by Ron Somerville on behalf of Territorial Sportsmen Inc:

"No one proposed that in-season restrictions would not apply to non-residents. Had that been clearly enunciated at that meeting we would never have signed the agreement. To have left the guided fishery unregulated would have been insane."

"...no one ever indicated that the sport fishing quota would be exceeded and the trolling industry would absorb the over- harvesting by the non-resident sport fishermen. We would have never agreed to that interpretation."

5

Sitka AC most important amendments to P257: 5 AAC 47.055 Southeast Alaska King Salmon Management Plan

(b) The objectives of the management plan under this section are to
...(2) allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the **sport fishery** harvest ceiling;...

...c) d) e) f) g) h) When the allocation of king salmon to the sport fishery, as determined by 5 AAC 29.060, is XXXXX [SOUTHEAST ALASKA WINTER TROLL FISHERY CPUE IS ..., WHICH IS EQUIVALENT TO A KING SALMON ABUNDANCE INDEX GREATER THAN ..., THE SPORT FISHERY HARVEST LIMIT WILL BE XXXX TREATY KING SALMON, AND] **the sport fishery harvest limit will be equal to the sport fishery allocation, and**

6

From RC 178:
5 AAC 47.055 Southeast Alaska King Salmon
Management Plan

- (b) The objectives of the management plan under this section are to
- (1) manage the sport fishery to attain an average harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
 - (2) allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the sport fishery harvest ceiling;
 - (3) minimize regulatory restrictions on resident anglers; and

7

From RC 178:
5 AAC 47.055 Southeast Alaska King Salmon
Management Plan

- (b) The objectives of the management plan under this section are to
- ...(5) any projected unused balance in sport allocation may transfer to the troll fishery at a date determined by the department [PROVIDE STABILITY TO THE SPORT FISHERY BY ELIMINATING INSEASON REGULATORY CHANGES, EXCEPT THOSE NECESSARY FOR CONSERVATION PURPOSES].

8

Sitka AC 2nd amendment to P257: 5 AAC 47.055 Southeast Alaska King Salmon Management Plan

- (b) The objectives of the management plan under this section are to
- (1) manage the sport fishery to attain an average harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
 - (2) **Use proactive in-season management of nonresident anglers to** allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the **sport fishery** harvest ceiling;
 - (3) Minimize regulatory restrictions on resident anglers; and ...

9

Sitka AC 3rd amendment to P257: 5 AAC 47.055 Southeast Alaska King Salmon Management Plan

Alternatively- define as 5-yr
rolling average

- (b) The objectives of the management plan under this section are to
- (1) manage the sport fishery to attain a[N AVERAGE] harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
 - (2) **Use proactive in-season management of nonresident anglers to** allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the **sport fishery** harvest ceiling;...

10

Sitka AC 4th amendment to P257: 5 AAC 47.055 Southeast Alaska King Salmon Management Plan

- (b) The objectives of the management plan under this section are to
 - (5) any projected unused balance in sport allocation may transfer to the troll fishery at a date determined by the department
 - (6) any projected unused balance in troll allocation may transfer to the sport fishery at a date determined by the department**

11

Sitka AC most important amendments to P257: 5 AAC 47.055 Southeast Alaska King Salmon Management Plan

- (b) The objectives of the management plan under this section are to
 - ...(2) allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the **sport fishery** harvest ceiling;...
 - *****
 - ...c) d) e) f) g) h) When the allocation of king salmon to the sport fishery, as determined by 5 AAC 29.060, is XXXXX [SOUTHEAST ALASKA WINTER TROLL FISHERY CPUE IS EQUAL TO OR GREATER THAN 20.5, WHICH IS EQUIVALENT TO A KING SALMON ABUNDANCE INDEX GREATER THAN 2.2, THE SPORT FISHERY HARVEST LIMIT WILL BE 69,000 TREATY KING SALMON, AND] **the sport fishery harvest limit will be equal to the sport fishery allocation, and**

12

All of Sitka AC amendments to P257:
5 AAC 47.055 Southeast Alaska King Salmon Management Plan

(b) The objectives of the management plan under this section are to

- (1) manage the sport fishery to attain a[N AVERAGE] harvest of 20 percent of the annual harvest ceiling specified by the Pacific Salmon Commission, after the subtraction of the commercial net allocation specified in 5 AAC 29.060 from the harvest ceiling;
- (2) **Use proactive in-season management of nonresident anglers to** allow uninterrupted sport fishing in salt waters for king salmon, while not exceeding the **sport fishery** harvest ceiling;...
